DESIGN AND CONSTRUCTION PROCUREMENT

*****END OF NOTIFICATION*****

Project Description

The contractor shall be available to provide emergency response immediately 24 hours a day, 7 days a week, and is required to report to the designated location within one and one-half (1½) hours from notification of the emergency. Services will be related to the repair and or replacement for emergency and priority repairs in the wastewater collection system. Repairs will vary in scope and size including, but not limited to the repair of manholes, gravity sewer mains, lift stations, force mains, and other wastewater collection system infrastructure.

Scope of Work / Services

- Respond to designated location within 1 ½ hours of initial notification.
- Repair and or replace 8-inch diameter to 90-inch diameter gravity sewer mains and force mains.
- Repair and or replace manholes, vaults.
- Lift station repairs including the force main, mechanical/electrical equipment, and structures.
- Emergency repair at odor control stations.
- Provide odor control as needed when working at job sites.

Scope of Work / Services

- Provide traffic control, including off-duty police officers.
- Shoring trenches in accordance with all applicable occupational safety regulations.
- Backfill and provide temporary and or permanent pavement replacement.
- Bypass pumping.
- Confined space entry.
- Clean up and restoration of job sites.

Scope of Work / Services

- Permitting and permissions (Traffic Control, ROW, Access)
- Documentation (As-builts, Shop Drawings, Photos, CCTV)
- Work with CA&I to assess emergency situation and develop repair solution.
- Provide cost estimates for emergency repairs.
- Develop project schedules.
- Other work as necessary to maintain operations and facilities.
