Subject: Phase I Environmental Site Assessment
Central and Columbus Site
Northeast Corner of North Central and East Columbus Avenue
Phoenix, Arizona 85012
Partner Project No. 23-478768
City of Phoenix Project No.: ADEQ-24-CTR47001-07

Partner Engineering and Science, Inc. (Partner) is pleased to provide this *Phase I Environmental Site Assessment* (Phase I ESA) report of the abovementioned address (the "subject property"). This assessment was performed in conformance with the scope and limitations as detailed in the ASTM Practice E1527-13 and E1527-21 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process and Client Agreement.

This assessment included a site reconnaissance as well as research and interviews with representatives of the public, property ownership, site manager, and regulatory agencies. An assessment was made, conclusions stated, and recommendations outlined.

We appreciate your trust in Partner and the opportunity to provide environmental services to you. If you have any questions concerning this report, or if we can assist you in any other matter, please contact me at (602) 618-5664.

Sincerely,

Betsy Miller
Technical Director of Government Services-Southwest

EXECUTIVE SUMMARY

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in accordance with the scope of work and limitations of ASTM Standard Practice E1527-13 and E1527-21, the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) and set forth by Arizona Department of Environmental Quality (ADEQ) for the property located at Northeast Corner of North Central and East Columbus Avenue in Phoenix, Maricopa County, Arizona (the "subject property"). The Phase I Environmental Site Assessment is designed to provide ADEQ with an assessment concerning environmental conditions (limited to those issues identified in the report) as they exist at the subject property.

The ADEQ, under the Arizona Brownfields Environmental Site Assessment (ABESA) grant, authorized this Phase I ESA for **FY24 3S07 City of Phoenix - Central & Columbus Phase I (Site Code: 514162-00)**. Work was conducted under Task Order ADEQ23-CTR047001-05. The ADEQ Purchase Order Number for this project is 731755-1.

Property Description

The subject property is located on the east of Central Avenue between East Weldon Avenue and East Columbus Avenue within a commercial and residential area of Maricopa County. Please refer to the table below for further description of the subject property:

Subject Property Data

Address:	Northeast Corner of North Central and East Columbus Avenue, Phoenix, Arizona
Additional Addresses:	25, 29, 33, 37, 45, 49, 51, 55 East Weldon Avenue and 26, 28, 32, 42, 46, 50, 52, 54, 64 East Columbus Avenue
Historical Addresses:	23, 31, 35, 39, 43, 47 East Weldon Avenue and 24, 62, 66 East Columbus Avenue
Property Use:	Vacant land
Land Acreage (Ac):	3.22 Ac
Date of Construction:	Approximately 1925, 1940, 1959, 1960, 1961 (former residences)
Assessor's Parcel Number (APN):	118-33-029, -030, -031, -032, -033, -034, -035, -036, -037, -057, -058, -059, -060, -061, -062, -063, -064, -065, -066, -067, -068
Type of Construction:	NA
Current Tenants:	Unoccupied
Site Assessment Performed By:	Sydney Wills and Ryan Miller of Partner
Site Assessment Conducted On:	December 19, 2023
Regulatory Radius Report Date:	December 6, 2023
Lien Search Date:	December 6, 2023
Report Date:	December 29, 2023
FOIAs Date:	December 2023

The subject property consists of 3.22-acres of vacant land. The subject property is improved with three concrete slabs of former multi-family residential structures and walks ways located on the southeast side of the property. No operations are conducted onsite. In addition to the current concrete slabs, the subject property is improved with minimal landscaping along the southern boundary of the subject property.

According to available historical sources, the subject property was formerly developed with single-family residences as early as 1912 with five single-family residential structures reported as of 1925. The property appears to have remained exclusively single-family residential until 1959. Multi-family residential structures were constructed on the property in approximately 1959, 1960 and 1961. The property was developed for mixed use single-family residential and multi-family residential between 1960 until 1997. The multi-family residential structure at 32 East Columbus Avenue was demolished in 2013. The property appears to have been vacant from 2013 until present. Tenants on the subject property have included single-family residences (approximately 1925-1997); multi-family residences (1960-2013); and Columbus East Apartments (1960-2013). Additionally, according to an Archaeology Assessment by the Pueblo Grande Museum, no known archaeological sites are located within this project area. No archaeological work is necessary for this project. However, if any archaeological materials are encountered during construction, all ground-disturbing activities must cease within 10 meters of the discovery and the City of Phoenix Archaeology Office must be notified immediately and allowed time to process the materials.

The adjoining properties are tabulated below:

<i>Adjoining Properties</i>	
North:	East Weldon Avenue beyond which is a parking area (22, 24 East Weldon Avenue), Single-family residences (26, 34, 38 East Weldon Avenue); vacant lot (40,44, 50 East Weldon Avenue), Five SAC Self Storage Group (207 East Clarendon Avenue)
South:	East Columbus Avenue beyond which is a vacant lot (31 35, 39, 43 East Columbus Avenue), a single-family residence (51 East Columbus Avenue), Phoenix Firefighters Association (61, 63 East Columbus Avenue)
West:	Central Midtown (3601 North Central Avenue)
Southwest:	East Columbus Avenue beyond which is Banner Surgery Center-Central Phoenix (3525 North Central Avenue)
Southeast:	East Columbus Avenue beyond which is a multi-family residential building (69 East Columbus Avenue)
East:	Multi-tenant commercial building (67 East Weldon Avenue) and Leading-Edge Mobile Forklift Repair LLC (68 East Columbus Avenue)

According to topographic map interpretation and information obtained from the Arizona Department of Water Resources, the physical setting features of the subject property identify the terrain as sloping to the south-southwest with the depth to groundwater in the vicinity of the subject property inferred to be approximately 65 to 80 feet below ground surface (bgs) and groundwater flow inferred to be toward the south-southwest.

Findings and Opinions

Recognized Environmental Condition

A *recognized environmental condition (REC)* refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.

The following was identified during the course of this assessment:

- Partner did not identify any RECs during the course of this assessment.

Controlled Recognized Environmental Condition

A *controlled recognized environmental condition (CREC)* refers to a REC affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations). The following was identified during the course of this assessment:

- Partner did not identify any CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A *historical recognized environmental condition (HREC)* refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations). The following was identified during the course of this assessment:

- Partner did not identify any HRECs during the course of this assessment.

Business Environmental Risk

A *Business Environmental Risks (BER)* is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice. The following was identified during the course of this assessment:

- Partner notes the first single-family residential structures were constructed on the subject property between 1912 and 1925. Based on water and sewer maps reviewed, the structures were constructed prior to the installation of the main line sewer in 1963. While records associated with septic system installation were not on file with the Maricopa County Environmental Health Services Department, possible septic systems may be present on the subject property. However, since the subject property has always been developed as residences, Partner concludes the septic systems would have likely only received typical household sanitary waste. Additionally, based on the nature of use, any historic septic tanks would not be expected to represent a significant environmental concern; however, should any septic systems be discovered during site development activities, they should be properly removed or abandoned under Maricopa County regulations.

De Minimis Conditions

A *de minimis condition* is defined by ASTM as "a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. A condition determined to be a *de*

de minimis condition is not considered a REC. An example of a *de minimis condition* might be a small, superficial spill of oil that is not anticipated to cause a significant concern. The following was identified during the course of this assessment:

- Partner did not identify any *de minimis conditions* during the course of this assessment.

Emerging Issues

The United States Environmental Protection Agency (USEPA) has identified per- and polyfluoroalkyl substances (PFAS) as “emerging contaminants” or “contaminants of emerging concern.” Certain uses of PFAS have been prohibited, but PFAS are or have been present in fire-fighting foams, wire insulation, cleaners, textiles, apparel, carpet, leather, paper, and paints. The chemical bond between the carbon and fluorine atoms in PFAS is extremely strong and stable, making PFAS resistant to typical environmental degradation processes. The wide use and stability of PFAS provides many opportunities for human exposure to, and bioaccumulation of, these chemicals. While these chemicals are not well researched, they have been found to cause cancer or affect the liver, immune system, cholesterol levels, and cause thyroid issues.

Readily identifiable information related to PFAS impacts to the subsurface was not identified for the Subject Property or adjoining properties.

Significant Data Gaps

No significant data gaps affecting the ability of the Environmental Professional to identify a REC were encountered during this assessment.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 and E1527-21 of Northeast Corner of North Central and East Columbus Avenue in Phoenix, Maricopa County, Arizona (the “subject property”). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of RECs, CRECs, or HRECs in connection with the subject property; however, a BER was identified. Based on the conclusions of this assessment, Partner recommends no further investigation of the subject property at this time.

1.0 INTRODUCTION

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in conformance with the scope and limitations of ASTM Standard Practice E1527-13 and E1527-21 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) for the property located at Northeast Corner of North Central and East Columbus Avenue in Phoenix, Maricopa County, Arizona (the "subject property"). Any exceptions to, or deletions from, this scope of work are described in the report.

The Arizona Department of Environmental Quality (ADEQ), under the Arizona Brownfields Environmental Site Assessment (ABESA) grant, authorized this Phase I ESA for **FY24 3S07 City of Phoenix - Central & Columbus Phase I (Site Code: 514162-00)**. Work was conducted under Task Order ADEQ23-CTR047001-05. The ADEQ Purchase Order Number for this project is 731755-1.

1.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Standard E1527-13 and E1527-21) affecting the subject property that: 1) constitute or result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in the ESA Report will be used by Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property's overall development potential, the associated market value and the impact of applicable laws that restrict financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA was performed to permit the *User* to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) liability (hereinafter, the "*landowner liability protections*," or "*LLPs*"). ASTM Standard E1527-13 constitutes "*all appropriate inquiry* into the previous ownership and uses of the *property* consistent with good commercial or customary practice" as defined at 42 U.S.C. §9601(35)(B).

1.2 Scope of Work

The scope of work for this ESA is in accordance with and to the extent necessary to achieve the goal of the requirements set forth in the ASTM Standard E1527-13 and E1527-21. This assessment included: 1) a property and adjoining site reconnaissance; 2) interviews with key personnel; 3) a review of historical sources; 4) a review of regulatory agency records; and 5) a review of a regulatory database report provided by a third-party vendor. Partner contacted local agencies, such as environmental health departments, fire departments and building departments to obtain readily ascertainable information to

determine any current and/or former hazardous substances usage, storage and/or releases of hazardous substances on the subject property. Additionally, Partner researched readily available information on the presence of activity and use limitations (AULs) at these agencies. As defined by ASTM E1527-21, AULs include both legal (that is, institutional) and physical (that is, engineering) controls that may include legal or physical restrictions or limitations on the use of, or access to, a site or facility: 1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil, soil vapor, groundwater, or surface water on the subject property; or 2) to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions, which may include institutional and/or engineering controls (IC/ECs), are intended to prevent adverse impacts to individuals or populations that may be exposed to hazardous substances and petroleum products in the soil, soil vapor, groundwater, and/or surface water on a property.

1.3 Limitations

Partner warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in the Scope of Work. These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. There is a possibility that even with the proper application of these methodologies there may exist on the subject property conditions that could not be identified within the scope of the assessment, or which were not reasonably identifiable from the available information. Partner believes that the information obtained from the record review and the interviews concerning the subject property is reliable. However, Partner cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. No other warranties are implied or expressed.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those persons contacted.

This practice does not address requirements of any state or local laws or of any federal laws other than the all-appropriate inquiry provisions of the LLPs. Further, this report does not intend to address all of the compliance and safety concerns, if any, associated with the subject property.

1.4 User Reliance

Arizona Department of Environmental Quality (ADEQ) engaged Partner to perform this assessment in accordance with an agreement governing the nature, scope and purpose of the work as well as other matters critical to the engagement. All reports, both verbal and written, are for the sole use and benefit of ADEQ and the City of Phoenix. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with Partner granting such rights, no third parties shall have rights of recourse or recovery

whatsoever under any course of action against Partner, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold Partner, Client and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such Use. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply.

1.5 Limiting Conditions

The findings and conclusions contain all of the limitations inherent in these methodologies that are referred to in ASTM E1527-13 and E1527-21.

Specific limitations and exceptions to this ESA are more specifically set forth below:

- Interviews with past owners, operators and occupants were not reasonably ascertainable and thus constitute a data gap. Based on information obtained from other historical sources (as discussed in Section 3.0), this data gap is not expected to alter the findings of this assessment.
- Partner was unable to determine the property use at 5-year intervals, which constitutes a data gap. Except for property tax files and recorded land title records, which were not considered to be sufficiently useful, Partner reviewed all standard historical sources and conducted appropriate interviews. This limitation is not expected to alter the overall findings of this assessment.

2.0 SITE DESCRIPTION

2.1 Site Location and Legal Description

The subject property at Northeast Corner of North Central and East Columbus Avenue in Phoenix, Arizona is located to the east of Central Avenue between East Weldon Avenue and East Columbus Avenue. According to the Maricopa County Assessor, the subject property is legally described as follows:

Parcel Chart:

APN	Street Address	Square Feet	Acres	Legal Description
118-33-029	25 East Weldon Avenue	7,200	0.165	BELLA VISTA PL
118-33-030	29 East Weldon Avenue	7,200	0.165	BELLA VISTA PL

118-33-057	64 East Columbus Avenue	3,600	0.0826	BELLA VISTA PL LOT 33 BLK 2 W2

According to Maricopa County Assessor, ownership has been vested in the City of Phoenix since 2004.

Please refer to Figure 1: Site Location Map, Figure 2: Site Plan, Figure 3: Topographic Map, and Appendix A: Site Photographs for the location and site characteristics of the subject property.

2.2 Current Property Use

The subject property consists of 3.22-acres of vacant land. The subject property is improved with three concrete slabs of former multi-family residential structures and walks ways located on the southeast side of the property. No operations are conducted onsite. In addition to the current concrete slabs, the subject property is improved with minimal landscaping along the southern boundary of the subject property.

The subject property is zoned WU (Walkable Urban) Code T5:7 MT for mixed- use development by the City of Phoenix.

The subject property was not identified in the regulatory database report of Section 4.2.

2.3 Current Use of Adjoining Properties

The subject property is located within a commercial and residential area of Maricopa County. During the vicinity reconnaissance, Partner observed the land uses on adjoining properties as defined in ASTM E1527-13 and E1527-21 as any real property or properties the border of which is contiguous or partially contiguous with that of the property, or that would be contiguous or partially contiguous with that of the property but for a street, road, or other public thoroughfare separating them. The adjoining properties are tabulated below:

Adjoining Properties	
North:	East Weldon Avenue beyond which is a parking area (22, 24 East Weldon Avenue), Single-family residences (26, 34, 38 East Weldon Avenue); vacant lot (40,44, 50 East Weldon Avenue), Five SAC Self Storage Group (207 East Clarendon Avenue)
South:	East Columbus Avenue beyond which is a vacant lot (31 35, 39, 43 East Columbus Avenue), a single-family residence (51 East Columbus Avenue), Phoenix Firefighters Association (61, 63 East Columbus Avenue)
West:	Central Midtown (3601 North Central Avenue)
Southwest:	East Columbus Avenue beyond which is Banner Surgery Center-Central Phoenix (3525 North Central Avenue)
Southeast:	East Columbus Avenue beyond which is a multi-family residential building (69 East Columbus Avenue)
East:	Multi-tenant commercial building (67 East Weldon Avenue) and Leading-Edge Mobile Forklift Repair LLC (68 East Columbus Avenue)

The adjoining property to the west was identified as a Facility Index System/Facility Registry System (FINDS/FRS) site in the regulatory database report of Section 4.2.

2.4 Physical Setting Sources

2.4.1 Topography

The 2021 United States Geological Survey (USGS) *Phoenix, Arizona* Quadrangle 7.5-minute series topographic map was reviewed for this ESA. According to the contour lines on the topographic map, the subject property is located at approximately 1,108 feet above mean sea level (MSL). The contour lines in the area of the subject property indicate the area is sloping gently toward the south-southwest.

A copy of the reviewed topographic map is included as Figure 3 of this report.

2.4.2 Hydrology

While under natural and undisturbed conditions shallow groundwater flow most frequently follows the topography of the land surface, natural or man-made features can affect flow direction, and the presumed flow may not match the actual flow directions at the subject property and vicinity. Topographic map interpretation suggests the direction of groundwater flow in the vicinity of the subject property is inferred to be toward the south-southwest.

According to information obtained from the Arizona Department of Water Resources (ADWR) Wells 55 database, depth to groundwater in the vicinity of the subject property is reported to be approximately 65 to 80 feet below ground surface (bgs).

The nearest surface water to the subject property is the Salt River located approximately 4.66 miles south of the subject property. No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed at the subject property during this assessment.

According to available information, a public water system operated by the Phoenix Water Services Department serves the subject property. According to the 2022 Water Quality Report, Phoenix's primary sources of untreated surface water are the Salt, Verde, and Colorado Rivers. Some water from the Agua Fria River is mixed with water from the Colorado River when stored in Lake Pleasant. The water is then delivered to one of the City's five water treatment plants. Colorado River water is delivered to the City via the Central Arizona Project (CAP) aqueduct. Water from the Salt and Verde Rivers is delivered via the Salt River Project (SRP) canal network. The remaining two percent of drinking water is supplied by about 20 groundwater wells.

2.4.3 Geology/Soils

Based on information obtained from the United States Department of Agriculture (USDA) Natural Resources Conservation Service Web Soil Survey online database, the subject property is mapped as Mohall clay loam. The Mohall series consists of very deep, well drained, moderately highly permeable soils that formed from mixed alluvium. These soils are found on alluvial fans and plains. Slopes range from 0 to 1 percent.

The subject property is situated within the Basin and Range Province, which is characterized by alluvial plains separated by predominantly north to northwest trending mountain ranges. The mountains consist of tilted and sometimes structurally deformed crystalline, igneous, and metamorphic rocks that have been severely eroded. Deposits of gravel, cobble, and boulders can be found near wash and drainage systems. The land surface elevations range from less than 800 feet above mean sea level to over 6,000 feet above mean sea level. Depth to bedrock ranges from less than 100 feet near the basin margins to approximately 5,000 feet in the Paradise Valley area and over 10,000 feet southeast of Gilbert.

2.4.4 Flood Zone Information

Partner performed a review of the Flood Insurance Rate Map, published by the Federal Emergency Management Agency. According to Community Panel Number 04013C2205L, dated October 16, 2013, the subject property appears to be located in Zone X (shaded); defined as moderate risk areas within the 0.2-percent-annual-chance floodplain, areas of 1-percent-annual-chance flooding where average depths are less than 1 foot, areas of 1-percent-annual-chance flooding where the contributing drainage area is less than 1 square mile, and areas protected from the 1-percent-annual-chance flood by a levee.

A copy of the reviewed flood map is included in Appendix B of this report.

3.0 HISTORICAL INFORMATION

Partner obtained historical use information about the subject property from a variety of sources. A chronological listing of the historical data found is summarized in the table below:

Historical Use Information		
Years	Resource	Description/Use
1912-1953	Topographic Maps, Aerial Photography, City Directories, Prior Report	Single-family residential
1953-1997	Topographic Maps, Aerial Photography, City Directories, Building Records, Prior Report	Single-family and multi-family residential
1997-2013	Topographic Maps, Aerial Photography, City Directories, Building Records, Prior Report	Multi-family residential
2013-Present	Aerial Photography, Building Records, Onsite observations	Vacant land

Tenants on the subject property have included single-family residences (approximately 1925-1997); multi-family residences (1960-2013); and Columbus East Apartments (1960-2013).

No potential environmental concerns were identified in association with the current or former use of the subject property.

3.1 Aerial Photograph Review

Partner obtained available aerial photographs of the subject property and surrounding area from Environmental Risk Information Services (ERIS) on December 8, 2023 and Maricopa County Historical Aerial Photography dated 1986, 2012, and 2022. The inferred uses of the subject property and adjoining properties as interpreted from the aerial photographs in Appendix B are tabulated below:

Date:	1934, 1936*	Scale:	1"=500'
Subject Property:	Appears to be developed with five single-family residences on the southwest side of the property, one single-family residence on the southeast side of the property and five single-family residences on the north side of the property.		
North:	Appears to be developed with multiple single-family residences across an improved road		
South:	Appears to be developed with multiple single-family residences across an improved road		
West:	Appears to be developed with two single-family residences on the east side of the property and an additional single-family residence on the northwest side of the property		
Southwest:	Appears to be developed with a single-family residence across an improved road		
East:	Appears to be developed with two single-family residences on north and south sides of the property		
Southeast:	Appears to be developed with a single-family residence across an improved road		

Date:	1940	Scale:	1"=500'
Subject Property:	Appears to be developed with an additional single-family residence located on the northwest side of the property, no additional significant changes are visible		
North:	No significant changes are visible.		
South:	No significant changes are visible.		
West:	No significant changes are visible.		
Southwest:	No significant changes are visible.		
East:	No significant changes are visible.		
Southeast:	No significant changes are visible.		

Date:	1949, 1953	Scale:	1"=500'
Subject Property:	No significant changes are visible.		
North:	No significant changes are visible.		
South:	No significant changes are visible.		
West:	Appears to be developed with an apparent commercial hotel on the southwest side of the property, no additional significant changes are visible		
Southwest:	No significant changes are visible.		
East:	No significant changes are visible.		
Southeast:	No significant changes are visible.		

Date:	1961, 1967	Scale:	1"=500'
Subject Property:	Two of the previous single-family residences on the southwest side of the property appear to have been razed and the area has been redeveloped with a multifamily residential structure and the single-family residences on the southeast side of the property appear to have been razed and the area appears to have been redeveloped with multi-family residential structures, no additional significant changes are visible		
North:	No significant changes are visible.		
South:	No significant changes are visible.		
West:	The previous single-family residence on the northwest side of the property appears to have been razed and the area has been redeveloped with multiple commercial structures, no additional significant changes are visible		
Southwest:	The previous single-family residences on the west side of the property appear to have been razed and the property has been redeveloped with multiple commercial structures across an improved road, no additional significant changes are visible		
East:	No significant changes are visible.		
Southeast:	The previous improvement on the property appears to have been razed and the property has been redeveloped with the current multi-family residential structure across an improved road		

Date:	1973	Scale:	1"=500'
Subject Property:	The previous single-family residences on the southwestern most side of the property appear to have been razed and the area appears to be vacant, no additional significant changes are visible		
North:	No significant changes are visible.		
South:	No significant changes are visible.		
West:	The previous single-family residence on the southeast side of the property appears to have been razed and the area appears to be vacant, no additional significant		

Date: 1973 **Scale:** 1"=500'

changes are visible
Southwest: No significant changes are visible.
East: No significant changes are visible.
Southeast: No significant changes are visible.

Date: 1981 **Scale:** 1"=500'

Subject Property: The previous single-family residences on the northwest side of the property appear to have been razed and the area appears vacant, no additional significant changes are visible
North: No significant changes are visible.
South: The previous single-family residences appear to have been razed and the east side of the property appears to have been redeveloped with the current commercial structure and the remainder of the property appears to be vacant land across an improved road
West: The previous single-family residence on the northeast side of the property and the previous commercial hotel on the southwest side of the property appear to have been razed and the property appear to be vacant land, no additional significant changes are visible
Southwest: The previous improvements on the property with the exception of the commercial structure on the northwest side of the property appears to have been razed and the property has been redeveloped with the current commercial structure on the central portion of the property across an improved road
East: The previous residences on the north side of the property appear to have been razed and the property has been redeveloped with the current commercial structure
Southeast: No significant changes are visible.

Date: 1986 **Scale:** 1"=500'

Subject Property: Three of the previous single-family residences on the north side of the property appear to have been razed, no additional significant changes are visible
North: The previous single-family residences on the west side of the property appear to have been razed, no additional significant changes are visible
South: No significant changes are visible.
West: No significant changes are visible.
Southwest: No significant changes are visible.
East: No significant changes are visible.
Southeast: No significant changes are visible.

Date: 1992 **Scale:** 1"=500'

Subject Property: The remainder of the single-family residences on the north and sides of the property appear to have been razed, no additional significant changes are visible
North: The previous single-family residences on the east side of the property appear to have been razed and the property and the west side of the property appears to have been redeveloped as a parking area, no additional significant changes are visible
South: No significant changes are visible.
West: No significant changes are visible.
Southwest: No significant changes are visible.
East: No significant changes are visible.

Date: 1992 **Scale:** 1"=500'
Southeast: No significant changes are visible.

Date: 1997 **Scale:** 1"=500'
Subject Property: The previous improvement on the southeast side of the property appears to have been razed and the area appears to be vacant, no additional significant changes are visible
North: No significant changes are visible.
South: No significant changes are visible.
West: Appears to be developed as a parking area on the southwest side of the property
Southwest: No significant changes are visible.
East: No significant changes are visible.
Southeast: No significant changes are visible.

Date: 2003, 2004, 2005, 2007 **Scale:** 1"=500'
Subject Property: The previous improvement on the southeast side of the property appears to have been razed, no additional significant changes are visible
North: Appears to be developed with the current commercial structure on the northeast side of the property across an improved road, no additional significant changes are visible
South: No significant changes are visible.
West: No significant changes are visible.
Southwest: No significant changes are visible.
East: No significant changes are visible.
Southeast: No significant changes are visible.

Date: 2010, 2012 **Scale:** 1"=500'
Subject Property: No significant changes are visible.
North: No significant changes are visible.
South: The previous single-family residence on the west side of the property appears to have been razed and the property appears to be vacant across an improved road, no additional significant changes are visible.
West: No significant changes are visible.
Southwest: No significant changes are visible.
East: No significant changes are visible.
Southeast: No significant changes are visible.

Date: 2013, 2015, 2017 **Scale:** 1"=500'
Subject Property: The previous multi-family residence on the south-central portion of the property appears to have been razed and the property appears to be vacant land, the property appears to entirely vacant with the exception of two concrete pads on the southeast side of the property
North: No significant changes are visible.
South: No significant changes are visible.
West: No significant changes are visible.
Southwest: No significant changes are visible.
East: No significant changes are visible.
Southeast: No significant changes are visible.

<i>Date:</i>	<i>2019</i>	<i>Scale:</i>	<i>1"=500'</i>
Subject Property:	Appears to be utilized as a construction staging area on the west side of the property associated with the ongoing construction of the west adjoining property, no additional significant changes are visible		
North:	No significant changes are visible.		
South:	No significant changes are visible.		
West:	The previous improvements on the property appear to have been razed and the property appears to be underdevelopment with the current multi-family residential structure		
Southwest:	No significant changes are visible.		
East:	No significant changes are visible.		
Southeast:	No significant changes are visible.		

<i>Date:</i>	<i>2021, 2022</i>	<i>Scale:</i>	<i>1"=500'</i>
Subject Property:	The previous storage on the property is no longer visible and the property appears vacant		
North:	No significant changes are visible.		
South:	No significant changes are visible.		
West:	Appears to be developed with the current multi-family residential structure		
Southwest:	No significant changes are visible.		
East:	No significant changes are visible.		
Southeast:	No significant changes are visible.		

Copies of reviewed aerial photographs are included in Appendix B of this report.

3.2 Fire Insurance Maps

Partner reviewed the collection of fire insurance maps (FIMs) from ERIS on December 7, 2023. The following inferred uses of the subject property and adjoining properties interpreted from the FIMs in Appendix B are tabulated below:

<i>Date:</i>	<i>1949</i>
Subject Property:	Depicted as developed with eight dwellings (24, 28, 32, 42, 46, 52, 62, 66 East Columbus Avenue) on the south side of the property and nine dwellings (23, 29, 31, 35, 39, 43, 47, 51, 56 East Weldon Avenue) on the north side of the property
North:	The property is not depicted across East Weldon Avenue
South:	Depicted as developed with twelve dwellings across East Columbus Avenue
West:	Depicted as developed with two dwellings on the east side of the property, multiple stores on the northwest side of the property, a dwelling on the west-central portion of the property and a motor court commercial hotel on the southwest side of the property
Southwest:	Depicted as developed with multiple dwellings on the northeast and west side of the property across East Columbus Avenue
East:	Depicted as developed with two dwellings on the north and south sides of the property
Southeast:	No improvements depicted across East Columbus Avenue

Copies of reviewed FIMs are not included in Appendix B of this report.

3.3 City Directories

Partner reviewed historical city directories obtained from ERIS on December 13, 2023 for past names and businesses that were listed for the subject property and adjoining properties. The findings are tabulated below:

City Directory Search for Subject Property Address 23, 25, 29, 31, 33, 37, 35, 39, 43, 45, 47, 49, 51, 55 East Weldon Avenue and 24, 26, 28, 32, 42, 46, 50, 52, 54, 62, 64, 66 East Columbus Avenue

Based on the city directory review, no environmentally sensitive listings were identified for the adjoining property addresses.

Copies of reviewed city directories are included in Appendix B of this report.

3.4 Historical Topographic Maps

Partner reviewed historical topographic maps obtained from ERIS on December 7, 2023. The following inferred uses of the subject property and adjoining properties interpreted from topographic maps in Appendix B and are tabulated below:

Date: 1912, 1914

Subject Property:	Depicted as developed with one small structure on the north-central portion of the property, no additional improvements were depicted
North:	Depicted as developed with two small structures on the central portion of the property across an unnamed road
South:	No improvements depicted.
West:	Depicted as developed with one small structure on the northeast side of the property, no additional improvements were depicted
Southwest:	No improvements depicted.
East:	No improvements depicted.
Southeast:	No improvements depicted.

Date: 1952, 1967, 1971*, 1973, 1982

Subject Property:	Shaded to depict development
North:	Shaded to depict development across an unnamed road
South:	Shaded to depict development across an unnamed road
West:	Shaded to depict development
Southwest:	Shaded to depict development across an unnamed road
East:	Shaded to depict development
Southeast:	Shaded to depict development across an unnamed road

Date: 2014, 2018, 2021

Subject Property: No improvements depicted.
North: No improvements depicted.
South: No improvements depicted.
West: No improvements depicted.
Southwest: No improvements depicted.
East: No improvements depicted.
Southeast: No improvements depicted.

Copies of reviewed topographic maps are included in Appendix B of this report.

4.0 REGULATORY RECORDS REVIEW

4.1 Regulatory Agencies

4.1.1 State Department

Regulatory Agency Data

Name of Agency:	Arizona Department of Environmental Quality (ADEQ)
Point of Contact:	Online database (https://megasearch.azdeq.gov/megasearch/)
Agency Address:	1110 West Washington Street, Phoenix, Arizona 85007
Agency Phone Number:	(602) 771-9855
Date of Contact:	December 1, 2023 and December 22, 2023
Method of Communication:	Online
Summary of Communication:	

Review of the ADEQ's online MegaSearch database system confirmed that the subject property address is not identified in the UST/LUST, Waste Programs, Hazardous Waste, Special Waste, Water Quality – Stormwater, State Assurance Fund, Solid Waste, Surface Water, Air Permit Compliance, Vehicle Emissions Inspection, Superfund Remediation or Voluntary Remediation databases or programs.

4.1.2 Health Department

Regulatory Agency Data

Name of Agency:	Maricopa County Environmental Services Department (MCESD)
Point of Contact:	Online database (https://www.maricopa.gov/631/Environmental-Services and PublicAccess - CustomQuery Template (maricopa.gov))
Agency Address:	15023 North 75 th Street, Scottsdale, Arizona 85260
Agency Phone Number:	(480) 483-4703
Date of Contact:	December 1, 2023
Method of Communication:	Online
Summary of Communication:	

No records regarding hazardous substance use, storage or releases, or the presence of USTs and AULs on the subject property were on file with the MCESD. Additionally, no septic tanks permits were found in associated with the subject property addresses. Possible septic tanks present on the subject property are further discussed in Section 6.1.7.

4.1.3 Fire Department

Regulatory Agency Data

Name of Agency:	Phoenix Fire Department (PFD)
Point of Contact:	Fire Department Clerk (Pfd.prevention.records@phoenix.gov)
Agency Address:	150 South 12th Street, Phoenix, Arizona 85034
Agency Phone Number:	(602) 262-6771
Date of Contact:	December 4, 2023
Method of Communication:	Email
Summary of Communication:	

No records regarding hazardous substance use, storage or releases, or the presence of USTs and AULs on the subject property were on file with the PFD.

4.1.4 Air Pollution Control Agency

Regulatory Agency Data

Name of Agency: Maricopa County Air Quality Department (MCAQD)
Point of Contact: Online Records Viewer
(<https://gis.maricopa.gov/aqd/recordsviewer/>)
Agency Address: 3800 North Central Avenue, Suite 1400, Phoenix, Arizona 85012
Agency Phone Number: (602) 506-6622
Date of Contact: December 1, 2023
Method of Communication: Online

Summary of Communication:

According to records reviewed, the subject property formerly had a dust control permit to berm the north and south sides of the property at 32 East Columbus Avenue. This permit was issued on May 8, 2020. The permit was cancelled on May 22, 2020 as the project was complete. No violations were reported by the MCAQD. Based on the nature of the permit and lack of reported violations, the record does not represent an environmental concern.

4.1.5 Water and Sewer Infrastructure Agency

Regulatory Agency Data

Name of Agency: Phoenix Water Services – Infrastructure, Assets and Development
Point of Contact: Records Custodian (IRSPublicCounter.WSD@phoenix.gov)
Agency Address: 200 West Washington Street, Phoenix, Arizona 85003
Agency Phone Number: (602) 262-6251
Date of Contact: December 6, 2023
Method of Communication: Email

Summary of Communication:

According to the provided quarter section maps that include the subject property at 16-28, a 6-inch water dipped main line installed in 2011 is beneath East Columbus Avenue to the south of the subject property, and a 6-inch water dipped main line installed in 2011 is beneath East Weldon Avenue to the north of the subject property. One approximately 460-foot water tap is depicted entering the subject property at 32 East Columbus Avenue and two fire hydrates are depicted at the southwestern most corner of the subject property at 26 East Columbus Avenue and on the southern boundary of the subject property at 50 East Columbus Avenue.

The sewer quarter section map that includes the subject property identified a 12-inch sewer line to the west of the subject property along sidewalk separating the subject property and west adjoining property that was installed in 2018. A second 8-inch sewer line is depicted on the central right-of-way which bisects the subject property that was installed in 1963. Multiple sewer lines are depicted entering the subject property parcels. Sewer lines are depicted entering 25, 29, 55, 37, 45, 49, 51, and 55 East Weldon Avenue and 28, 32, 42, 46, and 52 East Columbus Avenue. Two sewer lines are depicted entering subject property parcels 50 East Columbus Avenue and 64 East Columbus Avenue.

Abandoned water and sewer maps were provided by Phoenix Water Services depicting a former water main line beneath East Columbus Avenue installed in 1966. No additional water or sewer lines are depicted entering the subject property.

4.1.6 Building Department

Regulatory Agency Data

Name of Agency:	Phoenix Planning and Development Department (PDD)
Point of Contact:	LaToya Cunningham (cityofphoenixaz@govqa.us)
Agency Address:	200 West Washington Street, Phoenix, Arizona 85003
Agency Phone Number:	(602) 262-7811
Date of Contact:	December 1, 2023
Method of Communication:	Online/Email
Summary of Communication:	

Records were available for review, as further discussed in the following table.

Building Records Reviewed for Northeast Corner of North Central and East Columbus Avenue

Year(s)	Owner/Applicant	Description
1953	E.C. Flagg	Building permit for a second-floor enclosing screen porch (37 East Weldon Avenue)
1957	Dorothy W. Bishopp	Building permit to remodel a residence for an additional apartment (52 East Columbus Avenue)
1958	J Baugh	Building permit for a masonry triplex and carports (50 East Columbus Avenue)
1959	Edward C. Flagg	Building permit for a frame addition to a detached garage for storage (37 East Weldon Avenue)
1959	J J Bud Baugh & Nellie	Building permit for metal carports for a six-unit apartment building (50 East Columbus Avenue)
1960	Harold E. Johnson	Building permit for a seven-unit apartment building and carport (64 East Columbus Avenue)
1960	Earnest Frissel	Approval to remove an existing building before beginning construction (32 East Columbus Avenue)
1960	Ernest Firsell	Building permit for a 10-unit apartment building (32 East Columbus Avenue)
1960	Ernest Frisell & Edith	Demolition permit for a masonry residence (32 East Columbus Avenue)
1961	E.C. Flagg	Building permit for the onsite furnace (37 East Weldon Avenue)
1962	Morris	Electrical permit (32 East Columbus Avenue)
1962	Morris	Building permit for a swimming pool (32 East Columbus Avenue)
1966	P. Day	Plumbing permit to replace the water line (51 East Weldon Avenue)
1969	Columbus East Apartments	Mechanical permit for heat pumps (32 East Columbus Avenue)
1969	M. Lamberti	Plumbing Permit (46 East Columbus Avenue)
1970	Murray Fenton	Building permit for an interior remodel (51 East Weldon Avenue)
1970	Murray Fenton	Electrical permit (51 East Weldon Avenue)
1971	Murry Fenton	Mechanical permit to install a gas-electric heat and air conditioning unit (51 East Weldon Avenue)
1971	Western Saving & loan	Mechanical permit for a furnace (50 East Columbus Avenue)

Building Records Reviewed for Northeast Corner of North Central and East Columbus Avenue

Year(s)	Owner/Applicant	Description
1953	E.C. Flagg	Building permit for a second-floor enclosing screen porch (37 East Weldon Avenue)
1957	Dorothy W. Bishopp	Building permit to remodel a residence for an additional apartment (52 East Columbus Avenue)
1958	J Baugh	Building permit for a masonry triplex and carports (50 East Columbus Avenue)
1959	Edward C. Flagg	Building permit for a frame addition to a detached garage for storage (37 East Weldon Avenue)
1959	J J Bud Baugh & Nellie	Building permit for metal carports for a six-unit apartment building (50 East Columbus Avenue)
1960	Harold E. Johnson	Building permit for a seven-unit apartment building and carport (64 East Columbus Avenue)
1960	Earnest Frissel	Approval to remove an existing building before beginning construction (32 East Columbus Avenue)
1960	Ernest Firsell	Building permit for a 10-unit apartment building (32 East Columbus Avenue)
1960	Ernest Frisell & Edith	Demolition permit for a masonry residence (32 East Columbus Avenue)
1972	Pace Consultants	Electrical permit to garage (55 East Weldon Avenue)
1978	Pace Engineering	Construction permit for the installation of an air conditioning system (55 East Weldon Avenue)
1969	M. Lamberti	Plumbing permit (46 East Columbus Avenue)
1988	Smith Development	Building permit to remove a building and trash from the site (51 East Weldon Avenue)
1988	Smith Development	Building permit to remove a building and trash from the site (37 East Weldon Avenue)
1988	Smith Development	Building permit to remove a building and trash from the site (55 East Weldon Avenue)
1993	Smith Development Co	Demolition permit (64 East Columbus Avenue)
1999	Arnold Smith	Demolition permit (52 East Columbus Avenue)
2008	City of Phoenix	Electrical inspection (32 East Columbus Avenue)
2008	City of Phoenix	Permit for water services hydrant meter (50 East Columbus Avenue)
2013	City of Phoenix	Total demolition permit (32 East Columbus Avenue)
2021	City of Phoenix	Permit for fire hydrant meters (42 East Columbus Avenue)

4.1.7 Planning Department

Regulatory Agency Data

Name of Agency: Phoenix Planning and Development Department (PDD)
Point of Contact: Online Map
(<https://phoenix.maps.arcgis.com/apps/webappviewer/index.html>)
Agency Address: 200 West Washington Street, Phoenix, Arizona 85003
Agency Phone Number: (602) 262-7811
Date of Contact: December 1, 2023
Method of Communication: Online
Summary of Communication:

According to records reviewed, the subject property is zoned WU (Walkable Urban) Code T5:7 MT for mixed-use development. According to the City of Phoenix municipal code, T5:7 districts are medium-high-intensity mixed use areas characterized by a broad mix of retail, offices, live-work, and residential units adjacent to the light rail corridor.

Planning Records Reviewed for Northeast Corner of North Central and East Columbus Avenue

Year(s)	Owner/Applicant	Description
1960	Earnest Frissel	Variance to allow a 10-unit apartment building (32 East Columbus Avenue)
2019	Jeff Stapleton	Zoning Application for use as a multifamily residential property

4.1.8 Oil & Gas Exploration

Regulatory Agency Data

Name of Agency: Arizona Division of Oil, Gas Conservation Commission (AOGCC)
Point of Contact: Online Database (<http://welldata.azogcc.az.gov/index.html>)
Agency Address: 416 West Congress Street, Suite 100, Tucson, Arizona 85701
Agency Phone Number: (520) 770-3505
Date of Contact: December 1, 2023
Method of Communication: Online
Summary of Communication:

According to AOGCC, no oil or gas wells are located on or adjoining to the subject property.

4.1.9 Assessor's Office

Regulatory Agency Data

Name of Agency: Maricopa County Assessor
Point of Contact: Online (<https://maps.mcassessor.maricopa.gov/#>)
Agency Address: 301 West Jefferson Street, Phoenix, Arizona 85003
Agency Phone Number: (520) 770-3505
Date of Contact: December 1, 2023
Method of Communication: Online
Summary of Communication:

According to records reviewed, the subject property is identified by Assessor Parcel Number (APN) 118-33-029, -030, -031, -032, -033, -034, -035, -036, -037, -057, -058, -059, -060, -061, -062, -063, -064, -065, -066, -067, -068 and has been owned by City of Phoenix since 2004. The subject property consists of a 3.22-acre vacant parcel of land with multiple concrete pads remaining on parcels 118-33-062, 118-33-060, 118-33-958, and 118-33-057.

4.1.10 Archaeology Assessment

Regulatory Agency Data

Name of Agency: Pueblo Grande Museum
Point of Contact: Rebecca Hill, M.A.
Agency Address: 4916 East Washington Street, Phoenix, Arizona 85034
Agency Phone Number: (602) 534-2412
Date of Contact: December 6, 2023
Method of Communication: Email
Summary of Communication:

According to the Archaeology Assessment Result, no known archaeological sites are located within this project area. No archaeological work is necessary for this project. However, if any archaeological materials are encountered during construction, all ground-disturbing activities must cease within 10 meters of the discovery and the City of Phoenix Archaeology Office must be notified immediately and allowed time to process the materials.

Copies of pertinent documents from the above-referenced agencies, if available, are included in Appendix B of this report.

4.2 Mapped Database Records Search

The regulatory database report provided by Environmental Risk Information Services (ERIS) documents the listing of sites identified on federal, state, county, city, and tribal (when applicable) standard source environmental databases within the approximate minimum search distance (AMSD) specified by ASTM E1527-13 and E1527-21. The data from these sources are updated as these data are released and integrated into one database. The information contained in this report was compiled from publicly available sources.

The environmental database information is used to identify environmental concerns in connection with the subject property. The listings also serve to identify the known indications of the storage, use, generation, disposal, or release of hazardous substance at the subject property and the potential for contaminants to migrate onto the subject property from off-site sources in groundwater or soil in the form of liquids or vapor.

Using the ASTM definition of migration, Partner considers the migration of hazardous substances or petroleum products in any form onto the subject property during the evaluation of each site listed on the radius report, which includes solid, liquid, and vapor.

4.2.1 Regulatory Database Summary

The following table lists the number of sites as categorized by the regulatory database within the prescribed AMSD. The locations of the sites are plotted utilizing a geographic information system, which geocodes the site addresses. The accuracy of the geocoded locations is approximately +/-300 feet.

Regulatory Report Data

Database	Search Radius (mile)	Subject Property	Adjoining Properties	Sites of Concern	Total
Federal NPL, Proposed, or Delisted NPL Site	1.00	0	0	0	0

Regulatory Report Data

Database	Search Radius (mile)	Subject Property	Adjoining Properties	Sites of Concern	Total

4.2.2 Subject Property Listings

The subject property is not identified in the regulatory database report.

4.2.3 Adjoining Property Listings

The adjoining property to the west is identified as a FINDS/FRS site in the regulatory database report, as discussed below:

- The property identified as Filter-Pure Corp at 7 East Weldon Avenue is located to the west of the subject property. The FINDS/FRS listing for the property is associated with inclusion on the National Compliance Database (NCDB) (Registry ID 110011660363). The FINDS report is a computerized inventory of all facilities that are regulated or tracked by the USEPA. These facilities are assigned an identification number that serves as a cross-reference for other databases in the USEPA’s program system. No additional information is provided by the database. Based on the nature of the listing, lack of associated violations, releases or cross listings, the FINDS/FRS listing associated with the west adjoining property is not expected to represent a recognized environmental condition to the subject property.

4.2.4 Surrounding Area Listings of Concern to Subject Property

No sites of concern are identified in the regulatory database report.

4.2.5 Unplottable Listings

No unplottable listings of concern are identified in the regulatory database report.

4.2.6 Listed Facilities

The following table summarizes the site-specific information provided by the database and/or gathered by Partner for identified facilities. Facilities are listed in order of proximity to the site. Additional discussion for selected facilities follows the summary table.

Listed Facilities					
Facility Name and Location	Estimated Distance/ Direction/ Hydrogeologic Gradient	Database Listings	Regulatory Status	Environmental Concern Yes/No	
Goldman and Kaplan; 3801 North Central Avenue	336 feet/ northwest/ cross-gradient	UST	Closed	No	
Central Avenue Cleaners; 3532 North Central Avenue	448 feet/ west-southwest/ down-gradient	Drycleaners	Closed	No	
Phoenix Financial Center; 3443 North Central Avenue	460 feet/ south/ down-gradient	RCRA Non-Gen Tier 2	Inactive Unknown	No No

Facilities located within 1,000-feet of the subject property are further discussed below.

- The property identified as Goldman & Kaplan at 3801 North Central Avenue, located approximately 336 feet to the northwest of the subject property is listed by the UST database for the registration of one UST. A 500-gallon waste oil UST was removed from the property on April

20, 1994. The installation date of the UST is unknown. No violations or releases were reported by the regulatory database. Based on the various mitigating factors including relative distance from the subject property, hydrologically cross-gradient location, and regulatory status, the former UST is not expected to represent a significant environmental concern.

- The property identified as Central Avenue Cleaners at 3532 North Central Avenue, located approximately 448 feet to the west-southwest of the subject property is listed as having operated as a drycleaning facility in 1953. The property no longer operates as a drycleaning facility. This facility was in operation prior to modern environmental regulations and therefore records of the facility's operations are unlikely to exist. Based on the various mitigating factors including relative distance from the subject property, hydrologically cross-gradient location, and regulatory status, the former drycleaner is not expected to represent a significant environmental concern.
- The property identified as Del Webb building Quality Clea at 3800 North Central Avenue, located approximately 502 feet to the west-northwest of the subject property is listed as having operated as a drycleaning facility in 1970. The property no longer operates as a drycleaning facility. This facility was in operation prior to modern environmental regulations and therefore records of the facility's operations are unlikely to exist. Based on the various mitigating factors including relative distance from the subject property, hydrologically cross-gradient location, and regulatory status, the former drycleaner is not expected to represent a significant environmental concern.
- The property identified as Valley Frontier Building at 3550 north Central Avenue, located approximately 380 feet to the southwest of the subject property is listed by the UST and LUST databases. The property formerly utilized three USTs- two 5,000-gallon gasoline USTs and one 550-gallon waste oil UST were installed on the property in January 1964. The USTs were removed from the subject property on September 17, 1990. Two releases were reported on September 19, 1990 affecting soils and groundwater. The releases were granted closure on March 13, 1998 after Risk Based Corrective Action (RBCA) Tier 1 standards were met. Based on the various mitigating factors including relative distance from the subject property, hydrologically down-gradient location, and regulatory status, the former UST is not expected to represent a significant environmental concern.
- The property identified as Primewest Real Estate Services at 3636 North Central Avenue, located approximately 440 feet to the west of the subject property is listed by the UST database for the registration of one UST. A 550-gallon diesel UST was installed on the property in January 1984. The UST was constructed of single walled fiberglass reinforced plastic. The UST was removed on February 24, 1994. No violations or releases were reported by the regulatory database. Based on the various mitigating factors including relative distance from the subject property, hydrologically cross-gradient location, lack of reported release, and regulatory status, the former UST is not expected to represent a significant environmental concern.
- The property identified as City of Phoenix- Fire Station #9 at 3826 North 3rd Street, located approximately 746 feet to the northeast of the subject property is listed by the UST database for one former UST. A 280-gallon gasoline UST was installed on the property in January 1960 constructed of base steel. The UST was removed on February 15, 1994. No violations or releases

were reported by the regulatory database. Based on the various mitigating factors including relative distance from the subject property, lack of reported release, and regulatory status, the former UST is not expected to represent a significant environmental concern.

- The Simon and Sons Auto Center at 3406 North 3rd Street, located approximately 776 feet to the southeast of the subject property is listed by the UST and LUST databases. The property formerly utilized four USTs- three 5,000-gallon gasoline USTs and one 550-gallon unidentified UST. The installation date of the USTs is unknown. Multiple releases were reported on the property dated May 18, 1995 and August 28, 1995, identified as LUST ID 4106.01 through 4106.04, affecting soils and groundwater. The USTs were removed on June 11, 1996. The releases were granted regulatory closure on June 21, 2004 and October 18, 2004 after RBCA Tier standards were met. Based on the various mitigating factors including relative distance from the subject property, hydrologically down-gradient location, and regulatory status, the former UST is not expected to represent a significant environmental concern.
- The property identified as The Cleaners at 100 West Clarendon Avenue, located approximately 964 feet to the west-northwest of the subject property is listed as having operated as a drycleaning facility from 1990 to 1995. The property no longer operates as a drycleaning facility. Review of the database listings for this site indicated neither business was listed as a US EPA Resource Conservation and Recovery Act (RCRA) Generator, or RCRA Non-Generator/No Longer Regulated (RCRA-NonGen/NLR) site for the use, or former use, of hazardous substances or dry-cleaning equipment on-site. Based on the various mitigating factors including relative distance from the subject property, hydrologically cross-gradient location, and regulatory status, the former drycleaner is not expected to represent a significant environmental concern.
- The property identified as City of Phoenix- Fire Station #9 at 330 East Fairmount Avenue, located approximately 1,216 feet to the northeast of the subject property is listed by the UST and LUST databases. The property formerly utilized two 1,000-gallon gasoline and diesel USTs. The USTs were reportedly installed in January 1983. The USTs were removed on April 15, 1997. A release was reported on the property on April 17, 1997, identified as LUST ID 4686.01, affecting soils only. The release was granted regulatory closure on July 13, 1998 after RBCA Tier 1 Standards were met. The property currently utilizes a 2,000-gallon bio-diesel AST installed on the property in January 1997. No releases have been reported associated with the current AST. Based on the various mitigating factors including relative distance from the subject property and regulatory status, the former UST is not expected to represent a significant environmental concern.
- The property identified as Southwest Savings at 4001 North 3rd Street, located approximately 1,303 feet to the northeast of the subject property is identified by the UST and LUST databases. The property formerly utilized one unidentified UST. The UST was removed on January 11, 1989. A release was reported on January 11, 1989, identified as LUST ID 0621.01, affecting soil and groundwater. The release was granted closure on September 24, 1996 after RBCA Tier 1 standards were met. Based on the various mitigating factors including relative distance from the subject

property and regulatory status, the former UST is not expected to represent a significant environmental concern.

- The property identified as ARCO AM/PM #5982 at 4060 North Central Avenue, located approximately 1,400 feet to the north-northwest of the subject property is listed by the LUST database for a former release on the subject property. A release was reported on January 23, 2006 from four onsite 10,000-gallon gasoline USTs. The release was assigned LUST ID 5476.01 reportedly affecting soils and groundwater. The release was granted closure on April 20, 2016 after RBCA Tier 1 standards were met. Based on the various mitigating factors including relative distance from the subject property and regulatory status, the former UST is not expected to represent a significant environmental concern.

Additional listings identified within the search radius are discussed below.

- A total of seven Resource Conservation and Recovery Act (RCRA) listings were identified within the 1.00-mile search radius, five RCRA Non-generator and two RCRA- Very Small Quantity Generators (VSQG). None of the listings identified were currently active. No RCRA violations have been reported regarding the improper use or storage of hazardous substances nor is this facility identified on any databases that report spills or releases. Based on the various mitigating factors including relative distance from the subject property, inferred direction of groundwater flow, media affected, and/or regulatory status, the RCRA listings are not expected to represent a significant environmental concern.
- A total of three Tier 2 facilities were reported within the one-mile radius, all three of which are located within 1,000-feet of the subject property. The Tier 2 database is a computerized inventory of facilities that report to the Arizona Emergency Response commission (AZSERC) for Tier 2 Chemical Inventory Reporting. AZSERC implements the Emergency Planning and Community Right to Know Act in Arizona. The Tier 2 database is managed by the ADEQ in order to provide the State, local officials, and the public with specific information on potential hazards. This includes documenting the locations, as well as the amount, of hazardous chemicals present at a facility during the previous calendar year. Additional information regarding the nature of hazardous waste storage is not provided by the database. Based on various mitigating factors including relative distance from the subject property, lack of reported violations or releases, and/or regulatory status, these facilities are not expected to represent a significant environmental concern.
- A total of five Alternative Fuels (Alt Fuels) sites were identified within a one-mile search radius of the subject property. The ALT Fuels database is a list of alternative fueling stations maintained by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. The alternative fuel listings identified are in regard to a bio diesel AST associated with the City of Phoenix Fire Station # 9 and multiple electric car charging stations. No violation or releases were identified in the regulatory database. Based on various mitigating factors including relative distance from the subject property, nature of the listing, lack of reported violations or releases, and/or regulatory status, these facilities are not expected to represent a significant environmental concern.

- A total of three Comprehensive environmental Response, Compensation and Liability Information System (CERCLIS) Information Data System (SHWS ACIDS) facilities were identified within a one-mile search radius of the subject property. The SHWS ACIDS list was used by the ADEQ Superfund Programs Section prior to July 2000, and consists of locations subject to investigation throughout the State. The ACIDS list has been archived and is no longer being distributed or updated. Given the archived status of the listing and lack of inclusion on state database (WQARF Registry) for documented release(s), the identified SHWS ACIDS listing is not considered to present a significant environmental concern to the subject property. Additionally, based on various mitigating factors including relative distance from the subject property and lack of associated cross-listings, these facilities are not expected to represent a significant environmental concern.
- A total of 18 Drywells, Drywells EPA, and Historical Drywells sites were identified within a 0.125-mile search radius of the subject property. A drywell is a bored, drilled, or driven shaft equipped with a settlement chamber and injection pipe that is constructed specifically for the disposal of storm water. Drywells are not connected to the sewer and the water which enters the wells percolates into the ground. No violations were reported associated with the drywell listings in the regulatory database. Based on the nature of the listings, these sites are not expected to represent a significant environmental concern.

A copy of the regulatory database report is included in Appendix C of this report.

5.0 USER PROVIDED INFORMATION AND INTERVIEWS

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the *Brownfields Amendments*), the *User* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. The *User* should provide the following information to the *environmental professional*. Failure to provide this information could result in a determination that *all appropriate inquiries* is not complete. The *User* is asked to provide information or knowledge of the following:

- Review Title and Judicial Records for Environmental Liens and AULs
- Specialized Knowledge or Experience of the User
- Actual Knowledge of the User
- Reason for Significantly Lower Purchase Price
- Commonly Known or *Reasonably Ascertainable* information
- Degree of Obviousness
- Reason for Preparation of this Phase I ESA

Fulfillment of these user responsibilities is key to qualification for the identified defenses to CERCLA liability. Partner requested our Client to provide information to satisfy User Responsibilities as identified in Section 6 of the ASTM guidance.

Pursuant to ASTM E1527-13 and E1527-21, Partner requested the following site information from Arizona Department of Environmental Quality (User of this report).

User Responsibilities

Item	Provided By User	Not Provided By User
AAI User Questionnaire	X	
Title Records, Environmental Liens, and AULs		X
Specialized Knowledge		X
Actual Knowledge		X
Valuation Reduction for Environmental Issues		X
Identification of Key Site Manager	X	
Reason for Performing Phase I ESA	X	
Prior Environmental Reports	X	

5.1 Interviews

5.1.1 Interview with Owner

The owner of the subject property since 2004, identified as the City of Phoenix represented by Joseph MacEwan, was not aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property; any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property; or any notices from a governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.

5.1.2 Interview with Report User

Mr. Joseph MacEwan, key site manager, was also identified as the report user, further discussed in Section 5.1.1.

5.1.3 Interview with Key Site Manager

Mr. Joseph MacEwan, key site manager, was also identified as the subject property owner, further discussed in Section 5.1.1.

5.1.4 Interviews with Past Owners, Operators, and Occupants

Partner attempted to contact the prior owner of the subject property; however, contacts could not be identified for prior owners of the property. Therefore, interviews with past owners, operators and occupants were not reasonably ascertainable and thus constitute a data gap.

A copy of a Record of Communication documenting attempts to contact prior owners is provided in Appendix B of this report.

5.2 User Provided Information

5.2.1 Title Records, Environmental Liens, and AULs

At the request of the User, Partner contracted AFX Research to perform a limited chain of title and environmental lien search for the subject property. No environmental liens or AULs were identified for the subject property. The following table provides a summary of the findings from the research:

According to title records reviewed, multiple subject property parcels were purchased by Industrial Manufacturing Co in 1965 and sold to Smith Development Company in 1974 through 1983. Based on historical aerial photographs reviewed, the subject property does not appear to have been developed with an apparent large scale industrial structure nor are features visible which have indicated the property was subject to industrial use. The subject property was not listed in the regulatory database for the use of hazardous materials; however, 1965 predates modern regulatory oversight. Additionally, buildings records dated between 1965 and 1974 indicate only residential developments were present on the subject property. Based on the lack of development of the subject property as an industrial property, the ownership by Industrial Manufacturing Co does not represent an environmental concern.

Copies of pertinent pages are included in Appendix B of this report.

5.2.2 Specialized Knowledge

The User did not have specialized knowledge of environmental conditions associated with the subject property at the time of the assessment.

5.2.3 Actual Knowledge of the User

The User was not aware of environmental liens and/or AULs encumbering the subject property or in connection with the subject property at the time of the assessment.

5.2.4 Valuation Reduction for Environmental Issues

The User was not aware of any reductions in property value due to environmental issues.

5.2.5 Commonly Known or Reasonably Ascertainable Information

The User did not provide information that is commonly known or *reasonably ascertainable* within the local community about the subject property at the time of the assessment.

5.2.6 Previous Reports and Other Provided Documentation

The following information was provided to Partner for review during the course of this assessment:

Phase I Environmental Site Assessment- Proposed Site for the Family Advocacy Center, Environmental Risk Management Services, Inc (July 13, 2004)

Environmental Risk Management Services, Inc (ERMS) prepared this report on behalf of the City of Phoenix. The assessment stated it was performed in accordance with ASTM Standard E1527-00. The assessment consisted of a site reconnaissance, interviews with knowledgeable personnel, review of historical information, a review of federal, state and local regulatory databases and included a limited asbestos survey. Pertinent information contained in this report is summarized below:

- At the time of the 2004 assessment, the subject property consisted of vacant land and a two-story apartment complex at 32 East Columbus Avenue. The apartment building was comprised of 10-units; however, the building was not assessed in 2004.
- ERMS noted small quantities of demolition rubble throughout the subject property during the 2004 investigation and based on the material possibly being asbestos containing was considered a REC. Partner notes debris of this kind was not noted during the 2023 onsite reconnaissance.
- According to the ERMS report, the subject property formerly occupied for residential use in the mid 1920's until the mid-1970s.
- ERMS noted the former residences on the subject property were constructed prior to the construction of sewer services in the area and the residential structures likely utilized septic systems for disposal of sanitary sewage. ERMS further stated the site was connected to public sewer in the 1960's.
- No current or former ASTs or USTs were identified on the subject property.
- ERMS observed a small area of oil-stained surface soils on the west side of the apartment structure and recommended the surface soils be removed.

ERMS identified the possible septic tanks, oil-stained soils, and possible asbestos containing debris on the subject property as RECs. ERMS recommended if the septic tanks are encountered during the proposed redevelopment of the subject, systems be properly abandoned according to Maricopa County regulations. Additionally, ERMS recommended the scattered cement tile shards (debris) be removed as the materials were suspected to contain asbestos.

Copies of pertinent pages reviewed are not included in Appendix B of this report.

6.0 SITE RECONNAISSANCE

The weather at the time of the site visit was sunny and clear. Refer to Section 1.5 for limitations encountered during the field reconnaissance and Sections 2.1 and 2.2 for subject property operations. The table below provides the site assessment details:

Site Assessment Data

Site Assessment Performed By: Ryan Miller
Site Assessment Conducted On: December 19, 2023

The table below provides the subject property personnel interviewed during the field reconnaissance:

Site Visit Personnel for Northeast Corner of North Central and East Columbus Avenue (Subject Property)

Name	Title/Role	Contact Number	Site Walk* Yes/No
City of Phoenix; Represented by Joseph MacEwan	Owner	Joseph.macewan@phoenix.gov	No

* Accompanied Partner during the field reconnaissance activities and provided information pertaining to the current operations and maintenance of the subject property

No environmental concerns were identified during the onsite reconnaissance.

6.1 General Site Characteristics

6.1.1 Solid Waste Disposal

Due to the vacant nature of the subject property, solid waste is not currently generated on-site. No evidence of illegal dumping of solid waste was observed during the Partner site reconnaissance.

6.1.2 Sewage Discharge and Disposal

Sanitary discharges are not generated on the property due to the vacant nature of the subject property; however, sanitary discharge drains were observed on the concrete foundation observed. The City of Phoenix services the subject property vicinity. No wastewater treatment facilities or septic systems were observed or reported on the subject property.

6.1.3 Stormwater and Surface Water Drainage

Stormwater is removed from the subject property primarily by ground infiltration. No drywells were identified on the subject property.

The subject property does not appear to be a designated wetland area, based on information obtained from the United States Fish & Wildlife Service; however, a comprehensive wetlands survey would be required in order to formally determine actual wetlands on the subject property. No surface impoundments, wetlands, natural catch basins, settling ponds, or lagoons are located on the subject property. No drywells were identified on the subject property.

6.1.4 Source of Heating and Cooling

Based on the lack of onsite structures, no heating or cooling sources were observed onsite. No mechanical buildings systems were observed onsite. No hot water is supplied to the subject property.

6.1.5 Wells and Cisterns

No aboveground evidence of wells or cisterns was observed during the site reconnaissance.

6.1.6 Wastewater

Domestic wastewater generated in the vicinity of the subject property is disposed by means of the sanitary sewer system. No industrial process is currently performed at the subject property.

6.1.7 Septic Systems

No septic systems were observed or reported on the subject property.

6.1.8 Additional Site Observations

No additional general site characteristics were observed during the site reconnaissance.

6.2 Potential Environmental Hazards

6.2.1 Hazardous Substances and Petroleum Products Used or Stored at the Site

No hazardous substances or petroleum products were observed on the subject property during the site reconnaissance.

6.2.2 Aboveground & Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)

No evidence of current or former ASTs or USTs was observed during the site reconnaissance.

6.2.3 Evidence of Releases

No spills, stains, or other indications that a surficial release has occurred at the subject property were observed.

6.2.4 Polychlorinated Biphenyls (PCBs)-Containing Items

Older transformers and other electrical equipment could contain PCBs at a level that subjects them to regulation by the U.S. EPA. PCBs in electrical equipment are controlled by United States Environmental Protection Agency regulations 40 CFR, Part 761. Under the regulations, there are three categories into which electrical equipment can be classified: 1) Less than 50 parts per million (ppm) of PCBs – “Non-PCB;” 2) 50 ppm-500 ppm – “PCB-Contaminated;” and, 3) Greater than 500 ppm – “PCB-Containing.” The manufacture, process, or distribution in commerce or use of any PCB in any manner other than in a totally enclosed manner was prohibited after July 2, 1979.

The on-site reconnaissance included observations of indoor and outdoor transformers and other hydraulic equipment that may contain PCBs as tabulated below:

<i>Transformers and Hydraulic Equipment</i>				
Type of Equipment	Location	Number	PCB Containing	Concern
Pole-Mounted Transformers	West-central portion of the subject property	One	Unknown	N

The transformer is not labeled indicating PCB content. No staining or leakage was observed in the vicinity of the transformer. APS maintains ownership and operational responsibility for the transformer. Based on the good condition of the equipment, the transformer is not expected to represent a significant environmental concern.

Additionally, no other potential PCB-containing equipment (interior transformers, oil-filled switches, hoists, lifts, dock levelers, hydraulic elevators, balers, etc.) was observed on the subject property during Partner’s reconnaissance.

6.2.5 Strong, Pungent, or Noxious Odors

No strong, pungent, or noxious odors were evident during the site reconnaissance.

6.2.6 Pools of Liquid

No pools of liquid were observed on the subject property during the site reconnaissance.

6.2.7 Drains, Sumps, and Clarifiers

No drains, sumps, or clarifiers were observed on the subject property during the site reconnaissance.

6.2.8 Pits, Ponds, and Lagoons

No pits, ponds or lagoons were observed on the subject property.

6.2.9 Stressed Vegetation

No stressed vegetation was observed on the subject property.

6.2.10 Perfluoroalkyl Substances (PFAS) Containing Materials

Perfluoroalkyl and polyfluoroalkyl substances (PFAS) are a class of man-made chemicals that are widely used in industrial processes and in consumer products, including food contact surfaces (cookware, pizza boxes, fast food wrappers, etc.), polishes, waxes, paints, stain repellents, cleaning products, dust suppression for chrome plating, electronics manufacturing, oil and mining for enhanced recovery, and performance chemicals (hydraulic fluid, fuel additives, etc.). PFAS or PFA products are also used found in aqueous film forming foams (AFFF), which are used in firefighting and emergency response actions, industrial processes, landfills, and wastewater treatment effluent.

Partner evaluated the current and former subject property and adjoining property uses for the potential of PFAS impacts to the subsurface in the subject property vicinity. Partner utilized the Environmental Working Group (EWG) PFAS Contamination in the U.S. Map, https://www.ewg.org/interactive-maps/pfas_contamination/map/, to review for past use of the site as it relates to landfills and industrial activities.

Readily identifiable information related to PFAS impacts to the subsurface was not identified for the subject property or adjoining properties.

6.2.11 Refrigerant-Containing Appliances

No refrigerant-containing equipment was observed on the subject property during the site reconnaissance; however, it should be noted access to the subject property structure was not provided.

6.2.12 Additional Potential Environmental Hazards

No additional potential environmental hazards were observed on the subject property at the time of the site visit.

6.3 Adjoining Property Reconnaissance

The adjoining property reconnaissance consisted of observing the adjoining properties from the subject property premises. No items of environmental concern were identified on the adjoining properties during the site assessment, including hazardous substances, petroleum products, ASTs, USTs, evidence of releases, PCBs strong or noxious odors, pools of liquids, sumps or clarifiers, pits or lagoons, stressed vegetation, or any other potential environmental hazards.

7.0 VAPOR ENCROACHMENT CONDITIONS

Partner conducted a limited non-intrusive vapor screening on the subject property to identify, to the extent feasible, the potential for vapor encroachment conditions (VECs) in connection with the subject property. This included consideration of chemicals of concern (COC) that may migrate as vapors into the subsurface of the subject property as a result of contaminated soil and groundwater on or near the property.

This screening utilized readily available data sources previously discussed in this Phase I ESA that includes:

- the physical setting of the subject property (Section 2.4),
- standard historical sources for the subject property, adjoining, and surrounding area (Section 3.0),
- known or potentially contaminated sites as identified from information from regulatory agencies and sites on Federal, State, tribal and local databases (Section 4.0), and
- information from the site reconnaissance (Section 6.0) of the subject property and observations of the surrounding properties.

The results of our data collection, reconnaissance, and analysis are tabulated below:

<i>Potential for Vapor Encroachment to Impact the Subject Property</i>	
Area of Concern	Likely or Known VEC to Subject Property
Subject Property Existing Operations or Conditions	None identified that impact the subject property.
Historical Uses of the Subject Property	None identified that impact the subject property.
Adjoining Property Operations or Existing Conditions	None identified that impact the subject property.
Historical Uses of Adjoining Properties or Nearby Properties	None identified that impact the subject property.
Regulatory Review of sites identified on Federal, State, tribal and Local Environmental Databases which were located in the AMSD	None identified that impact the subject property.

8.0 FINDINGS AND CONCLUSIONS

Findings and Opinions

Recognized Environmental Condition

A *REC* refers to the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment. The following was identified during the course of this assessment:

- Partner did not identify any RECs during the course of this assessment.

Controlled Recognized Environmental Condition

A *CREC* refers to a *REC* affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations). The following was identified during the course of this assessment:

- Partner did not identify any CRECs during the course of this assessment.

Historical Recognized Environmental Condition

A *HREC* refers to a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations). The following was identified during the course of this assessment:

- Partner did not identify any HRECs during the course of this assessment.

Business Environmental Risk

A *BER* is a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of commercial real estate, not necessarily related to those environmental issues required to be investigated in this practice. The following was identified during the course of this assessment:

- Partner notes the first single-family residential structures were constructed on the subject property between 1912 and 1925. Based on water and sewer maps reviewed, the structures were constructed prior to the installation of the main line sewer in 1963. While records associated with septic system installation were not on file with the Maricopa County Environmental Health Services Department, possible septic systems may be present on the subject property. However, since the subject property has always been developed as residences, Partner concludes the septic systems would have likely only received typical household sanitary waste. Additionally, based on the nature of use, any historic septic tanks would not be expected to represent a significant

environmental concern; however, should any septic systems be discovered during site development activities, they should be properly removed or abandoned under Maricopa County regulations.

De Minimis Conditions

A *de minimis condition* is defined by ASTM as "a condition related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. A condition determined to be a *de minimis condition* is not considered a REC. An example of a *de minimis condition* might be a small, superficial spill of oil that is not anticipated to cause a significant concern. The following was identified during the course of this assessment:

- Partner did not identify any *de minimis conditions* during the course of this assessment.

Emerging Issues

The United States Environmental Protection Agency (USEPA) has identified per- and polyfluoroalkyl substances (PFAS) as "emerging contaminants" or "contaminants of emerging concern." Certain uses of PFAS have been prohibited, but PFAS are or have been present in fire-fighting foams, wire insulation, cleaners, textiles, apparel, carpet, leather, paper, and paints. The chemical bond between the carbon and fluorine atoms in PFAS is extremely strong and stable, making PFAS resistant to typical environmental degradation processes. The wide use and stability of PFAS provides many opportunities for human exposure to, and bioaccumulation of, these chemicals. While these chemicals are not well researched, they have been found to cause cancer or affect the liver, immune system, cholesterol levels, and thyroid.

Readily identifiable information related to PFAS impacts to the subsurface was not identified for the Subject Property or adjoining properties.

Significant Data Gaps

No significant data gaps affecting the ability of the Environmental Professional to identify a REC were encountered during this assessment.

Conclusions and Recommendations

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 and E1527-21 of Northeast Corner of North Central and East Columbus Avenue in Phoenix, Maricopa County, Arizona (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

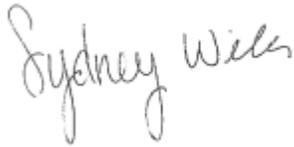

This assessment has revealed no evidence of RECs, CRECs, HRECs, or BERs in connection with the subject property. Based on the conclusions of this assessment, Partner recommends no further investigation of the subject property at this time.

9.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Partner has performed a Phase I Environmental Site Assessment of the property located at Northeast Corner of North Central and East Columbus Avenue in Phoenix, Maricopa County, Arizona in conformance with the scope and limitations of the protocol and the limitations stated earlier in this report. Exceptions to or deletions from this protocol are discussed earlier in this report.

By signing below, Partner declares that, to the best of our professional knowledge and belief, we meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR §312. Partner has the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. Partner has developed and performed the all-appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

RE: CITY DIRECTORY RESEARCH
NEC of North Central and East Columbus Avenue
Phoenix,AZ 85012

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:

125-225 of E Clarendon Ave
BEG-100 of E Columbus Ave
BEG-100 of E Weldon Ave
3450-3825 of N Central Ave

Search Notes:

Archaeology Assessment Result

Project Name: Central & Columbus Site

4400000022

Project Location: East of N Central Ave between Weldon and Columbus Aves

Project Sponsor: Planning/DSD (Ryan Miller)

Review Agencies: City of Phoenix

Survey Monitoring Testing Data Recovery

Comments:

No known archaeological sites are located within this project area.

Recommendations:

No archaeological work is necessary for this project. However, if any archaeological materials are encountered during construction, all ground-disturbing activities must cease within 10 meters of the discovery and the City of Phoenix Archaeology Office must be notified immediately and allowed time to properly assess the materials.

DUST CONTROL PERMIT APPLICATION SUBMITTAL APPLICATION

Permit Number: E205056 For Office Use Only Date Issued: APPROVED
By Mark Thompson at 8:42 am, May 08, 2020

Application Submittal

Applications may be submitted online. When the application is completed in its entirety, go to Aqbillpay.maricopa.gov. Log into an existing account or register as a new user. Select "Dust Control Permit," attach application documents, then select "Make a Payment" to complete the submittal. For a current fee schedule, see Maricopa.gov/3571.

Applications may also be submitted in person or mailed to either of the following locations:

1. Maricopa County Air Quality Department, 3800 N. Central Ave., Suite 1400, Phoenix, AZ 85012
2. One Stop Shop, 501 N. 44th St., Suite 200, Phoenix, AZ 85008

For a completed application, a Dust Control Permit Application (section 1) and a Dust Control Plan (section 2) will need to be submitted. Rule 310, Section 402 (dust control plan requirements) requires the submission of a dust control plan with your application. The Dust Control Plan is located at Maricopa.gov/1818.

No-Permit Violations: Did you receive a no-permit violation? If so, provide the permit number given to you by the inspector
 Yes No Permit Number: _____

Is this a re-application? If "Yes", provide previous permit number
 Yes No Permit Number: _____

Provide and e-mail address where we can send the permit: threeamigos@cox.net

A permit is valid for one year after the date of approval. You must re-apply for a permit more than 14 calendar days before the original permit expires. The re-application process may take up to 14 calendar days for review and processing (not including time for postal delivery) and must be approved prior to the expiration of the old permit.

Applicant Information

For all applicants, appropriate registration in the State of Arizona will be verified with the Arizona Corporation Commission or other applicable resources before a permit will be issued.

1. Applicant

Relationship to property (Check all that apply):

- Property Owner General/Prime Contractor Developer Lessee

Type of Entity:

DUST CONTROL PERMIT APPLICATION SECTION I APPLICATION

The Maricopa County Air Quality Department regulates all asbestos renovation and demolition within Maricopa County. An overview of Asbestos National Emission Standards for Hazardous Air Pollutants (NESHAP) requirements are available in the Asbestos NESHAP brochure at Maricopa.gov/DocumentCenter/View/5064.

15. Asbestos NESHAP Notification Requirements

Demolition: The wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations or the intentional burning of a facility.

Renovation: Altering a facility or one or more facility components in any way, including the stripping or removal of regulated asbestos containing material (RACM) from a facility component.

15a. Does the project include demolition or renovation?

If "Yes", provide all requested information below. If "No", proceed to section 16.

Yes

No

15b. Description of demolition/renovation activities:

15c. Has the property ever been used as a ranch, farm, business or any other commercial or industrial purpose?

Yes

No

15d. Is there a guesthouse, more than one livable structure on the property, or is work being done in conjunction with another property in the area?

Yes

No

**If you answered "No" to both questions 15c and 15d, skip to section 16.
 If you answered "Yes" to either question 15c or 15d, proceed below.**

15e. Has an asbestos inspection been conducted by an AHERA certified building inspector within 12 months before any demolition/renovation activities?

Yes

No

15f. Has a 10-Day NESHAP notification form been submitted?

If "No", you may need to file a 10-day NESHAP notification form at Maricopa.gov/1701. For more information, contact the department at 602-506-6010.

Yes

No

15g. 10-Day NESHAP notification number: _____

For Office Use Only

Demolition notification number on file: _____

Approved by: _____

Renovation notification number on file: _____

Date approved: _____

DUST CONTROL PERMIT APPLICATION - SECTION I APPLICATION

Signature(s)

16. Certification by a Responsible Official of the Applicant

A Responsible Official of the Applicant is the person who will be contacted or named in any enforcement action initiated by the Maricopa County Air Quality Department or the Maricopa County Attorney's Office. Pursuant to Rule 310, Section 401.3, the signature on the Dust Control Permit Application shall constitute agreement to accept responsibility for meeting the conditions of the Dust Control Permit and for ensuring that control measures are implemented throughout the project site and during the duration of the project.

Arizona Revised Statute § 13-2704 makes it a criminal offense to knowingly make a false material statement to a public servant in connection with an application for any benefit, privilege, or license.

I hereby certify that, based on information and belief formed after reasonable inquiry, the statements and information in the Dust Control Permit Application, including Applicant Information, Project Information, and the Dust Control Plan, are true, accurate, and complete.

Notice of Regulatory Reform in accordance with A.R.S. §11-1604

- A. A county shall not base a licensing decision in whole or in part on a licensing requirement or condition that is not specifically authorized by statute, rule, ordinance or delegation agreement. A general grant of authority does not constitute a basis for imposing a licensing requirement or condition unless the authority specifically authorizes the requirement or condition.
- B. Unless specifically authorized, a county shall avoid duplication of other laws that do not enhance regulatory clarity and shall avoid dual permitting to the maximum extent practicable.
- C. This section does not prohibit county flexibility to issue licenses or adopt ordinances or codes.
- D. A county shall not request or initiate discussions with a person about waiving that person's rights.
- E. This section may be enforced in a private civil action and relief may be awarded against a county. The court may award reasonable attorney fees, damages and all fees associated with the license application to a party that prevails in an action against a county for a violation of this section.
- F. A county employee may not intentionally or knowingly violate this section. A violation of this section is cause for disciplinary action or dismissal pursuant to the county's adopted personnel policy.
- G. This section does not abrogate the immunity provided by section 12-820.01 or 12-820.02.

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

For Office Use Only	
Permit Number: <u> E 205056 </u>	Date Issued: _____

Application Submittal

Applications may be submitted online. When the application is completed in its entirety, go to Aqbillpay.maricopa.gov. Log into an existing account or register as a new user. Select "Dust Control Permit," attach application documents, then select "Make a Payment" to complete the submittal. For a current fee schedule, see Maricopa.gov/3571.

Applications may also be submitted in person or mailed to either of the following locations:

1. Maricopa County Air Quality Department, 3800 N. Central Ave., Suite 1400, Phoenix, AZ 85012
2. One Stop Shop, 501 N. 44th St., Suite 200, Phoenix, AZ 85008

For a completed application, a Dust Control Permit Application (section 1) and a Dust Control Plan (section 2) will need to be submitted. Rule 310, Section 402 (dust control plan requirements) requires the submission of a dust control plan with your application. The following pages will become the dust control plan that will be followed for the project named in this permit.

Primary and Contingency Control Measures

Every category and/or sub-category requires at least one primary control measure and at least one contingency control measure. A contingency control measure is the back-up or secondary action(s) that need to immediately be implemented when the primary control measure(s) fails to adequately control dust emissions at the named project.

To indicate your choice, mark the box next to the appropriate letter, ("P" for primary and "C" for contingency) in front of each control measure(s) that you have chosen. Every category and/or sub-category requires at least one "P" primary and at least one "C" contingency.

- Categories and/or sub-categories of dust-generating operations (C1, C3, D1, E1, F and G) in the dust control plan have primary control measures required by rule 310. You will need to choose a contingency measure for these dust-generating operations if they are applicable to your project.
- Where there is a black box before a "P," the dust control measure **cannot** be used as a primary control measure. This measure may only be considered a contingency control measure when selected.
- Where there is a black box before a "C," the dust control measure **cannot** be used as a contingency control measure, and is required to be used as a primary control measure whenever that category and/or sub-category applies to a project.

Categories and/or Sub-Categories That are Not Applicable

When a category and/or sub-category does not apply to the named project this must be acknowledged by completely filling out the final entry in the category and/or sub-category. An explanation must be supplied for why the category and/or sub-category is not applicable. This is in addition to simply writing "NA" or "not applicable."

After your dust control permit application has been approved, you must post your dust control permit along with this dust control plan on site, as required by Rule 310, Section 409.

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

Category A: Vehicles/Motorized Equipment

A.1 Unpaved Staging Areas, Unpaved Parking Areas, and Unpaved Material Storage Areas

- P C Apply water (**fill out category I, "Water"**).
- P C Pave (Choose one of the following): Beginning of Project* During Project* End of Project*
 *Must specify additional primary control measure(s) that will be in place prior to paving.
- P C Apply and maintain gravel, recycled asphalt, or other suitable material.
- P C Apply and maintain dust suppressant(s), other than water (**fill out category J, "Dust Suppressants Other Than Water"**).
- P C Limit vehicle trips to no more than 20 per day per road and limit vehicle speeds to no more than 15 m.p.h. In the space provided: 1) list the maximum number of vehicle trips on the unpaved parking/staging/material storage areas each day (including number of employee vehicles, earthmoving equipment, haul trucks and water trucks), 2) provide a description of how vehicle speeds will be restricted to no more than 15 m.p.h., and 3) specify which area(s) this will apply to:

P C Other: Lease operations

Or, explain why this sub-category and its control measures are not applicable:

A.2 Unpaved Access Areas / Haul Roads

- P C Apply water (**fill out category I, "Water"**).
- P C Pave (Choose one of the following): Beginning of Project* During Project* End of Project*
 *Must specify additional primary control measure(s) that will be in place prior to paving.
- P C Apply and maintain gravel, recycled asphalt, or other suitable material.
- P C Apply and maintain dust suppressant(s), other than water (**fill out category J, "Dust Suppressants Other Than Water"**).
- P C Limit vehicle trips to no more than 20 per day per road and limit vehicle speeds to no more than 15 m.p.h. In the space provided: 1) list the maximum number of vehicle trips on the unpaved parking/staging/material storage areas each day (including number of employee vehicles, earthmoving equipment, haul trucks and water trucks), 2) provide a description of how vehicle speeds will be restricted to no more than 15 m.p.h., and 3) specify which area(s) this will apply to:

P C Cease operations. This option **cannot** be considered a primary control measure.

P C Other: _____

Or, explain why this sub-category and its control measures are not applicable:

Maricopa County Air Quality Department
 3800 N. Central Ave., Suite 1400, Phoenix, AZ 85012
 Phone: 602-506-6010 Fax: 602-372-0587
 AQPermits@maricopa.gov

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

Category B: Disturbed Surface Areas

B.1 Before Active Operations Occur

- P C Pre-water site to the depth of cuts (**fill out category I, "Water"**).
- P C Phase work to reduce the amount of disturbed surface area at any one time. Attach a map delineating the phases and their extent.
- P C Other: cease operations

Or, explain why this sub-category and its control measures are not applicable:

B.2 During Active Operations

- P C Apply water or other suitable dust suppressant(s) other than water (**fill out category I, "Water" or category J, "Dust Suppressants Other Than Water"**).
- P C Apply water to maintain a soil moisture content at a minimum of 12% or at least 70% of the optimum soil moisture content for areas that have an optimum moisture content for compaction of less than 12% (**fill out category I, "Water"**).
- P C In conjunction with one of the above listed measures, construct fences or three-foot to five-foot high wind barriers with 50% or less porosity adjacent to roadways or urban areas to reduce the amount of windblown material leaving the site.
- P C Cease operations. This option **cannot** be considered a primary control measure.
- P C Other: _____

Or, explain why this sub-category and its control measures are not applicable:

B.3 Stabilization for any inactive period, of any length, 24 hours per day, seven days per week including weekends, after work hours, and holidays

- P C Apply water (**fill out category I, "Water"**).
- P C Apply and maintain surface gravel or dust suppressant(s) other than water (**fill out category J, "Dust Suppressants Other Than Water"**).
- P C Cover open storage piles with tarps, plastic, or other materials such that wind will not remove the covering(s).
- P C Establish vegetative ground cover (landscaping).
- P C Other: Restrict access

Or, explain why this sub-category and its control measures are not applicable:

Maricopa County Air Quality Department
 3800 N. Central Ave., Suite 1400, Phoenix, AZ 85012
 Phone: 602-506-6010 Fax: 602-372-0587
 AQPermits@maricopa.gov

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

B.4 Permanent stabilization of disturbed surface areas required within ten days following the completion of the dust-generating operation if finished for a period of 30 days or longer

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|---|
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Pave disturbed surface areas. |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Apply and maintain gravel, recycled asphalt, or other suitable material. |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Apply and maintain dust suppressant(s) other than water (fill out category J, "Dust Suppressants Other Than Water"). |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Establish vegetative ground cover (landscaping). |
| <input type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Implement above control measures and restrict vehicle access to the area. |
| <input checked="" type="checkbox"/> | P | <input type="checkbox"/> | C | Apply water (fill out category I, "Water") and prevent access/trespassing by: |

(Check all of the following that apply)

- ditches
 fences
 berms
 shrubs
 trees
 other

- | | | | | |
|--------------------------|---|--------------------------|---|---|
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Restore area such that the vegetative ground cover and soil characteristics are similar to adjacent or nearby undisturbed native conditions (desert xeriscaping). |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Other: |

Or, explain why this sub-category and its control measures are not applicable:

Category C: Bulk Material Handling

C.1 Off-Site Hauling onto Areas Accessible to the Public

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|--|
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Required: Install, maintain, and use a suitable trackout control device that controls and prevents trackout and/or removes particulate matter from tires and the exterior surfaces of haul trucks and/or motor vehicles that traverse the site. |
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Required: When a cargo compartment is loaded, cover haul trucks with a tarp or other suitable closure <u>and</u> load all haul trucks such that the freeboard is not less than 3 inches, <u>and</u> load all haul trucks such that at no time shall the highest point of the bulk material be higher than the sides, front, and back of the cargo container area, <u>and</u> prevent spillage or loss of bulk material from holes or other openings in the cargo compartment. |
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Required: When a cargo compartment is empty, cover haul trucks with a tarp or other suitable closure <u>or</u> clean the interior of the cargo compartment before leaving the site. |

The following options **cannot** be considered as a primary control measure.

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|---|
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Apply water to the top of the load (fill out category I, "Water"). |
| <input checked="" type="checkbox"/> | P | <input type="checkbox"/> | C | Apply dust suppressant(s) other than water to the top of the load (fill out category J, "Dust Suppressants Other Than Water"). |
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Cease operations. |
| <input checked="" type="checkbox"/> | P | <input type="checkbox"/> | C | Other: |

Or, explain why this sub-category and its control measures are not applicable:

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

C.2 Hauling/Transporting within the Boundaries of the Work Site but not crossing an Area Accessible to the Public

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|---|
| <input checked="" type="checkbox"/> | P | <input type="checkbox"/> | C | Limit vehicle speed to 15 m.p.h. or less while traveling on the work site. |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Apply water to the top of the load (fill out category I, "Water"). |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Apply dust suppressant(s) other than water to the top of the load (fill out category J, "Dust Suppressants Other Than Water"). |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Cover haul trucks with a tarp or other suitable closure. |
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Cease operations. This option cannot be considered as a primary control measure. |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Other: _____ |

Or, explain why this sub-category and its control measures are not applicable:

C.3 Hauling/Transporting within the Boundaries of the Work Site and crossing and/or accessing an Area Accessible to the Public

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|---|
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Required: When a cargo compartment is loaded, cover haul trucks with a tarp or other suitable closure <u>and</u> load all haul trucks such that the freeboard is not less than 3 inches, <u>and</u> load all haul trucks such that at no time shall the highest point of the bulk material be higher than the sides, front, and back of the cargo container area, <u>and</u> prevent spillage or loss of bulk material from holes or other openings in the cargo compartment, <u>and</u> install suitable trackout control device. |
|-------------------------------------|---|-------------------------------------|---|---|

The following options **cannot** be considered as a primary control measure.

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|-------------------|
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Cease operations. |
| <input checked="" type="checkbox"/> | P | <input type="checkbox"/> | C | Other: _____ |

Or, explain why this sub-category and its control measures are not applicable:

C.4 Bulk Material Stacking, Loading, and Unloading Operations

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|---|
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Prior to stacking, loading, and unloading, mix material with water or a dust suppressant other than water, <u>and</u> while stacking, loading, and unloading, apply water or a dust suppressant other than water to material (fill out category I, "Water" or category J, "Dust Suppressants Other Than Water"). |
|-------------------------------------|---|-------------------------------------|---|---|

The following options **cannot** be considered as a primary control measure.

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|-------------------|
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Cease operations. |
| <input checked="" type="checkbox"/> | P | <input type="checkbox"/> | C | Other: _____ |

Or, explain why this sub-category and its control measures are not applicable:

Maricopa County Air Quality Department
 3800 N. Central Ave., Suite 1400, Phoenix, AZ 85012
 Phone: 602-506-6010 Fax: 602-372-0587
 AQPermits@maricopa.gov

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

C.5 Open Storage Piles

- P C Cover open storage piles with a tarp, plastic, or other material,
- P C Apply water to maintain soil moisture content at a minimum of 12% or maintain at least 70% of the optimum soil moisture content, for areas that have an optimum moisture content for compaction of less than 12% (**fill out category I, "Water"**).
- P C Maintain a visible crust.
- P C In conjunction with the two measures above, construct and maintain wind barriers, storage silos, or a three-sided enclosure with walls, whose length is no less than equal to the pile length, whose distance from the pile is no more than twice the height of the pile, whose height is equal to the pile height, and whose porosity is no more than 50%.
- P C Other: _____

Or, explain why this sub-category and its control measures are not applicable:

Category D: Trackout, Carry-out, Spillage, and Erosions

D.1 Trackout Control Device

A trackout control device must be installed if a work site has 2 acres or more of disturbed surface area or if a work site has 100 cubic yards of bulk material hauled on-site or off-site per day.

- P C **Required:** Install at all exits to an area accessible to the public at least one of the following:
(choose all that apply)
- gravel pad grizzly or rumble grate wheel wash system paved area
- P C Cease operations.
- P C Other: _____

Or, explain why this sub-category and its control measures are not applicable:

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

D.2 Cleaning of Trackout

Trackout/carry-out must be cleaned up **immediately** if trackout/carry-out extends a cumulative distance of 25 linear feet or more along an area accessible to the public, including curbs, gutters, and sidewalks.

All other trackout/carry-out must be cleaned up **no later than the end of the workday** (end of work day is the end of a working period that may include one or more work shifts. If working 24 hours a day, the end of a working period shall be considered no later than 8:00 p.m.).

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|---|
| <input type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Operate a street sweeper or wet broom with sufficient water and at the manufacturer's recommended speed (e.g. kick broom, steel bristle broom, Teflon broom, vacuum). |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Manually sweep-up deposits. |
| <input checked="" type="checkbox"/> | P | <input type="checkbox"/> | C | Other: <u>Spray Water</u> |

Or, explain why this sub-category and its control measures are not applicable:

Category E: Weed Abatement by Discing or Blading

E.1 Disturbance Operations

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|---|
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Required: Pre-water site <u>and</u> apply water during weed abatement by discing or blading (fill out category I, "Water"). |
|-------------------------------------|---|-------------------------------------|---|---|

The following options **cannot** be considered as a primary control measure.

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|-------------------|
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Cease operations. |
| <input checked="" type="checkbox"/> | P | <input type="checkbox"/> | C | Other: _____ |

Or, explain why this sub-category and its control measures are not applicable:

E.2 Stabilization

- | | | | | |
|-------------------------------------|---|-------------------------------------|---|--|
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Pave immediately following weed abatement. |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Apply gravel. |
| <input checked="" type="checkbox"/> | P | <input type="checkbox"/> | C | Apply water (fill out category I, "Water"). |
| <input type="checkbox"/> | P | <input type="checkbox"/> | C | Apply dust suppressant(s) other than water (fill out category J, "Dust Suppressants Other Than Water"). |
| <input checked="" type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Establish vegetative ground cover (landscaping). |
| <input type="checkbox"/> | P | <input checked="" type="checkbox"/> | C | Other: _____ |

Or, explain why this sub-category and its control measures are not applicable:

Maricopa County Air Quality Department
 3800 N. Central Ave., Suite 1400, Phoenix, AZ 85012
 Phone: 602-506-6010 Fax: 602-372-0587
 AQPermits@maricopa.gov

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

Category F: Blasting Operations

- P C **Required:** Pre-water and maintain surface soils in a stabilized condition where support equipment and vehicles will operate (**fill out category I, "Water"**).
- P C Apply water (**fill out category I, "Water"**).
- P C Apply and maintain dust suppressant(s) other than water (**fill out category J, "Dust Suppressants other Than Water"**).
- P C Other. This option **cannot** be considered as a primary control measure.

Or, explain why this sub-category and its control measures are not applicable:
no blasting

Category G: Demolition Activities

- P C **Required:** Apply water or water in combination with dust suppressant(s) to demolition debris immediately following demolition activity (**fill out category I, "Water" or category J, "Dust Suppressants Other Than Water"**).
- and-
- P C **Required:** Apply water or water in combination with dust suppressant(s) to all surrounding areas and to all disturbed soil surfaces immediately following demolition activity (**fill out category I, "Water" or category J, "Dust Suppressants Other Than Water"**).

The following options **cannot** be considered as a primary control measure.

- P C Thoroughly clean debris from paved and other surfaces following demolition activity.
- P C Other:

Or, explain why this sub-category and its control measures are not applicable:
no demo

Category H: Wind-Blown Dust

- P C **Required:** Ensure that all control measures and requirements of this dust control plan are implemented and the subject violations cannot be prevented by better application, operation, or maintenance of these measures and requirements.
- Cease operations for the duration of the wind event and stabilize work area by meeting **at least one of the following** standards:
 - P C
 - Maintain a soil crust.
 - Maintain a threshold friction velocity (TFV) for disturbed surface areas corrected for non-erodible elements of 100 cm/second or higher.
 - Maintain a vegetative ground cover (landscaping).
 - P C Other:

Or, explain why this sub-category and its control measures are not applicable:

Maricopa County Air Quality Department
 3800 N. Central Ave., Suite 1400, Phoenix, AZ 85012
 Phone: 602-506-6010 Fax: 602-372-0587
 AQPermits@maricopa.gov

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

Category I: Water

For each of the different project phases, indicate how the water is to be stored on or supplied to the project site in the "Supply" column, specifying the quantity and size of the supply method (e.g. (2) 3,000 gallon water towers). Also, designate how the water will be applied to control dust-generation throughout the project lifetime in the "Application" column, stating the quantity and size of the application method (e.g. 1 fire hose, (3) 1,000 gal. water trucks). Minimum water availability means water supply in conjunction with the water application system.

Soil Rating: Severe Moderate

See Appendix F of the Maricopa County Air Pollution Control Regulations at Maricopa.gov/DocumentCenter/View/5309

Soil Texture Rating	Project Phase - Site Clearing / Removal of Vegetation / Debris / Demolition	
	Total Acres Disturbed	Minimum Water Available
Severe (clay, silty clay, sandy clay)	0 - 2 acres	500 - 1,000 gallons per day
	2 - 10 acres	1,000 - 5,000 gallons per day
	10 - 100 acres	5,000 - 50,000 gallons per day
	> 100 acres	> 50,000 gallons per day
Moderate (all other classifications)	0 - 2 acres	300 - 600 gallons per day
	2 - 10 acres	600 - 3,000 gallons per day
	10 - 100 acres	3,000 - 30,000 gallons per day
	> 100 acres	> 30,000 gallons per day

Average daily disturbance in acres: 2.38 acres

Number of gallons per day: 600-3000

Supply Quantity and Size

Metered Hydrant 1-2"

Water Tower _____

Metered Pond _____

Off-Site _____

Other _____

DUST CONTROL PERMIT APPLICATION - SECTION 2, DUST CONTROL PLAN

Category J: Dust Suppressants Other Than Water

Although water is a dust suppressant, the information required by Table J should not include information on water supply and water application. The information required by Table J is for all other dust suppressants that you use. Fill out the applicable areas in the table below and attach information on environmental impacts and approvals or certifications related to appropriate and safe use for ground application. Also, attach product specification(s) and application sheet(s) or label instructions.

Application Area	Manufacturer Name	Product	Application Frequency *	Intensity**
A Vehicles/Motorized Equipment				
B Disturbed Surface Areas				
C Bulk Material Handling				
D Trackout, Carry-out, Spillage, and Erosion				
E Weed Abatement by Discing or Blading				
F Blasting Operations				
G Demolition Activities				
H Wind Event				

*How often the surface will receive a complete application of dust suppressant (e.g. 3 times a day).

**The amount used over a period of time (e.g. gallons/minute).

It is understood and agreed that permission to occupy any street, sidewalk, alley or public right-of-way must be obtained from the Division of Engineering. If such permission is granted I or WE hereby agree to promptly carry out all laws governing same, and to hold the City harmless from any costs, damages, or claims, whatsoever, arising out of, or as a result of said occupancy.
It is further understood and agreed that the issuance of this permit shall not be considered as an adoption by the Building Inspector of the manifested technical construction contained in the plans and specifications, if thereafter it can be shown that any portion of the work is in conflict with any portion of the ordinances. It is agreed that this work will be done in conformity with the laws of the City of Phoenix and the State of Arizona.
It is also understood and agreed that sanitary facilities must be furnished for jobs in excess of \$10,000 in valuation in accordance with the requirements of Ordinance G-202 of the City of Phoenix.
It is understood that the following permits are also required.

Electrical Plumbing Mechanical

Alan S. Foster
SIGNATURE OF APPLICANT—OWNER, ARCHITECT, CONTRACTOR

NOTICE - This permit authorizes the above described work to be done in accordance with the approved plans and all applicable City codes and ordinances. Plan approval and permit issuance does not authorize violation of any city code or ordinance. The contractor(s) doing the work and the property owner or tenant/occupant authorizing the work are all legally responsible for complying with all codes and ordinances. This permit expires by limitation and is null and void if work has not started within or ceased for any reason for 180 days, or if work is not completed by the expiration date printed above. Work after this time or beyond the scope of this permit requires a new supplemental permit. This permit can be suspended or revoked for failing to follow the approved plans or for violation of any City code or ordinance. Work within the public right-of-way shall comply with all City standard details and specifications. The contractor is responsible for maintaining streets and sidewalks safe and usable at all times. All barricades shall be approved in advance and shall comply with the City Traffic Barricade Manual.

Permit # WSDC 20022029 **Issued** 18-MAY-2020 **Expires** 18-MAY-2021

Permit Description 1ST HYD NEC E COLUMBUS AVE/N CENTRAL AVE

Project 20-6 2020 FIRE HYDRANT METERS

Address 32 E COLUMBUS AVE PHOENIX AZ 85012-2339 **Zoning**
 L 41 B 2 BELLA VISTA PLACE **Q S Q16-28 APN 118-33-066 Dist 04**

Description/Scope of Work: WATER SERVICE DUST CONTROL HYDRANT METER

Valve#:176
 Gate Valve: N
 HYDRANT KEY: N
 QS#:16-28

Authorization to use a Fire Hydrant Meter located at: 1ST HYDRANT NEC OF E COLUMBUS AVE/N CENTRAL AVE

Dust Control - WSDC E205056

Dust Control Fire Hydrant Meter Permits will be issued to customers seeking a temporary water source not related to a construction project but is required to maintain specific environmental measures related to a parcel of land. Issuance of this type of permit is contingent upon verification of an active Maricopa County Dust Control Permit, permissions from the property owner (if applicable) and completion of a Water Services Application/User Agreement. Annual renewal of this permit is required. This contractor has no authority to relocate or remove the meter. For removal or repair notify the Meter Shop at 602-495-0225.

All charges are due and payable when rendered and shall be delinquent 15 days after date bill is rendered. After date of delinquency, the meter is subject to removal, the service terminated, and the deposit forfeited.

A Reduced Pressure Principal Backflow Prevention Assembly (RP) is required for all connections to a fire hydrant prior to using hydrant water as required by Phoenix City Code Chapter 37 and Phoenix Plumbing Code Chapter 6. The RP Assembly shall be installed and supported per City of Phoenix Supplements to MAG Standard Detail P1356 or alternate support detail when it is not practical.

The Backflow Assembly must be tested and certified by a backflow assembly tester at the time of installation. For information call 602-534-2140. After testing and certification of the assembly, an inspection shall be required by calling 602-495-0800.

Permit # WSDC 21025919

Issued 02-AUG-2021 **Expires** 02-AUG-2022

Permit Description

Project 21-27 2021 FIRE HYDRANT METERS

Address 42 E COLUMBUS AVE PHOENIX AZ 85012 **Zoning**
L 39 B 2 BELLA VISTA PLACE **Q S Q16-28 APN 118-33-064 Dist 04**

Description/Scope of Work: WATER SERVICE DUST CONTROL HYDRANT METER

Valve#: 509
Gate Valve: N
HYDRANT KEY: N
QS#: 16-28

Authorization to use a Fire Hydrant Meter located at: From the Intersection of N 3rd Street & E Columbus Ave, go West 700' on the North Side of the Road

Dust Control WSDC (ANNUAL PERMIT RENEWAL REQUIRED)

Dust Control Fire Hydrant Meter Permits will be issued to customers seeking a temporary water source not related to a construction project but is required to maintain specific environmental measures related to a parcel of land. Issuance of this type of permit is contingent upon verification of an active Maricopa County Dust Control Permit, permissions from the property owner (if applicable) and completion of a Water Services Application/User Agreement. Annual renewal of this permit is required. This contractor has no authority to relocate or remove the meter. For removal or repair notify the Meter Shop at 602-495-0225.

All charges are due and payable when rendered and shall be delinquent 15 days after date bill is rendered. After date of delinquency, the meter is subject to removal, the service terminated, and the deposit forfeited.

A Reduced Pressure Principal Backflow Prevention Assembly (RP) is required for all connections to a fire hydrant prior to using hydrant water as required by Phoenix City Code Chapter 37 and Phoenix Plumbing Code Chapter 6. The RP Assembly shall be installed and supported per City of Phoenix Supplements to MAG Standard Detail P1356 or alternate support detail when it is not practical.

The Backflow Assembly must be tested and certified by a backflow assembly tester at the time of installation. For information call 602-534-2140. After testing and certification of the assembly, an inspection shall be required by calling 602-495-0800.

NOTICE - This permit authorizes the above described work to be done in accordance with the approved plans and all applicable City codes and ordinances. Plan approval and permit issuance does not authorize violation of any city code or ordinance. The contractor(s) doing the work and the property owner or tenant/occupant authorizing the work are all legally responsible for complying with all codes and ordinances. This permit expires by limitation and is null and void if work has not started within or ceased for any reason for 180 days, or if work is not completed by the expiration date printed above. Work after this time or beyond the scope of this permit requires a new supplemental permit. This permit can be suspended or revoked for failing to follow the approved plans or for violation of any City code or ordinance. Work within the public right-of-way shall comply with all City standard details and specifications. The contractor is responsible for maintaining streets and sidewalks safe and usable at all times. All barricades shall be approved in advance and shall comply with the City Traffic Barricade Manual.

APPLICATION NUMBER: 26568 -

VALVE: 119
GATE VALVE: NO
HYDRANT KEY: NO
QS: 16-28

Authorization to use City water from the public hydrant located at:
2ND HYDRANT E/O N.CENTRAL N/S E.COLUMBUS AVE

This meter permit is issued for a temporary water service for a specific job and is not intended to serve the needs of a contractor on a continuous basis. This contractor has no authority to relocate or remove the meter. Please notify the Development Services Department (602-262-6551) for relocation. For removal or repair, notify the Meter Shop at 602-495-0225.

All charges are due and payable when rendered and shall be delinquent 15 days after date bill is rendered. After date of delinquency, the meter is subject to removal, the service terminated and the deposit forfeited.

A Reduced Pressure Principle Backflow Prevention Assembly (RP) is required for all connections to a fire hydrant as required by City Code Chapter 37 and 2006 Uniform Plumbing Code Section 603.3.11. The RP assembly shall be installed and supported per the City Standard Detail P1356 or the alternate support detail when it is not practical.

The backflow assembly must be tested and certified by a certified backflow assembly tester prior to using hydrant water. For information, call 602-534-2140. After testing and certification of the assembly, an inspection shall be required by calling 602-495-0800 (Call before 8 pm for next day inspection), using the code "217" for inspection type. The backflow test certification report shall be made available to the City inspector at the time of inspection.

Instructions and Comments

Permit Issued By MRU Entered By LCO

Inspections Required: GENERAL

Call 602-495-0800 or go online to www.phoenix.gov/BUSINESS before 8PM to request for a next day inspection

NOTICE - This permit authorizes the above described work to be done in accordance with the approved plans and all applicable City codes and ordinances. Plan approval and permit issuance does not authorize violation of any city code or ordinance. The contractor(s) doing the work and the property owner or tenant/occupant authorizing the work are all legally responsible for complying with all codes and ordinances. This permit expires by limitation and is null and void if work has not started within or ceased for any reason for 180 days, or if work is not completed by the expiration date printed above. Work after this time or beyond the scope of this permit requires a new supplemental permit. This permit can be suspended or revoked for failing to follow the approved plans or for violation of any City code or ordinance. Work within the public right-of-way shall comply with all City standard details and specifications. The contractor is responsible for maintaining streets and sidewalks safe and usable at all times. All barricades shall be approved in advance and shall comply with the City Traffic Barricade Manual.

If permission to occupy street, sidewalk, or alley during construction is granted the occupant thereby agrees to promptly carry out all laws governing same, and to hold the City harmless from any costs, damages or claims, whatsoever, arising out of, or as a result of said occupancy.

The issuance of this permit shall not be considered as an adoption by the Building Inspector of the manifested technical construction contained in the plans and specification, if thereafter it can be shown that any portion of the work is in conflict with any portion of the ordinances. It is agreed that this work will be done in conformity with the laws of the City of Phoenix and the State of Arizona.

Sanitary facilities must be furnished for jobs in excess of \$10,000 in valuation in accordance with requirements of Ordinance G-202 of the City of Phoenix.

Instructions and Comments

Permit Issued By MHE

Entered By

Inspections Required: GENERAL

Call 602-495-0800 or go online to www.phoenix.gov/BUSINESS before 8PM to request for a next day inspection

NOTICE - This permit authorizes the above described work to be done in accordance with the approved plans and all applicable City codes and ordinances. Plan approval and permit issuance does not authorize violation of any city code or ordinance. The contractor(s) doing the work and the property owner or tenant/occupant authorizing the work are all legally responsible for complying with all codes and ordinances. This permit expires by limitation and is null and void if work has not started within or ceased for any reason for 180 days, or if work is not completed by the expiration date printed above. Work after this time or beyond the scope of this permit requires a new supplemental permit. This permit can be suspended or revoked for failing to follow the approved plans or for violation of any City code or ordinance. Work within the public right-of-way shall comply with all City standard details and specifications. The contractor is responsible for maintaining streets and sidewalks safe and usable at all times. All barricades shall be approved in advance and shall comply with the City Traffic Barricade Manual.

Rella Vista Place

owned by **Harold E. Johnson**

the following described building or appurtenances:

7 unit apt. building and carport

Type of Construction

III c

Occupancy

(G-2)

Construction to be done by:

Wilson & Van Sant

Cost:

51,000

It is understood and agreed that permission to occupy any street, sidewalk, alley or public right-of-way must be obtained from the Division of Engineering. If such permission is granted I or WE hereby agree to promptly carry out all laws governing same, and to hold the City harmless from any costs, damages, or claims, whatsoever, arising out of, or as a result of said occupancy.

It is further understood and agreed that the issuance of this permit shall not be considered as an adoption by the Building Inspector of the manifested technical construction contained in the plans and specifications, if thereafter it can be shown that any portion of the work is in conflict with any portion of the ordinances. It is agreed that this work will be done in conformity with the laws of the City of Phoenix and the State of Arizona.

It is also understood and agreed that sanitary facilities must be furnished for jobs in excess of \$10,000 in valuation in accordance with the requirements of Ordinance G-202 of the City of Phoenix.

It is understood that the following permits are also required:

Electrical

Plumbing

Mechanical

*Wilson & Van Sant by
Griffin*

City of Phoenix
PLANNING & DEVELOPMENT DEPARTMENT

November 7, 2019

Jeff Stapleton
City of Phoenix
Community Economic Development
200 West Washington Street, 20th Floor
Phoenix, Arizona 85003

Dear Applicant:

RE: Z-38-19-4 – Approximately 280 feet east of the northeast corner of Central Avenue and Columbus Avenue

Please be advised that the Phoenix City Council, in accordance with the provisions of Section 601 of the Zoning Ordinance, as amended, has on October 2, 2019, approved Zoning Ordinance # G-6627.

Development and use of the site is subject to compliance with all applicable codes and ordinances.

Sincerely,

Joshua Bednarek, LEED AP ND
Planning and Development Deputy Director

Attachment: Signed Ordinance

ORDINANCE G-6627

AN ORDINANCE AMENDING THE ZONING DISTRICT MAP ADOPTED PURSUANT TO SECTION 601 OF THE CITY OF PHOENIX ORDINANCE BY CHANGING THE ZONING DISTRICT CLASSIFICATION FOR THE PARCEL DESCRIBED HEREIN (CASE Z-38-19-4) FROM R-4 TOD-1 (MULTIFAMILY RESIDENCE DISTRICT, INTERIM TRANSIT-ORIENTED ZONING OVERLAY DISTRICT ONE) AND R-5 TOD-1 (MULTIFAMILY RESIDENCE DISTRICT, INTERIM TRANSIT-ORIENTED ZONING OVERLAY DISTRICT ONE) TO WU CODE T5 7 MT (WALKABLE URBAN CODE, TRANSECT 5 7 DISTRICT, TRANSIT MIDTOWN CHARACTER AREA)

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF PHOENIX, as follows

SECTION 1 The zoning of a 3.93 acre site located approximately 280 feet east of the northeast corner of Central Avenue and Columbus Avenue in a portion of Section 29, Township 2 North, Range 3 East, as described more specifically in Exhibit "A," is hereby changed from 2.10 acres of "R-4 TOD-1" (Multifamily Residence District, Interim Transit-Oriented Zoning Overlay District One) and 1.83 acres of "R-5 RI" (Multifamily Residence District, Interim Transit-Oriented Zoning Overlay District One) to 3.93 acres of "WU Code T5 7 MT" (Walkable Urban Code, Transect 5 7 District, Transit Midtown Character Area)

SECTION 2 The Planning and Development Director is instructed to modify the Zoning Map of the City of Phoenix to reflect this use district classification change as shown in Exhibit "B "

SECTION 3 Due to the site's specific physical conditions and the use district applied for by the applicant, this rezoning is subject to the following stipulations, violation of which shall be treated in the same manner as a violation of the City of Phoenix Zoning Ordinance

- 1 A minimum 10-foot wide open space area shall be provided along the western property line, as approved by the Planning and Development Department
- 2 The development shall provide a shaded pedestrian accessway through the center of the site from east to west connecting to the open space area along the western property line, as approved by Planning and Development Department
- 3 The development shall provide a minimum of one shaded pedestrian accessway across the site from north to south, as approved by the Planning and Development Department This shall be separate and distinct from any pedestrian accessway located in the open space area in Stipulation No 1
- 4 Bicycle parking shall be provided as follows
 - a All required bicycle parking for multifamily use, per Section 1307 H 6 d of the Phoenix Zoning Ordinance, shall be secured parking
 - b Guest bicycle parking for multifamily residential use shall be provided at a minimum of 0 05 spaces per unit with a maximum of 50 spaces near entrances of buildings and installed per the requirements of Section 1307 H of the Phoenix Zoning Ordinance
- 5 The developer shall record a Notice to Prospective Purchasers of proximity to Airport in order to disclose the existence and operational characteristics of Phoenix Sky Harbor International Airport (PHX) to future owners or tenants of the property

- 6 In the event archaeological materials are encountered during construction, the developer shall immediately cease all ground-disturbing activities within a 33-foot radius of the discovery, notify the City Archaeologist, and allow time for the Archaeology Office to properly assess the materials
- 7 The site plan and elevations shall be reviewed by the Encanto Village Planning Committee for review and comment prior to preliminary site plan approval once a successful proposer is selected as part of the Request for Proposals

SECTION 4 If any section, subsection, sentence, clause, phrase or portion of this ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions hereof

PASSED by the Council of the City of Phoenix this 2nd day of October 2019

Encanto Village Planning Committee Hearing Date August 5, 2019

Planning Commission Hearing Date September 5, 2019

Request From: R-4 TOD-1 (2.10 acres) and R-5 TOD-1 (1.83 acres)

Request To: WU Code T5:7 MT (Walkable Urban Code, Transect 5:7 District, Transit Midtown Character Area) (3.93 acres)

Proposed Use: Multifamily Residential

Location: Approximately 280 feet east of the northeast corner of Central Avenue and Columbus Avenue

Owner: City of Phoenix Housing Department

Applicant: City of Phoenix Planning Commission

Representative: City of Phoenix, Community and Economic Development Department

Staff Recommendation: Approval, subject to stipulations

<u>General Plan Conformity</u>			
<u>General Plan Land Use Map Designation</u>		Commercial	
<u>Street Map Classification</u>	Weldon Avenue	Local	27-foot south half
	Columbus Avenue	Local	27-foot north half
<p><i>CELEBRATE OUR DIVERSE COMMUNITIES AND NEIGHBORHOODS CORE VALUE; DIVERSE NEIGHBORHOODS; LAND USE PRINCIPLE: Include a mix of housing types and densities where appropriate within each village that support a broad range of lifestyles.</i></p> <p>The proposed development will provide affordable housing options in the Encanto Village. The site is within a quarter mile of light rail and located between two light rail transit stations. Affordable housing will contribute to the broad range of lifestyles in the Midtown Transit Oriented Development (TOD) District.</p>			

CONNECT PEOPLE AND PLACES CORE VALUE; TRANSIT ORIENTED DEVELOPMENT; LAND USE PRINCIPLE: Encourage high-density housing and high intensity employment uses to locate adjacent or close to transit stations per adopted transit district plans.

The site is located within the Midtown Transit Oriented Development (TOD) District and is located within a quarter mile from the Central Avenue and Osborn Road light rail transit station. The proposed multifamily development is appropriate at this location given that the site is adjacent to multiple modes of transportation options along Central Avenue.

Surrounding Land Uses/Zoning

	<u>Land Use</u>	<u>Zoning</u>
On Site	Vacant	R-4 TOD-1 and R-5 TOD-1
North	Parking lot, multifamily residential, single-family residential, vacant lot and office	R-4 TOD-1, P-1 TOD-1 and C-2 TOD-1
South	Vacant lots, single-family home and United Phoenix Fire Fighter Association Office	R-4 TOD-1 and C-O TOD-1
East	Office building and multifamily residential	C-O TOD-1 and R-4 TOD-1
West	Multifamily (currently under construction)	WU Code T5:7 MT

Background/Issues/Analysis

1. This request is to rezone a 3.93-acre site located approximately 280 feet east of the northeast corner of Central Avenue and Columbus Avenue from R-4 TOD-1 (Multifamily Residence District, Interim Transit-Oriented Zoning Overlay District One) and R-5 TOD-1 (Multifamily Residence District, Interim

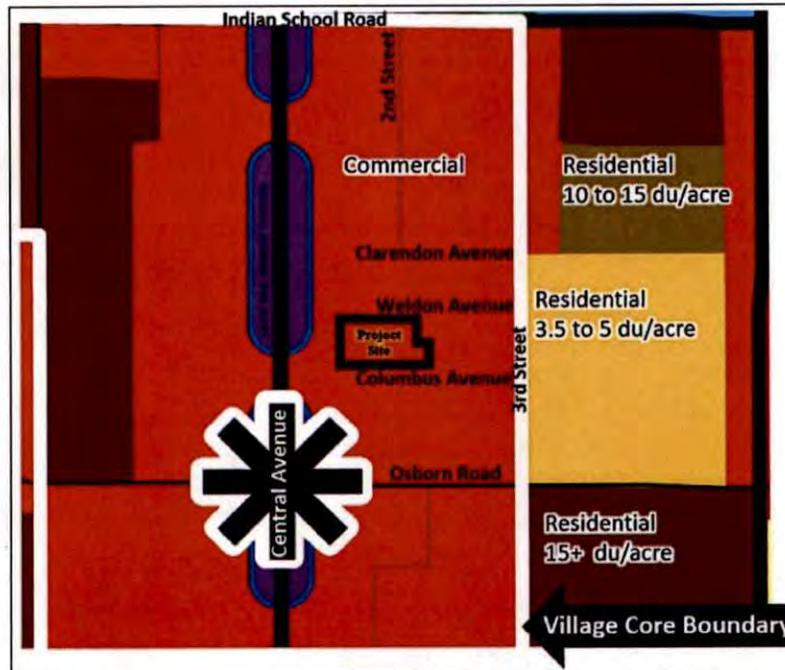

Source: City of Phoenix Planning and Development Department

Transit-Oriented Zoning Overlay District One) to WU Code T5:7 MT (Walkable Urban Code, Transect 5:7 District, Transit Midtown Character Area) to allow development of multifamily residential. The subject site consists of 21 parcels under the ownership of the City of Phoenix Housing Department.

2. The General Plan Land Use Map designation is Commercial. The proposal is consistent with the Commercial General Plan Land use map designation.

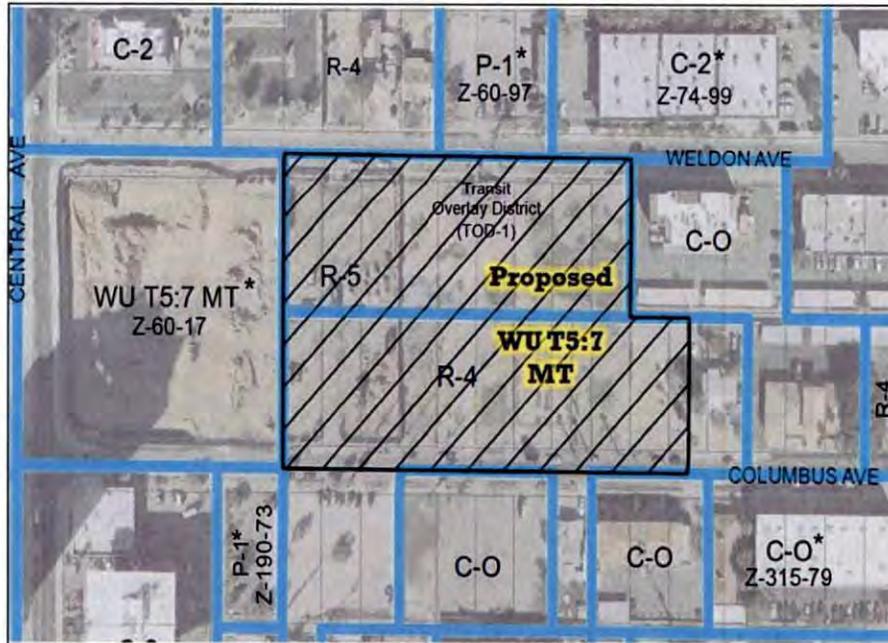

The surrounding General Plan Land Use Map designation is Commercial.

Source: City of Phoenix Planning and Development Department

SURROUNDING USES AND ZONING

3. The subject site is currently vacant and zoned R-5 TOD-1 (Multifamily Residence District, Interim Transit-Oriented Zoning Overlay District One) and R-4 TOD-1 (Multifamily Residence District, Interim Transit-Oriented Zoning Overlay District One).

Source: City of Phoenix Planning and Development Department

NORTH

North of the subject site, across Weldon Avenue, is a surface parking lot, vacant lot, multifamily residential and a single-family residential home zoned R-4 TOD-1 (Multifamily Residence District, Interim Transit-Oriented Zoning Overlay District One); a vacant lot that is temporarily being used for storage of construction equipment zoned P-1 TOD-1 (Parking District, Interim Transit-Oriented Zoning Overlay District One); and an office building zoned C-2 TOD-1 (Intermediate Commercial District, Interim Transit-Oriented Zoning Overlay District One).

SOUTH

South of the subject site, across Columbus Avenue, are vacant lots and a single-family home zoned R-4 TOD-1 and C-O TOD-1 (Commercial Office-Restricted Commercial District, Interim Transit-Oriented Zoning Overlay District One); and the Unified Phoenix Fire Fighter Association office building zoned C-O TOD-1 (Commercial Office-Restricted Commercial District, Interim Transit-Oriented Zoning Overlay District One).

EAST

East of the subject site, adjacent to Weldon Avenue, is an office building zoned

C-O TOD-1 East of the subject site, adjacent to Columbus Avenue, is multifamily residential zoned R-4 TOD-1

WEST

West of the subject site is a multifamily development that is currently under construction zoned WU Code T5 7 MT (Walkable Urban Code, Transect 5 7 District, Transit Midtown Character Area)

PROPOSAL

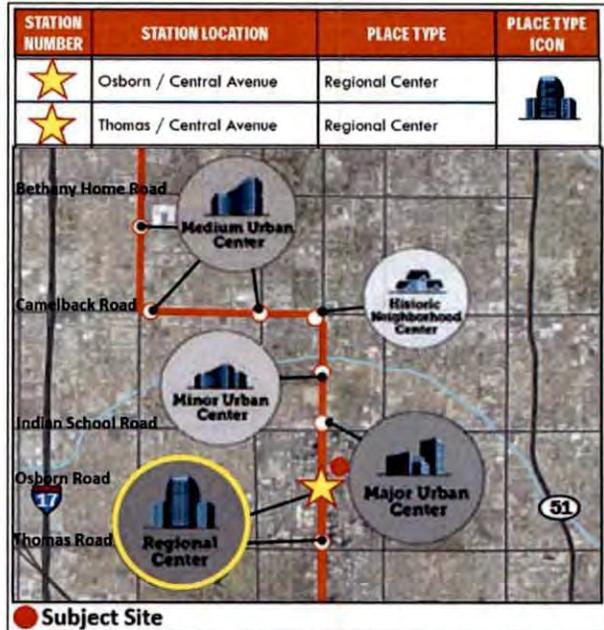

- 4 The proposal is a collaborative effort between the City of Phoenix Housing Department and Community and Economic Development Department (CED) to rezone the site for future development of multifamily residential. Upon rezoning of the properties to WU Code, CED will collaborate with the Housing Department to release a request for proposal (RFP) for the development of the site. Affordable housing will be a component of the RFP.

- 5 Although a site plan and elevations were not included as part of this proposal, it will be included in the forthcoming RFP. The WU Code development standards will promote a pedestrian-friendly development. Staff has requested that the development provide pedestrian accessways across the site and through the center of the site to terminate at a 10-foot wide open space area along the west property line. These are addressed in Stipulation Nos 1, 2 and 3. The intent of the open space along the west is to provide an active gathering area adjacent to the pedestrian accessway planned for the adjacent mixed use project to the west. To encourage use of the open space area and adjacent pedestrian pathway, the ultimate building design should include building entrances and windows to activate the accessway which will provide a safe place for pedestrians.

AREA PLANS, OVERLAY DISTRICTS, AND INITIATIVES

6. **Transit Oriented Development Strategic Policy Framework**

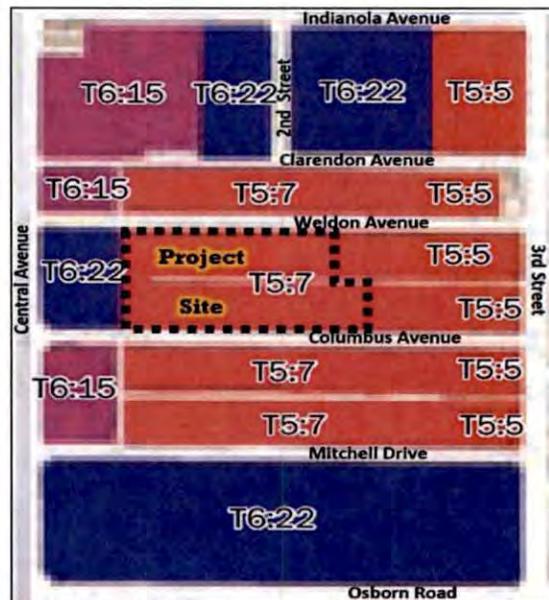

The Transit Oriented Development Strategic Policy Framework is part of the city's General Plan which identified planning typologies to describe urban environments. The subject site is located within a quarter mile of the Central Avenue and Osborn Road station area. The identified environment for this light rail station is Regional Center. Regional Center is a place type characterized by high intensity with building heights typically from five to ten stories with incentive heights of up to 20 stories. Land uses may include supportive retail, high-rise and mid-rise living, industry cluster and office employment. The proposed transect falls within the T5:7 parameters of the Regional Center place type.

Source: City of Phoenix Planning and Development Department

7. **Midtown Transit Oriented Development District Policy Plan**

The site is located within the Midtown TOD (Transit Oriented Development) District, the boundaries for which are McDowell Road on the south, Indian School Road on the north 7th Street on the east and 7th Avenue on the west. The policy plan adopted for the Midtown TOD District provides a blueprint for fully achieving the transformative potential of light rail in a sustainable manner. Changes advocated in the plan can lower transportation costs for residents, create new business opportunities, encourage active, healthy lifestyles, ensure Phoenix increases its competitive advantage in the

Source: City of Phoenix Planning and Development Department

global marketplace and improve prosperity by growing the economy in locations with existing infrastructure and public services. In order to realize the implementation of the Vision and Master Plan for the Midtown TOD District, one key recommendation is the implementation of a form-based zoning code. The proposal to Walkable Urban Code furthers that vision.

The Midtown TOD Policy Plan utilized the Regional Center place type to determine the recommended scale and character of the area around the Central Avenue and Osborn Road light rail station and this scale and character was illustrated in both the conceptual master plan and the conceptual zoning plan. The subject site has a suggested zoning designation of T5:7 with a maximum building height of 100 feet. The applicant has proposed a transect of T5:7, which is consistent with the Midtown TOD Policy Plan.

The Midtown TOD policy plan's current state assessment for housing indicated that the Midtown area has significant housing affordability challenges, noting that approximately 88% of low-income residents in Midtown are cost burdened and struggling to pay rent and do not have subsidies. The affordable housing strategy report for the Midtown District, completed in 2014, indicated that 2,182 affordable units were needed. The current proposal will add to the stock of affordable housing in the area.

8. In the Midtown Tomorrow Chapter, Vision for 2040, the master plan identified the subject property as an opportunity site for affordable housing. The proposal supports the policy plan's vision and will allow the Housing Department to move forward with the RFP for the site.

Source: City of Phoenix Planning and Development Department, Midtown TOD Policy Plan Conceptual Master Plan.

9. **Tree and Shade Master Plan**

The Tree and Shade Master Plan has a goal of treating the urban forest as infrastructure to ensure that trees are an integral part of the city's planning and

development process. Toward that end, staff is requesting that a minimum of two uninterrupted pedestrian pathways be provided on the site. The general development standards of the WU Code require that 75 percent of sidewalks or pedestrian ways be shaded. WU Code standards will require shade and add to the tree canopy in the Village.

10 Complete Streets Guiding Principles

In 2014, the City of Phoenix City Council adopted the Complete Streets Guiding Principles. The principles are intended to promote improvements that provide an accessible, safe, connected transportation system to include all modes, such as bicycles, pedestrians, transit and vehicles. The WU Code Midtown Character Area requires minimum 5-foot-wide detached sidewalk with minimum 5-foot-wide landscaping between the sidewalk and back of curb along local streets. This requirement promoted the goals of the Complete Streets Guiding Principles.

11 Comprehensive Bicycle Master Plan

The Comprehensive Bicycle Master Plan supports options for both short- and long-term bicycle parking as a means of promoting bicyclist traffic to a variety of destinations. It is recommended that two types of parking be provided on the property: secured parking for residents, and short-term rack parking for guests located near entrances to the building. The WU Code will require bicycle parking. Staff has also requested that the required bike parking for residential be secured and that guest bike parking be provided on the site. This is addressed in Stipulation No. 4.

COMMUNITY INPUT SUMMARY

- 12 At the time this staff report was written, staff had not received any public correspondence regarding the request.

INTERDEPARTMENTAL COMMENTS

- 13 The City of Phoenix Water Services Department has noted the property has existing water and sewer mains that can potentially serve the proposed development. However, there is a potential need to up size existing water and sewer infrastructure mains so that any remodels or new buildings will be able to meet domestic and fire code requirements.
- 14 The Aviation Department has noted that the developer shall provide notice to prospective purchasers of the existence and operational characteristics of the Phoenix Sky Harbor International Airport (PHX). This is addressed in Stipulation No. 5.
- 15 The Fire Department commented that they do not anticipate any problems with this case. However, they noted that the site and/or buildings shall comply with the Phoenix Fire Code.

- 16 The City of Phoenix Floodplain Management division of the Public Works Department has determined that this parcel is not in a Special Flood Hazard Area (SFHA), but is located in a Shaded Zone X, on panel 2205 L of the Flood Insurance Rate Maps (FIRM) dated October 16, 2013

OTHER

- 17 The site has not been identified as being archaeologically sensitive. However, in the event archaeological materials are encountered during construction, all ground disturbing activities must cease within 33-feet of the discovery and the City of Phoenix Archaeology Office must be notified immediately and allowed time to properly assess the materials. This is addressed in Stipulation No. 6
- 18 As part of the Reimagine Phoenix Initiative, the City of Phoenix is committed to increasing the waste diversion rate to 40 percent by 2020 and to better manage its solid waste resources. Section 716 of the Phoenix Zoning Ordinance establishes standards to encourage the provision of recycling containers for multifamily, commercial and mixed-use developments meeting certain criteria. The applicant indicated that that RFP will ask that the development proposal contribute to the vision of reducing the diversion rate by 2020.
- 19 Development and use of the site is subject to all applicable codes and ordinances. Zoning approval does not negate other ordinance requirements. Zoning adjustments, abandonments or other formal actions may also be required.

Findings

- 1 The proposal is consistent with the Midtown TOD master plan's vision for affordable housing on the subject site.
- 2 The proposal provides a new housing option to contribute to the mix of housing types in the area and addresses the Midtown TOD Policy Plan's goals for more housing in the district.
- 3 As stipulated, the pedestrian pathways will contribute to the walkability and connectivity in the area.

Stipulations

- 1 A minimum 10-foot wide open space area shall be provided along the western property line, as approved by the Planning and Development Department.

- 2 The development shall provide a shaded pedestrian accessway through the center of the site from east to west connecting to the open space area along the western property line, as approved by Planning and Development Department
- 3 The development shall provide a minimum of one shaded pedestrian accessway across the site from north to south, as approved by the Planning and Development Department This shall be separate and distinct from any pedestrian accessway located in the open space area in Stipulation No 1
- 4 Bicycle parking shall be provided as follows
 - a All required bicycle parking for multifamily use, per Section 1307 H 6 d of the Phoenix Zoning Ordinance, shall be secured parking
 - b Guest bicycle parking for multifamily residential use shall be provided at a minimum of 0 05 spaces per unit with a maximum of 50 spaces near entrances of buildings and installed per the requirements of Section 1307 H of the Phoenix Zoning Ordinance
- 5 The developer shall record a Notice to Prospective Purchasers of proximity to Airport in order to disclose the existence and operational characteristics of Phoenix Sky Harbor International Airport (PHX) to future owners or tenants of the property
- 6 In the event archaeological materials are encountered during construction, the developer shall immediately cease all ground-disturbing activities within a 33-foot radius of the discovery, notify the City Archaeologist, and allow time for the Archaeology Office to properly assess the materials

City of Phoenix
PLANNING AND DEVELOPMENT DEPARTMENT

To City of Phoenix Planning Commission **Date** September 5, 2019

From Maja Brkovic
Planner II* Village

Subject ITEM NO 8 (Z-38-19-4) – APPROXIMATELY 280 FEET EAST OF THE
NORTHEAST CORNER OF CENTRAL AVENUE AND COLUMBUS AVENUE

This memo is to address staff comments regarding the Encanto Village Planning Committee recommendation for Z-38-19-4 and to provide a revised staff recommendation that incorporates the Village Planning Committee recommendation with a modification to the added stipulation

At the August 5, 2019 Encanto Village Planning Committee meeting, the Committee recommended approval by a vote of 10-1 to approve Z-38-19-4, a request for WU Code Transect 5.7 MT to allow multifamily residential per the staff recommendation with an additional stipulation. The property is currently owned by the City of Phoenix Housing Department. The Housing Department will work in conjunction with the Community and Economic Development Department to select a future developer of the property through a formal procurement process. The added stipulation required that the site plan and elevations be reviewed by the Village Planning Committee once a successful proposer is selected as part of the Request for Proposal. Staff is requesting that the stipulation be modified to provide clarity and capture the intent of the stipulation.

STAFF RECOMMENDED STIPULATIONS FOR Z-38-19-4

- 1 A minimum 10-foot wide open space area shall be provided along the western property line, as approved by the Planning and Development Department
- 2 The development shall provide a shaded pedestrian accessway through the center of the site from east to west connecting to the open space area along the western property line, as approved by Planning and Development Department
- 3 The development shall provide a minimum of one shaded pedestrian accessway across the site from north to south, as approved by the Planning and Development Department This shall be separate and distinct from any pedestrian accessway located in the open space area in Stipulation No 1
- 4 Bicycle parking shall be provided as follows
 - a All required bicycle parking for multifamily use, per Section 1307 H 6 d of the Phoenix Zoning Ordinance, shall be secured parking
 - b Guest bicycle parking for multifamily residential use shall be provided at a minimum of 0.05 spaces per unit with a maximum of 50 spaces near entrances of buildings and installed per the requirements of Section 1307 H of the Phoenix Zoning Ordinance
- 5 The developer shall record a Notice to Prospective Purchasers of proximity to Airport in order to disclose the existence and operational characteristics of Phoenix Sky Harbor International Airport (PHX) to future owners or tenants of the property
- 6 In the event archaeological materials are encountered during construction, the developer shall immediately cease all ground-disturbing activities within a 33-foot radius of the discovery, notify the City Archaeologist, and allow time for the Archaeology Office to properly assess the materials
- 7 **THE SITE PLAN AND ELEVATIONS SHALL BE REVIEWED BY THE ENCANTO VILLAGE PLANNING COMMITTEE FOR REVIEW AND COMMENT PRIOR TO PRELIMINARY SITE PLAN APPROVAL ONCE A REQUEST FOR PROPOSAL (RFP) SUCCESSFUL PROPOSER IS SELECTED AS PART OF THE REQUEST FOR PROPOSALS**

**93 Amend City Code - Ordinance Adoption - Rezoning Application
Z-38-19-4 - Approximately 280 Feet East of the Northeast Corner of
Central Avenue and Columbus Avenue (Ordinance G-6627)**

Request to amend the Phoenix Zoning Ordinance, Section 601, the Zoning Map of the City of Phoenix, by adopting Rezoning Application Z-38-19-4 and rezone the site from R-4 TOD-1 and R-5 TOD-1 to WU Code T5:7 MT to allow multifamily housing use.

Summary

Current Zoning: R-4 TOD-1 (2.10 acres) and R-5 TOD-1 (1.83 acres)

Proposed Zoning: WU Code T5:7 Midtown Character Area

Acreage: 3.93

Proposed Use: Multifamily housing

Owner: City of Phoenix Housing Department

Representative: City of Phoenix Community and Economic Development
Department

Applicant: City of Phoenix Planning Commission

Staff Recommendation: Approval, subject to stipulations.

VPC Action: The Encanto Village Planning Committee heard this case on Aug. 5, 2019 and recommended approval per the staff recommendation with an additional stipulation by a 10-1 vote.

PC Action: The Planning Commission heard this case on Sept. 5, 2019 and recommended approval per the staff memo dated Sept. 5, 2019 by an 8-0 vote.

Location

Approximately 280 feet east of the northeast corner of Central Avenue and Columbus Avenue.

Council District: 4

Parcel Addresses: 25, 29, 33, 37, 45, 49, 51 and 55 E Weldon Ave. and 26, 28, 32, 42, 46, 50, 52, 54 and 64 E. Columbus Ave.

This item was adopted.

**94 Amend City Code - Official Supplementary Zoning Map 1188
(Ordinance G-6629)**

REPORT OF PLANNING COMMISSION ACTION
September 5, 2019

ITEM NO 8	
	DISTRICT NO 4
SUBJECT	
Application #	Z-38-19-4
Location	Approximately 280 feet east of the northeast corner of Central Avenue and Columbus Avenue
From	R-4 TOD-1 R-5 TOD-1
To	WU Code T5 7 MT
Acreage	3 93
Proposal	Multifamily housing
Applicant	City of Phoenix Planning Commission
Owner	City of Phoenix Housing Department
Representative	City of Phoenix, CED

ACTIONS

Staff Recommendation Approval, subject to stipulations

Village Planning Committee (VPC) Recommendation

Camelback East 8/5/2019 Approval, per the staff recommendation and an additional stipulation Vote 10-1

Planning Commission Recommendation Approval, per the staff memo dated September 5, 2019

Motion Discussion Commissioner Shank made a MOTION to approve Z-38-19-4, per the staff memo dated September 5, 2019

Commissioner Mangum seconded the motion

Commissioner Howard asked staff what the official policy is for the Village Planning Committee asking for stipulations allowing them discretion over the site plan and elevations before being reviewed by someone else

Ms Escobar responded that in general there is no official policy, but if that is something the Village has requested it is just a review and comment and they do not have to provide any type of recommendation The applicant is just going back to the Village to provide additional information on what is being proposed on this specific site For this site there is not a development proposed The Community and Economic Development Department will be working on a procurement process, an RFP (Request for Proposal) and once a developer is chosen they will present that project to the Village

Commissioner Howard clarified that it is not an approval, but a notice requirement and voiced a concern that it sets a precedent when Villages can supplant the judgement of the city planners with their own

Commissioner Glenn questioned if it is put out for an RFP and pursued LIHTC (Low Income Housing Tax Credits) then is this an extra hurdle that could sink a potential LIHTC application

Ms Cindy Stotler, City of Phoenix Housing Director, responded that the Housing Department does own this property and is working on the RFP with the Community and Economic Development Department. We are hoping to not have a low-income housing tax credit project on this site simply because of this size. Usually a low-income housing tax project is a maximum of 75 to 100 units. We are looking for a couple hundred to 300 units. The proposal is for 75 project-based vouchers, and we are trying to get a mix of affordable and workforce housing. We really want a market rate developer to come in on a larger scale development.

Commissioner Glenn stated that it might be something that should be tracked if we are looking for LIHTC applications on other projects. The stipulation could impact a potential applicant's ability to access that program.

Ms Stotler responded that Commissioner Glenn was correct, because of such a tight timeline to get that application, and get it approved with Housing and the Planning and Development Department with the city, that would be a difficult thing to do.

Mr Bednarek added to Commissioner Howard's comment about the added stipulation. The only time we see that stipulation is if there are no site plans and elevations associated with the request. One of the requirements to proceed through the rezoning process is that you have site plans and elevations. In some instances, the project is just not there yet, and it is sort of a tradeoff to let the applicant have the entitlements and come back once a developer is in place and they know what the site is going to look like. We have found that collaboration between the Village Planning Committees and the developer is a good compromise, so they can go forward and get the site entitled.

Motion details. Commissioner Shank made a MOTION to approve Z-38-19-4, per the staff memo dated September 5, 2019.

Maker Shank
Second Mangum
Vote 8-0
Absent Gaynor
Opposition Present No

Findings

- 1 The proposal is consistent with the Midtown TOD master plan's vision for affordable housing on the subject site.
- 2 The proposal provides a new housing option to contribute to the mix of housing types in the area and addresses the Midtown TOD Policy Plan's goals for more housing in the district.
- 3 As stipulated, the pedestrian pathways will contribute to the walkability and connectivity in the area.

Stipulations

- 1 A minimum 10-foot wide open space area shall be provided along the western property line, as approved by the Planning and Development Department
- 2 The development shall provide a shaded pedestrian accessway through the center of the site from east to west connecting to the open space area along the western property line, as approved by Planning and Development Department
- 3 The development shall provide a minimum of one shaded pedestrian accessway across the site from north to south, as approved by the Planning and Development Department This shall be separate and distinct from any pedestrian accessway located in the open space area in Stipulation No 1
- 4 Bicycle parking shall be provided as follows
 - a All required bicycle parking for multifamily use, per Section 1307 H 6 d of the Phoenix Zoning Ordinance, shall be secured parking
 - b Guest bicycle parking for multifamily residential use shall be provided at a minimum of 0 05 spaces per unit with a maximum of 50 spaces near entrances of buildings and installed per the requirements of Section 1307 H of the Phoenix Zoning Ordinance
- 5 The developer shall record a Notice to Prospective Purchasers of proximity to Airport in order to disclose the existence and operational characteristics of Phoenix Sky Harbor International Airport (PHX) to future owners or tenants of the property
- 6 In the event archaeological materials are encountered during construction, the developer shall immediately cease all ground-disturbing activities within a 33-foot radius of the discovery, notify the City Archaeologist, and allow time for the Archaeology Office to properly assess the materials
- 7 THE SITE PLAN AND ELEVATIONS SHALL BE REVIEWED BY THE ENCANTO VILLAGE PLANNING COMMITTEE FOR REVIEW AND COMMENT PRIOR TO PRELIMINARY SITE PLAN APPROVAL ONCE A REQUEST FOR PROPOSAL (RFP) SUCCESSFUL PROPOSER IS SELECTED AS PART OF THE REQUEST FOR PROPOSALS

Item #	8
Application #	Z-38-19-4
From	R-4 TOD-1, R-5 TOD-1
To	WU Code T5 7 MT
Acreage	3 93
Location	Approximately 280 feet east of the northeast corner of Central Avenue and Columbus Avenue
Proposal	Multifamily housing
Applicant	City of Phoenix Planning Commission
Owner	City of Phoenix Housing Department
Representative	City of Phoenix, CED

Ms Racelle Escolar stated that Item No 8 is Z-38-19-4, a request to rezone 3 93 acres located approximately 280 feet east of the northeast corner of Central Avenue and Columbus Avenue

The request is to rezone from R-4 (Multifamily Residence District) TOD-1 (Interim Transit-Oriented Zoning Overlay District One), and R-5 TOD-1 to Walkable Urban Code Transect 5 7 District in the Transit Midtown Character Area to allow multifamily housing

The Encanto Village Planning Committee recommended approval, per the staff recommendation with an additional stipulation by a 10-1 vote

The additional stipulation requires that the site plan and elevations be reviewed by the Village Planning Committee once a successful proposer is selected as part of Community and Economic Development Department's RFP (Request for Proposal) process

Staff recommends approval, per the staff memo dated September 5, 2019 The memo addresses the stipulation added by the Village Planning Committee, modifying it to specify that the Village Planning Committee will review and comment on the site plan and elevations prior to preliminary site plan approval

Commissioner Shank made a MOTION to approve Z-38-19-4, per the staff memo dated September 5, 2019

Commissioner Mangum SECONDED

Commissioner Howard asked staff what the official policy is for the Village Planning Committee asking for stipulations allowing them discretion over the site plan and elevations before being reviewed by someone else

Ms Escolar responded that in general there is no official policy, but if that is something the Village has requested it is just a review and comment and they do not have to provide any type of recommendation The applicant is just going back to the Village to provide additional information on what is being proposed on this specific site For this site there is not a development proposed The Community and Economic

Development Department will be working on a procurement process, an RFP (Request for Proposal) and once a developer is chosen they will present that project to the Village

Commissioner Howard clarified that it is not an approval, but a notice requirement and voiced a concern that it sets a precedent when Villages can supplant the judgement of the city planners with their own

Commissioner Glenn questioned if it is put out for an RFP and pursued LIHTC (Low Income Housing Tax Credits) then is this an extra hurdle that could sink a potential LIHTC application

Ms Cindy Stotler, City of Phoenix Housing Director, responded that the Housing Department does own this property and is working on the RFP with the Community and Economic Development Department We are hoping to not have a low-income housing tax credit project on this site simply because of this size Usually a low-income housing tax project is a maximum of 75 to 100 units We are looking for a couple hundred to 300 units The proposal is for 75 project-based vouchers, and we are trying to get a mix of affordable and workforce housing We really want a market rate developer to come in on a larger scale development

Commissioner Glenn stated that it might be something that should be tracked if we are looking for LIHTC applications on other projects The stipulation could impact a potential applicant's ability to access that program

Ms Stotler responded that Commissioner Glenn was correct, because of such a tight timeline to get that application, and get it approved with Housing and the Planning and Development Department with the city, that would be a difficult thing to do

Mr Bednarek added to Commissioner Howard's comment about the added stipulation The only time we see that stipulation is if there are no site plans and elevations associated with the request One of the requirements to proceed through the rezoning process is that you have site plans and elevations In some instances, the project is just not there yet, and it is sort of a tradeoff to let the applicant have the entitlements and come back once a developer is in place and they know what the site is going to look like We have found that collaboration between the Village Planning Committees and the developer is a good compromise, so they can go forward and get the site entitled

There being no further discussion, Chairman Johnson called for a vote and the MOTION PASSED 8-0 (Gaynor absent)

Stipulations

- 1 A minimum 10-foot wide open space area shall be provided along the western property line, as approved by the Planning and Development Department
- 2 The development shall provide a shaded pedestrian accessway through the center of the site from east to west connecting to the open space area along the

western property line, as approved by Planning and Development Department

- 3 The development shall provide a minimum of one shaded pedestrian accessway across the site from north to south, as approved by the Planning and Development Department This shall be separate and distinct from any pedestrian accessway located in the open space are in Stipulation No 1

Jayson Matthews
Aaron Searles

STAFF PRESENT

Maja Brkovic

Note Agenda items were heard out of order in the following sequence 1, 2, 4, 3, 5, 6, 7, 8, 9 and 10

1 Call to order, introductions, and announcements by Chair

Chairman Jake Adams called the meeting to order at 6 19 pm with a quorum of 10 Members and noted that Mr Mahrle was newly appointed to the committee
Committee members introduced themselves

At this point in the meeting Mr Brent Kleinman arrived, bringing the quorum to 11 members

2 Review and approval of the July 1, 2019 meeting minute

Ms Rebecca Wininger noted a correction to the vote on item number X

Mr Steve Procaccini provided correction to his comments regarding dust proofing

Motion

Mr Matthew Jewett made a motion to approve the June 1, 2019 meeting minutes with the corrections identified

Mr Drew Bryck seconded the motion

The motion passed with a vote of 11-0

3 Z-38-19-4 Presentation, discussion and possible recommendation regarding a request to rezone 3 03 acres located approximately 280 feet of the northeast corner

of Central Avenue and Columbus Avenue from R-4 TOD-1 (2 10 acres), R-5 TOD-1 (1 83 acres) to WU Code T5 7 to allow multifamily housing

1 card was submitted in favor, not wishing to speak

1 card was submitted wishing to speak but did not identify support or opposition

Ms Brkovic provided an overview of the rezoning request noting the surrounding uses, surrounding zoning, general plan land use designation, description of the proposed site plan and elevations, staff's findings, stipulations and recommendation

Mr Jeff Stapleton, Community and Economic Development Department (CED), indicated that CED was spearheading the rezoning case in collaboration with the Housing Department. He indicated that Housing owned the subject property and that CED would be putting together the Request for Proposal (RFP) after the rezoning process is completed. He provided a brief overview of the surrounding uses and noted that the project will incorporate affordable housing. He indicated that the district policy plans indicated that a steering committee member would be involved in the RFP and that CED would work to meet the intent of the recommendation. He expressed that anticipated time of construction would be 2021 or 2022.

Ms Rebecca Winger asked what the minimum percentage would be required for affordable housing. **Mr Stapleton** noted that they did not have that percentage at this time. **Ms Winger** expressed frustration with other city owned properties that end up incorporating a low percentage of affordable units. She noted that she would like to see a minimum 40% of affordable units and that it be added as a stipulation of the rezoning case. **Ms Brkovic** indicated that State law restricted requiring a specific parentage as part of an entitlement proposal.

Mr Rick Mahrle asked for clarification regarding the open space stipulation on the western side of the property. **Ms Brkovic** indicated that the intent of the stipulation was to ensure that the area encourage pedestrian traffic.

Mr Drew Bryck noted concern with moving a rezoning case forward without a site plan or elevations.

Mr Brent Kleinman asked that CED update the committee as they move forward with the project. He expressed a desire to add a stipulation that would require that the project be presented before the committee once a prospective user is chosen.

Ms Layla Ressler asked how the affordability component of the RFP would be weighted. **Mr Stapleton** noted that it could be anywhere from 25 to 40%.

Mr Paul Benjamin expressed concern with the overall process, he indicated that he was not comfortable with voting on a case without a site plan

Mr Adams noted that the process seemed convoluted but expressed that there was some assurance that affordable housing would be part of the project since housing owned the land

Mr Bryck expressed that he wanted to make sure that the maximum number of affordable units were incorporated into the project

Ms Nicole Rodriguez asked is Planning Commission would receive information regarding the committees concerns in regard the uncertainty of the number of affordable units **Ms Brkovic** noted that the Planning Commission would receive a copy of the meeting minutes

Mr John Priddy, resident in the area, asked what the difference between affordable housing and workforce housing **Mr Stapleton** noted that affordable housing was for households whose income is less than 60% of the average median income and workforce housing forced on housing for service workers

Motion

Rick Mahrle made a motion to approve Z-38-19-4 as recommended by staff with an additional stipulation requiring that the site plan and elevation shall be reviewed by the committee once an Request for Proposal (RFP) proposer is selected

Steve Procaccini seconded the motion

Discussion

Nicole Rodriguez noted that she would not be supportive of the request because she did not feel as though there was enough information regarding the specifics of the project or the number of affordable units that would be provided

Rick Mahrle noted that the project needed to do whatever possible to maximum the amount of affordable housing and workforce units

The committee concurred with Mr Mahrle's statement noting that the entire committee wanted to see the project do whatever possible to increase the amount of affordable and workforce housing units on the site

Vote

The motion passed, Vote 10-1

Roll Call

Yes – Jake Adams, Ann Cothron, Paul Benjamin, Drew Bryck, Matthew Jewett, Brent Kleinman, Rick Mahrle, Steve Procaccini, Layla Ressler and Rebecca Winger

No – Nicole Rodriguez

- 4 **Z-18-19-4** Presentation, discussion and possible recommendation regarding a request to rezone 10 39 acres located the northwest corner of Central Avenue and Indian School Road from C-3 TOD-1 to WU Code T5 5 UT to allow multifamily residential

1 card was submitted wishing to speak, did not identify support of opposition

Mr Taylor Earl, Earl, Curley and Lagarde, P C , representing the applicant, Toll Brothers, asked that the committee continue the item to the September Village Planning Committee meeting He noted that the applicant was working on addressing the comments made by the committee at the previous meeting and that they were still working on the redesign of the project

Motion

Matthew Jewett made a motion to continue Z-18-19-4 to the September 9, 2019 Village Planning Committee meeting

Steve Procaccini seconded the motion

Vote

The motion was approved, Vote 11-0

Roll Call

Yes - Jake Adams, Ann Cothron, Paul Benjamin, Drew Bryck, Matthew Jewett, Brent Kleinman, Rick Mahrle, Steve Procaccini, Layla Ressler, Nicole Rodriguez, and Rebecca Winger

No – None

- 5 **Public comments concerning items not on the agenda**

None

- 6 **Staff update on cases recently reviewed by the Committee**

3310 N 10th Ave
Phoenix, AZ 85013
August 5, 2019 @ 6 15 p m

Committee members generally commented more on the future project to be built than our land-use case Members wanted as much affordability as possible and to see the site plan and elevations once a project proposal is selected Staff agrees that it wishes to pursue as much affordability as designated by Council and that a site plan with elevations will be submitted to the Encanto VPC prior to the developer's site plan approval

RE: Re-Zoning Request Case #Z-19-48 for City-Owned Property at 32 E. Columbus Ave.

Dear **Property Owner** or **Neighborhood Association representative**:

The purpose of this letter is to inform you that the City of Phoenix Housing Department has recently filed a rezoning request for an approximately 3.88 gross square acre site located at 32 E. Columbus Ave., rezoning case number Z-19-48, to change the zoning from R-4 and R-5 to Walkable Urban Code T 5:7. We would like to invite you to a neighborhood meeting to discuss this rezoning request and proposed development.

Attached is a copy of the cover page of our application. The following describes our request:

Proposed change: Re-zone the property from R-4/R-5 to Walkable Urban Code T 5:7

Existing use: The property is currently vacant and is partially utilized for construction staging.

Future Use: There is no project currently identified or planned for this site. This re-zone request has been initiated by the City of Phoenix to implement the recommended zoning under the Midtown TOD Policy Plan to support a dense multi-story mixed-income community with a minimum height of 56' and a maximum height of 100'. An RFP will be issued by the City later this year to entertain proposals from developers to construct the aforementioned development.

A neighborhood meeting will be held on **Thursday, July 11, 2019, at 6:00 p.m.** at the Phoenix Indian School Visitor Center at 300 E. Indian School Road. A map of the meeting location is enclosed

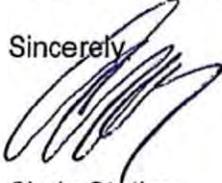

You are invited to attend this meeting to learn about the project and proposed zoning. If you are unable to attend, please contact **Jeff Stapleton** with the Community and Economic Development Department at jeff.stapleton@phoenix.gov or 602-534-3162 to learn more about the case and express your concerns. The City of Phoenix Village Planner assigned to this case is **Maja Brkovic** and can be reached at maja.brkovic@phoenix.gov or 602-261-8701. This planner can answer your questions regarding the City review and hearing processes as well as the staff position once their report is complete. You may also make your feelings known on this case by writing to the City of Phoenix Planning and Development Department, 200 West Washington

Street, 2nd Floor, Phoenix, Arizona 85003, referencing the case number. Your letter will be made part of the case file.

Please be advised that meetings and hearings before the Encanto Village Planning Committee and the Planning Commission are planned to review this case. Specific meeting and hearing dates have not yet been set. You should receive a subsequent notice identifying the date and location of the meeting/hearings when they have been scheduled.

Again, if you have any questions or concerns regarding this proposal. You may contact Jeff Stapleton at jeff.stapleton@phoenix.gov or 602-534-3162.

Sincerely,

Cindy Stotler

Director, City of Phoenix Housing Department

RE: Re-Zoning Request Case #Z-38-19-4 for City-Owned Property at 32 E. Columbus Ave.

Dear **Property Owner** or **Neighborhood Association representative**:

The purpose of this follow-up letter is to inform you that the City of Phoenix Housing Department (with the City of Phoenix Community & Economic Development Department (CEDD) acting as its representative) has recently filed #Z-38-19-4 for a 3.93 gross acre site located at **32 E. Columbus Ave.** and that meetings/hearings have now been set to review their case.

Their request for Walkable Urban Code Zoning, Transect T 5:7 would permit the future construction of a mixed-income community by the City of Phoenix Housing Department. No project has currently been selected by the Housing Department, nor authorized by the Phoenix City Council. A competitive RFP to select a development team and project will occur later this year. The meetings/hearings concerning our zoning case are as follows:

Encanto Village Planning Committee Hearing:

Phoenix College, Willow Room
3310 N. 10th Ave.
Phoenix, AZ 85013
August 5, 2019 @ 6:15 p.m.

Planning Commission Hearing:

City of Phoenix Council Chambers
200 W. Jefferson St.
Phoenix, AZ 85003
September 5, 2019 @ 6:00 p.m.

*City Council Hearing:

City of Phoenix Council Chambers
200 W. Jefferson St.
Phoenix, AZ 85003
October 2, 2019 @ 2:30 p.m.

*Only held if appealed within 7 days of Planning Commission hearing

You are welcome to attend any or all of these meetings/hearings to learn about the case and make your opinions known. Please confirm the meeting details with the City of Phoenix Planning and Development Department before attending as they are subject to change. Hearing information may also be found on signs posted on the site and in the Record Reporter. You may also make your feelings known on this case by writing to the City of Phoenix Planning and Development Department, Zoning Section, 200 West Washington Street, 2nd Floor, Phoenix, Arizona 85003 and referencing the case number. Your letter will be made part of the case file.

The Encanto Village Planning Committee will forward a recommendation to the Planning Commission after considering testimony from affected parties and reviewing the staff report prepared by the Planning and Development Department. The village planner who will staff this meeting is **Maja Brkovic** and can be reached at **602-261-8701** or **maja.brkovic@phoenix.gov**. This planner can answer your questions regarding the village review and city hearing processes as well as the staff position once their report is complete. You are also urged to contact me at **602-534-3162** or **jeff.stapleton@phoenix.gov** to learn more about the case and express your concerns.

If a case is not appealed within seven calendar days after the Planning Commission Hearing, the decision will be ratified and scheduled for Ordinance adoption by the City Council without further discussion.

Again, I would be happy to answer any questions or hear any concerns that you may have regarding this proposal. You may reach me at **602-534-3162** or **jeff.stapleton@phoenix.gov** or by fax at **602-495-5097**.

Sincerely,

Jeff Stapleton

RE: Meeting Minutes for Required Neighborhood Meeting - Re-Zoning Request Case #Z-38-19-4 for City-Owned Property at 32 E. Columbus Ave.

Meeting Minutes

No members of the public were presented and thus the meeting was not called to order and no presentation was given.

Again, I would be happy to answer any questions or hear any concerns that you may have regarding these minutes. You may reach me at **602-534-3162** or **jeff.stapleton@phoenix.gov** or by fax at **602-495-5097**.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Stapleton".

Jeff Stapleton
Program Manager, City of Phoenix-CEDD

Notarized Affidavit of Posting

This form is used to ensure compliance with the posting requirements for rezoning/special permit cases. For additional information please call the Planning and Development Department Zoning Section at 602-262-7131 option #6

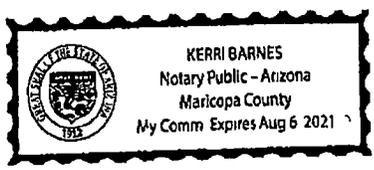

Application No 238-194
Applicant Name City of Phoenix - Housing Dept (Jeff Stapleton as its representative)
Location 32 E. Columbus Ave

In order to assist in providing adequate notice to interested parties, the applicant for rezoning hearings in the City of Phoenix shall erect, not less than fifteen calendar days prior to the date of the Village Planning Committee meeting, a single sign giving notice of the date, time, and place of the tentatively scheduled hearings. The sign shall also include the nature of the request as contained on the formal zoning application. The size and format of this sign shall be as described by the Planning and Development Department. Such notice shall be clearly legible and placed at a prominent location on the site, generally adjacent and perpendicular to the public right-of-way. **It shall be the responsibility of the applicant to erect and to maintain the sign on the subject property and to maintain the hearing information on the sign until after City Council action on the case. It shall also be the responsibility of the applicant to remove the sign after final disposition of the case.**

I confirm that the site has been posted as required above, for the case noted above. A picture of the site posting has also been submitted.

[Signature] Applicant/Representative Signature 7/22/19 Date

This instrument was acknowledged before me on this 22nd day of July, 2019 by Jeff Stapleton. In witness whereof, I hereunto set my hand and official seal.

RE: Re-Zoning Request Case #Z-19-48 for City-Owned Property at 32 E. Columbus Ave.

Dear **Property Owner** or **Neighborhood Association representative**:

The purpose of this letter is to inform you that the City of Phoenix Housing Department has recently filed a rezoning request for an approximately 3.88 gross square acre site located at 32 E. Columbus Ave., rezoning case number Z-19-48, to change the zoning from R-4 and R-5 to Walkable Urban Code T 5:7. We would like to invite you to a neighborhood meeting to discuss this rezoning request and proposed development.

Attached is a copy of the cover page of our application. The following describes our request:

Proposed change: Re-zone the property from R-4/R-5 to Walkable Urban Code T 5:7

Existing use: The property is currently vacant and is partially utilized for construction staging.

Future Use: There is no project currently identified or planned for this site. This re-zone request has been initiated by the City of Phoenix to implement the recommended zoning under the Midtown TOD Policy Plan to support a dense multi-story mixed-income community with a minimum height of 56' and a maximum height of 100'. An RFP will be issued by the City later this year to entertain proposals from developers to construct the aforementioned development.

A neighborhood meeting will be held on **Thursday, July 11, 2019, at 6:00 p.m.** at the Phoenix Indian School Visitor Center at 300 E. Indian School Road. A map of the meeting location is enclosed

You are invited to attend this meeting to learn about the project and proposed zoning. If you are unable to attend, please contact **Jeff Stapleton** with the Community and Economic Development Department at jeff.stapleton@phoenix.gov or 602-534-3162 to learn more about the case and express your concerns. The City of Phoenix Village Planner assigned to this case is **Maja Brkovic** and can be reached at maja.brkovic@phoenix.gov or 602-261-8701. This planner can answer your questions regarding the City review and hearing processes as well as the staff position once their report is complete. You may also make your feelings known on this case by writing to the City of Phoenix Planning and Development Department, 200 West Washington

Street, 2nd Floor, Phoenix, Arizona 85003, referencing the case number. Your letter will be made part of the case file.

Please be advised that meetings and hearings before the Encanto Village Planning Committee and the Planning Commission are planned to review this case. Specific meeting and hearing dates have not yet been set. You should receive a subsequent notice identifying the date and location of the meeting/hearings when they have been scheduled.

Again, if you have any questions or concerns regarding this proposal. You may contact Jeff Stapleton at jeff.stapleton@phoenix.gov or 602-534-3162.

Sincerely,

Cindy Stotler

Director, City of Phoenix Housing Department

Subject 32 E Columbus Re-Zone - Midtown Neighborhood Meeting 6/19

Hello Everyone,

Wanted to provide an update on how the Midtown Neighborhood meeting went on Wednesday night. Again, I was on the agenda to give a heads up about the re-zoning request and to speak generally about the upcoming RFP.

No one expressed opposition to the re-zoning. The Q&A then naturally turned to 'what is going to be built'. I stressed that no project is imminent and there is no project currently up for staff or Council's consideration, the RFP would facilitate that process. I talked generally about a mixed-income community (market/workforce/affordable) that would conform to the WuCode. Most attendees seemed comfortable with the idea. Some voicing support. There was one attendee who voiced concern about the future project affecting property values and saying that our approach won't work. At future meetings, I plan to come with property value comps in Central Phoenix / Midtown / 19th Ave adjacent to affordable product. My expectation is that property values were generally not impacted by affordable housing in this part of the City.

I shared with the group that the next step is the Encanto VPC meeting in August where the re-zone will be considered. Feel free to contact me with any questions you might have.

Maja,

Thank you for the opportunity to review the subject rezoning application. The site is within Phoenix Sky Harbor International Airport (PHX) traffic pattern airspace and the proposed use is residential (multifamily housing). The Aviation Department requires the following stipulation, if the application is approved:

1. The developer shall record a Notice to Prospective Purchasers of Proximity to Airport in order to disclose the existence and operational characteristics of Phoenix Sky Harbor International Airport (PHX) to future owners or tenants of the property.

If you have any questions, please let me know.

Fire prevention does not anticipate any problems with this case

But the site or/and building(s) shall comply with the Phoenix Fire Code

Also we do not know what the water supply (gpm and psi) is at this site. Additional water supply may be required to meet the required fire flow per the Phoenix Fire Code.

Post-Application Notes

REZONING PRE-APPLICATION

Pre-Application Meeting Form

This form is used to request a Rezoning Pre-Application meeting and provide required information to set up a meeting date/time. This is the first step in the rezoning/special permit process. This form needs to be submitted in person to the Planning and Development Department 2nd Floor Zoning Counter. For additional information please call the Planning and Development Department at 602-262-7131 option #6

All rezoning and special permit applications must have a rezoning pre-application meeting. The purpose of this meeting is to provide the applicant with guidance and information regarding the rezoning process. This meeting includes discussion of all relevant fees, tentative hearing dates, development standards, and information on special planning areas, if applicable.

The following information must be included with the request for a rezoning pre-application meeting. If any of this information is not included, a rezoning pre-application meeting cannot be scheduled.

- 1 A site plan is required
- 2 A current aerial photograph with the subject property highlighted is required
- 3 A parcel map with the subject property highlighted is required
- 4 Conceptual elevations, photographs or renderings are optional

Please submit this form to a Planning Representative at the Zoning counter and he/she will fill out the relevant information below. Once the form is complete, return it to the Zoning Counter located on the 2nd Floor and you will be assigned a Rezoning Pre-Application meeting date, time and number (see bottom of form).

APPLICANT'S INFORMATION	
Name (Individual and Company)	City of Phoenix - Housing Department
Mailing Address	251 W Washington St , 4th Floor Phoenix, AZ 85003
Phone Number	602-534-3162
Email	jeff.stapleton@phoenix.gov

PROPERTY INFORMATION		
Location of the site (e.g. SWC of Central & Camelback)	32 E Columbus Ave	
Proposed Use (e.g. Medical Office, Single-Family Residential, Day Care Facility, etc.)	Mixed-Use Residential	
Current Zoning R-4 & R-5	Zoning Requested WuCode T 5 7	Acreage 3.3 acres
Quarter Section Number	Zoning Map	Zoning History
Council District Number 4	Village Planning District Encanto	Special Planning Districts
General Plan Designation	Adjacent Zoning	
Additional Information Staff will request the Planning Commission to initiate the re-zoning request to accommodate a future redevelopment procurement.		

I hereby certify that the above information is correct and that I am authorized to file on behalf of the owner. I understand that any materials submitted are part of the public record and consent to reproduction for the purpose of public examination and discussion in preparation for and during any public hearing process concerning this application. This does not permit reproduction for any commercial purpose.

Rezoning/Special Permit Submittal Checklist and Notification Requirements

For additional information, please call the Planning and Development Department, Zoning Section at 602-262-7131, option #6.

The following information outlines the required information needed to submit a Rezoning or Special Permit request to the City of Phoenix. All information needs to be submitted electronically in individual files as further discussed on Page 12.

REQUIRED

- Application Information Form (Page 11)
- Project Information Form (Pages 15-17)
- Site Plan (one - 8.5" x 11" AND two - 24" x 36" FOLDED INDIVIDUALLY, NOT ROLLED) (Page 18)
- Building Elevations, four sided (one - 8.5" x 11" AND two - 24" x 36" FOLDED INDIVIDUALLY, NOT ROLLED)
- Context Plan (Page 19) *Do I need to take photos? on flash-drive*
- Ownership Verification Form (Page 20)
 - Legal Description (must include Section, Township and Range; and the electronic submittal must be in Word/Text format) (Page 12)
 - Assessors Tax parcel numbers
 - Gross Acreage
- Principals and Development Team (Page 21) *TBD*
- Electronic Submittal of Entire Application (on a CD) (Page 12) *End of Process*
- Pre-application meeting notes, aerial, and parcel zoning map (provided at pre-application meeting) *Maja*
- School District(s) notification information for residential requests (Pages 31-32)
 - School District Notification Cover Letter (Page 35)
 - School District Response Form (Page 36)
- Fees (See Zoning Fee Schedule, Pages 45-51) *waived (PC initiated)*
 - The filing fee is based on gross acreage and portion thereof. Separate fees are calculated for multiple district requests that are outside general zoning classifications of single family, multifamily, and commercial or industrial. Separate applications and fees are taken for all special permit applications.
 - Base Fee + (Acreage x Per Acreage Fee) = Application Fee (fees are rounded up, e.g., 2.1 = 3.0)
- Recorded Proposition 207 Takings Waiver (Pages 13-14) (Shall be submitted after application has been accepted and a case number has been assigned)
- Traffic and Parking Statement (Describe how much traffic will be generated related to the proposal)

CONDITIONAL REQUIREMENTS

Depending on the location/type of request, the below materials may also be required. Please check with Planning and Development Department staff at the pre-application meeting.

- Aviation Notice of Airport in Vicinity form (Page 37) *w/ Traffic Pattern Airspace*
- Slope Analysis for Hillside requests
- SRP Designation of Electric Substation locations (Page 43)

SUPPLEMENTAL INFORMATION

- Phasing Schedule
- Traffic Study (traffic generation statement always required)
- Parking Study (statement always required)
- Planning and Development Department Process Flowchart (Page 52)
- Other _____
 - City Council waiver
 - Special Permit

NOTIFICATION REQUIREMENTS (to be provided after submittal of application)

- Citizen Participation Report (See Step 10, Page 22)
 - First Neighborhood Notification (See Step 4)
 - First Neighborhood Notification Letter (Page 23)
 - Mailing List
 - Notarized Affidavit (Page 24)
 - Second Neighborhood Notification (See Step 8)
 - Second Neighborhood Notification Letter (Page 25)
 - Mailing List
 - Notarized Affidavit (Page 26)
 - Signage Posting (See Step 9)
 - Posting and Sample Signage Requirements (Pages 27-28)
 - Affidavit of Posting (Page 29)
 - Affidavit of Posting (for continued cases) (Page 30)

□ 207 waiver.

Composed of the following APNs 118-33-029, -030 -031, -032, -033, -034, -035, -036, -037, -057, -058, -059 -060, -061, -062, -063, -064, -065, -066, -067, -068

Project Information Form

This form is used to ensure compliance with the posting requirements for rezoning/special permit cases. For additional information please call the Planning and Development Department Zoning Section at 602-262-7131 option #6

The information required on this form may be provided in an alternative format as long as all items listed are included

- 1 Complete the following table related to General Plan (<https://www.phoenix.gov/pdd/pz/general-plan-update>) conformity

General Plan Conformity	
General Plan Land Use Designation Provide designation and, if residential, the category (e.g., 3.5 - 5 du/ac traditional lot)	15+ du/acre - Higher density attached townhomes, condos or apartments
Identify two or more Core Values that the request represents 1) Indicate how the request contributes to the goals of the Core Value 2) Describe how one or more land use and design principles of the Core Value are expressed in the request	Transit Oriented Development and Diverse Neighborhoods
Indicate whether the proposal utilizes any of the Tools identified for use in achieving the Core Value	Yes Walkable Urban Code
Street Classification Map Provide name(s) of street(s), classification of street(s), and existing right-of-way widths	See attached

- 2 Is the property located in a special designation area (Specific Plan, Special Planning District, Redevelopment Area, Historic District, Special Study Area, Planned Community District or are there special design guidelines applicable to the area)? If so state how the proposed project conforms to the area plan, its goals and any applicable development standards

TOD District - Midtown | This request allows for a project to conform to the planned zoning under the Midtown TOD Policy Plan

- 3 Complete the following table(s) related to specific project information

Commercial/Commerce Park/Industrial

Standards	Requirements for the District/Land Use	Provisions on the Proposed Site Plan
Building Setbacks Street Side Rear	N/A	N/A
Landscaped Setbacks Street Side Rear	N/A	N/A
Lot Coverage	N/A	N/A
Building Height	N/A	N/A
Parking	N/A	N/A
Other	N/A	N/A

Single Family

Standards	Requirements for the District/Land Use	Provisions on the Proposed Site Plan
Development Option (Select One)	Conventional or PRD	N/A
Gross Acreage	N/A	N/A
Total Number of Units	N/A	N/A
Density	N/A	N/A
Typical Lot Size	N/A	N/A
Subject to Single Family Design Review	10% or more of the lots are equal or less than 65 feet in width	N/A
PRD Perimeter Setbacks or Conventional Setbacks	N/A	N/A
Open Space	N/A	N/A
Other	N/A	N/A

Multiple Family

Standards	Requirements for the District/Land Use	Provisions on the Proposed Site Plan
Gross Acreage	N/A	N/A
Total Number of Units	None	N/A
Density	None	N/A
Lot Coverage	80% maximum	N/A
Building Height/Stories	100 feet maximum	N/A
Setbacks Front Side Rear	20ft max min 3-10, ft max min 3-5 ft max min	N/A
Landscaping Front Side Rear	10 ft minimum	N/A
Open Space		N/A
Amenities		N/A
Parking		N/A
Other		N/A

4 Are there any unusual physical characteristics of the site that may restrict or affect development? If so, explain What improvements and uses currently exist on the property?

The site will likely require abandonment of the public alley way bisecting the site In addition, to conform with the Midtown TOD Policy Plan, the project will need to establish N/S access across the site from Weldon Ave to Columbus Ave

5 What impact will the proposed project have on current or future surrounding landscape and zoning patterns?

Inspire new development that will adopt the WuCode and put blighted, vacant land back into productive use for the surrounding neighborhood

6 Are there unique design considerations proposed, beyond Zoning Ordinance requirements, that reduce development impacts or would further compatibility with adjacent properties? If so, explain

N/A

7 Why is the subject property not suitable for development as currently zoned?

Current zoning does not allow for the urban form and density envisioned under the Midtown TOD Policy Plan

8 Other than the development review process, what other approval processes are required to accomplish the development proposed, i.e., abandonments, variances, use permits, state or county licenses or permits, etc.?

The project will be proposed by a developer through an RFP and will require approval of a development and/or purchase agreement by the City Council

9 As part of the Reimagine Phoenix initiative, the City of Phoenix is committed to increasing the waste diversion rate to 40 percent by 2020 and to better manage its solid waste resources. Will the proposed development incorporate recycling? If so, how?

The RFP for this site will ask Development proposals to conform to City plans including our 40 by 2020 Initiative

Ownership Authorization Form

This form is part of the rezoning/special permit requirement. This form authorizes a person, other than the owner, to file for the rezoning/special permit case. For additional information, please call the Planning and Development Department, Zoning Section at 602-262-7131, option #6.

It is requested that an application to rezone be accepted by the Planning and Development Department for property located
at 32 E. Columbus Ave.

This property is owned by City of Phoenix - Housing Department and legally described as:

See Attached (or, see attached)

The property contains a gross lot area (includes right-of-way to the centerline of adjacent street or alley, or 25 feet along a freeway or canal that is subject to the Canal Bank Design Guidelines) of 4 gross acres

Assessor Parcel Number(s): see attached

The attached map/survey accurately portrays the parcel configuration and property dimensions, as reflected in the legal description.

I hereby certify that the above information is correct, and that I am authorized to file an application on said property, being the owner of record. I am requesting this rezoning to pursue entitlements that will allow additional density or uses than otherwise permitted under the current zoning. I believe these new entitlements are in my best interest as the property owner.

RE: Re-Zoning Request Case #Z-19-48 for City-Owned Property at 32 E. Columbus Ave.

Dear **Property Owner** or **Neighborhood Association representative**:

The purpose of this letter is to inform you that the City of Phoenix Housing Department has recently filed a rezoning request for an approximately 3.88 gross square acre site located at 32 E. Columbus Ave., rezoning case number Z-19-48, to change the zoning from R-4 and R-5 to Walkable Urban Code T 5:7. We would like to invite you to a neighborhood meeting to discuss this rezoning request and proposed development.

Attached is a copy of the cover page of our application. The following describes our request:

Proposed change: Re-zone the property from R-4/R-5 to Walkable Urban Code T 5:7

Existing use: The property is currently vacant and is partially utilized for construction staging.

Future Use: There is no project currently identified or planned for this site. This re-zone request has been initiated by the City of Phoenix to implement the recommended zoning under the Midtown TOD Policy Plan to support a dense multi-story mixed-income community with a minimum height of 56' and a maximum height of 100'. An RFP will be issued by the City later this year to entertain proposals from developers to construct the aforementioned development.

A neighborhood meeting will be held on **Thursday, July 11, 2019, at 6:00 p.m.** at the Phoenix Indian School Visitor Center at 300 E. Indian School Road. A map of the meeting location is enclosed

You are invited to attend this meeting to learn about the project and proposed zoning. If you are unable to attend, please contact **Jeff Stapleton** with the Community and Economic Development Department at jeff.stapleton@phoenix.gov or 602-534-3162 to learn more about the case and express your concerns. The City of Phoenix Village Planner assigned to this case is **Maja Brkovic** and can be reached at maja.brkovic@phoenix.gov or 602-261-8701. This planner can answer your questions regarding the City review and hearing processes as well as the staff position once their report is complete. You may also make your feelings known on this case by writing to the City of Phoenix Planning and Development Department, 200 West Washington

Street, 2nd Floor, Phoenix, Arizona 85003, referencing the case number. Your letter will be made part of the case file.

Please be advised that meetings and hearings before the Encanto Village Planning Committee and the Planning Commission are planned to review this case. Specific meeting and hearing dates have not yet been set. You should receive a subsequent notice identifying the date and location of the meeting/hearings when they have been scheduled.

Again, if you have any questions or concerns regarding this proposal. You may contact Jeff Stapleton at jeff.stapleton@phoenix.gov or 602-534-3162.

Sincerely,

Cindy Stötler

Director, City of Phoenix Housing Department

Dr. Chad Gestson
Phoenix Union High School District
4502 N. Central Ave.
Phoenix, AZ 85012

Dear Dr. Gestson,

This letter is being sent to you pursuant to the City of Phoenix Planning and Development Department School District Notification Policy for General Plan designation and zoning classification changes.

Please be advised that we are applying for a re-zone of vacant city-owned property subject to the City of Phoenix General Plan that changes classifications from R-4 / R-5 zoning to Walkable Urban Code (WuCode) Transect T 5:7. This change has the potential to result in greater residential densities on the subject property. The property is currently zoned R-4 and R-5 for 140 residential units; our application(s) to re-zone to WuCode T 5:7 will allow for unlimited density on the site. However, the site will be subject to a height limitation that cannot exceed 100 feet.

No project is currently proposed for the site. A competitive RFP to consider development proposals will be launched by the City in late-2019. While no project is currently under consideration, this notification letter is provided as a requirement under Planning and Development Department's policy. Attached is a location map for the subject property. A School District Response Form is also enclosed.

You are requested to respond to the City of Phoenix Planning and Development Department by utilizing the School District Response Form within 37 calendar days of receipt of this notification. If you would like to discuss the proposal, I can be reached via the contact information provided below.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Stapleton".

School District _____

I, _____ hereby certify that the following determination has been made in regard to the above referenced project

- The school district has adequate school facilities to accommodate the projected number of additional students generated by the proposed rezoning/amendment within the school district's attendance area, or
- The school district will have adequate school facilities via a planned capital improvement to be constructed within one year of the date of notification of the district and located within the school district's attendance area, or
- The applicant and the school district have entered into or are working on an agreement to provide, or help to provide, adequate school facilities within the school district's attendance area in a timely manner,
- The agreement includes or will include the reservation of a school site
- The agreement does not or will not include the reservation of a school site
- The school district does not have adequate school facilities to accommodate projected growth attributable to the rezoning

Attached are the following documents supporting the above certification

- Maps of attendance areas for elementary, middle, and high schools for this location
- Calculations of the number of students that would be generated by the additional homes
- School capacity and attendance trends for the past three years

School District _____

I, _____ hereby certify that the following determination has been made in regard to the above referenced project

- The school district has adequate school facilities to accommodate the projected number of additional students generated by the proposed rezoning/amendment within the school district's attendance area, or
- The school district will have adequate school facilities via a planned capital improvement to be constructed within one year of the date of notification of the district and located within the school district's attendance area, or
- The applicant and the school district have entered into or are working on an agreement to provide, or help to provide, adequate school facilities within the school district's attendance area in a timely manner,
- The agreement includes or will include the reservation of a school site
- The agreement does not or will not include the reservation of a school site
- The school district does not have adequate school facilities to accommodate projected growth attributable to the rezoning

Attached are the following documents supporting the above certification

- Maps of attendance areas for elementary, middle, and high schools for this location
- Calculations of the number of students that would be generated by the additional homes
- School capacity and attendance trends for the past three years

Superintendent or Designee

Date

Application #: ZA-379-19-4 – APPROVED / STIPULATION
Existing Zoning: R-4 TOD-1, R-5 TOD-1
Location: 26-64 East Columbus Avenue and 25-55 East Weldon Street
Quarter Section: 16-28(H8)
Proposal: Use permit to allow a construction facility and storage on a lot other than the lot or lots used for such facilities or storage. Use permit required.
Ordinance Sections: 608.E.2
Applicant: Jonathan Stelzer, Plaza Companies
Representative: Jonathan Stelzer, Plaza Companies
Owner: City of Phoenix Housing Department

ZONING ADJUSTMENT HEARING OFFICER: MIKE WIDENER
PLANNER: ERIC MORALES, PLANNER II

Speaking in favor was Johnathan Stelzer and Jeff Stapelton.

DECISION: This request for a use permit was approved with the following stipulation:

- 1) This permit will remain in effect until the earlier of the City's approval of the development agreement for redevelopment of the property or, if earlier applicant's completion of the last phase of the Park Central Mall development.

FINDINGS OF FACT: In granting this use permit to allow a construction facility and storage on a lot other than the lot or lots used for such facilities or storage, I find the use intended will create no adverse impact on the surrounding neighborhood or properties resulting from odor, dust, noise, heat, glare, smoke or vibration and so on; will not materially impact pedestrian or vehicular traffic counts on local streets; will not contribute to the diminution of property values; and will not otherwise violate the zoning ordinance of the City of Phoenix and other applicable ordinances.

SUMMARY: Mr. Stelzer stated that the request was for off-site parking and storage that would serve the construction going on at Park Central. He stated that the property was City owned and would be fenced during their use. Mr. Widener asked if they would be screening the site. Mr. Stelzer stated that they would be screening the site and ensuring that it was not detrimental.

Mr. Stapleton stated that the City was in support of the request and redevelopment of Park Central. Mr. Widener asked if they were sufficiently confident that the applicant would maintain the site so that it did not create blight. Mr. Stapleton confirmed that they were confident the applicant would meet the City requirements.

Mr. Widener asked if they had any policy against work crews hanging out in the parking lot before and after the work schedule. Mr. Stelzer stated that they did not, but they would ensure that the surrounding area was respected.

Mr. Widener approved the request as noted above.

This publication can be made available in alternate format upon request. To request a reasonable accommodation, please contact Tamra Ingersoll at the Planning and Development Department at 602.534-6648, TTY: Use 7-1-1.

If, during the course of review of a pending application, the applicant submits one or more additional applications that are related to the pending application, then and in such event, the substantive review time frame shall be reset on all related applications. In this event there shall be one applicable substantive review time for all of the related applications and the time frame shall be revised to be the longest substantive review time frame that was applicable to any one of the related applications. As a result, the entire substantive review time frame for the related applications shall start over, and a fee may be charged.

An applicant may receive a clarification from the city of its interpretation or application of a statute, ordinance, code or authorized substantive policy statement. To request clarification or to obtain further information on the application process and applicable review time frames, please call 602-262-7131 (option 6), email zoning.mailbox@phoenix.gov or visit our website at <http://phoenix.gov/pdd/licensetimes.html>.

In making this application, I understand that the filing of this application and payment of fees does not entitle me to the relief requested. (See Sec. 307 of City of Phoenix Zoning Ordinance for standards by which the hearing officer will review the application.) I understand the approval of this request does not replace the need for acquiring the appropriate building permits, site plan approval, liquor license or any other licenses required by governmental agencies. I also understand that in the case of liquor request approval of a use permit does not guarantee the CITY OF PHOENIX will recommend approval of the liquor license.

APPLICANT'S SIGNATURE: _____ DATE: _____

NOTE TO APPLICANT: SUCH USE PERMITS AND VARIANCES AS ARE GRANTED BY THE ZONING ADMINISTRATOR SHALL BE VOID IF THE USE IS NOT COMMENCED OR IF A BUILDING PERMIT IS NOT OBTAINED **60 DAYS** OF SUCH GRANTING OR WITHIN THE TIME STIPULATED BY THE ADMINISTRATOR.

APPEALS OF DECISIONS OF THE ZONING ADMINISTRATOR MAY BE MADE BY ANY PERSON TO THE BOARD OF ADJUSTMENT WITHIN **15 DAYS** AFTER THE DATE OF ACTIONS.

REQUEST

1. Use permit to allow a construction facility and storage on a lot other than the lot or lots used for such facilities or storage. Use permit required.

CITY OF PHOENIX - ZONING ADJUSTMENT APPLICATION – OWNERSHIP VERIFICATION FORM

It is requested that an application for Zoning Adjustment be accepted by the Planning and Development Department for property located at: 32 E. Columbus Ave.

Said property is owned by:

Property Owner Name: City of Phoenix House Department

Property Owner Mailing Address: 251 W. Washington St.

Property is legally described as (or see attached): _____

Assessor Parcel Number(s): 118-33-029, 030, 031, 032, 033, 034, 035, 036, 037, 037,
038, 039, 040, 041, 042, 043, 044, 045, 046, 047, 048

NOTE: The tax parcel number can be obtained from your property tax statement or the Maricopa County Assessor's Office (602) 506-3406.

I hereby certify that the above information is correct, and that I am authorized to file an application on said property, being either the owner of record or authorized to file on behalf of the owner (signed authorization must be attached). I am requesting this zoning adjustment action because I believe that it is in the best interest of my desires as the property owner, applicant or representative.

Jonathan D. Stelzer

CITY OF PHOENIX - ZONING ADJUSTMENT APPLICATION – OWNERSHIP VERIFICATION FORM

It is requested that an application for Zoning Adjustment be accepted by the Planning and Development Department for property located at: 32 E. Columbus Ave.

Said property is owned by:

Property Owner Name: City of Phoenix House Department

Property Owner Mailing Address: 251 W. Washington St.

Property is legally described as (or see attached): _____

Assessor Parcel Number(s): 118-33-029, 030, 031, 032, 033, 034, 035, 036, 037, 057, 058, 059, 060, 061, 062, 063, 064, 065, 066, 067, 068

NOTE: The tax parcel number can be obtained from your property tax statement or the Maricopa County Assessor's Office (602) 506-3406.

I hereby certify that the above information is correct, and that I am authorized to file an application on said property, being either the owner of record or authorized to file on behalf of the owner (signed authorization must be attached). I am requesting this zoning adjustment action because I believe that it is in the best interest of my desires as the property owner, applicant or representative.

RE: Authorization to File a Use Permit for Land Controlled by the Housing Department

Dear Mr. Stelzer,

This letter conveys permission from the City of Phoenix Housing Department (Housing) to the Park Central Community Facilities District, and The Plaza Companies acting on the District's behalf, to file a Use Permit Application with the Planning and Development Department (PDD) to utilize Housing-controlled property for construction staging at 32 E. Columbus Ave. (APN#, 118-33-029, -030, -031, -032, -033, -034, -035, -036, -037, -057, -058, -059, -060, -061, -062, -063, -064, -065, -066, -067, -068, collective the "Site").

Ultimate use of the land is still contingent upon the Park Central Community Facilities District executing a land license agreement with Housing. Housing will manage the administration and management of the Site necessary to facilitate the completion of obligations to the City under City Contract #149553-IGA-001. The Community and Economic Development Department (CEDD) will also assist Housing in implementing the land license agreement.

Do not hesitate to contact Elenia Sotelo, elenia.sotelo@phoenix.gov, 602-534-1065 or Jeff Stapleton, jeff.stapleton@phoenix.gov, 602-534-3162 with any additional questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Cindy Stotler".

COUNTY OF MARICOPA)

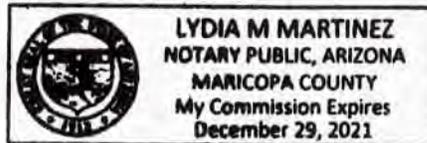

This instrument was acknowledged before me this 28 day of May, 2019 by, Cindy Stotler, the Housing Director of the CITY OF PHOENIX, a municipal corporation, on behalf of the City of Phoenix.

My Commission Expires:

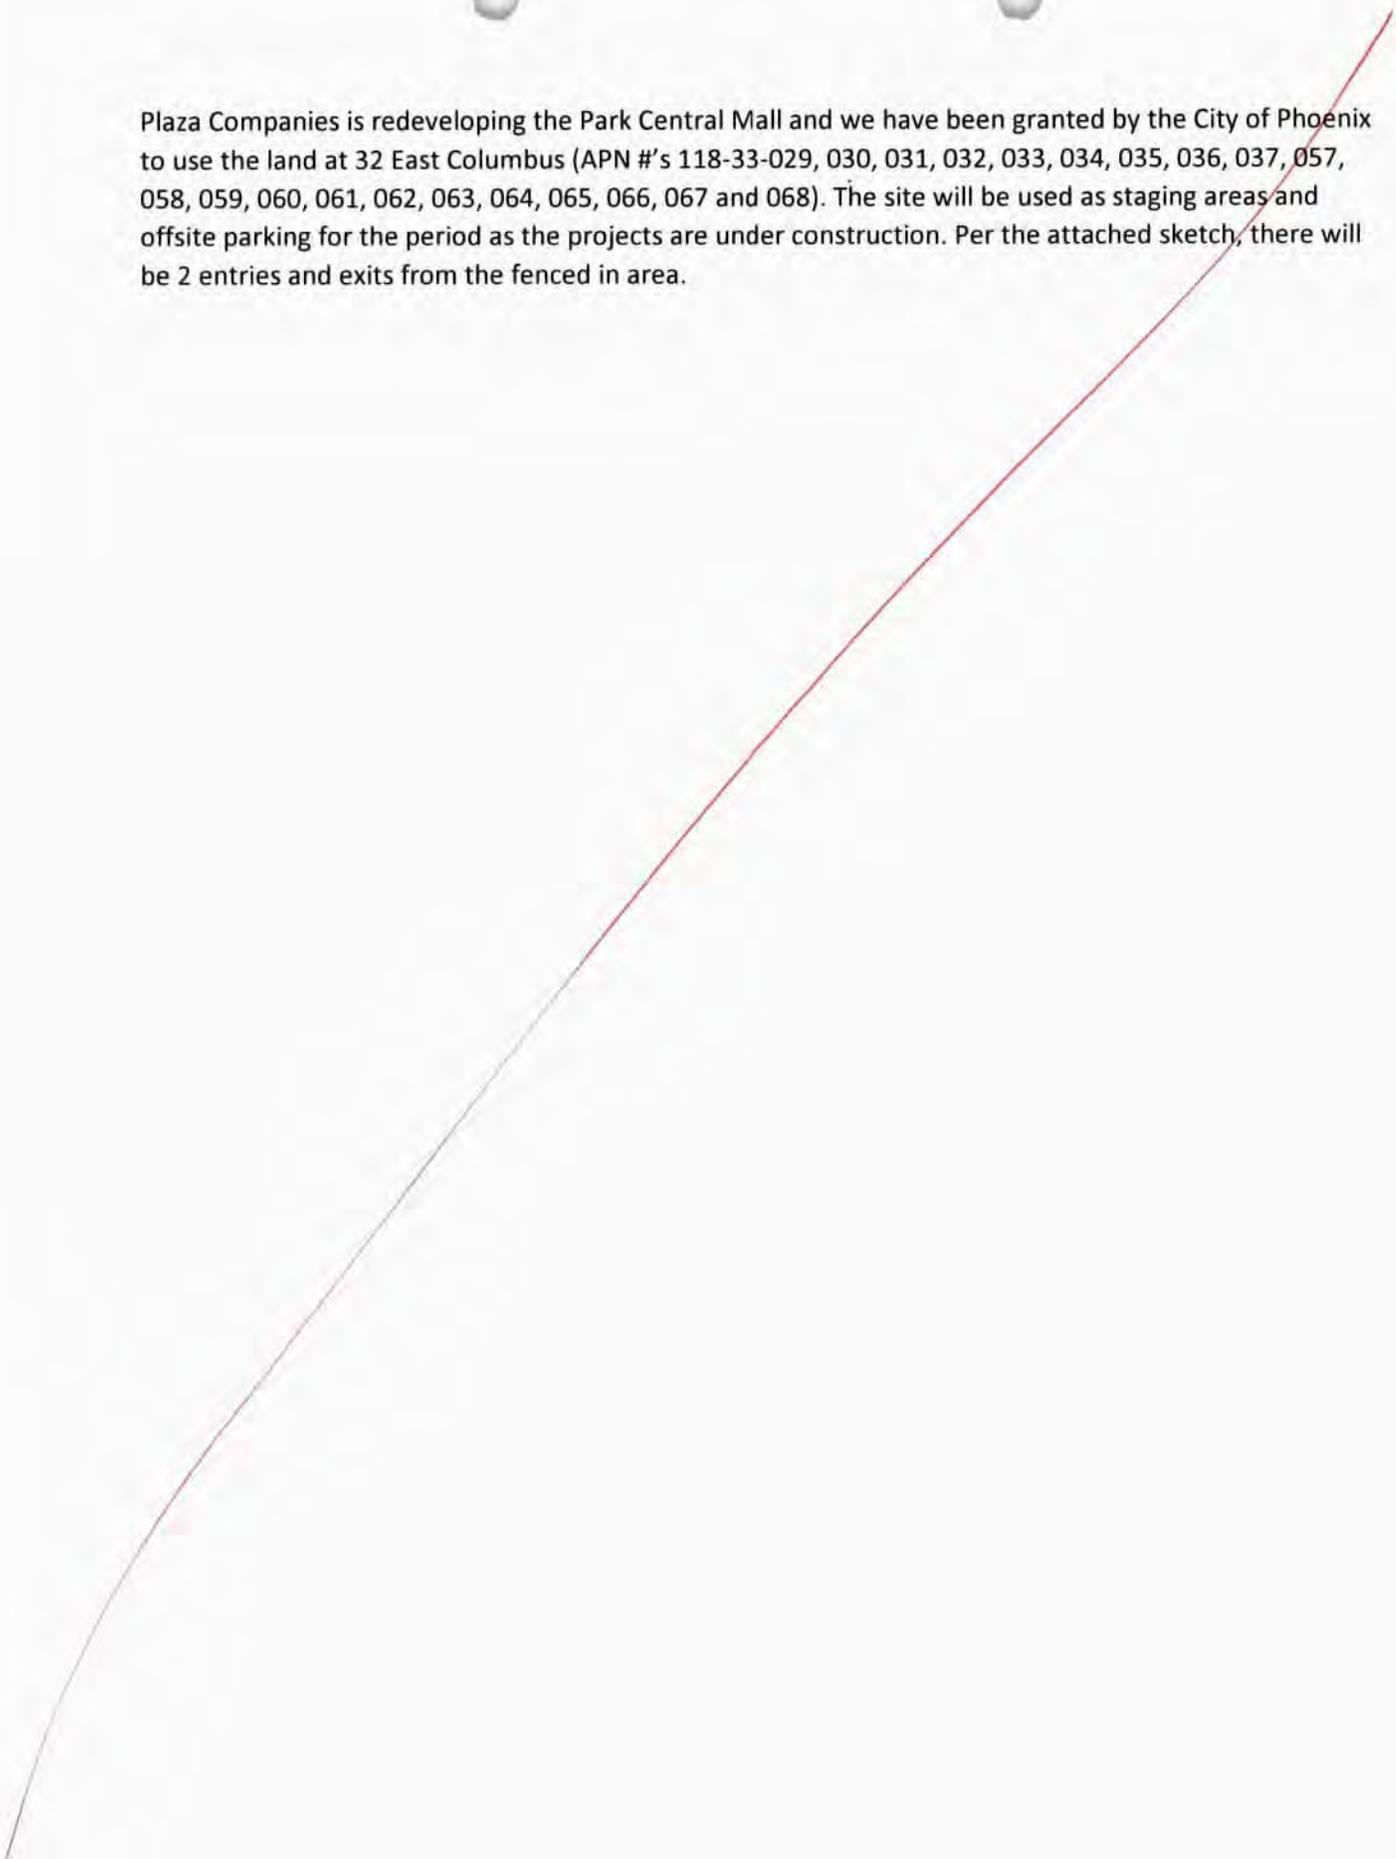

Notary Public

12/29/2021

Plaza Companies is redeveloping the Park Central Mall and we have been granted by the City of Phoenix to use the land at 26 to 64 East Columbus and 25 to 55 East Weldon Street (APN #'s 118-33-029, 030, 031, 032, 033, 034, 035, 036, 037, 057, 058, 059, 060, 061, 062, 063, 064, 065, 066, 067 and 068). Our current Park Central site does not have enough space to accommodate trade parking or material storage. The City owned site will be split into two sections consisting of parking and storage. The parking area would be for trade vehicles consisting of cars and trucks. When workers park at this location they will be shuttled over to our property. The storage area would be a lay down yard for building materials. While using this off-site property, we do not want to be detrimental to the neighborhood, so we will be placing a 6' high, fully screened fence around perimeter of the area, we will provide dust control, parking will be layout in an orderly manner, all storage will be in a containers or stacked neatly and the area will be closely monitored to ensure that the area is kept clean and organized. The usage of the area will be from about 6:00am to 6:00pm. The period of use of this land would be for the duration of the construction projects that we currently underway and they are scheduled to be completed in May, 2021.

Plaza Companies is redeveloping the Park Central Mall and we have been granted by the City of Phoenix to use the land at 32 East Columbus (APN #'s 118-33-029, 030, 031, 032, 033, 034, 035, 036, 037, 057, 058, 059, 060, 061, 062, 063, 064, 065, 066, 067 and 068). The site will be used as staging areas and offsite parking for the period as the projects are under construction. Per the attached sketch, there will be 2 entries and exits from the fenced in area.

Dear Property Owner and/or Neighborhood Association President:

The purpose of this letter is to inform you that we have recently filed a zoning Adjustment application (ZA379-19) for the site located at 26 to 64 East Columbus Avenue and 25 to 55 East Weldon Street.

Our request is for a use permit to allow a construction facility and storage on a lot other than the lot or lots used for such facilities or storage (Zoning Ord. Sections 608.E.2).

The hearing is as follows:

Zoning Adjustment Hearing

City Hall

200 West Washington Street

Assembly Room C

On September 5, 2019 at 1:30 PM

You may attend the hearing to learn about the case and make your opinions known. Hearing information may also be found on signs posted on the site. You may also make your feelings known on this case by writing to the Planning and Development at 200 West Washington, 2nd Floor, Phoenix, Arizona 85003 and referencing the case number. You can also send an email to zoning.adjustment@phoenix.gov. Please reference the case number and hearing date in your email. Your letter/email will be part of the case file and shared with the Hearing Officer.

I would be happy to answer any questions or hear any concerns that you may have regarding this proposal. You may reach me at (623) 972-1184 or by email Jon.Stelzer@theplazaco.com or you may reach the City of Phoenix's Planning and Development at (602) 262-7131, Option 6 or zoning.adjustment@phoenix.gov. Please reference the case number and hearing date in your emails to expedite a response.

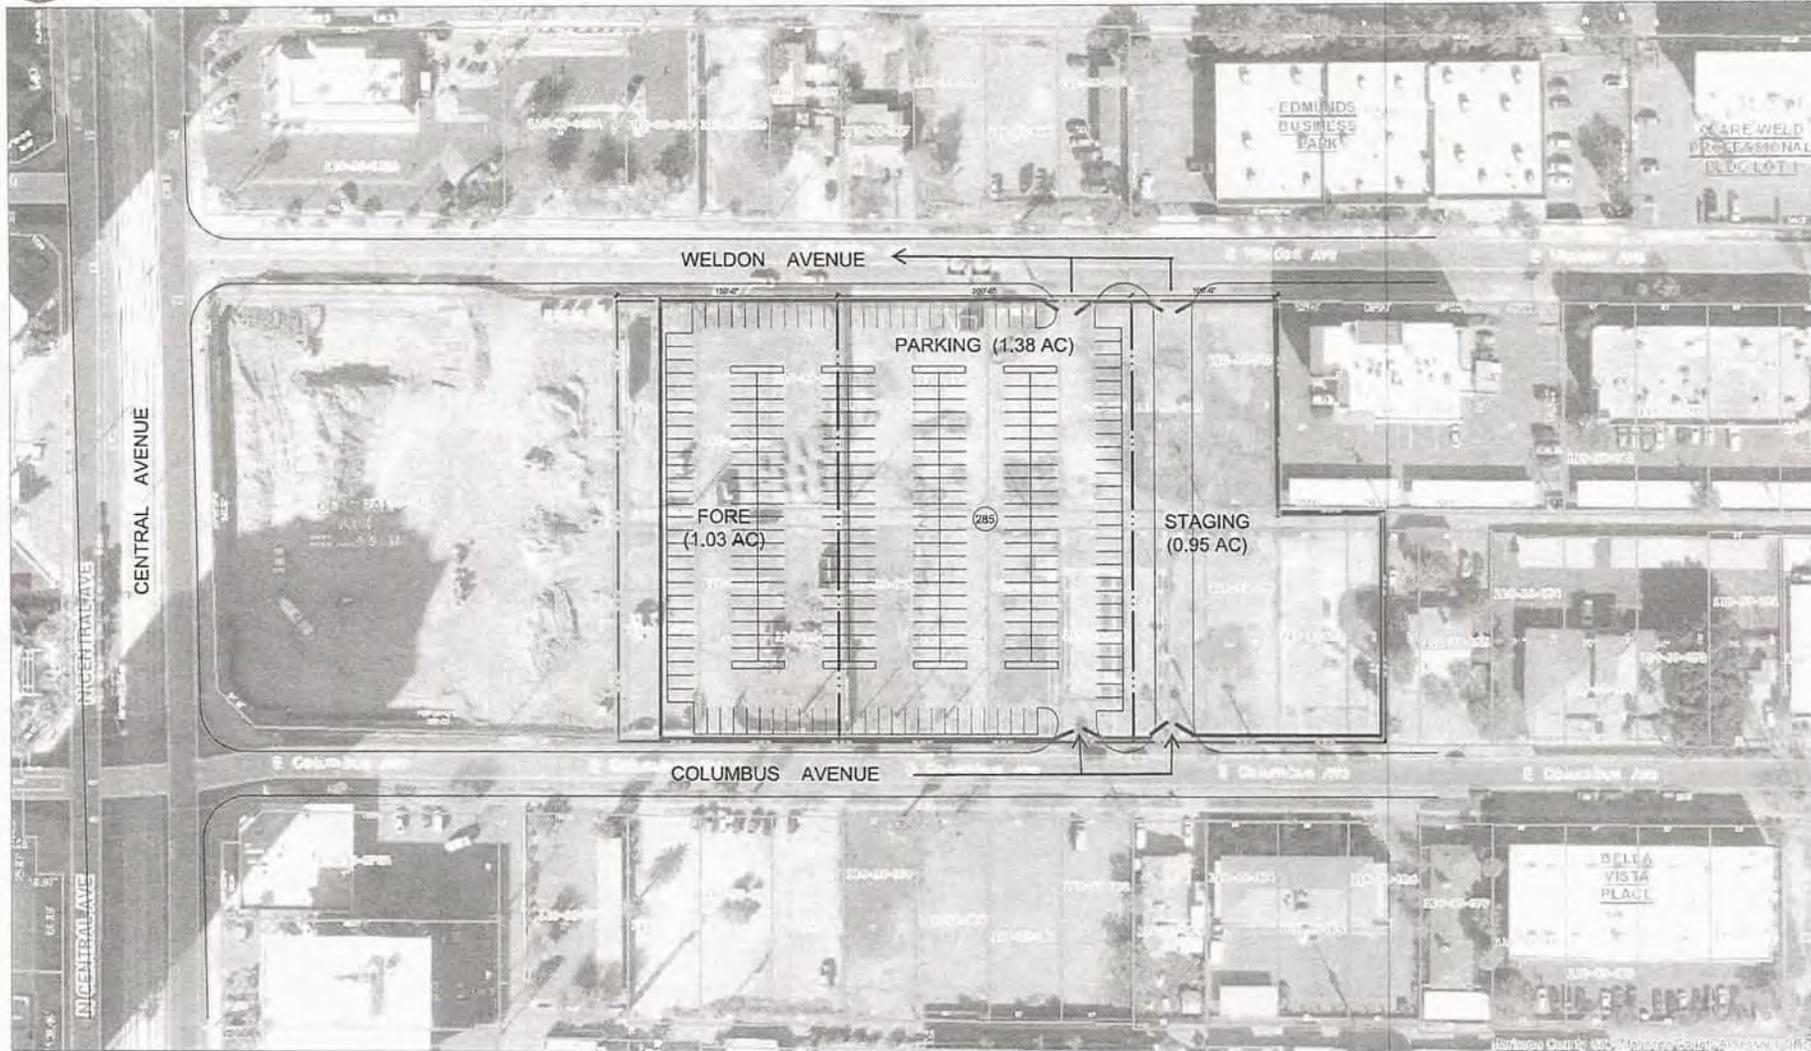

Sincerely
PLAZA COMPANIES

Jonathan D. Stelzer
Senior Vice President

If, during the course of review of a pending application, the applicant submits one or more additional applications that are related to the pending application, then and in such event, the substantive review time frame shall be reset on all related applications. In this event there shall be one applicable substantive review time for all of the related applications and the time frame shall be revised to be the longest substantive review time frame that was applicable to any one of the related applications. As a result, the entire substantive review time frame for the related applications shall start over, and a fee may be charged.

An applicant may receive a clarification from the city of its interpretation or application of a statute, ordinance, code or authorized substantive policy statement. To request clarification or to obtain further information on the application process and applicable review time frames, please call 602-262-7131 (option 6), email zoning.mailbox@phoenix.gov or visit our website at <http://phoenix.gov/pdd/licensetimes.html>.

In making this application, I understand that the filing of this application and payment of fees does not entitle me to the relief requested. (See Sec. 307 of City of Phoenix Zoning Ordinance for standards by which the hearing officer will review the application.) I understand the approval of this request does not replace the need for acquiring the appropriate building permits, site plan approval, liquor license or any other licenses required by governmental agencies. I also understand that in the case of liquor request approval of a use permit does not guarantee the CITY OF PHOENIX will recommend approval of the liquor license.

APPLICANT'S SIGNATURE: Jonathan D. Stelzer DATE: 7.30.2019

NOTE TO APPLICANT: SUCH USE PERMITS AND VARIANCES AS ARE GRANTED BY THE ZONING ADMINISTRATOR SHALL BE VOID IF THE USE IS NOT COMMENCED OR IF A BUILDING PERMIT IS NOT OBTAINED **60 DAYS** OF SUCH GRANTING OR WITHIN THE TIME STIPULATED BY THE ADMINISTRATOR.

APPEALS OF DECISIONS OF THE ZONING ADMINISTRATOR MAY BE MADE BY ANY PERSON TO THE BOARD OF ADJUSTMENT WITHIN **15 DAYS** AFTER THE DATE OF ACTIONS.

CAUTION! USERS SHOULD INDEPENDENTLY RESEARCH AND VERIFY INFORMATION ON THIS WEBSITE BEFORE RELYING ON IT.

The Assessor's Office has compiled information on this website that it uses to identify, classify, and value real and personal property. Please contact the Maricopa County S.T.A.R. Center at (602) 506-3406 if you believe any information is incomplete, out of date, or incorrect so that appropriate corrections can be addressed. Please note that a statutory process is also available to correct errors pursuant to Arizona Revised Statutes 42-16254.

The Assessor does not guarantee that any information provided on this website is accurate, complete, or current. In many instances, the Assessor has gathered information from independent sources and made it available on this site, and the original information may have contained errors and omissions. Errors and omissions may also have occurred in the process of gathering, interpreting, and reporting the information. Information on the website is not updated in "real time". In addition, users are cautioned that the process used on this site to illustrate the boundaries of the adjacent parcels is not always consistent with the recorded documents for such parcels. The parcel boundaries depicted on this site are for illustrative purposes only, and the exact relationship of adjacent parcels should be independently researched and verified. The information provided on this site is not the equivalent of a title report or a real estate survey. Users should independently research, investigate and verify all information before relying on it or in the preparation of legal documents.

By using this website, you acknowledge having read the above and waive any right you may have to claim against Maricopa County, its officers, employees, and contractors arising out of my reliance on or the use of the information provided on this website.

CAUTION! USERS SHOULD INDEPENDENTLY RESEARCH AND VERIFY INFORMATION ON THIS WEBSITE BEFORE RELYING ON IT.

The Assessor's Office has compiled information on this website that it uses to identify, classify, and value real and personal property. Please contact the Maricopa County S.T.A.R. Center at (602) 506-3406 if you believe any information is incomplete, out of date, or incorrect so that appropriate corrections can be addressed. Please note that a statutory process is also available to correct errors pursuant to Arizona Revised Statutes 42-16254.

The Assessor does not guarantee that any information provided on this website is accurate, complete, or current. In many instances, the Assessor has gathered information from independent sources and made it available on this site, and the original information may have contained errors and omissions. Errors and omissions may also have occurred in the process of gathering, interpreting, and reporting the information. Information on the website is not updated in "real time". In addition, users are cautioned that the process used on this site to illustrate the boundaries of the adjacent parcels is not always consistent with the recorded documents for such parcels. The parcel boundaries depicted on this site are for illustrative purposes only, and the exact relationship of adjacent parcels should be independently researched and verified. The information provided on this site is not the equivalent of a title report or a real estate survey. Users should independently research, investigate and verify all information before relying on it or in the preparation of legal documents.

By using this website, you acknowledge having read the above and waive any right you may have to claim against Maricopa County, its officers, employees, and contractors arising out of my reliance on or the use of the information provided on this website.

CAUTION! USERS SHOULD INDEPENDENTLY RESEARCH AND VERIFY INFORMATION ON THIS WEBSITE BEFORE RELYING ON IT.

The Assessor's Office has compiled information on this website that it uses to identify, classify, and value real and personal property. Please contact the Maricopa County S.T.A.R. Center at (602) 506-3406 if you believe any information is incomplete, out of date, or incorrect so that appropriate corrections can be addressed. Please note that a statutory process is also available to correct errors pursuant to Arizona Revised Statutes 42-16254.

The Assessor does not guarantee that any information provided on this website is accurate, complete, or current. In many instances, the Assessor has gathered information from independent sources and made it available on this site, and the original information may have contained errors and omissions. Errors and omissions may also have occurred in the process of gathering, interpreting, and reporting the information. Information on the website is not updated in "real time". In addition, users are cautioned that the process used on this site to illustrate the boundaries of the adjacent parcels is not always consistent with the recorded documents for such parcels. The parcel boundaries depicted on this site are for illustrative purposes only, and the exact relationship of adjacent parcels should be independently researched and verified. The information provided on this site is not the equivalent of a title report or a real estate survey. Users should independently research, investigate and verify all information before relying on it or in the preparation of legal documents.

By using this website, you acknowledge having read the above and waive any right you may have to claim against Maricopa County, its officers, employees, and contractors arising out of my reliance on or the use of the information provided on this website.

Archaeology Assessment Request

Project Name: Central and Columbus Site **Cost Center or CIP No.:** N/A

Project Type: Phase I Environmental Site Assessment

Project Components: Full Acquisition

Project Manager: Ryan Miller **Phone No.:** 602-501-6292

City Department(s): City of Phoenix Housing Department

Project Consultants: Partner Engineering and Science, Inc.

APN: 118-33-029, -030, -031, -032, -033, -034, -035, -036, -037, -057, -058, -059, -060, -061, -062, -063, -064, -064, -065, -066, -067, -068

Location (T/R/ 1/4 Sec, APN, or major streets): W of North Central Avenue between Weldon and Columbus; SW 1/4 of NE 1/4 of S 29, T2N, R3E

Land Ownership for all Project Components (specify department, etc.):

Private: Joseph MacEwan

City of Phoenix: _____

State of Arizona: _____

Federal: _____

Permitting or Funding Agencies (specify):

Maricopa County: _____

State of Arizona: _____

Federal: _____

Other: City of Phoenix

Anticipated Construction Schedule:

Subsurface Excavations (grading, trenching, etc.): unknown

Other: _____

Extent of Construction Activities:

Anticipated depth of disturbance below present ground surface: unknown

Length and width of ground surface disturbance: 3.3 Acre

Utility Trenches (types): unknown

Other: _____

Print Name: Sydney Wills **Signed:** /s/Sydney Wills **Date:** 12/6/2023

Include location map or GIS shapefiles, Email completed form to: archaeology@phoenix.gov

Archaeology Assessment Result

Project Name: Central & Columbus Site

4400000022

Project Location: East of N Central Ave between Weldon and Columbus Aves

Project Sponsor: Planning/DSD (Ryan Miller)

Review Agencies: City of Phoenix

Survey Monitoring Testing Data Recovery

Comments:

No known archaeological sites are located within this project area.

Recommendations:

No archaeological work is necessary for this project. However, if any archaeological materials are encountered during construction, all ground-disturbing activities must cease within 10 meters of the discovery and the City of Phoenix Archaeology Office must be notified immediately and allowed time to properly assess the materials.

City of Phoenix

The City of Phoenix is committed to providing the highest quality tap water and reliable services to our residents, with rates that are among the lowest in the country. This Consumer Confidence Report, also known as a Water Quality Report, summarizes the results of millions of tests and measurements performed at Phoenix's water treatment plants and throughout the water distribution system. In 2022 tap water delivered to approximately 1.7 million residents served by the City of Phoenix Water Services Department met or surpassed all federal and state drinking water standards. In August of 2022, the Phoenix-Anthem Water System was deactivated as a result of an engineering project that provided the Phoenix Public Water System (PWS) the ability to deliver water directly to the Anthem Service Area. Beginning in 2023, residents in the Anthem service area are being served solely by the City of Phoenix PWS.

- To acquire this publication in an alternate format, contact the City of Phoenix Water Services Department at WSDCompliance@phoenix.gov, or call 602-262-6251, or 711 for Telecommunications Relay Services.
- Este informe contiene información importante sobre su agua potable. Si desea esta publicación en español, o en un formato alterno contactan el Departamento Municipal de Phoenix del Servicio del Agua, al 602-262-6251, ó 711/TTY.

How Does Phoenix Produce Superior Drinking Water?

1) Screening and Presedimentation - Large particles such as plant matter debris, and other materials commonly found in river water are removed by screens or settle to the bottom of the presedimentation basin.

2) Coagulation, Flocculation and Sedimentation - A chemical coagulant, such as ferric chloride, is added to the water. This causes the tiny particles to cling together and become heavy enough to settle to the bottom of the basin.

3) Filtration - The cleaner water on the top then passes through filters to remove remaining particulate matter.

4) Disinfection - A small quantity of chlorine, a disinfectant, is added to kill disease causing microorganisms and prevent microbial growth. Also a small quantity of fluoride is added to prevent tooth decay.

Water Quality and Substances Contained in Source Water

To ensure that tap water is safe to drink, the U.S. Environmental Protection Agency (EPA) prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. The U.S. Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water.

It is reasonable to expect drinking water, including bottled water or water that passed through home treatment systems, to contain at least small amounts of some contaminants. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. However, the presence of contaminants does not necessarily indicate that water poses a health risk. Contaminants that may be present in source water include the following:

- Microbial contaminants, such as viruses and bacteria, that may be from wastewater treatment plants, septic systems, agricultural livestock operations, or wildlife;

- Inorganic contaminants, such as salts and metals, that can be naturally occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming;
- Pesticides and herbicides, that may come from a variety of sources such as agriculture, urban storm water runoff and residential uses;
- Organic chemical contaminants, including synthetic and volatile organic chemicals, that are byproducts of industrial processes, petroleum production, and can also come from gas stations, urban storm water runoff, septic systems; and
- Radioactive contaminants that can be naturally occurring or can be the result of oil and gas production and mining activities.

More information about contaminants and potential health effects can be obtained by calling the EPA Safe Drinking Water Hotline, 800-426-4791. Information on bottled water can be obtained from the U.S. Food and Drug Administration.

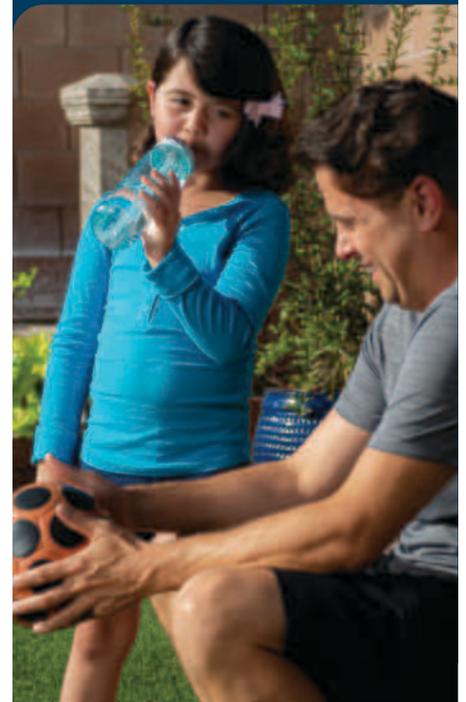

Presented by

City of Phoenix
WATER SERVICES DEPARTMENT
Quality. Reliability. Value

Where Does Our Water Come From?

The sources of Phoenix's drinking water include rivers, lakes, streams, springs and wells. In 2022, about 97-99 percent of Phoenix's water came from surface water that mostly started as snow pack. Phoenix's primary sources of untreated surface water are the Salt, Verde and Colorado rivers. Some water from the Agua Fria River is mixed with water from the Colorado River when stored in Lake Pleasant. The water is then delivered to one of the city's five water treatment plants. Colorado River water is delivered to the city via the Central Arizona Project (CAP) aqueduct. Water from the Salt and Verde rivers is delivered via the Salt River Project (SRP) canal network. The remaining two percent of drinking water was supplied by about 20 groundwater wells currently operated by the city.

PHOENIX.GOV/WATER

/PHXWATER

Phoenix Monitors for Unregulated Contaminants

Unregulated substances are those for which EPA has not established drinking water standards. Phoenix monitors for these substances to assist the EPA in determining the occurrence of unregulated contaminants in drinking water and whether future regulation is warranted. The EPA issues a new list of up to 30 unregulated substances for monitoring every five years.

EPA identified 30 substances for monitoring during this five year Unregulated Contaminants Monitoring Rule 4 cycle including:

- 9 cyanotoxins and 1 cyanotoxin group which are toxins produced by a bacteria called cyanobacteria
- 2 metals that occur naturally in our environment
- 8 pesticides and 1 pesticide manufacturing byproduct
- 3 disinfection byproduct groups that can be formed during water treatment and distribution
- 3 alcohols
- 3 semivolatile organic chemicals

From January 2018 through January 2020 the city has been monitoring for unregulated substances. Any unregulated contaminants detected in 2018 thru 2020 are reported in the following table. If the EPA determines that regulation is warranted for any of the monitored substances, Phoenix will take whatever steps that are necessary to comply with the new requirements.

UNREGULATED CONTAMINANTS						
SUBSTANCE	UNITS	MCL	LOWEST LEVEL	HIGHEST LEVEL	AVERAGE	MAJOR SOURCE IN DRINKING WATER
Manganese	ppb	None	0.4	992	43	Naturally occurring element
Germanium	ppb	None	0.3	0.7	0.35	Naturally occurring element; commercially available in combination with other elements and minerals; a byproduct of zinc ore processing; used in infrared optics, fiber-optic systems, electronics and solar applications
HAA6Br	ppb	None	6	28	14	Byproduct of drinking water disinfection
HAA9	ppb	None	11	36	19	Byproduct of drinking water disinfection
Total Organic Carbon	ppm	None	2.7	4.2	3.3	Naturally present in the environment
Bromide	ppb	None	ND	90	70	Naturally occurring compound

Controlling Disinfectants and Disinfection Byproducts

Phoenix's entire water supply (well water and treated surface water) is safely disinfected with chlorine before being delivered to consumers. Federal law requires a minimum chlorine disinfectant level of 0.2 parts per million (ppm) in the water leaving a water treatment plant. There also is a Maximum Residual Disinfectant Level (MRDL) allowed in the water in the distribution system as it travels to your tap.

While it is essential to disinfect the water to prevent widespread outbreaks of serious diseases and comply with EPA standards, the use of disinfectants can create disinfection byproducts (DBPs), which are formed when natural organic matter such as total organic carbon (TOC) in water reacts with chemicals used for disinfection.

To control those DBPs, TOC is measured in the surface water before and after treatment. TOC is reduced during the water treatment process at the plant, therefore, reducing formation of DBPs in the distribution system. Compliance for TOC is based on the removal ratio of TOC on a running annual average. A value of 1 or greater indicates the water treatment plant is in compliance with the TOC removal requirements. Again, Phoenix met the requirement, as shown in the corresponding chart.

Chlorine dioxide and ozone can be used in the treatment of drinking water as either disinfectants or oxidants. Some Phoenix surface water treatment plants use chlorine dioxide and/or ozone as oxidants for the removal of iron and manganese, destruction of taste and odor causing organic contaminants, and as part of an overall program for the control of Trihalomethanes (THMs) formation. Federal law allows a maximum chlorine dioxide level of 800 parts per billion (ppb) in the water leaving a water treatment plant. Chlorine dioxide is measured daily at the water treatment plants when chlorine dioxide is in use, and the levels are consistently below 800 ppb.

Using chlorine dioxide forms chlorite and using ozone forms bromate. Chlorite and bromate are regulated as DBPs. To determine formation of DBPs from oxidants, chlorite is sampled daily at the entry point of the distribution system, and quarterly throughout the distribution system. Bromate is sampled monthly at the entry point to the distribution system. The chlorite results were below the MCL and the bromate was not detected.

2022 DISINFECTANT AND DISINFECTION BYPRODUCT MONITORING						
SUBSTANCE	UNITS	MCL	MCLG	SAMPLE RESULTS	HIGHEST RUNNING ANNUAL AVERAGE	MAJOR SOURCE IN DRINKING WATER
Chlorine	ppm	MRDL = 4 Running Annual Average	MRDLG = 4	<0.22 - 2.0	0.9	Water additive used to control microbes
Total Organic Carbon Removal Ratio	NA	TT = 1 or greater Running Annual Average	NA	0.6 - 3.1	1.6 (lowest running annual average)	Naturally present in the environment
Chlorine Dioxide	ppb	MRDL = 800	MRDLG = 800	ND - 170	170 (highest level detected)	Water additive as an oxidant
Chlorite	ppm	1	0.8	ND - 0.6	0.3 (highest quarterly average)	Byproduct of drinking water disinfection
Bromate	ppb	10	0	ND	ND	Byproduct of drinking water disinfection
Total Trihalomethanes (TTHMs)	ppb	80 Locational Running Annual Average	NA	12-86	59 (highest locational running annual average)	Byproduct of drinking water disinfection
Haloacetic Acids (HAA)	ppb	60 Locational Running Annual Average	NA	3-20	20 (highest locational running annual average)	Byproduct of drinking water disinfection

To determine formation of DBPs from chlorine in the distribution system, the city monitors for THMs and Haloacetic Acids (HAAs) which are DBPs that may cause long-term health effects at certain concentrations. THMs and HAAs are sampled throughout the distribution system every calendar quarter. The LRAA for all samples collected at the monitoring locations throughout the distribution system were below the MCL.

Taste, Odor and Hardness

Taste, odor and hardness are not regulated under drinking water health standards. However, these are harmless, aesthetic aspects that some consumers may notice. Algae that grow in the canals during the late summer and fall are a major source of a "musty" odor and taste detected by some consumers. When the algae bloom, they produce a strong odor. Even though the algae are removed from the water during the treatment process, the odor may

linger. The result is similar to removing a bouquet of fresh flowers from a room. Even though the flowers are gone, the aroma remains. The City of Phoenix is working to eliminate the aesthetic effects of algae through various programs, including a cooperative effort to remove algae from the SRP canals that feed the water treatment plants, and the use of activated carbon to absorb residual odors. Water hardness indicates the

presence of minerals, such as calcium and magnesium, which originate from the soils our source water contacts as it travels to Phoenix's water treatment plants. These minerals are leached into the water. Hard water can cause some types of scaling in pipes and water heaters, and on plumbing fixtures such as faucets and showerheads. See the chart below for data about hardness and other aesthetic parameters.

2022 AESTHETIC WATER QUALITY ANALYSIS FROM DISTRIBUTION SYSTEM & SECONDARY DRINKING WATER GUIDELINES

SUBSTANCE	UNITS	SECONDARY GUIDELINE *	SAMPLE RESULTS RANGE
Alkalinity	ppm	NA	124 - 142
Iron	ppb	300	ND
pH	NA	6.5 - 8.5	7.5 - 8.3
Sodium	ppm	NA	89-209
Temperature	°F	NA	57-93
Total Dissolved Solids (TDS)	ppm	500	570-764
Total Hardness	ppm; grains/gallon	NA	187 - 278 / 10.9 - 16.2

* Non-Enforceable Guidelines Recommended by EPA.

If you choose to install home treatment systems to remove taste and odor or other substances, it is important to note that failure to follow the manufacturer's instructions concerning operation and maintenance can result in potentially unsafe water. More information about home treatment systems is available from the Arizona Water Quality Association. They can be reached at azwqa.org; or at 480-947-9850.

Understanding the Language of Water

The following are definitions of terms used to describe types of limits for substances that may be found in drinking water.

Maximum Contaminant Level Goal (MCLG) - The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Contaminant Level (MCL) - The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Residual Disinfectant Level Goal (MRDLG) - The level of drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

Maximum Residual Disinfectant Level (MRDL) - The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is required for control of microbial contaminants.

Treatment Technique (TT) - A required process intended to reduce the level of a contaminant in drinking water.

Action Level (AL) - The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

One part per million - One part per million (1 ppm) or one milligram per liter (1 mg/L) is approximately equal to a single penny in \$10,000 or one minute of time in two years.

One part per billion (1 ppb) or one microgram per liter (1 µg/L) is approximately equal to a single penny in \$10,000,000 or one minute of time in 1,920 years.

Locational running annual average (LRAA) - The average of sample analytical results for samples taken at a particular monitoring location during the previous four calendar quarters.

Water Treatment Process Designed to Remove Turbidity

The filters in the water treatment process produce water of superior clarity. Turbidity readings are a measure of that water clarity and a good indicator that the treatment process is removing tiny particles, including microorganisms. The standard for turbidity or clarity after treatment is 0.3 Nephelometric Turbidity Units (NTU – a measure of clarity) in at least 95 percent of the measurements taken each month and the measurements must not exceed 1 NTU.

2022 TURBIDITY MONITORING AFTER TREATMENT AT THE WATER TREATMENT PLANTS

SUBSTANCE	TREATMENT TECHNIQUE APPLIES INSTEAD OF MCL	MCLG	HIGHEST MEASUREMENT	LOWEST MONTHLY PERCENTAGE	MAJOR SOURCE IN DRINKING WATER
Turbidity	No value can exceed 1 NTU and at least 95% of monthly measurements must be less than or equal to 0.3 NTU	NA	0.43 NTU	98.9%	Soil runoff

Where to Learn More About the Quality of Our Water

If you have questions about this report, concerns about water quality, or input about your water supply, treatment and delivery, email WSDCompliance@phoenix.gov, or call 602-262-6251 Monday through Friday, except holidays, from 7:30 a.m. to 4:00 p.m., or write to: "Water Quality Questions," c/o City of Phoenix Water Services Department, Environmental Services Division, 2474 South 22nd Avenue, Building 31, Phoenix AZ 85009.

Citizens who wish to address the Phoenix City Council about water issues or other non-agenda items may do so at the Citizen Request Sessions at City Council Formal meetings, which are held in the City Council Chambers, 200 W. Jefferson St. For information about specific meeting times and agenda items, please contact the City of Phoenix City Clerk Department at 602-262-6811 or visit phoenix.gov and click on Mayor/City Council, View City Council Meetings and Agendas.

For alternate formats, email WSDCompliance@phoenix.gov, or call 602-262-6251/Voice, or 711 for Telecommunication Relay Services.

You also can visit the city's web site at phoenix.gov for more information. An online version of this report is available at phoenix.gov/waterservices/waterquality.

You also may call the EPA's Safe Drinking Water Hotline for information about the Safe Drinking Water Act or EPA's other drinking water programs at 800-426-4791.

Important Information for Immuno-compromised Persons

Although the city treats our water to meet or surpass all drinking water standards, some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. The U.S. Environmental Protection Agency (EPA) and Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the EPA Safe Drinking Water Hotline at 800-426-4791.

Meeting Lead and Copper Standards

Lead and copper usually enter our drinking water from corrosion of household plumbing, pipes and fixtures that contain these metals, such as copper piping, lead solder or brass fixtures. The EPA requires water suppliers to perform periodic tests for lead and copper in the tap water from inside consumers' homes. Tests show levels in Phoenix household tap water met the Action Level required by federal drinking water standards for lead and copper.

While Phoenix meets the Action Level, lead and copper levels at some consumer's homes may be elevated due to leaching of the metals into the water from materials used in the household plumbing or fixtures. If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The city of Phoenix is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and the steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at epa.gov/lead.

2022* RESULTS OF LEAD AND COPPER SAMPLING FROM RESIDENTIAL WATER TAPS

SUBSTANCE	ACTION LEVEL (AL) APPLIES INSTEAD OF MCL	MCLG	90% OF TAPS WERE LESS THAN OR EQUAL TO THIS VALUE	NUMBER OF SITES ABOVE THE AL	MAJOR SOURCE IN DRINKING WATER
Lead	90% of taps tested must not exceed 15 ppb	0	4 ppb	Three (3) out of 71 taps sampled	Corrosion of household plumbing systems
Copper	90% of taps tested must not exceed 1.3 ppm	1.3	0.4 ppm	Zero (0) out of 71 taps sampled	Corrosion of household plumbing systems

*2022 Monitoring - Some of our data, though representative, are more than a year old. The state of Arizona allows us to monitor for some contaminants less than once per year because the concentrations of these contaminants do not change frequently.

Substances detected in the water and the Maximum Contaminant Level (MCL) allowed in drinking water according to federal and state regulations are shown in the table below. This report lists only the substances that were detected in the water. If you would like to receive a list of all the substances tested in city of Phoenix water, please email WSDCompliance@phoenix.gov, or call 602-262-6251. **Please note, the presence of a substance or contaminant in drinking water does NOT necessarily indicate the drinking water poses a health risk.**

SUBSTANCE	UNITS	MCL	MCLG	SAMPLE RESULTS RANGE	HIGHEST LEVEL DETECTED	MAJOR SOURCE IN DRINKING WATER
Arsenic**	ppb	10-Running Annual Avg.	0	ND - 7.8	7	Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronics production wastes.
Barium	ppm	2	2	0.006 - 0.1	NA	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits.
Chromium	ppb	100	100	ND - 56	NA	Discharge from steel and pulp mills; Erosion of natural deposits.
Fluoride	ppm	4	4	0.3 - 1.0	NA	Erosion of natural deposits; Water additive, which promotes strong teeth; Discharge from fertilizer and aluminum factories.
Nitrate*** (as N)	ppm	10	10	ND - 7	NA	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits.
Selenium	ppb	50	50	ND - 2	NA	Discharge from petroleum and metal refineries; erosion of natural deposits; discharge from mines

**While your drinking water meets EPA's standard for arsenic, it does contain low levels of arsenic. EPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

***Nitrate in drinking water at levels greater than 10 ppm is a health risk for infants of less than six months of age. High nitrate levels in drinking water can cause blue baby syndrome. Nitrate levels may rise quickly for short periods of time because of rainfall or agricultural activity. If you are caring for an infant, you should ask for advice from your health care provider.

SUBSTANCE	UNITS	MCL	MCLG	SAMPLE RESULTS RANGE	MAJOR SOURCE IN DRINKING WATER
Uranium	ppb	30	0	ND - 2.4	Erosion of natural deposits
Combined Radium	pCi/L	5	0	ND - 0.9	Erosion of natural deposits
Alpha Emitters	pCi/L	15	0	ND - 1.6	Erosion of natural deposits

Source Water Assessment Summary for the City Drinking Water Sources

The Arizona Department of Environmental Quality (ADEQ) conducted a source water assessment for the drinking water wells and the surface water sources for the city of Phoenix water treatment plants in 2005. This assessment reviewed the adjacent land uses that may pose a potential risk to the water sources. These risks include, but are not limited to, gas stations, landfills, dry cleaners, agricultural fields, wastewater treatment plants, and mining activities. Once ADEQ identified the adjacent land uses, they were ranked as to their potential to affect the water source.

The assessment has designated water from the Central Arizona Project (CAP) aqueduct to have a high risk because the source water is often stored in Lake Pleasant prior to being transported to a city water treatment plant. There have been reportable releases or spills of a substance at a facility near the lake that have not been reported as being remediated. The spill at this facility makes the CAP source water susceptible to potential future contamination.

Phoenix ensures the safety of your drinking water by continuously monitoring the treated water as required by drinking water regulations. Phoenix also conducts other monitoring and studies to assess water quality. If any contaminant approaches the drinking water MCL, treatment is installed or wells are removed from service.

Residents can help protect our water sources by practicing good septic system maintenance, taking hazardous household chemicals to hazardous material collection sites, and limiting pesticide and fertilizer use.

The complete report is available for review at ADEQ, 1110 W. Washington St., Phoenix, AZ 85007 or by requesting an electronic copy from ADEQ at recordscenter@azdeq.gov

For more information visit the ADEQ website at: www.azdeq.gov/node/735, or email the City of Phoenix at WSDCompliance@phoenix.gov, or call 602-262-6251.

Tests Show No Cryptosporidium or Giardia in Our Drinking Water

Phoenix tests water for various microbiological organisms, including *Cryptosporidium* (often called **Crypto**, for short) and *Giardia*. **Crypto** and *Giardia* cause diarrheal illness through ingestion of soil, food, water or surfaces that have been contaminated with feces from infected humans or animals. There were no cases of the disease caused by either organism attributed to the public water supply in our service area. Occasionally low levels of *Giardia* and **Crypto** were found in raw water before it was treated by the water treatment plants. Phoenix did not detect any **Crypto** in our finished water.

Under the Long Term 2 Enhanced Surface Water Treatment Rule (LT2ESWTR), EPA requires Phoenix and other large water systems to conduct monthly monitoring for **Crypto** in their source water. The LT2ESWTR results determine if additional treatment is needed to remove these organisms. Phoenix monitored for **Crypto** at each water treatment plant from April 2015 until March 2017. Results range from not detected to 0.1 oocyst per liter of **Crypto** in the source water. Based on the monitoring results, Phoenix does not require any additional treatment. For more information about *Cryptosporidium*, *Giardia* and other microbial contaminants, contact the EPA's Safe Drinking Water Hotline at 800-426-4791.

PHASE I ESA/AAI REQUIREMENTS

In order to qualify for one of the "Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30 and 312.31. The user should provide the following information to the environmental professional. Failure to conduct these inquiries could result in a determination that "all appropriate inquiries" is not complete. This information is required for incorporation into the Phase I ESA report or update report. Please check yes or no and provide any additional information you may have regarding the site. This form must be completed and signed prior to the issuance of the NTP.

(1) Environmental cleanup liens that are filed or recorded against the site (40 CFR 132.25).

Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state, or local law?

Yes No

If yes, please explain:

(2) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).

Are you aware of any activity use limitations (AULs) such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

Yes No

If yes, please explain:

(3) Specialized knowledge or experience of the person/department requesting the Phase I ESA and seeking to qualify for the landowner liability protections (40 CFR 312.28).

As the user of this ESA, do you have any specialized knowledge or experience related to the property or adjoining properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Yes No

If yes, please explain:

(4) Relationship of the purchase price to the fair market value of the property, if it were not contaminated (40 CFR 312.29).

Does the purchase price offered for this property reasonably reflect the fair market value of the property? If there is a difference between the purchase price and the fair market value, have you considered whether the lower purchase price is because contamination is known or believed to be at the property?

Will purchase price be less than the appraised value? Yes No

If yes, please discuss:

(5) Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,

(a) Do you know the past uses of the property? Yes No

(b) Do you know of specific chemicals that are present or once were present at the property? Yes No

(c) Do you know of spills or other chemical releases that have taken place at the property? Yes No

(d) Do you know of any environmental cleanups that have taken place or are ongoing at the property? Yes No

If yes, please explain: typically residential. See 2004 Ph I report.

(6) The degree of obviousness of the presence or likely presence of contamination at the property and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

As the user of this ESA, based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?

Yes No

If yes, please explain:

Legend

SEE FIS REPORT FOR DETAILED LEGEND AND INDEX MAP FOR FIRM PANEL LAYOUT

SPECIAL FLOOD HAZARD AREAS		Without Base Flood Elevation (BFE) <i>Zone A, V, A99</i>
		With BFE or Depth <i>Zone AE, AO, AH, VE, AR</i>
		Regulatory Floodway
OTHER AREAS OF FLOOD HAZARD		0.2% Annual Chance Flood Hazard, Areas of 1% annual chance flood with average depth less than one foot or with drainage areas of less than one square mile <i>Zone X</i>
		Future Conditions 1% Annual Chance Flood Hazard <i>Zone X</i>
		Area with Reduced Flood Risk due to Levee. See Notes. <i>Zone X</i>
		Area with Flood Risk due to Levee <i>Zone D</i>
OTHER AREAS		NO SCREEN Area of Minimal Flood Hazard <i>Zone X</i>
		Effective LOMRs
GENERAL STRUCTURES		Area of Undetermined Flood Hazard <i>Zone D</i>
		Channel, Culvert, or Storm Sewer
		Levee, Dike, or Floodwall
OTHER FEATURES		20.2 Cross Sections with 1% Annual Chance
		17.5 Water Surface Elevation
		Coastal Transect
		Base Flood Elevation Line (BFE)
		Limit of Study
MAP PANELS		Jurisdiction Boundary
		Coastal Transect Baseline
		Profile Baseline
		Hydrographic Feature
		Digital Data Available
		No Digital Data Available
		Unmapped

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on **12/22/2023 at 9:57 AM** and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

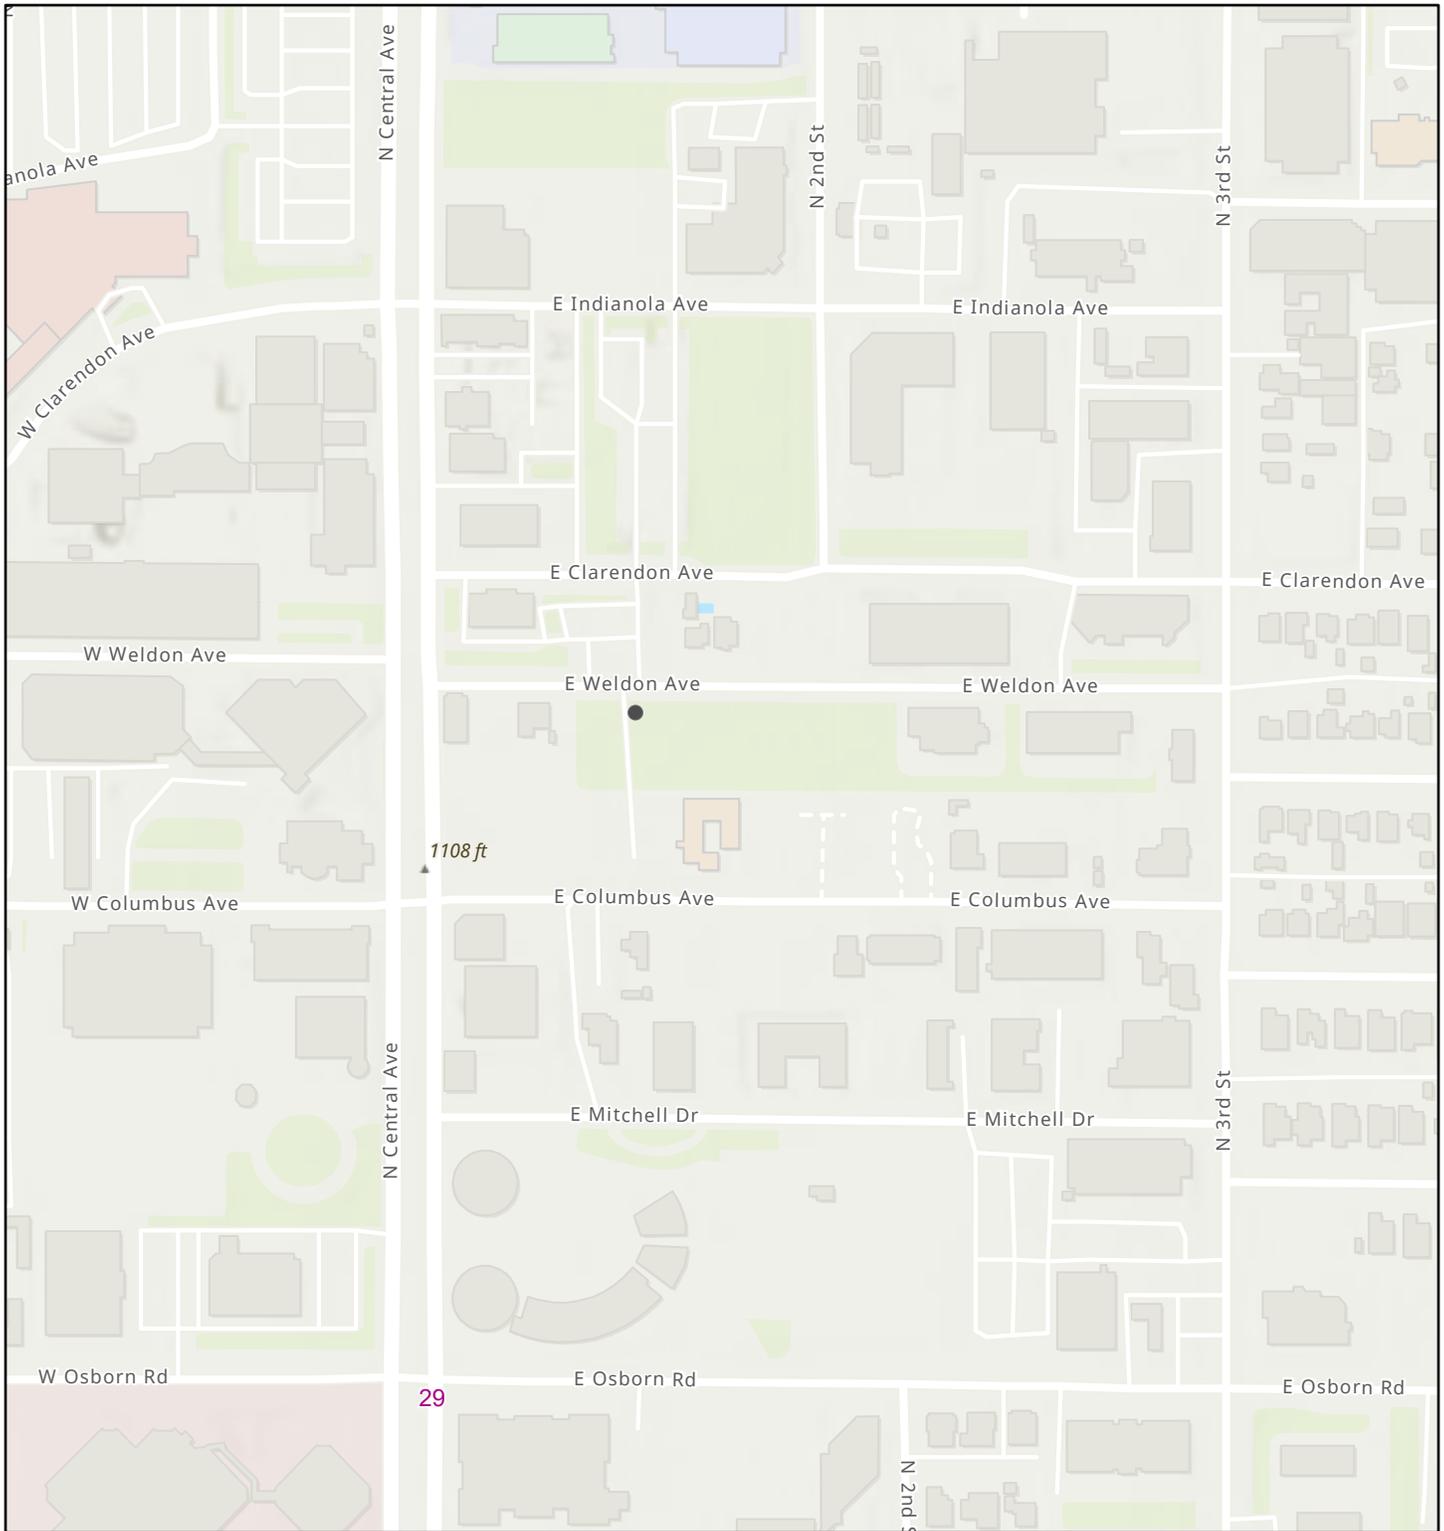

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

RECORD OF COMMUNICATION

Project: Central and Columbus Site Job No. 23-478768

Location: NEC of North Central and East Columbus Avenue

Date:	Entity:	Summary of Communication:
12/21/2023	Gertude E Miller; Prior Owner 25 East Weldon Avenue (1950-1966)	Accordng to online sources Ms. Miller passed in 1968
12/21/2023	John C. Ruegge; Prior Owner 25 East Weldon Avenue (1947 to 1950)	Accordng to online sources Mr. Ruegge passed in 1970
12/21/2023	Antoine K Gramling; Prior Owner 55 East Weldon Avenue (1952)	Accordng to online sources Mr. Gramling passed in 1965
12/21/2023	North Central Motor Hotel; Prior Owner of 29, 33, 37 East Weldon Avenue	Accordng to online sources The hotel was located at 3601 North Central Avenue on the west adjoining property
12/21/2023	Chester Locker; Prior Owner 55 East Weldon Avenue (1945)	Accordng to online sources Mr. Locker passed in 1994 and Mrs. Lcoker passed in 1996
12/21/2023	Charles K. Glynn and Betty R. Glynn; Prior Owner 33, 37 East Weldon Avenue (1960)	Accordng to online sources Mr. Glynn passed in 1995 and Mrs. Glynn passed in 2007
12/21/2023	Rosendo Gutierrez; prior Owner 55 East Weldon Avenue (1969-1983)	Accordng to online sources Mr. Gutierrez passed in 2021
12/21/2023	O.C. Willbern; Prior Owner 26 East Columbus Avenue (1959)	Accordng to online sources Mr. Willbern passed in 1983
12/21/2023	Eleanire K. Fischer; Prior Owner 32 East Columbus Avenue (1968-1973)	Accordng to online sources Mr. Fischer passed in 2013
12/21/2023	Hain Mara Lamberti; Prior Owner 46 East Columbus Avenue (1969)	According to online sources, Ms. Lamberti passed in 2003
12/21/2023	Dorothy Wallace Bishopp; Prior Owner 50, 52, 54 East Columbus Avenue	According to online sources, Ms. Bishopp passed in 2004
12/21/2023	Theoharris (Ted) Dragos; Prior Owner 64 East Columbus Avenue	According to online sources, Mr. Dragos passed in 2017
12/21/2023	Industrial Manufacturing Co.	Company Information not found
12/22/2023	Smith Development; Prior Owner (Currently; Smith Pipe and Steel) (602) 257-9494	Contact Number found on 1988 building permit- Voicemail left

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service

Web Soil Survey URL:

Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Maricopa County, Arizona, Central Part

Survey Area Data: Version 18, Sep 8, 2023

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Oct 29, 2022—Nov 15, 2022

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI
Mr	Mohall clay loam	3.3	100.0%
Totals for Area of Interest		3.3	100.0%

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13 and E1527-21, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

National Priority List:

[NPL](#)

Sites on the United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Oct 26, 2023

National Priority List - Proposed:

[PROPOSED NPL](#)

Sites proposed by the United States Environmental Protection Agency (EPA), the state agency, or concerned citizens for addition to the National Priorities List (NPL) due to contamination by hazardous waste and identified by the EPA as a candidate for cleanup because it poses a risk to human health and/or the environment. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Oct 26, 2023

Deleted NPL:

[DELETED NPL](#)

Sites deleted from the United States Environmental Protection Agency (EPA)'s National Priorities List. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Oct 26, 2023

SEMS List 8R Active Site Inventory:

[SEMS](#)

The U.S. Environmental Protection Agency's (EPA) Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted. This data includes SEMS sites from the List 8R Active file as well as applicable sites from the SEMS GIS/REST file layer obtained from EPA's Facility Registry Service.

Government Publication Date: Sep 19, 2023

Inventory of Open Dumps, June 1985:

[ODI](#)

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

SEMS List 8R Archive Sites:

[SEMS ARCHIVE](#)

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. This data includes sites from the List 8R Archived site file.

Government Publication Date: Sep 19, 2023

Comprehensive Environmental Response, Compensation and Liability Information System -

[CERCLIS](#)

CERCLIS:

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands:

[IODI](#)

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned:

[CERCLIS NFRAP](#)

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens:

[CERCLIS LIENS](#)

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA). This database was provided by the United States Environmental Protection Agency (EPA). Refer to SEMS LIEN as the current data source for Superfund Liens.

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action:

[RCRA CORRACTS](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Oct 2, 2023

RCRA non-CORRACTS TSD Facilities:

[RCRA TSD](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites that have indicated engagement in the treatment, storage, or disposal of hazardous waste which requires a RCRA hazardous waste permit.

Government Publication Date: Oct 2, 2023

RCRA Generator List:

[RCRA LQG](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Oct 2, 2023

RCRA Small Quantity Generators List:

[RCRA SQG](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Oct 2, 2023

RCRA Very Small Quantity Generators List:

[RCRA VSQG](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

Government Publication Date: Jul 10, 2023

RCRA Non-Generators:

[RCRA NON GEN](#)

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Oct 2, 2023

RCRA Sites with Controls:

[RCRA CONTROLS](#)

List of Resource Conservation and Recovery Act (RCRA) facilities with institutional controls in place. RCRA gives the U.S. Environmental Protection Agency (EPA) the authority to control hazardous waste from the "cradle-to-grave." This includes the generation, transportation, treatment, storage, and disposal of hazardous waste. RCRA also set forth a framework for the management of non-hazardous solid wastes. The 1986 amendments to RCRA enabled EPA to address environmental problems that could result from underground tanks storing petroleum and other hazardous substances.

Government Publication Date: Oct 2, 2023

Federal Engineering Controls-ECs:

[FED ENG](#)

This list of Engineering controls (ECs) is provided by the United States Environmental Protection Agency (EPA). ECs encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. The EC listing includes remedy component data from Superfund decision documents issued in fiscal years 1982-2021 for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Oct 26, 2023

Federal Institutional Controls- ICs:

[FED INST](#)

This list of Institutional controls (ICs) is provided by the United States Environmental Protection Agency (EPA). ICs are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site. The IC listing includes remedy component data from Superfund decision documents issued in fiscal years 1982-2021 for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Oct 26, 2023

Land Use Control Information System:

LUCIS

The LUCIS database is maintained by the U.S. Department of the Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

Government Publication Date: Sep 1, 2006

Institutional Control Boundaries at NPL sites:

NPL IC

Boundaries of Institutional Control areas at sites on the United States Environmental Protection Agency (EPA)'s National Priorities List, or Proposed or Deleted, made available by the EPA's Shared Enterprise Geodata and Services (SEGS). United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. Institutional controls are non-engineered instruments such as administrative and legal controls that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy.

Government Publication Date: Oct 26, 2023

Emergency Response Notification System:

ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System:

ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System:

ERNS

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

Government Publication Date: Aug 12, 2023

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:

FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This data is provided by the United States Environmental Protection Agency (EPA) and includes Brownfield sites from the Cleanups in My Community (CIMC) web application.

Government Publication Date: Mar 13, 2023

FEMA Underground Storage Tank Listing:

FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

Facility Response Plan:

FRP

This listing contains facilities that have submitted Facility Response Plans (FRPs) to the U.S. Environmental Protection Agency (EPA). Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit FRPs. Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments. This listing includes FRP facilities from an applicable EPA FOIA file and Homeland Infrastructure Foundation-Level Data (HIFLD) data file.

Government Publication Date: May 2, 2023

Delisted Facility Response Plans:

DELISTED FRP

Facilities that once appeared in - and have since been removed from - the list of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: May 2, 2023

Historical Gas Stations:

[HIST GAS STATIONS](#)

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

Government Publication Date: Jul 1, 1930

Petroleum Refineries:

[REFN](#)

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

Government Publication Date: Sep 20, 2023

Petroleum Product and Crude Oil Rail Terminals:

[BULK TERMINAL](#)

A list of petroleum product and crude oil rail terminals from the U.S. Energy Information Administration (EIA), as well as petroleum terminals sourced from the Federal Communications Commission Data hosted by the Homeland Infrastructure Foundation-Level Database. Data includes operable bulk petroleum product terminals with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil with activity between 2017 and 2018. EIA petroleum product terminal data comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings.

Government Publication Date: Sep 22, 2023

LIEN on Property:

[SEMS LIEN](#)

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) provides Lien details on applicable properties, such as the Superfund lien on property activity, the lien property information, and the parties associated with the lien.

Government Publication Date: Sep 19, 2023

Superfund Decision Documents:

[SUPERFUND ROD](#)

This database contains a list of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include completed Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD) for active and archived sites stored in the Superfund Enterprise Management System (SEMS), along with other associated memos and files. This information is maintained and made available by the U.S. Environmental Protection Agency.

Government Publication Date: Sep 19, 2023

Formerly Utilized Sites Remedial Action Program:

[DOE FUSRAP](#)

The U.S. Department of Energy (DOE) established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from the Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations. The DOE Office of Legacy Management (LM) established long-term surveillance and maintenance (LTS&M) requirements for remediated FUSRAP sites. DOE evaluates the final site conditions of a remediated site on the basis of risk for different future uses. DOE then confirms that LTS&M requirements will maintain protectiveness.

Government Publication Date: Mar 4, 2017

State

Waste Program Remedial Projects - Superfund & DOD:

[SHWS](#)

The Arizona Department of Environmental Quality (ADEQ) Waste Programs Division investigates, manages, and oversees remediation of soil and groundwater contaminated with hazardous substances. List of sites overseen by the Remedial Projects Section and/or Federal programs, including Federal DOD and Superfund sites.

Government Publication Date: Jul 18, 2023

CERCLIS Information Data System (ACIDS):

[SHWS ACIDS](#)

The Arizona CERCLIS Information Data System (ACIDS) list was used by the Arizona Department of Environmental Quality Superfund Programs Section (SPS) prior to July 2000. The ACIDS list consists of locations subject to investigations concerning possible contamination of soil, surface water, or groundwater under the State Water Quality Assurance Revolving Fund (WQARF) and Federal CERCLA programs. The ACIDS list has been archived and is no longer being distributed or updated. The ACIDS list has been replaced by the Arizona Superfund Program List (ASPL).

Government Publication Date: Aug 3, 1995

Water Quality Assurance Revolving Fund Sites (WQARF):

[WQARF](#)

The Arizona Department of Environmental Quality (ADEQ) Water Quality Assurance Revolving Fund (WQARF) program supports the ADEQ in identifying, prioritizing, assessing, and resolving the threat of contaminated soil and groundwater sites in the state. This list of sites includes those on the WQARF Registry, sites removed from the WQARF Registry, and sites requiring remediation under the WQARF Emergency Response.

Government Publication Date: Jul 18, 2023

Delisted WQARF, Superfund, DOD:

DELISTED SUPERFUND

List of sites which once appeared, but have since been removed from either the WQARF Registry, Superfund Sites, Department of Defense Sites, or Superfund Alternative Sites.

Government Publication Date: Jul 18, 2023

Directory of Solid Waste Facilities:

SWF/LF

A list of Solid Waste Facilities and Landfill sites in the State of Arizona. This list is made available by Arizona Department of Environmental Quality, Waste Programs Division, Solid Waste Management.

Government Publication Date: Jan 31, 2022

Leaking Underground Storage Tanks:

LUST

This list of Leaking Underground Storage Tanks (LUST) sites is provided by the Arizona Department of Environmental Quality (ADEQ) Waste Program Division. The listing includes leaking tank records from ADEQ's LUST Database online search tool as well as the ADEQ's eMaps web viewer applicable layer/s.

Government Publication Date: Sep 25, 2023

Delisted Leaking Underground Storage Tanks:

DELISTED LUST

A list of sites that once appeared on - and have since been removed from - the list of Leaking Underground Storage tanks made available by the Arizona Department of Environmental Quality.

Government Publication Date: Sep 25, 2023

Underground Storage Tanks List:

UST

This list of registered Underground Storage Tank (UST) sites is provided by the Arizona Department of Environmental Quality (ADEQ) Waste Program Division. The listing includes tank records from ADEQ's UST Database online search tool as well as the ADEQ's eMaps web viewer applicable layer/s.

Government Publication Date: Sep 25, 2023

Aboveground Storage Tanks:

AST

List of aboveground fuel storage tanks (ASTs) made available by the State Fire Marshal's Office. This list is of installed ASTs and does not include any AST permitted and inspected by any City, Town, County, or Fire District. This is not a complete list of storage systems in use in the State of Arizona; ASTs may have been installed and used without adequate permission from the State Fire Marshal's Office. The absence of a property from the State Fire Marshal records as a permitted tank is not proof that an AST for hazardous materials was never installed or used at a given address.

Government Publication Date: Sep 29, 2015

Exemption Certificate Renewals:

AST2

The Exemption Certificate Renewals data lists applicants that have renewed their tank certificates that will never expire from the penny underground storage tank tax. This is provided by Arizona Department of Environmental Quality.

Government Publication Date: Nov 7, 2023

Delisted Storage Tanks List:

DELISTED TANKS

A list of sites that once appeared on - and have since been removed from - the list of Underground Storage tank facilities made available by the Arizona Department of Environmental Quality.

Government Publication Date: Nov 7, 2023

Environmental Use Restriction Sites List:

AUL

A list of sites with either a Declaration of Environmental Use Restriction (DEUR) or a Voluntary Environmental Mitigation Use Restriction (VEMUR) from the Arizona Department of Environmental Quality's (ADEQ) Remediation and DEUR Tracking System (RDT) and/or the AZURITE Database of License Applications. A DEUR is a restrictive land use covenant that is required when a property owner elects to use an institutional (i.e., administrative) control or engineering (i.e., physical) control as a means to meet remediation goals. The DEUR runs with and burdens the land, and requires maintenance of any institutional or engineering controls. A VEMUR is a restrictive land use covenant that, prior to July 18, 2000, was required when a property owner elected to remediate the property to non-residential uses. Effective July 18, 2000, the DEUR replaced the VEMUR as a restrictive use covenant.

Government Publication Date: Jul 6, 2023

Remediation and DEUR Tracking Other Remediation Sites:

[RDT OTHER](#)

List of sites from the Arizona Department of Environmental Quality (ADEQ) Remediation and DEUR Tracking (RDT) System where the owner has elected to remediate the property without the use of an institutional or engineering control.

Government Publication Date: Jul 6, 2023

Voluntary Remediation Program:

[VCP](#)

A list of sites registered in Voluntary Remediation Program (VRP). This list is made available by Arizona Department of Environment Quality (ADEQ). Through ADEQ's VRP, property owners, prospective purchasers and other interested parties investigate or clean up a contaminated site in cooperation with ADEQ.

Government Publication Date: Oct 21, 2020

Brownfields Tracking System:

[BROWNFIELDS](#)

A list of brownfield sites in the State of Arizona, made available by Arizona Department of Environmental Quality. Brownfields are abandoned or underutilized properties where the reuse is complicated by actual or perceived environmental contamination.

Government Publication Date: Oct 21, 2020

Tribal

White Mountain Apache Tribe Brownfields:

[BROWNFIELDS WMAT](#)

This Brownfields Inventory is made available by the White Mountain Apache Tribe (WMAT) Environmental Protection Office (EPO). The sites represent potential brownfields sites identified on the Fort Apache Indian Reservation by the WMAT's EPO. The inclusion of a site in this inventory does not denote that the site is contaminated or that it poses an environmental or human health risk.

Government Publication Date: Mar 30, 2015

Salt River Pima Maricopa Indian Community Brownfields:

[SRPMIC BROWNFIELDS](#)

This Brownfield Program Public Record site listing is made available by the Environmental Protection and Natural Resources Division (EPNR) of the Community Development Department (CDD). The EPNR of the CDD was established to enhance the quality of life within the Salt River Pima-Maricopa Indian Community (SRPMIC) by protecting and preserving the land, ecosystems, wildlife, history, and natural resources of the Community. The list contains public information regarding ongoing Brownfield assessments, clean ups and/or planned assessments, cleanups, remediation and information inviting community involvement in identifying potential Brownfield sites.

Government Publication Date: Oct 31, 2022

Leaking Underground Storage Tanks on Tribal/Indian Lands:

[INDIAN LUST](#)

This list of leaking underground storage tanks (LUSTs) on Tribal/Indian Lands in Region 9, which includes Arizona, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Apr 19, 2023

Underground Storage Tanks on Tribal/Indian Lands:

[INDIAN UST](#)

This list of underground storage tanks (USTs) on Tribal/Indian Lands in Region 9, which includes Arizona, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Apr 19, 2023

Delisted Tribal Leaking Storage Tanks:

[DELISTED INDIAN LST](#)

Leaking Underground Storage Tank (LUST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian LUST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Apr 26, 2023

Delisted Tribal Underground Storage Tanks:

[DELISTED INDIAN UST](#)

Underground Storage Tank (UST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian UST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Apr 26, 2023

County

No County databases were selected to be included in the search.

Additional Environmental Record Sources

Federal

Facility Registry Service/Facility Index:

[FINDS/FRS](#)

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the U.S. Environmental Protection Agency (EPA).

Government Publication Date: Sep 8, 2023

Toxics Release Inventory (TRI) Program:

[TRIS](#)

The U.S. Environmental Protection Agency's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of toxic chemicals from U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. There are currently 770 individually listed chemicals and 33 chemical categories covered by the TRI Program. Facilities that manufacture, process or otherwise use these chemicals in amounts above established levels must submit annual reporting forms for each chemical. Note that the TRI chemical list does not include all toxic chemicals used in the U.S. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

Government Publication Date: Oct 19, 2022

PFOA/PFOS Contaminated Sites:

[PFAS NPL](#)

This list of Superfund Sites with Per- and Polyfluoroalkyl Substances (PFAS) detections is made available by the U.S. Environmental Protection Agency (EPA) in their PFAS Analytic Tools data, previously the list was obtained by EPA FOIA requests. EPA's Office of Land and Emergency Management and EPA Regional Offices maintain what is known about site investigations, contamination, and remedial actions under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) where PFAS is present in the environment. Limitations: Detections of PFAS at National Priorities List (NPL) sites do not mean that people are at risk from PFAS, are exposed to PFAS, or that the site is the source of the PFAS. The information in the Superfund NPL and Superfund Alternative Agreement (SAA) PFAS detection site list is years old and may not be accurate today. Site information such as site name, site ID, and location has been confirmed for accuracy; however, PFAS-related information such as media sampled, drinking water being above the health advisory, or mitigation efforts has not been verified. For Federal Facilities data, the other Federal agencies (OFA) are the lead agency for their data and provided them to EPA.

Government Publication Date: Sep 14, 2023

Federal Agency Locations with Known or Suspected PFAS Detections:

[PFAS FED SITES](#)

List of Federal agency locations with known or suspected detections of Per- and Polyfluoroalkyl Substances (PFAS), made available by the U.S. Environmental Protection Agency (EPA) in their PFAS Analytic Tools data. EPA outlines that these data are gathered from several federal entities, such as the Federal Superfund program, Department of Defense (DOD), National Aeronautics and Space Administration, Department of Transportation, and Department of Energy. The dates this data was extracted for the PFAS Analytic Tools range from March 2022 to September 2023. Sites on this list do not necessarily reflect the source/s of PFAS contamination and detections do not indicate level of risk or human exposure at the site. Agricultural notifications in this data are limited to DOD sites only. At this time, the EPA is aware that this list is not comprehensive of all Federal agencies.

Government Publication Date: Sep 5, 2023

SSEHRI PFAS Contamination Sites:

[PFAS SSEHRI](#)

This PFAS Contamination Site Tracker database is compiled by the Social Science Environmental Health Research Institute (SSEHRI) at Northeastern University. According to the SSEHRI, the database records qualitative and quantitative data from each known site of PFAS contamination, including timeline of discovery, sources, levels, health impacts, community response, and government response. The goal of this database is to compile information and support public understanding of the rapidly unfolding issue of PFAS contamination. All data presented was extracted from government websites, news articles, or publicly available documents, and this is cited in the tracker. Locations for the Known PFAS Contamination Sites are sourced from the PFAS Sites and Community Resources Map, credited to the Northeastern University's PFAS Project Lab, Silent Spring Institute, and the PFAS-REACH team. Disclaimer: The source conveys the data undergoes regular updates as new information becomes available, some sites may be missing and/or contain information that is incorrect or outdated, as well as their information represents all contamination sites SSEHRI is aware of, not all possible contamination sites. This data is not intended to be used for legal purposes. Access the following source link for the most current information:

<https://pfasproject.com/pfas-sites-and-community-resources/>

Government Publication Date: Oct 9, 2022

National Response Center PFAS Spills:

[ERNS PFAS](#)

This Per- and Poly-Fluoroalkyl Substances (PFAS) Spills dataset is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. The National Response Center (NRC), operated by the U.S. Coast Guard, is the designated federal point of contact for reporting all oil, chemical, and other discharges into the environment, for the United States and its territories. This dataset contains NRC spill information from 1990 to the present that is restricted to records associated with PFAS and PFAS-containing materials. Incidents are filtered to include only records with a "Material Involved" or "Incident Description" related to Aqueous Film Forming Foam (AFFF). The keywords used to filter the data included "AFFF," "Fire Fighting Foam," "Aqueous Film Forming Foam," "Fire Suppressant Foam," "PFAS," "PERFL," "PFOA," "PFOS," and "Genx." Limitations: The data from the NRC website contains initial incident data that has not been validated or investigated by a federal/state response agency. Keyword searches may misidentify some incident reports that do not contain PFAS. This dataset should also not be considered to be exhaustive of all PFAS spills/release incidents.

Government Publication Date: Sep 23, 2023

PFAS NPDES Discharge Monitoring:

[PFAS NPDES](#)

This list of National Pollutant Discharge Elimination System (NPDES) permitted facilities with required monitoring for Per- and Polyfluoroalkyl (PFAS) Substances is made available via the U.S. Environmental Protection Agency (EPA)'s PFAS Analytic Tools. Any point-source wastewater discharger to waters of the United States must have a NPDES permit, which defines a set of parameters for pollutants and monitoring to ensure that the discharge does not degrade water quality or impair human health. This list includes NPDES permitted facilities associated with permits that monitor for Per- and Polyfluoroalkyl Substances (PFAS), limited to the years 2007 - present. EPA further advises the following regarding these data: currently, fewer than half of states have required PFAS monitoring for at least one of their permittees, and fewer states have established PFAS effluent limits for permittees. For states that may have required monitoring, some reporting and data transfer issues may exist on a state-by-state basis.

Government Publication Date: Sep 4, 2023

Perfluorinated Alkyl Substances (PFAS) from Toxic Release Inventory:

[PFAS TRI](#)

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a per- or polyfluoroalkyl (PFAS) substance included in the U.S. Environmental Protection Agency's (EPA) consolidated PFAS Master List of PFAS Substances. Encompasses Toxics Release Inventory records included in the EPA PFAS Analytic Tools. The EPA's TRI database currently tracks information on disposal or releases of 770 individually listed toxic chemicals and 33 chemical categories from thousands of U.S. facilities and details about how facilities manage those chemicals through recycling, energy recovery, and treatment.

Government Publication Date: Oct 19, 2022

Perfluorinated Alkyl Substances (PFAS) Water Quality:

[PFAS WATER](#)

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated Master List of PFAS Substances.

Government Publication Date: Jul 20, 2020

PFAS TSCA Manufacture and Import Facilities:

[PFAS TSCA](#)

The U.S. Environmental Protection Agency (EPA) issued the Chemical Data Reporting (CDR) Rule under the Toxic Substances Control Act (TSCA) and requires chemical manufacturers and facilities that manufacture or import chemical substances to report data to EPA. This list is specific only to TSCA Manufacture and Import Facilities with reported per- and poly-fluoroalkyl (PFAS) substances. Data file is sourced from EPA's PFAS Analytic Tools TSCA dataset which includes CDR/Inventory Update Reporting data from 1998 up to 2020. Disclaimer: This data file includes production and importation data for chemicals identified in EPA's CompTox Chemicals Dashboard list of PFAS without explicit structures and list of PFAS structures in DSSTox. Note that some regulations have specific chemical structure requirements that define PFAS differently than the lists in EPA's CompTox Chemicals Dashboard. Reporting information on manufactured or imported chemical substance amounts should not be compared between facilities, as some companies claim Chemical Data Reporting Rule data fields for PFAS information as Confidential Business Information.

Government Publication Date: Jan 5, 2023

PFAS Waste Transfers from RCRA e-Manifest :

[PFAS E-MANIFEST](#)

This Per- and Poly-Fluoroalkyl Substances (PFAS) Waste Transfers dataset is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. Every shipment of hazardous waste in the U.S. must be accompanied by a shipment manifest, which is a critical component of the cradle-to-grave tracking of wastes mandated by the Resource Conservation and Recovery Act (RCRA). According to the EPA, currently no Federal Waste Code exists for any PFAS compounds. To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: • PFAS • PFOA • PFOS • PERFL • AFFF • GENX • GEN-X (plus the Vermont state-specific waste codes). Limitations: Amount or concentration of PFAS being transferred cannot be determined from the manifest information. Keyword searches may misidentify some manifest records that do not contain PFAS. This dataset should also not be considered to be exhaustive of all PFAS waste transfers.

Government Publication Date: Oct 11, 2023

PFAS Industry Sectors:

[PFAS IND](#)

This Per- and Poly-Fluoroalkyl Substances (PFAS) Industry Sectors dataset is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. The EPA developed the dataset from various sources that show which industries may be handling PFAS including: EPA's Enforcement and Compliance History Online (ECHO) records restricted to potential PFAS-handling industry sectors; ECHO records for Fire Training Sites identified where fire-fighting foam may have been used in training exercises; and 14 CFR Part 139 Airports compiled from historic and current records from the FAA Airport Data and Information Portal. Since July 2006, all certificated Part 139 Airports are required to have fire-fighting foam onsite that meet certain military specifications, which to date have been fluorinated (Aqueous Film Forming Foam). Limitations: Inclusion in this dataset does not indicate that PFAS are being manufactured, processed, used, or released by the facility. Listed facilities potentially handle PFAS based on their industrial profile, but are unconfirmed by the EPA. Keyword searches in ECHO for Fire Training sites may misidentify some facilities and should not be considered to be an exhaustive list of fire training facilities in the U.S.

Government Publication Date: Jul 3, 2023

Hazardous Materials Information Reporting System:

[HMIRS](#)

The Hazardous Materials Incident Reporting System (HMIRS) database contains unintentional hazardous materials release information reported to the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration.

Government Publication Date: Mar 6, 2023

National Clandestine Drug Labs:

[NCDL](#)

The U.S. Department of Justice ("the Department"), Drug Enforcement Administration (DEA), provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Jul 26, 2023

Toxic Substances Control Act:

[TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Apr 11, 2019

Hist TSCA:

[HIST TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing:

[FTTS ADMIN](#)

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing:

[FTTS INSP](#)

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List:

[PRP](#)

Early in the site cleanup process, the U.S. Environmental Protection Agency (EPA) conducts a search to find the Potentially Responsible Parties (PRPs). The EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site. This listing contains PRPs, Noticed Parties, at sites in the EPA's Superfund Enterprise Management System (SEMS).

Government Publication Date: Oct 26, 2023

State Coalition for Remediation of Drycleaners Listing:

[SCRD DRYCLEANER](#)

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin. Since 2017, the SCRCD no longer maintains this data, refer to applicable state source data where available.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS):

[ICIS](#)

The Integrated Compliance Information System (ICIS) database contains integrated enforcement and compliance information across most of U.S. Environmental Protection Agency's (EPA) programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained by the EPA Headquarters and at the Regional offices. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

Government Publication Date: Jan 21, 2023

Drycleaner Facilities:

[FED DRYCLEANERS](#)

A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) data as made available by the U.S. Environmental Protection Agency (EPA), sourced from the ECHO Exporter file. The EPA tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: Jul 23, 2023

Delisted Drycleaner Facilities:

[DELISTED FED DRY](#)

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: Jul 23, 2023

Formerly Used Defense Sites:

[FUDS](#)

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DOD) is responsible for an environmental restoration. The FUDS Annual Report to Congress (ARC) is published by the U.S. Army Corps of Engineers (USACE). This data is compiled from the USACE's Geospatial FUDS data layers and Homeland Infrastructure Foundation-Level Data (HIFLD) FUDS dataset which applies to the Fiscal Year 2021 FUDS Inventory.

Government Publication Date: May 15, 2023

FUDS Munitions Response Sites:

[FUDS MRS](#)

Boundaries of Munitions Response Sites (MRS), published with the Formerly Used Defense Sites (FUDS) Annual Report to Congress (ARC) by the U.S. Army Corps of Engineers (USACE). An MRS is a discrete location within a Munitions response area (MRA) that is known to require a munitions response. An MRA means any area on a defense site that is known or suspected to contain unexploded ordnance (UXO), discarded military munitions (DMM), or munitions constituents (MC). This data is compiled from the USACE's Geospatial MRS data layers and Homeland Infrastructure Foundation-Level Data (HIFLD) MRS dataset.

Government Publication Date: May 15, 2023

Former Military Nike Missile Sites:

[FORMER NIKE](#)

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

Government Publication Date: Dec 2, 1984

PHMSA Pipeline Safety Flagged Incidents:

[PIPELINE INCIDENT](#)

A list of flagged pipeline incidents made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types.

Government Publication Date: Dec 30, 2022

Material Licensing Tracking System (MLTS):

[MLTS](#)

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: May 11, 2021

Historic Material Licensing Tracking System (MLTS) sites:

[HIST MLTS](#)

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File:

[MINES](#)

The Master Index File (MIF) is provided by the United States Department of Labor, Mine Safety and Health Administration (MSHA). This file, which was originally created in the 1970's, contained many Mine-IDs that were invalid. MSHA removes invalid IDs from the MIF upon discovery. MSHA applicable data includes the following: all Coal and Metal/Non-Metal mines under MSHA's jurisdiction since 1/1/1970; mine addresses for all mines in the database except for Abandoned mines prior to 1998 from MSHA's legacy system (addresses may or may not correspond with the physical location of the mine itself); violations that have been assessed penalties as a result of MSHA inspections beginning on 1/1/2000; and violations issued as a result of MSHA inspections conducted beginning on 1/1/2000.

Government Publication Date: May 1, 2023

Surface Mining Control and Reclamation Act Sites:

[SMCRA](#)

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by the Office of Surface Mining Reclamation and Enforcement (OSMRE) to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). This inventory contains information on the type and extent of Abandoned Mine Land (AML) impacts, as well as information on the cost associated with the reclamation of those problems. The data is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed. Disclaimer: Per the OSMRE, States and tribes who enter their data into eAMLIS (AML Inventory System) may truncate their latitude and longitude so the precise location of usually dangerous AMLs is not revealed in an effort to protect the public from searching for these AMLs, most of which are on private property. If more precise location information is needed, please contact the applicable state/tribe of interest.

Government Publication Date: Jun 13, 2023

Mineral Resource Data System:

[MRDS](#)

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

Government Publication Date: Mar 15, 2016

DOE Legacy Management Sites:

[LM SITES](#)

The U.S. Department of Energy (DOE) Office of Legacy Management (LM) currently manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The LM manages sites with diverse regulatory drivers (statutes or programs that direct cleanup and management requirements at DOE sites) or as part of internal DOE or congressionally-recognized programs, such as but not limited to: Formerly Utilized Sites Remedial Action Program (FUSRAP), Uranium Mill Tailings Radiation Control Act (UMTRCA Title I, Title II), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Resource Conservation and Recovery Act (RCRA), Decontamination and Decommissioning (D&D), Nuclear Waste Policy Act (NWPA). This site listing includes data exported from the DOE Office of LM's Geospatial Environmental Mapping System (GEMS). GEMS Data disclaimer: The DOE Office of LM makes no representation or warranty, expressed or implied, regarding the use, accuracy, availability, or completeness of the data presented herein.

Government Publication Date: May 25, 2023

Alternative Fueling Stations:

[ALT FUELS](#)

This list of alternative fueling stations is sourced from the Alternative Fuels Data Center (AFDC). The U.S. Department of Energy's Office of Energy Efficiency & Renewable Energy launched the AFDC in 1991 as a repository for alternative fuel vehicle performance data, which provides a wealth of information and data on alternative and renewable fuels, advanced vehicles, fuel-saving strategies, and emerging transportation technologies. The data includes Biodiesel (B20 and above), Compressed Natural Gas (CNG), Electric, Ethanol (E85), Hydrogen, Liquefied Natural Gas (LNG), Propane (LPG), and Renewable Diesel (R20 and above) fuel type locations.

Government Publication Date: Aug 30, 2023

Superfunds Consent Decrees:

CONSENT DECREES

This list of Superfund consent decrees is provided by the Department of Justice, Environment & Natural Resources Division (ENRD) through a Freedom of Information Act (FOIA) applicable file. This listing includes Consent Decrees for CERCLA or Superfund Sites filed and/or as proposed within the ENRD's Case Management System (CMS) since 2010. CMS may not reflect the latest developments in a case nor can the agency guarantee the accuracy of the data. ENRD Disclaimer: Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA; response is limited to those records that are subject to the requirements of the FOIA; however, this should not be taken as an indication that excluded records do, or do not, exist.

Government Publication Date: Apr 19, 2023

Air Facility System:

AFS

This EPA retired Air Facility System (AFS) dataset contains emissions, compliance, and enforcement data on stationary sources of air pollution. Regulated sources cover a wide spectrum; from large industrial facilities to relatively small operations such as dry cleaners. AFS does not contain data on facilities that are solely asbestos demolition and/or renovation contractors, or landfills. ECHO Clean Air Act data from AFS are frozen and reflect data as of October 17, 2014; the EPA retired this system for Clean Air Act stationary sources and transitioned to ICIS-Air.

Government Publication Date: Oct 17, 2014

Registered Pesticide Establishments:

SSTS

This national list of active EPA-registered foreign and domestic pesticide and/or device-producing establishments is based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that each producing establishment must place its EPA establishment number on the label or immediate container of each pesticide, active ingredient or device produced. An EPA establishment number on a pesticide product label identifies the EPA registered location where the product was produced. The list of establishments is made available by the U.S. Environmental Protection Agency (EPA).

Government Publication Date: Mar 1, 2023

Polychlorinated Biphenyl (PCB) Transformers:

PCBT

Locations of Transformers Containing Polychlorinated Biphenyls (PCBs) registered with the United States Environmental Protection Agency. PCB transformer owners must register their transformer(s) with EPA. Although not required, PCB transformer owners who have removed and properly disposed of a registered PCB transformer may notify EPA to have their PCB transformer de-registered. Data made available by EPA.

Government Publication Date: Oct 15, 2019

Polychlorinated Biphenyl (PCB) Notifiers:

PCB

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Mar 20, 2023

State

Hazardous Material Logbook/Spills:

SPILLS

Hazardous Material Incident Logbook database made available by Arizona Department of Environmental Quality (ADEQ). This database is updated through November 15, 2001; after that date, reports were registered with the National Response Center.

Government Publication Date: Nov 15, 2001

Dry Cleaning Facilities:

DRYCLEANERS

This list of dry cleaners includes sites from two sources: the 2016 Arizona Department of Environmental Quality (ADEQ) Dry Cleaners list, and the 2006 Dry Cleaner Inventory Project by Miller Brooks Environmental for ADEQ. The 2016 ADEQ Dry Cleaners list does not distinguish between contaminated or non-contaminated facilities and only provides limited details per facility with a Place ID. The 2006 Dry Cleaner Inventory Project was commissioned to assist in the identification, prioritization, investigation, and remediation of sites that have released hazardous substances into the lands and waters of the state. This Inventory includes the following types of sites: Sites with Known Contamination (sites with documented contamination, or a history of release and/or prior site characterization and remedial activities); Sites with High Potential for Release (sites with multiple owners, sites that have been in operation more than 10 years, sites that specifically operated between 1935 and 1984, and high-volume sites); and Sites with Low Potential for Release (sites that have been in operation only after 1985, or prior to 1934, sites that "broker" cleaning services to other facilities, and sites that operate primarily as a coin-operated laundry facility). Disclaimer: Due to the time spanned between these listings and available details, multiple listings may occur. Per ADEQ, these listings are no longer updated.

Government Publication Date: Jul 10, 2021

Per- and Polyfluoroalkyl Substances (PFAS):

PFAS

The Arizona Department of Environmental Quality (ADEQ) Waste Programs Division investigates, manages, and oversees remediation of soil and groundwater contaminated with hazardous substances. List of sites overseen by the Remedial Projects Section and/or Federal programs, including Federal DOD and Superfund sites, where the contaminant or potential contaminant of concern is in the PFAS Master List of PFAS Substances made available by the Environmental Protection Agency (US EPA).

Government Publication Date: Jul 18, 2023

Air Permits Major/Minor Sources:

[AIR PERMITS](#)

A list of Arizona operating air permits major and minor sources. A "major" source is any source that has the potential to emit 100 tons per year of any criteria air pollutant and if it has the potential to emit 10 tons per year of any single Hazardous Air Pollutant or 25 tons per year of any combination of Hazardous Air Pollutants. This list is provided by the Department of Environmental Quality.

Government Publication Date: Jan 20, 2023

Drywell Database:

[DRYWELLS](#)

This drywell database is maintained by the Arizona Department of Environmental Quality (ADEQ). The ADEQ's Arizona Aquifer Protection Permit program requirements apply to certain drywells and injection wells for operation and closure. An APP is required for drywells draining areas where hazardous substances are used, stored, loaded, or treated. General APPs are issued to certain drywells by statute, as provided in A.R.S. § 49-245.02. In addition, certain discharges to drywells in combination with stormwater are exempt from the APP requirements. The data is sourced from applicable ADEQ eMaps layers, including historical drywell places.

Government Publication Date: Sep 12, 2023

Region 9 Drywells in Arizona:

[DRYWELLS EPA](#)

This redacted list of Commercial Class V Injection Wells/Drywells located in Arizona is provided by the U.S. Environmental Protection Agency's (EPA) Region 9 Office. With House Bill 2410 effective September 2022, new drywells must be inventoried by the EPA now acting as the primary enforcement authority of the Underground Injection Control Program's Class V regulation for Arizona. Class V wells are used to inject non-hazardous fluids underground. Disclaimer: This list excludes residential well records, personal identifying information, as well as any commercial records that contain neither a facility name nor an address.

Government Publication Date: Aug 24, 2023

Historical Drywells:

[DRYWELLS HIST](#)

Historical listing of registered drywells once maintained and made available by the Arizona Department of Environmental Quality (ADEQ) Water Quality Division. As of May 2018, ADEQ stopped accepting paper forms and will no longer be updating this list.

Government Publication Date: Aug 6, 2018

Mine Locations:

[MINE](#)

This list of mine locations is sourced from the Arizona Geological Survey (AZGS). The data is compiled from the AZGS's Fiscal Year 2022, 2021 Directory of Active Mines Report and 2019 Active Mines map layer. According to the AZGS, the Report supports governmental entities undertaking planning decisions by providing information on mineral resources and active mining operations that are essential to infrastructure development. An active mine is defined as a mine in continuous operation, either in production, or under full-time development for production. There are additional mines not listed that are in an exploration, evaluation, or part-time development phase. Other mines where production is intermittent are not listed. AZGS indicates the following regarding the locations: available aerial imagery was used to confirm location information and mining activity, with two caveats: 1) resolution of imagery varies across the state to some degree, making it difficult to recognize activity; and 2) some areas lack recent imagery, leading to the impression of no recent operations.

Government Publication Date: Dec 21, 2022

Drug Labs Remediation:

[DRUG LAB REMEDIATION](#)

Arizona State Board of Technical Registration maintains a list of drug lab remediation. This is a list of seized drug laboratory sites or sites where drug manufacturing chemicals were seized. Remediated sites are removed from this list when the Board receives clean up notification from a certified clean up firm.

Government Publication Date: Sep 03, 2013

Clandestine Drug Labs:

[CDL](#)

A list of unremediated seized clandestine drug laboratory sites or sites where drug manufacturing chemicals were seized. This list is made available by Arizona State Board of Technical Registration.

Government Publication Date: Jan 22, 2019

Tier 2 Chemical Inventory Reporting:

[TIER 2](#)

List of facilities that report to the Arizona Emergency Response Commission (AZSERC) for Tier II Chemical Inventory Reporting. AZSERC is tasked with the implementation of the Emergency Planning and Community Right to Know Act (EPCRA) in Arizona. As of 2016, the Arizona Emergency Response Commission (AZSERC) is overseen by Arizona Department of Environmental Quality (ADEQ).

Biohazardous Medical Waste Facilities:

BIO HAZ WASTE

This list of biohazardous medical waste facilities is maintained by the Arizona Department of Environmental Quality (ADEQ) Waste Programs Division. This list includes: Biohazardous Medical Waste Disposal Facilities, Biohazardous Medical Waste Treatment Facilities, Biohazardous Medical Waste Storage & Transfer Facilities, Registered Biohazardous Medical Waste Transporters, and Registered Alternative Biohazardous Medical Waste Treatment Technologies. Biohazardous medical waste is medical waste that is composed of one or more of the following: cultures and stocks; human blood and blood products; human pathologic wastes; medical sharps; and research animal wastes. The Arizona Department of Environmental Quality adopted specific rules for handling biohazardous medical waste and discarded drugs. Non-biohazardous medical waste is handled as solid waste.

Government Publication Date: Sep 19, 2023

Tribal

No Tribal additional environmental record sources available for this State.

County

No County additional environmental record sources available for this State.

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

Property Information

Order Number:	23120600698p
Date Completed:	December 7, 2023
Project Number:	23478768
Project Property:	Central and Columbus Site NEC of North Central and East Columbus Avenue Phoenix AZ 85012
Coordinates:	
Latitude:	33.4901359
Longitude:	-112.07187685
UTM Northing:	3706139.58325 Meters
UTM Easting:	400424.736112 Meters
UTM Zone:	UTM Zone 12S
Elevation:	1,108.47 ft
Slope Direction:	S

Soil Information.....	11
Wells and Additional Sources.....	15
Summary.....	16
Detail Report.....	23
Radon Information.....	296
Appendix.....	297
Liability Notice.....	299

The ERIS **Physical Setting Report - PSR** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

Topographic Information

Current USGS Topo (2021)

Quadrangle(s): Phoenix, AZ; Sunnyslope, AZ

Source: USGS 7.5 Minute Topographic Map

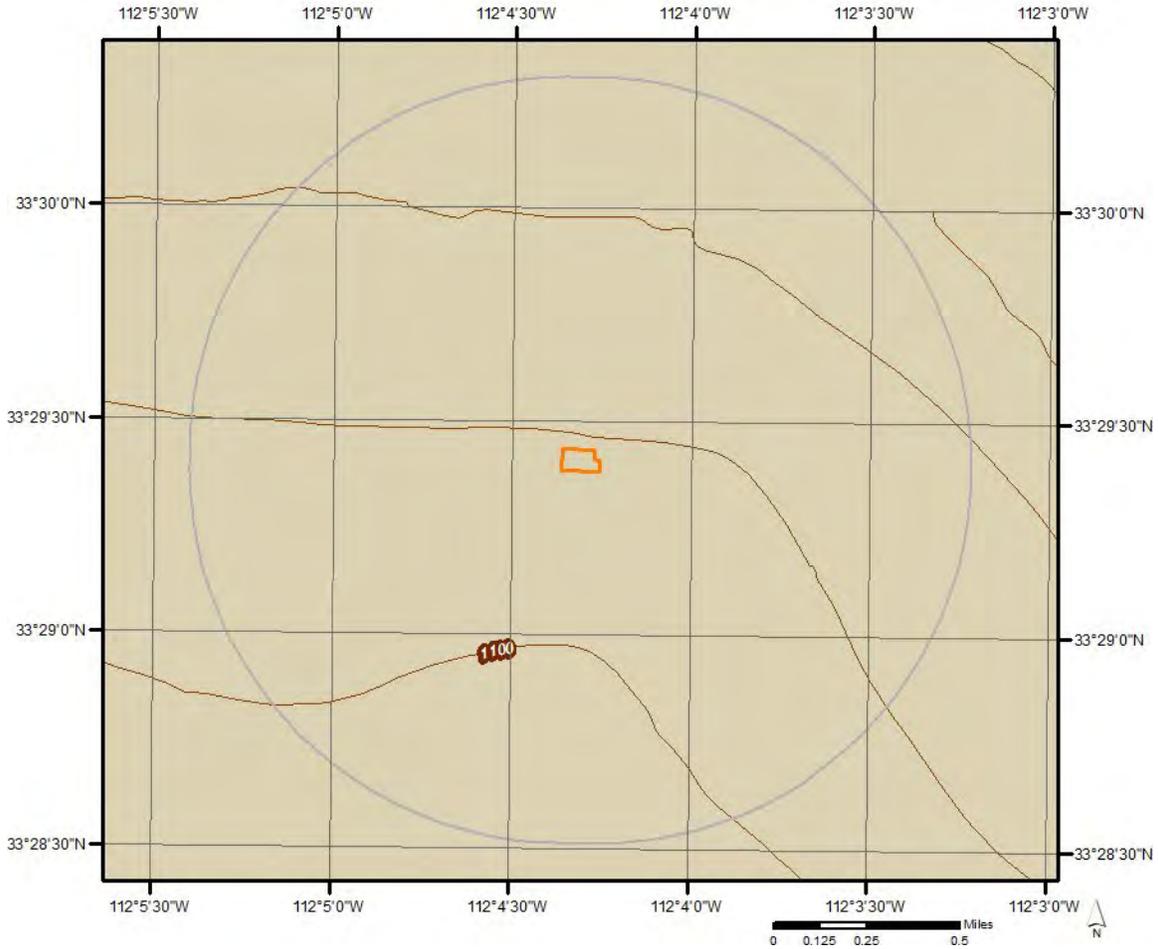

Topographic Information

The previous topographic map(s) are created by seamlessly merging and cutting current USGS topographic data. Below are shaded relief map(s), derived from USGS elevation data to show surrounding topography in further detail.

Topographic information at project property:

Elevation: 1,108.47 ft
Slope Direction: S

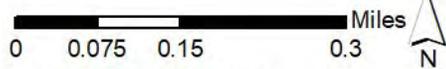

Hydrologic Information

Zone: X
Zone subtype: 0.2 PCT ANNUAL CHANCE FLOOD HAZARD

Hydrologic Information

FEMA Flood Zone Definitions

Special Flood Hazard Areas – High Risk

Special Flood Hazard Areas represent the area subject to inundation by 1-percent-annual chance flood. Structures located within the SFHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory flood insurance purchase requirements apply in these zones.

ZONE	DESCRIPTION
A	Areas subject to inundation by the 1-percent-annual-chance flood event. Because detailed hydraulic analyses have not been performed, no Base Flood Elevations (BFEs) or flood depths are shown.
AE, A1-A30	Areas subject to inundation by the 1-percent-annual-chance flood event determined by detailed methods. BFEs are shown within these zones. (Zone AE is used on new and revised maps in place of Zones A1–A30.)
AH	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually areas of ponding) where average depths are 1–3 feet. BFEs derived from detailed hydraulic analyses are shown in this zone.
AO	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually sheet flow on sloping terrain) where average depths are 1–3 feet. Average flood depths derived from detailed hydraulic analyses are shown within this zone.
AR	Areas that result from the decertification of a previously accredited flood protection system that is determined to be in the process of being restored to provide base flood protection.
A99	Areas subject to inundation by the 1-percent-annual-chance flood event, but which will ultimately be protected upon completion of an under-construction Federal flood protection system. These are areas of special flood hazard where enough progress has been made on the construction of a protection system, such as dikes, dams, and levees, to consider it complete for insurance rating purposes. Zone A99 may be used only when the flood protection system has reached specified statutory progress toward completion. No BFEs or flood depths are shown.

Coastal High Hazard Areas – High Risk

Coastal High Hazard Areas (CHHA) represent the area subject to inundation by 1-percent-annual chance flood, extending from offshore to the inland limit of a primary front al dune along an open coast and any other area subject to high velocity wave action from storms or seismic sources. Structures located within the CHHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory purchase requirements apply in these zones.

ZONE	DESCRIPTION
V	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards associated with storm-induced waves. Because detailed coastal analyses have not been performed, no BFEs or flood depths are shown.
VE, V1-V30	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards due to storm-induced velocity wave action. BFEs derived from detailed hydraulic coastal analyses are shown within these zones. (Zone VE is used on new and revised maps in place of Zones V1–V30.)

Hydrologic Information

Moderate and Minimal Risk Areas

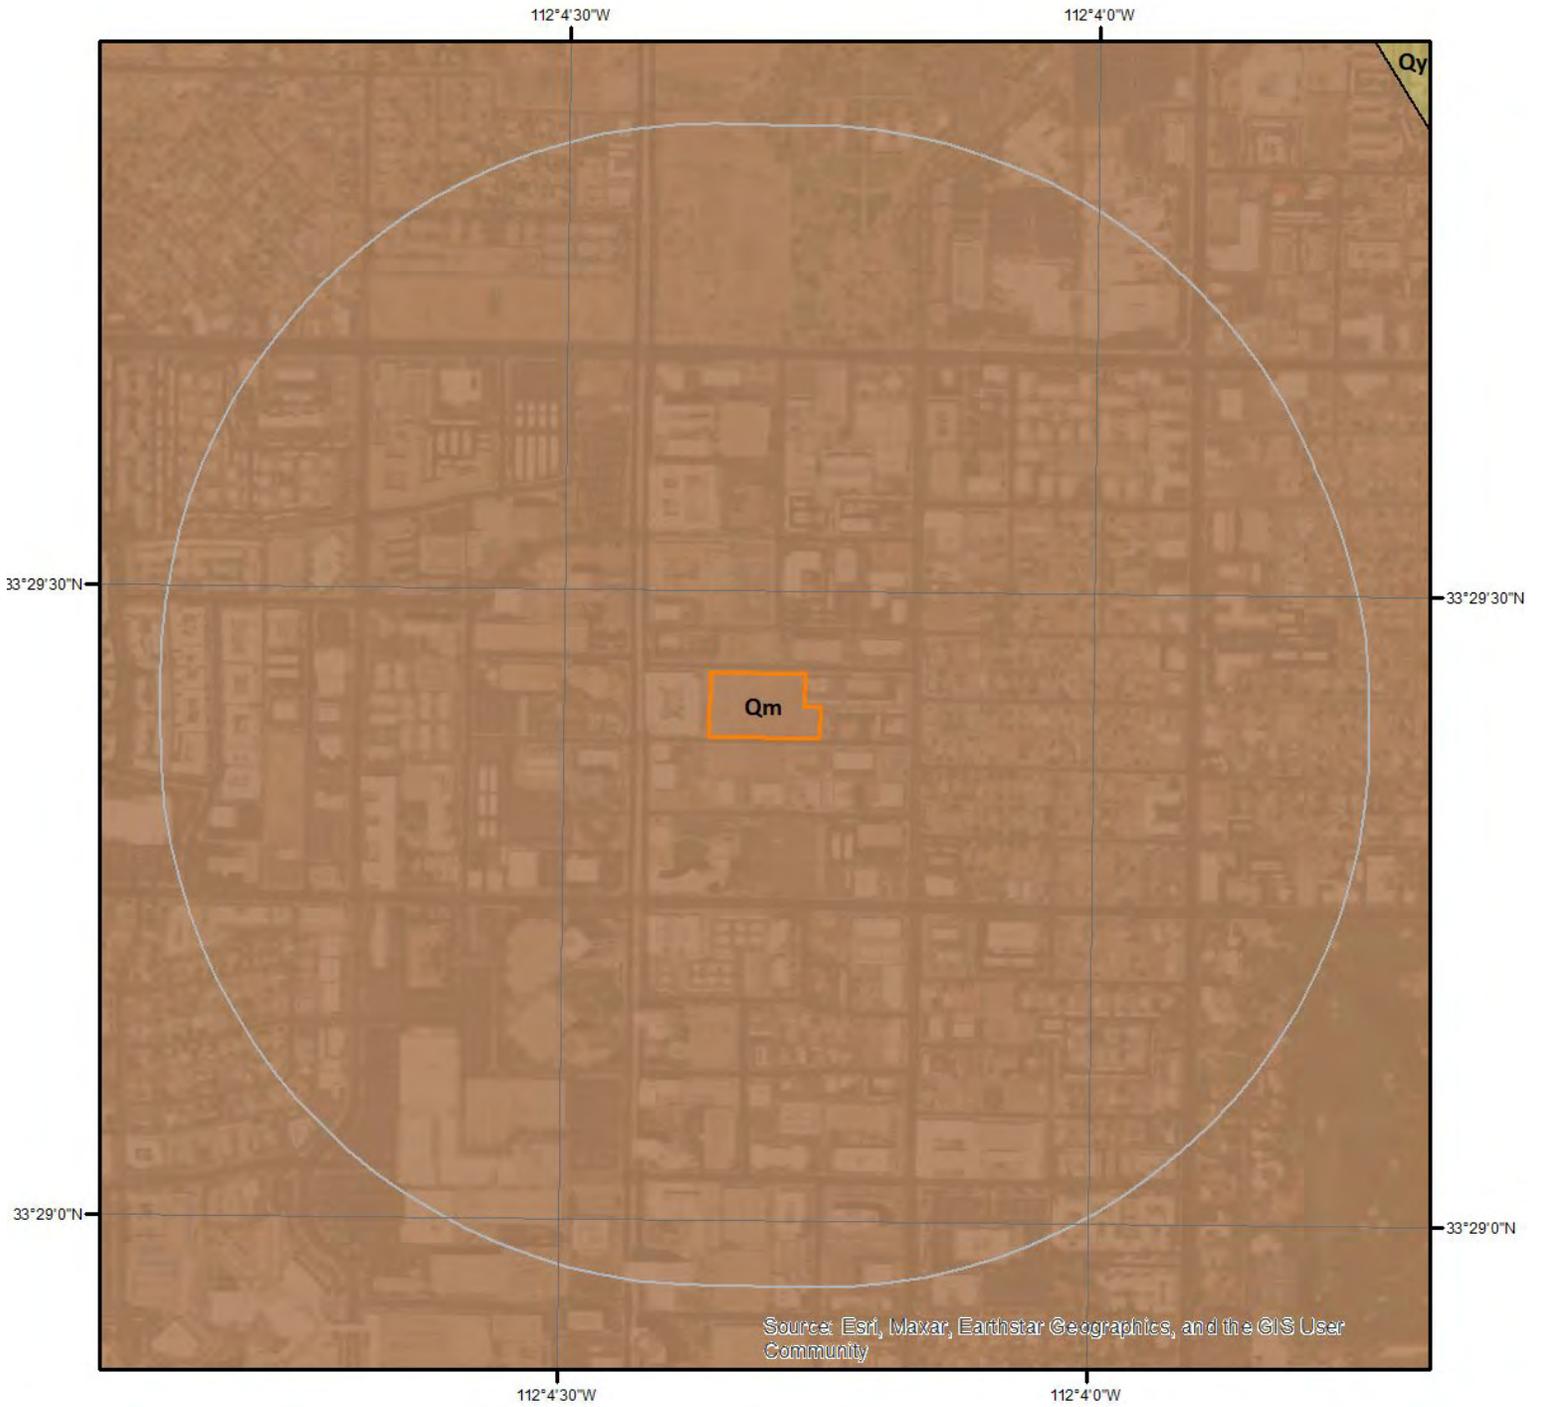

Areas of moderate or minimal hazard are studied based upon the principal source of flood in the area. However, buildings in these zones could be flooded by severe, concentrated rainfall coupled with inadequate local drainage systems. Local stormwater drainage systems are not normally considered in a community's flood insurance study. The failure of a local drainage system can create areas of high flood risk within these zones. Flood insurance is available in participating communities, but is not required by regulation in these zones. Nearly 25-percent of all flood claims filed are for structures located within these zones.

ZONE	DESCRIPTION
B, X (shaded)	Moderate risk areas within the 0.2-percent-annual-chance floodplain, areas of 1-percent-annual-chance flooding where average depths are less than 1 foot, areas of 1-percent-annual-chance flooding where the contributing drainage area is less than 1 square mile, and areas protected from the 1-percent-annual-chance flood by a levee. No BFEs or base flood depths are shown within these zones. (Zone X (shaded) is used on new and revised maps in place of Zone B.)
C, X (unshaded)	Minimal risk areas outside the 1-percent and .2-percent-annual-chance floodplains. No BFEs or base flood depths are shown within these zones. (Zone X (unshaded) is used on new and revised maps in place of Zone C.)

Undetermined Risk Areas

ZONE	DESCRIPTION
D	Unstudied areas where flood hazards are undetermined, but flooding is possible. No mandatory flood insurance purchase requirements apply, but coverage is available in participating communities.

Geologic Information

Geologic Units

This maps shows geologic units in the area. Please refer to the report for detailed descriptions.

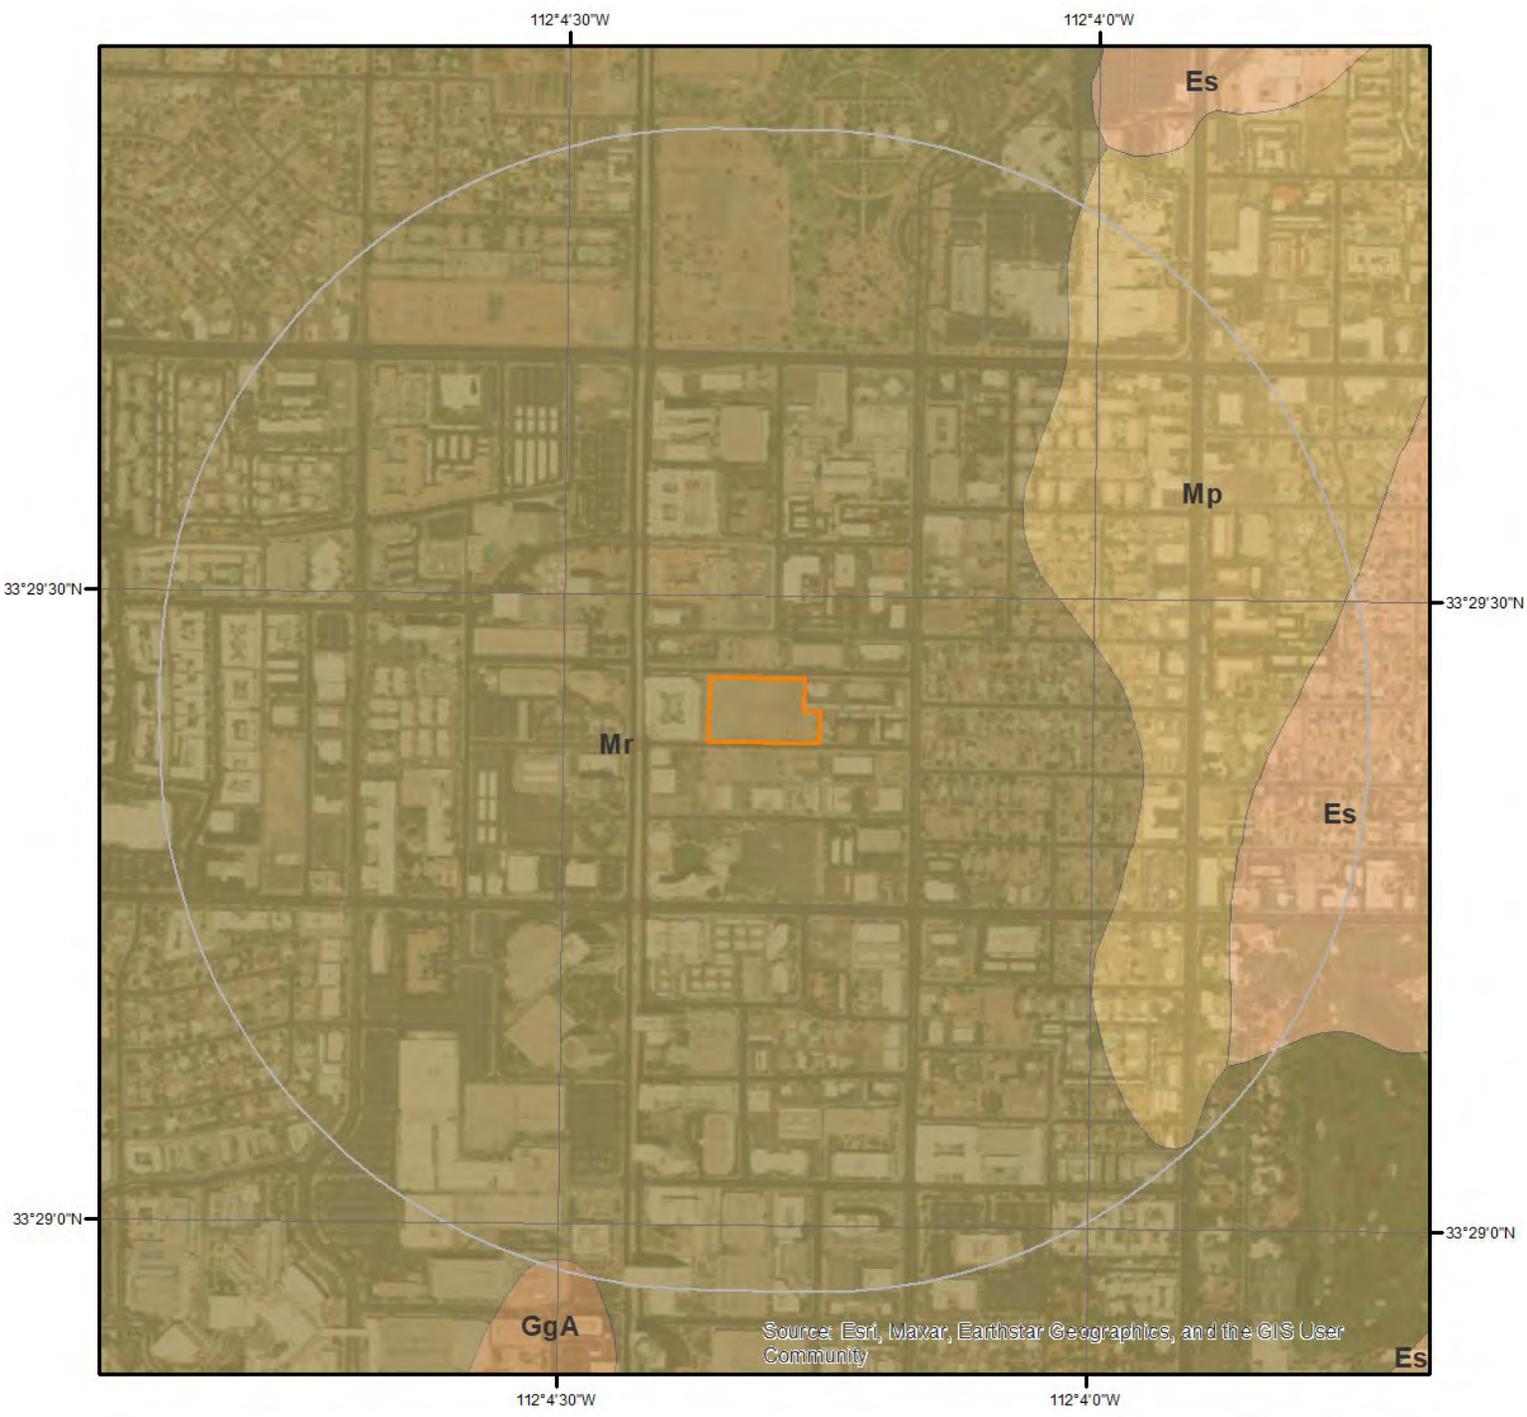

Geologic Information

The previous page shows USGS geology information. Detailed information about each unit is provided below.

Geologic Unit Qm

Unit Name:	Late and middle Pleistocene surficial deposits
Unit Age:	Middle to Late Pleistocene
Primary Rock Type:	gravel
Secondary Rock Type:	sand
Unit Description:	Unconsolidated to weakly consolidated alluvial fan, terrace, and basin-floor deposits with moderate to strong soil development. Fan and terrace deposits are primarily poorly sorted, moderately bedded gravel and sand, and basin-floor deposits are primarily sand, silt, and clay. (10-750 ka)

Soil Information

SSURGO Soils

This maps shows SSURGO soil units around the target property. Please refer to the report for detailed soil descriptions.

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit Es (7.29%)

Map Unit Name: Estrella loam
Bedrock Depth - Min:
Watertable Depth - Annual Min:
Drainage Class - Dominant: Well drained
Hydrologic Group - Dominant: C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Estrella(90%)	
horizon Ap(0cm to 28cm)	Loam
horizon C(28cm to 61cm)	Loam
horizon 2Btkb(61cm to 122cm)	Clay loam
horizon 2Bkb(122cm to 152cm)	Gravelly clay loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: Es - Estrella loam

Component: Estrella (90%)

The Estrella component makes up 90 percent of the map unit. Slopes are 0 to 1 percent. This component is on alluvial fans, alluvial plains. The parent material consists of mixed fan alluvium and/or mixed stream alluvium. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is moderate. This soil is rarely flooded. It is rarely ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. This component is in the R040XB207AZ Limy Fan 7-10" P.z. ecological site. Nonirrigated land capability classification is 7c. Irrigated land capability classification is 1 This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 13 percent. The soil has a very slightly saline horizon within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 7 within 30 inches of the soil surface.

Component: Unnamed soils (10%)

Generated brief soil descriptions are created for major soil components. The Unnamed soils soil is a minor component.

Map Unit GgA (12.42%)

Map Unit Name: Gilman loam, 0 to 1 percent slopes
Bedrock Depth - Min:
Watertable Depth - Annual Min:
Drainage Class - Dominant: Well drained
Hydrologic Group - Dominant: B - Soils in this group have moderately low runoff potential when thoroughly wet. Water transmission through the soil is unimpeded.

Major components are printed below

Gilman(100%)	
horizon Ap(0cm to 46cm)	Loam
horizon C1(46cm to 94cm)	Loam
horizon C2(94cm to 163cm)	Very fine sandy loam

Component Description:

Minor map unit components are excluded from this report.

Soil Information

Map Unit: GgA - Gilman loam, 0 to 1 percent slopes

Component: Gilman (100%)

The Gilman component makes up 100 percent of the map unit. Slopes are 0 to 1 percent. This component is on alluvial fans, valley plains, stream terraces. The parent material consists of recent mixed alluvium. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 0 percent. This component is in the R040XB207AZ Limy Fan 7-10" P.z. ecological site. Nonirrigated land capability classification is 7c. Irrigated land capability classification is 1 This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 13 percent. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 7 within 30 inches of the soil surface.

Map Unit Mp (5.32%)

Map Unit Name: Mohall loam MLRA 40

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant: Well drained

Hydrologic Group - Dominant: C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Mohall(80%)

horizon Ap(0cm to 41cm)	Loam
horizon Bt(41cm to 61cm)	Clay loam
horizon Btk1(61cm to 94cm)	Clay loam
horizon Btk2(94cm to 109cm)	Clay loam
horizon Bk(109cm to 152cm)	Sandy loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: Mp - Mohall loam MLRA 40

Component: Mohall (80%)

The Mohall component makes up 80 percent of the map unit. Slopes are 0 to 3 percent. This component is on fan terraces, basin floors, stream terraces, basins. The parent material consists of mixed alluvium. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. This component is in the R040XB213AZ Loamy Upland 7-10" P.z. ecological site. Nonirrigated land capability classification is 7c. Irrigated land capability classification is 1 This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 17 percent. There are no saline horizons within 30 inches of the soil surface.

Component: Unnamed soils (20%)

Generated brief soil descriptions are created for major soil components. The Unnamed soils soil is a minor component.

Map Unit Mr (74.97%)

Map Unit Name: Mohall clay loam

Bedrock Depth - Min:

Watertable Depth - Annual Min:

Drainage Class - Dominant: Well drained

Hydrologic Group - Dominant: C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Mohall(100%)

Soil Information

horizon Ap(0cm to 30cm)	Clay loam
horizon Bt(30cm to 66cm)	Clay loam
horizon Btk1(66cm to 89cm)	Clay loam
horizon Btk2(89cm to 107cm)	Loam
horizon Ck(107cm to 152cm)	Very fine sandy loam

Component Description:

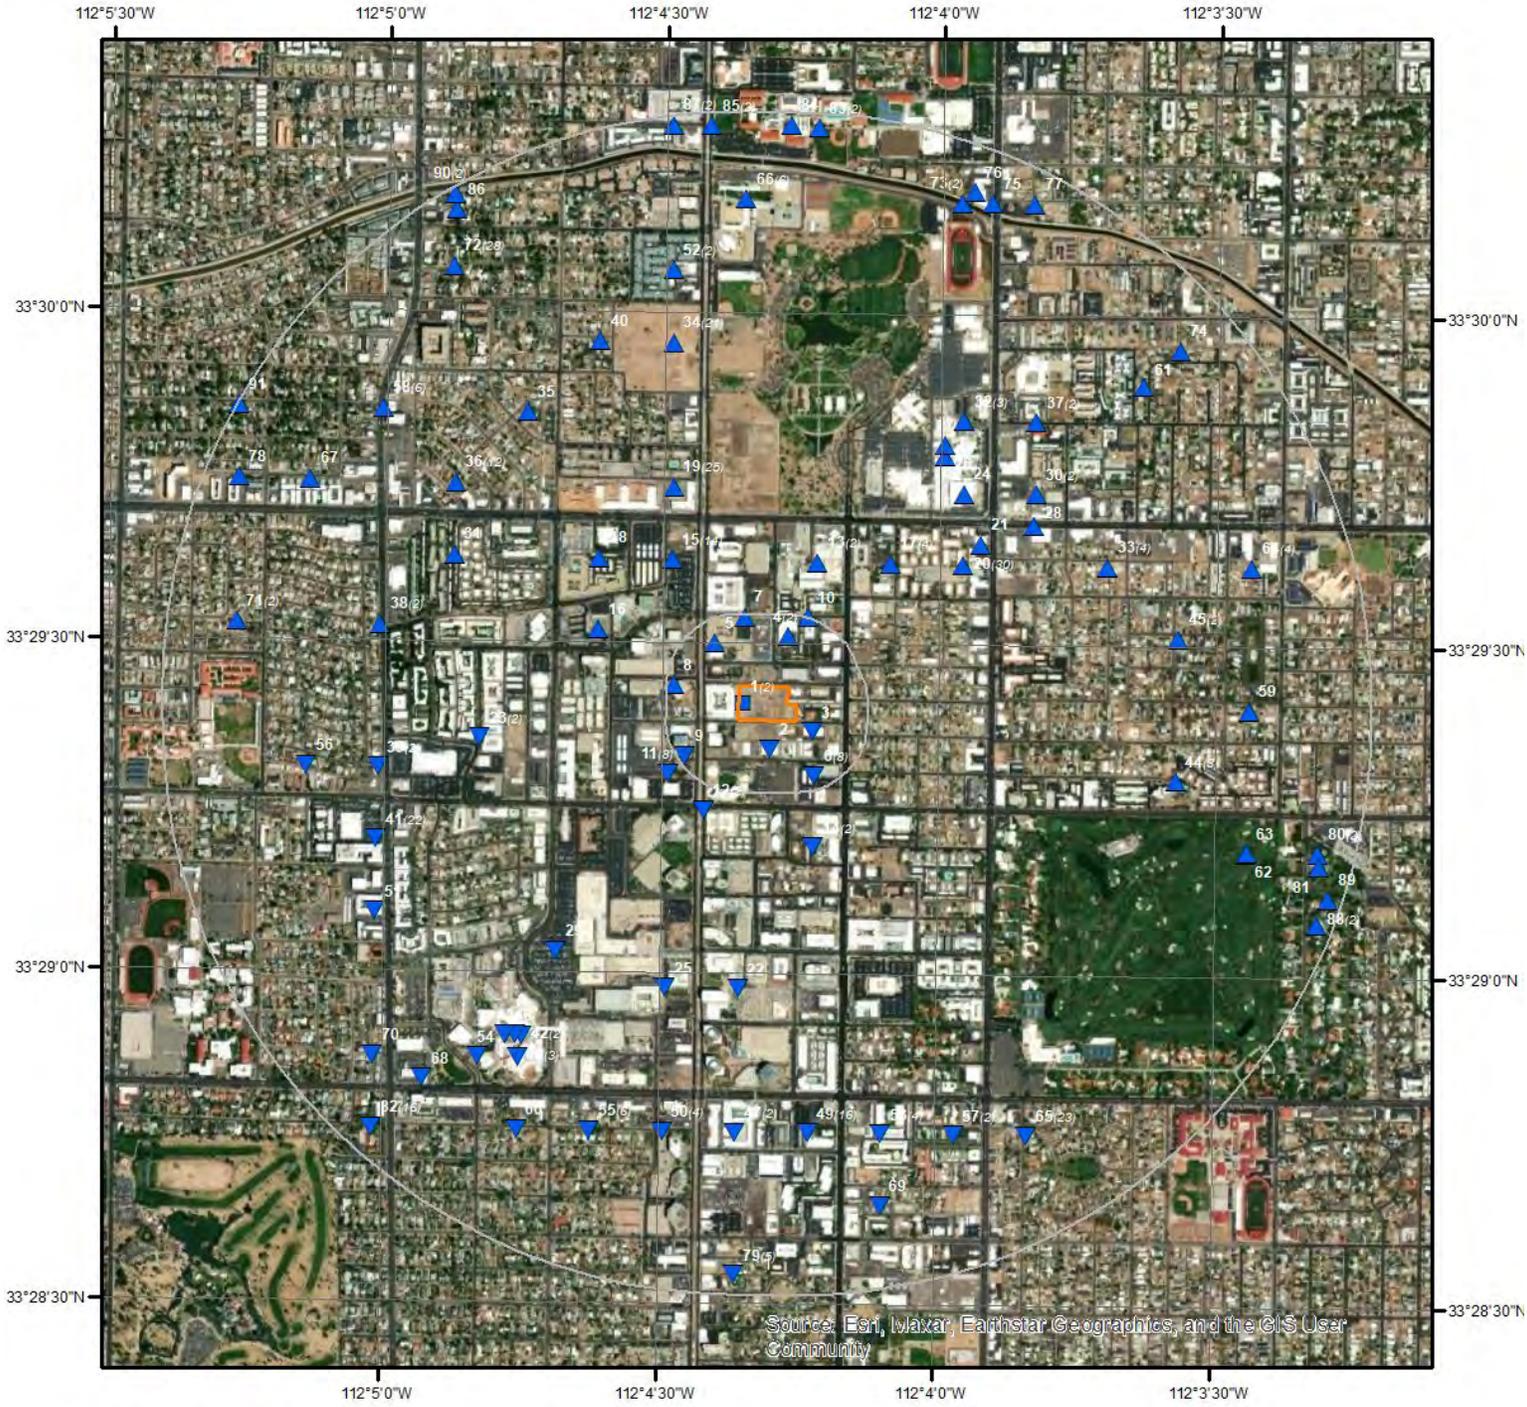

Minor map unit components are excluded from this report.

Map Unit: Mr - Mohall clay loam

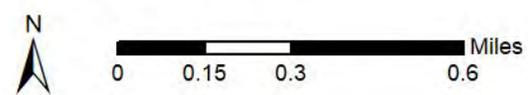

Component: Mohall (100%)

The Mohall component makes up 100 percent of the map unit. Slopes are 0 to 1 percent. This component is on old alluvial fans, valley plains. The parent material consists of mixed alluvium. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is high. Shrink-swell potential is moderate. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. This component is in the R040XB205AZ Clay Loam Upland 7-10" P.z. ecological site. Nonirrigated land capability classification is 7c. Irrigated land capability classification is 1 This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 23 percent. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 7 within 30 inches of the soil surface.

Radon Information

This section lists any relevant radon information found for the target property.

Federal EPA Radon Zone for *MARICOPA* County: **2**

Zone 1: Counties with predicted average indoor radon screening levels greater than 4 pCi/L

Zone 2: Counties with predicted average indoor radon screening levels from 2 to 4 pCi/L

Zone 3: Counties with predicted average indoor radon screening levels less than 2 pCi/L

Federal Area Radon Information for *MARICOPA* County

No Measures/Homes:	765
Geometric Mean:	1.1
Arithmetic Mean:	1.7
Median:	1.2
Standard Deviation:	2.4
Maximum:	50.8
% >4 pCi/L:	8
% >20 pCi/L:	0
Notes on Data Table:	TABLE 1. Screening indoor radon data from the EPA/State Residential Radon Survey of Arizona conducted during 1987-88. Data represent 2-7 day charcoal canister measurements from the lowest level of each home tested.

Federal Sources

FEMA National Flood Hazard Layer

FEMA FLOOD

The National Flood Hazard Layer (NFHL) data incorporates Flood Insurance Rate Map (FIRM) databases published by the Federal Emergency Management Agency (FEMA), and any Letters Of Map Revision (LOMRs) that have been issued against those databases since their publication date. The FIRM Database is the digital, geospatial version of the flood hazard information shown on the published paper FIRMs. The FIRM Database depicts flood risk information and supporting data used to develop the risk data. The FIRM Database is derived from Flood Insurance Studies (FISs), previously published FIRMs, flood hazard analyses performed in support of the FISs and FIRMs, and new mapping data, where available.

Indoor Radon Data

INDOOR RADON

Indoor radon measurements tracked by the Environmental Protection Agency(EPA) and the State Residential Radon Survey.

Public Water Systems Violations and Enforcement Data

PWSV

List of drinking water violations and enforcement actions from the Safe Drinking Water Information System (SDWIS) made available by the Drinking Water Protection Division of the US EPA's Office of Groundwater and Drinking Water. Enforcement sensitive actions are not included in the data released by the EPA. Address information provided in SWDIS may correspond either with the physical location of the water system, or with a contact address.

Radon Zone Level

RADON ZONE

Areas showing the level of Radon Zones (level 1, 2 or 3) by county. This data is maintained by the Environmental Protection Agency (EPA).

Safe Drinking Water Information System (SDWIS)

SDWIS

The Safe Drinking Water Information System (SDWIS) contains information about public water systems as reported to US Environmental Protection Agency (EPA) by the states. Addresses may correspond with the location of the water system, or with a contact address.

Soil Survey Geographic database

SSURGO

The Soil Survey Geographic database (SSURGO) contains information about soil as collected by the National Cooperative Soil Survey at the Natural Resources Conservation Service (NRCS). Soil maps outline areas called map units. The map units are linked to soil properties in a database. Each map unit may contain one to three major components and some minor components.

USGS Current Topo

US TOPO

US Topo topographic maps are produced by the National Geospatial Program of the U.S. Geological Survey (USGS). The project was launched in late 2009, and the term "US Topo" refers specifically to quadrangle topographic maps published in 2009 and later.

USGS Geology

US GEOLOGY

Seamless maps depicting geological information provided by the United States Geological Survey (USGS).

USGS National Water Information System

FED USGS

The U.S. Geological Survey's (USGS) National Water Information System (NWIS) is the nation's principal repository of water resources data. The data includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data. This NWIS database information is obtained through the Water Quality Data Portal (WQP). The WQP is a cooperative service sponsored by the USGS, the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC).

Wells from NWIS

FED USGS

The U.S. Geological Survey's (USGS) National Water Information System (NWIS) is the nation's principal repository of water resources data. The NWIS includes comprehensive information of well-construction details, time-series data for gage height, streamflow, groundwater level, and precipitation and water use data. This select NWIS Wells dataset contains specific Site Types from the overall NWIS Sites data, limited to the following Group Site Types only: Groundwater Group Site Types: Well, Collector or Ranney type well, Hyporheic-zone well, Interconnected Wells, Multiple wells; Spring Group Site Type: Spring; and Other Group Site Types: Aggregate groundwater use, Cistern. Applicable NWIS database information is obtained

Appendix

through the Water Quality Data Portal (WQP). The WQP is a cooperative service sponsored by the USGS, the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC).

State Sources

Historical Drywells

Historical listing of registered drywells once maintained and made available by the Arizona Department of Environmental Quality (ADEQ) Water Quality Division. As of May 2018, ADEQ stopped accepting paper forms and will no longer be updating this list.

DRYWELLS HIST

Oil and Gas Wells

This database includes List of Oil and Gas wells in the State of Arizona that have been permitted by the State Oil and Gas Conservation Commission (OGCC). Gas wells include natural gas, helium, and carbon dioxide wells. This data was provided by Arizona Department of Environmental Quality (AZDEQ).

OGW

Wells 55 Registry

The Wells 55 Registry lists wells registered in the state, including NOIs to drill, modify, abandon, or deepen, registrations, driller reports, completion reports, change of well information, change of ownership, notice of well capping, and abandonment completion reports. The database was created in 1980 to store registration information submitted by well owners and drillers. Data made available by the Arizona Department of Water Resources.

Highlights

Ms. Wills is an Environmental Staff Assessor at Partner Engineering and Science, Inc. (Partner), where her primary responsibility involves conducting Phase I Environmental Site Assessments (ESAs) for a variety of commercial real estate property types and clients, according to the ASTM E1527-13 and ASTM E1527-21 standard and the US Environmental Protection Agency's All Appropriate Inquiries (AAI) requirements.

Ms. Wills has worked on various large scope projects including commercial, multi-family residential, industrial, and agricultural use. Ms. Wills works closely with state and local agencies to identify environmental issues pertaining to underground Storage Tanks (UST) removal and areas of regional groundwater contamination. Ms. Wills is timely with her reports and conscientious of client's specific needs.

Experience Summary

Ms. Wills has experience performing due diligence assessments for a variety of property types. For each assessment, she reviews the condition of the building structure and systems to develop a thorough report and identify Recognized Environmental Conditions (RECs).

Project Experience

Grand Central Tower, Phoenix, AZ – Ms. Wills performed a Phase I ESA on a 20-story high rise office building and detached four-story parking garage, which formerly operated as a fueling station constructed in 1957 and 1988. The property had an associated Leaking Underground Storage Tank (LUST) case closed in the 1990s resulting in a Historical Recognized Environmental Condition (HREC).

Active Fueling Station, Salton City, CA- Ms. Wills performed a Phase I ESA on an active fueling station, which was found to have an ongoing release and in violation of multiple state regulations. The failure of the UST fueling system resulted in a REC and subsurface investigation was recommended.

Phoenix Central Station, Phoenix, AZ- Ms. Wills performed a Phase I ESA on a historical area of downtown Phoenix, which was previously occupied by multiple auto sales and fueling facilities utilizing twelve USTs from 1968 until the 1980's.

Automotive Repair Facility, Sierra Vista, AZ- Ms. Wills performed a Phase I ESA on a long-standing automotive repair facility, which formerly operated as a school since 1969. The property operated multiple oil/water separators with observed cases of staining in the vicinity of onsite drains. The age of the oil/water separators in use and poor housekeeping observed resulted in a REC and further investigation was recommended.

Industrial Trucking Repair, Phoenix, AZ- Ms. Wills performed a Phase I ESA on an industrial trucking auto repair facility, formerly occupied by a crane and rigging facility. The property was believed to be a Water Quality Assurance Revolving Fund (WQARF) contributor, during the previous investigation contamination was identified, resulting in Phase II recommendation.

Automotive Repair Facility, Yuma, AZ- Ms. Wills performed a Phase I ESA on an automotive repair facility which had been in operation since 1979 utilizing eight in-ground hydraulic lifts, two oil/water separators and two former USTs. The former USTs unknown location, age of the inground lifts and clarifiers on the subject property resulted in a Phase II limited subsurface investigation and ground penetrating radar recommendation.

Food Manufacturing, Germantown, WI- Ms. Wills performed a Phase I ESA on a historical area of downtown Germantown, which was previously occupied by a rock quarry and multiple fueling facilities. The impacted soils on the subject property required subject property use restrictions resulting in a Conditional Recognized Environmental Condition (CREC).

Environmental Related Sampling

Legionella Water Sampling- Ms. Wills performed sampling of drinking water sources for legionella testing for five locations in the Phoenix Valley.

Radon Testing- Mesa, AZ- Ms. Wills performed Radon testing on a large multi-family property in Mesa, Arizona for a Phase I ESA.

Phase I Environmental Site Assessments

Transaction Screen Assessments

Environmental Desktop Reports

Peer Reviews

Experience Summary

Mr. Miller has more than ten years project experience in the environmental consulting industries conducting and reviewing Phase I Environmental Site Assessments (ESAs), Environmental Transaction Screens (ETSs), Database Reviews (DRs), Peer Reviews (PRs), and Historical Records Reviews (HRRs). Mr. Miller currently has the role of Project Manager/Environmental Professional and has significant experience in due diligence assessments for a variety of property types and the needs and requirements of varied number of reporting standards, including ASTM standards, EPA's All Appropriate Inquiry (AAI), and customized client formats.

Mr. Miller has performed Phase I Environmental Site Assessments and other related environmental assessments for a number of different commercial, residential, and industrial properties ranging in scope and complexity. Specifically, Mr. Miller has performed environmental assessments on multi-family developments, assisted living facilities, medical facilities, commercial office buildings, gasoline stations, shopping centers, airports, manufacturing facilities, warehouses, and industrial parks. Mr. Miller has performed numerous assessments involving issues such as soil and groundwater contamination; asbestos identification and sampling; underground storage tank (UST) identification and research; mold assessment; radon measurement; and lead-based paint (LBP) identification and sampling.

In addition to the environmental consulting industry, Mr. Miller has eight years of experience as an urban planner which included reviews of various plans, ESAs, and other relevant documents to ensure all environmental requirements were met in development projects.

Project Experience

North I-25 Corporate Center, Albuquerque, New Mexico - Mr. Miller performed a Phase I Environmental Site Assessment on a 60-acre industrial site which was formerly utilized as a municipal land fill, and then developed into a 500,000 square foot semiconductor manufacturing plant in the 1980s. Significant environmental issues associated with this site included remediation associated with landfill waste, tetrachloroethene (PCE) contaminated groundwater beneath the property which had migrated from an off-site source, and the use and storage of hazardous substances associated with the former manufacturing plant operations which included multiple underground storage tanks (USTs).

Shultz Steel Company, Los Angeles, California - Mr. Miller performed a Phase I Environmental Site Assessment on a 24-acre industrial metal forging and finishing site. This facility consisted of seven industrial buildings totaling approximately 532,000 square feet. Significant environmental issues associated with this site included the bulk storage and handling of petroleum products and other hazardous substances; multiple subsurface investigations analyzing soil, groundwater, and soil gas related to metal dust and general manufacturing activities; two former underground clarifiers; an oil pipeline located beneath the property; and eight former USTs with multiple releases impacting soil and groundwater.

Robert Humphrey Machine Shop, Tucson, Arizona - Mr. Miller performed a Phase I Environmental Site Assessment on an industrial facility that included a machine shop, hydraulic equipment repair shop, and a former gasoline/automobile repair facility developed in the 1950s. Significant environmental issues associated with this facility included: the historical use of solvents and other hazardous substances, historical seepage pits, vehicle maintenance operations and below-grade hydraulic lifts, painting operations, and former waste oil and gasoline USTs with associated soil contamination.

Red Cliffs Mall, Saint George, Utah - Mr. Miller performed a Phase I Environmental Site Assessment on a 390,000 square foot shopping mall constructed in 1990.

Lovelace Respiratory Research Institute, Albuquerque, New Mexico - Mr. Miller performed a Phase I Environmental Site Assessment on an 118,000 square foot medical research facility. This facility's research laboratories ranged in various levels of biocontainment precautions (Biosafety Levels) that were set in place to isolate dangerous biological agents. On-site operations consisted of chemical/nuclear terrorism studies, environmental studies and public health, basis mechanisms of disease, pharmaceuticals (therapeutic and vaccines), respiratory health risks, aerosol technology and behavior health.

Lantana Apartment Homes, Las Vegas, Nevada - Mr. Miller performed a Freddie Mac Phase I Environmental Site Assessment on a 23-acre, 516-unit apartment complex which included radon and asbestos sampling.

Chrisman Development Portfolio, Southern Arizona - Mr. Miller performed three Phase I Environmental Site Assessments on three apartment complexes which included asbestos and lead-based paint sampling.

Arcadia Palms Apartments, Phoenix, Arizona - Mr. Miller performed a Phase I Environmental Site Assessment on an 112,500 square foot apartment complex which included radon and asbestos sampling. This site suffered from extensive water damage with significant mold growth. Additionally, groundwater beneath this property had been impacted by a regional groundwater contamination.

Training

OSHA HAZWOPER 40 Hour
OSHA HAZWOPER 8-Hour Supervisor Training

Highlights

Environmental Professional
Over 25 years of Project Management experience in environmental consulting industry
Phase I and II Environmental Site Assessments
Soil and Groundwater Remediation
Brownfields Redevelopment

Experience Summary

Ms. Miller is currently a Technical Director for Government Services in the Southwest focusing on business development for state and municipal contracts. Responsibilities include business development, document reviews, data reviews, resource allocation, training of junior staff, key account management, and preparing statements of qualifications for large environmental services on-call contracts.

As a Senior Project Manager and Environmental Professional with over 25 years of experience, she has a vast amount of experience coordinating and supervising Phase I and II environmental site assessments (ESAs), business environmental risk reviews, asbestos and lead surveys, and soil/groundwater remediation projects. Ms. Miller was responsible for the coordination and supervision of environmental site assessments and soil/groundwater remediation projects involving petroleum and hazardous materials storage facilities. She supervises project teams consisting of geologists, engineers, technicians, and subcontractors. In addition, she reviews ESA reports prepared to ensure accuracy of the assessment, quality, and conformance to proposal and client's expectations. She has served as a project coordinator for a major petroleum company's Arizona LUST sites. Project responsibilities include property transaction and environmental due diligence consulting, Department of Transportation hazardous materials investigations, brownfields redevelopment, air and water permit compliance, hazardous and mixed-waste management, and Phase II ESAs.

Ms. Miller's experience also includes soil, soil gas and groundwater sampling; remedial system design oversight; proposal and cost preparation; data analysis; groundwater monitor well installation/monitoring; work plan preparation; quality assurance/quality control; risk mitigation; and Phase I ESAs. She has prepared compliance and assessment reports, managed project budgets and timelines, and served as major client coordinator. Ms. Miller has reviewed and managed client contracts, certificates of insurance and subcontractor services. Lastly, she has conducted project manager training for environmental staff, developed annual department goals, and is skilled at project and budget forecasting.

Project Experience

Ms. Miller conducts Phase I environmental site assessments for numerous properties in accordance with ASTM E 1527 standards for a variety of clients including banks, real estate developers, mining, petroleum projects, industrial, municipal, and state agencies. Projects have included industrial facilities, airports, gasoline stations, commercial properties, dry cleaners, golf courses, agricultural land, multi-tenant apartment complexes, retail, single family homes, easements, historic mining facilities, highway corridors, and undeveloped land. Projects have included evaluation of vapor intrusion conditions, Phase II ESAs and remediation of hazardous materials.

City of Phoenix, Phoenix, AZ. Conducted and managed over 175 Phase I and Phase II Environmental Site Assessments for the City of Phoenix for the light-rail, neighborhood services, and Aviation Community Noise Reduction Programs (CNRP). Sites included street corridors, industrial facilities, residential and commercial properties. Prepared a report and GIS database for the CNRP project which summarized environmental assessments conducted for the 780 sites in the CNRP.

Arizona Department of Transportation. Managed and prepared Arizona Department of Transportation and Maricopa County Department of Transportation preliminary initial site assessments for over 80 project sites throughout Arizona, which included asbestos & lead-based paint surveys and Phase II ESAs. Projects included ESAs for a 3-mile stretch of land proposed for freeway development, 87-site summary for locations within the Phoenix metro area, and an intersection-improvement project for the City of Glendale. Identified areas with high risk for hazardous materials and recognized environmental conditions. Additional Phase I and II assessments were conducted to evaluate recognized environmental conditions, including pesticide and petroleum contamination.

Arizona Department of Environmental Quality – Brownfields. Managed Brownfield projects for Arizona municipalities under an Arizona Department of Environmental Quality contract. Prepared comprehensive Phase I ESAs in addition to sampling of soil gas, asbestos, lead-based paint, mold, and guano. Projects received a perfect score of "10" by the ADEQ for meeting project schedule and risk reduction.

Computer Manufacturing Facility, Arizona. Managed a site assessment investigating the impact of a release of used solvents in perched and regional aquifers at a computer technology manufacturing facility. The site was part of the Arizona Department of Environmental Quality's Water Quality Assurance Revolving Fund (WQARF). Following evaluation of historical property data, groundwater monitor wells were installed and a soil-gas survey was conducted to aid in the assessment of the groundwater quality. A risk assessment was conducted to evaluate potential threats to human health and the environment. Based on the results of the site and risk assessments and groundwater modeling data, the site was granted closure status.

Maricopa County, Arizona. Served as Project Manager for a soil and groundwater remediation plan for a site impacted by a gasoline release at a County vehicle maintenance facility. In-situ vapor extraction in conjunction with a groundwater-treatment system recovered over 4,500 gallons of petroleum. The site was granted no further action by the ADEQ.
