# REQUEST FOR QUALIFICATIONS

The City of Phoenix is seeking qualified contractors to do business on an on-call basis to provide Job Order Contracting Services for the installation, rehabilitation, or relocation of water transmission mains citywide, and structures in the waterline right-of-way and other critical assets. Up to two contractors may be selected for this Job Order Contract (JOC) based on the City's workload.

A Small Business Enterprise goal of 5% has been established for this project.

## **SECTION I – PROJECT DESCRIPTION**

At a minimum, the Contractor will be expected to successfully perform the following construction services, including, but not limited to:

- Install water mains ranging in size from 8" to 48"
- Relocate waterlines and sewer lines along light rail extensions
- Relocate water lines in conjunction with other city departments or outside agency projects
- Facilitate the assessment of medium and large diameter water mains, 16" to 45"
- Rehabilitate and replace Water Services Department owned structures in water pipeline right-of-way, including storm drains, flow control structures, and other critical assets
- Removal & replacement of concrete, asphalt, landscaping, as needed, to complete new main work and abandon existing mains
- All other work as it relates to this JOC

This will be for a five-year contract or \$28 million per JOC, whichever occurs first. The City intends that each Job Order Agreement (JOA) issued under this JOC will not exceed \$2 million in construction costs, but in no event will any JOA exceed \$4 million subsequent to Council approval of the change in limits.

The Contractor is required to provide performance and payment bonds for the amount of each Job Order proposal prior to executing the Agreement.

During the term of the JOC, work is performed as a series of individual Job Orders. Each Job Order Agreement, initiated by the City, is defined cooperatively by the City and the Contractor. A scope, schedule, and price are agreed upon, and the Contractor is directed to proceed with the work. JOAs may include pre-construction services, construction work, project management and contract administration as comprised within the Contractor's construction management plan.

## **SECTION II – SCOPE OF WORK**

The scope of work will vary with each JOA. Minor design services may be required for some JOAs, however, most will be designed through consultants under a separate contract with the City. City staff may design some projects.

For JOAs that may require design services, the Contractor shall seek the services of an Arizona registered professional architect and/or engineer to prepare plans for permitting. It is the responsibility of the Contractor to provide cost estimating, project scheduling for design, construction and/or maintenance, and obtain permits if needed from the appropriate City departments. The Contractor is also responsible for:

- Knowledge of and compliance with current City of Phoenix adopted codes
- All other work as it relates to this JOC, and
- All work incidental to this JOC

Prior to preparing each Job Order Agreement, a scope of work conference may be scheduled to define design and construction services required of the Contractor.

The City of Phoenix will provide construction administration, inspection, and acceptance material testing for the JOAs.

Assumptions about JOAs:

- All sites will be in the State of Arizona.
- The Contractor will furnish all necessary tools and test equipment required for the performance of its work in accordance with the scope of work.
- All customer-provided documentation is obtained within a reasonable time at project start.
- All customer-required approvals are provided within a reasonable and mutually agreed upon time frame.
- Any work required at each site outside of this scope of work will be performed in accordance with the adjustment process.
- **Each JOA Schedule of Values must be submitted in MAG or CSI format or it will not be accepted.**

Use of UNIFIER, an Application Service Provider (ASP) web-based project management database, may be required during this JOC. The following information provides a guideline for utilization. Any questions related to the requirements of UNIFIER should be directed to the Project Manager.

- The Contractor will be required to maintain all project records in electronic format.
- The City provides an ASP web-based project management database which the Contractor will be required to utilize in the fulfillment of the JOC requirements.
- The Contractor shall provide a computerized networked office platform with broadband internet connectivity.
- UNIFIER training will be provided through the City of Phoenix to firms under this JOC.

## **SECTION V – SBE REQUIREMENTS**

This JOC will be subject to the City of Phoenix Code, Chapter 18, Article VI, pertaining to participation of Small Business Enterprise (SBE) firms in subcontracting opportunities on the Project. Firms that have been certified by the City of Phoenix Equal Opportunity Department are eligible to meet the SBE subcontracting goals.

A SBE utilization goal for this JOC has been established. The goal is based on the City's evaluation of the availability of certified SBE firms in all subcontracting trade areas where work will be performed. Firms should strongly consider how entering into project team or subcontract arrangements will impact their ability to meet the utilization goal.

The JOC Contractor is required to make good faith efforts to utilize certified SBE firms to achieve this goal on each Job Order Agreement and shall provide good faith effort to meet the annual goal during each year of the contract and overall over the term of the contract.

SBE goals must be met or a waiver requested in order to perform a job order under the JOC. For further information, contact the Equal Opportunity Department at 602-534-1279.

Failure to meet the required annual goal without sufficient demonstration of good faith efforts shall be deemed as a breach of the SBE provisions of this Job Order Contract.

The Contractor agrees that if the Equal Opportunity Department determines that the contractor will fail, or has failed, to meet the SBE subcontracting goals, and / or has failed to act in good faith to ensure compliance with the SBE Program Requirements, it will deem the contractor "non-compliant" and not in good standing with this City contract.
