

**City of Phoenix
Clinical Programs in Place**

1. The clinical programs for the City of Phoenix are as follows:

- A. Non-Essential Drug Program (\$0 fee): This program targets high cost, low value meds like Vimovo and Duexis.
- B. Prior Authorization (\$0 fee)
- C. Quantity Limit (\$0 fee)
- D. Base Opioid Pain Program (\$0 fee):
 - i. Requires a prior authorization for prescription opioids with a day supply greater than seven days for opioid naive patients.
 - ii. Requires a prior authorization for daily dosage of opioids greater than 200mg Morphine Milligram Equivalents (MME).
 - iii. Requires the use of immediate-release formulations of opioids before extended-release opioids are dispensed.
 - iv. Expanded drug utilization review, at point of sale, for opioid and benzodiazepine combinations and for opioid dependence treatment compliance.
