**2017 PVC LINED CONCRETE SANITARY SEWER REHABILITATION
WS90500272**

ADDENDUM NO. 2

ISSUE DATE: 4/18/2024

Bidders are hereby notified that the Bidding and Contract Documents for the above project, for which Bids are to be received on **April 23, 2024**, are amended as follows:

Questions and Answers:

No.	Question	Answer
1	What are the dimensions of the temporary containment troughs?	Dimension requirements are shown on the plans. Contractor to comply fully with the plans and specs for full requirements. The following is given to assist the Contractor in this effort: The details on Sheet 13 show many requirements for sizing the trough. Manhole rim and invert elevations for nearby manholes are shown on Sheet 7 of the plans.
2.	How thick are the shotcrete walls and floor supposed to be?	Thickness to be sufficient to create a waterproof barrier per Detail C, Sheet 13.
3.	Do we have a spec for the shotcrete (strength, finish, reinforcement, etc.)?	No. Shotcrete strength, finish, and reinforcement to be sufficient to provide a watertight barrier per Detail C, Sheet 13.
4.	How many containment troughs will be needed (overall LF)?	Only one trough is called for on the plans.
5.	Lastly, is there a GC bid list someone can forward over to us as I did not see one listed?	There is no GC bid list. The PreBid sign in Sheet can be viewed at the City's solicitations website. Solicitation Details - Solicitations City of Phoenix

The balance of the specifications and instructions remain the same.

NOTE: Bidders must acknowledge receipt of this Addendum by listing the number and date, where provided, on the **PROPOSAL P-1.**
