**NOTIFICATION LETTER NO. 3**

**FEBRUARY 8, 2024**

This notification letter shall become part of the Request for Qualifications for the above referenced project.

Point of Clarification on previously asked question:

1. Q: Is there any biohazard in the duct work?  
 A: It is possible biohazards could be present due to the chemicals and toxicities tested in the facility. A biohazard team may be needed to test the ducts for any biohazards prior to starting work. Crime lab staff will provide information on which areas, if any, contain biohazards.

All other terms and conditions remain unchanged.
