SROG SALT RIVER OUTFALL CONDITION ASSESSMENT
ENGINEERING SERVICES

NOTIFICATION LETTER NO. 2
DECEMBER 1, 2023

This notification letter shall become part of the Request for Qualifications for the above referenced project.

Section I – Project Description, paragraph two, delete in its entirety and replace with following:

The SRO ranges in diameter from 54 inches to 90 inches and is approximately 23 miles in length. It has approximately 4.5 miles of PVC-lined reinforced concrete pipe, 0.4 miles of Hobas (fiberglass) pipe, and the remainder of the interceptor has been rehabbed with CIPP liner. In addition, the SRO traverses an active airfield at Phoenix Sky Harbor International Airport. The last condition assessment of the of the SRO was completed in October 2014.

2014 Assessment Report
