SBE Requirements**

SBE PROGRAM REQUIREMENTS

The City of Phoenix strives to advance the economic growth of businesses through its **Small Business Enterprise (SBE) Program.**

The City encourages the participation of SBE firms throughout *all phases* of contracts.

Subject to City of Phoenix Code, Chapter 18, Article VI, pertaining to the participation of Small Business Enterprise (SBE) firms.

SBE PROGRAM REQUIREMENTS

The City of Phoenix SBE Goals Committee has established an SBE participation goal of 6.5% for this contract.

The successful submitter is required to meet or exceed the required SBE Goal for ALL work performed on the construction contract.

The Prime Contractor is required to demonstrate good faith efforts to utilize certified SBE firms to achieve this goal during the life of this contract.

SBE PROGRAM REQUIREMENTS

Due at Time of Submittal

Contractor's Statement of Proposed SBE Utilization

Letters of Intent to Perform as an SBE Subcontractor / Supplier

Failure to submit complete & accurate forms =

Non-Responsive

CERTIFIED SBE FIRMS

- ❑ To participate in this opportunity as an SBE, only firms certified by the city of phoenix in the specified scopes of work shall be considered in calculating SBE participation.
- ❑ Prime contractors may not self perform work proposed for SBE participation.
- ❑ Eligible SBE's can be found at:

<https://phoenix.diversitycompliance.com>

SBE WAIVER REQUEST

If the Bidder is Unable to Meet the Goal
“Good Faith Efforts”

To show proof of having exercised good faith efforts in trying to obtain bids from SBE firms to meet the utilization goals:

- ✓ Partial Waiver Request
- ✓ Full Waiver Request
- ✓ Supporting Documentation

Details pertaining to the above requirements are listed in the SBE Clause for this contract under the SBE Clause –Section III

GOOD FAITH EFFORTS

- In order to be a successful prime contractor in the SBE program, you must show that you took all necessary and reasonable steps to achieve an SBE goal or other requirements of the SBE program. The steps must be steps which could reasonably be expected to obtain sufficient SBE participation, **even if such steps were not fully successful.**

Questions

PROJECT DESCRIPTION

Lift Station 76 is located on the west side of Interstate I-17 north of the W. Pioneer Rd off-ramp.

PROJECT DESCRIPTION

Lift Station 76 aerial facing southwest

PROJECT DESCRIPTION

It was initially constructed in 2004 and operated to direct flows to Cave Creek Water Reclamation Plant (CCWRP) and pumping to the 91st Avenue Wastewater Treatment Plant. When the CCWRP was taken offline in November 2009, LS 66 flows were bypassed to the gravity sewer along North Valley Parkway apart from flows from the adjacent City of Phoenix Solid Waste Transfer Facility.

With the new development and growth in the area, it was recommended to refurbish the site completely to accommodate for significantly higher flows that this station has never seen.

SCOPE OF WORK

Work for the Lift Station 76 project includes:

- Removal of submersible pumps, above ground force main header piping, valves and ancillary equipment
- Demolition of existing wet well, concrete slab, hatches and bollards
- Abandon existing gravity sewer and force main underground piping
- Installation of new wetwell and submersible pumps, including new above ground force main piping, valves and ancillary equipment

SCOPE OF WORK

Work for the Lift Station 76 project includes:

- Provide bypass pumping and maintain lift station service at all times
- Maintain existing lift station operations including security gate operators and cameras
- Installation of biological odor control facility
- Installation of chemical feed facility
- Installation of gravity sewer line, manhole and underground force main piping
- Demolition of electrical conduits and wiring associated with submersible pumps power and control

SCOPE OF WORK

Work for the Lift Station 76 project includes (cont.):

- Salvage existing soft starters and breakers
- Relocate existing instrumentation and control panels to new wet well and submersible pump location
- Installation of new electrical conduit and wiring for power and control from electrical equipment to submersible pumps and wet well
- Installation of new electrical equipment
- Provide programming, start-up and commissioning services

SCOPE OF WORK

Work for the Lift Station 76 project includes (cont.):

- Site improvements
- Salvage existing equipment as directed by the City
