STREET TRANSPORTATION
Project Manager

KRYSTINA M ARAGON, PE
PROJECT MANAGER

SCOPE OF WORK

The City of Phoenix is proposing the installation of approximately 3.9 miles of fiber optic infrastructure and associated Intelligent Transportation System (ITS) along Deer Valley Road, from 7th Avenue to 7th Street, and along 7th Street, from Deer Valley Road to Paradise Lane.

SCOPE OF WORK

The scope of work will include but is not limited to:

- Extending the city's real-time transportation management capability along key roadway corridors in the City and provides a Layer 3 switch to serve as a fiber node facility in the northern part of the city.
- Enables more reliable network routing for City ITS devices in the area.
- Provides infrastructure for the City of Phoenix to connect to the traffic signal at 7th Avenue and Deer Valley Road and travel east along Deer Valley Road using existing conduit to connect to a new pull box halfway between Central Avenue and 7th Street that will create a new connection point along existing City conduit infrastructure.

SCOPE OF WORK

- New conduit infrastructure will be installed east of 7th Avenue from the new pull box to the intersection of 7th Street and Deer Valley.
- A new cabinet will be installed near the northwest corner of the 7th Street and Deer Valley Road intersection and provide infrastructure for a future fiber connection to the traffic signal in the south west corner.
- New conduit and fiber infrastructure will travel south along 7th Street and cross the State Route 101L (Loop 101) freeway. There is an intergovernmental agreement (IGA) between the City of Phoenix and ADOT.
- The conduit and fiber infrastructure will continue south along 7th Street to provide a node connection to each of the traffic signals along the corridor and ends at the traffic signal at the 7th Street and Paradise Lane intersection. Details on the plans show the proposed nodes and the connection with Paradise Valley intersection.

SCOPE OF WORK

Federal Aid Project requires compliance Environmental Mitigation Measures shown in the Supplementary Conditions and include but not limited to:

- The contractor shall post the Migratory Bird Treaty Act flyer at the construction site at all time during construction.
- If trees or shrubs would be impacted between February 1 and August 31 of any calendar year, or if an active bird nest is present within 30 feet of the work area, work shall cease within 30 feet. The contractor shall immediately notify the City of Phoenix Project Manager and Office of the City Engineer Environmental Services Section. Reasonable time shall be allowed for a qualified biologist to arrive at the site and determine a compliant course of action.

Current Opportunities – Request for Qualifications, project plans, and specifications for projects that are currently available, as well as project amendments, notifications, plan holders list, pre-bid or pre-submittal sign-in sheets and PowerPoint presentations.

Project Interviews – Firms recently short-listed to participate in interviews for professional services and construction opportunities, as well as firms short-listed for 2-Step procurement processes.

Bid Results and Project Selections – Preliminary and final bid results are for Design-Bid-Build procurement opportunities. Preliminary bid results do not reflect the responsiveness or responsibility of any received bids. Project Selections identify firms to be awarded professional services and construction opportunities with the City.

Subscribe to Procurement Newsletter – Register to be on the distribution list for the free weekly newsletter that advertises design and construction opportunities.

In an effort to decrease paper costs, Design and Construction Procurement will place all construction plans, specifications, and addendum/notification on the City of Phoenix website for downloading. Interested parties can download the information and print at their own offices or copy the information to a disk and take to any reprographics company of their choice.
