PROJECT NUMBER

NOTIFICATION LETTER NO. 1

NOVEMBER 20, 2023

This notification letter shall become part of the Request for Qualifications for the above referenced project.

Q1.	Manned entry required on 10% of manholes and in chamber that digital is deemed inadequate. What/who decides what is adequate or not?
A1.	Consultant will determine per NASSCO standards if digital technology does not allow a satisfactory examination (such as too dark, or restrictive for equipment) Consultant will select at least 10% manned entry per RFQ "Manned entry inspection will be required for at least 10% of the manholes/structures."
Q2.	What are considered high flows and high velocities?
A2.	Flow will vary in each segment. The selected consultant will get flow data from the City.
Q3.	What is the expected water level in the pipes?
A3.	Water level will vary in each segment. The selected consultant will get flow data from the City.

All other terms and conditions remain unchanged.
