ABOUT THE CITY OF PHOENIX ARTS AND CULTURE DEPARTMENT

The City of Phoenix Arts and Culture Department

The Phoenix Arts and Culture Department was established in 1985 to champion and sustain the City's arts and culture community to make Phoenix a great place to live, work, and visit.

Our Commitment

The Arts and Culture Department believes in fair treatment, access, and opportunity for all individuals. Our equity strategy aims to identify and eliminate barriers that have prevented marginalized groups' full participation in the agency's programs and to strengthen diversity, and inclusion in the arts and culture sector for Phoenix residents.

The City of Phoenix fully endorses and supports the concept of equal business and employment opportunities for all persons, regardless of race, color, age, sex, religion, national origin, genetic information, marital status, disability, sexual orientation, or gender identity or expression.

Land Acknowledgement:

The Arts and Culture Department acknowledges that modern-day Phoenix is on the traditional lands of the Akimel O'Odham (Pima) and the Tohono O'Odham and before that their ancestors (Hohokam) as well as the Pee-Posh (Maricopa). We honor the elders of both past and present, as well as future generations that enable us to live here today. Further, we acknowledge the sovereignty of the [22 Tribal Nations](#) who continue to steward the lands that make up the state of Arizona.

SCOPE OF WORK AND PROJECT DESCRIPTION

The Arts and Culture Department, in collaboration with the Street Transportation Department, seeks to commission pedestrian-scale artworks as part of the [Dobbins Road Improvement Project](#). Currently in the planning and pre-design phase, the project focuses on widening approximately 4.3 miles of Dobbins Road from State Route 202 (LOOP 202) to 27th Avenue. This project aims to alleviate traffic congestion, enhance pedestrian and cyclist safety, improve public transit access, and address drainage and flooding concerns.

The Dobbins Road Improvement Project will develop a consistent corridor that increases the traffic capacity along Dobbins Road. Key features include connecting the Laveen community with multi-use paths, transit improvements, and enhancements such as landscaping, lighting upgrades, drainage solutions, bus stops, shade structures, and utility relocations. The artworks should complement these new amenities, some of which could be artist-designed (ie: shade structures).

The Dobbins Road Improvement Public Art Project will be a collaboration between the artist, or artist team, the project design team, city departments, local stakeholders, and community groups. The selected artist(s) will design, fabricate, and install integrated public art along Dobbins Road. The project design team will be selected through a separate RFQ process by the Street Transportation Department. As part of this project, the selected artist(s) will be expected to develop and implement community engagement activities during the design phase of the project. Implementation of the community engagement strategies may be supported by a public outreach firm hired as part of the project design team.

The artworks should enrich the area’s visual identity and further enhance the pedestrian experience along Dobbins Rd. Artwork must be suitable for public display, avoid political statements, and be crafted from durable materials designed to withstand the desert environment. Locations for the artwork will be determined through a collaborative design process.

Artwork Goals

Artwork commissioned for this opportunity must meet the following goals. The artwork should:

- **Enhance Community Identity:** Reflect and celebrate Laveen’s unique character and agricultural heritage, promoting a sense of pride and connection among residents.
- **Enrich the Pedestrian Experience:** Create engaging and visually stimulating artwork that enhances the experience for pedestrians and cyclists, making the area more inviting and enjoyable.
- **Ensure Durability and Integration:** Utilize durable materials suitable for the desert environment and design artwork that seamlessly integrates with the project’s landscaping, lighting, and architectural elements.

Site History

The Dobbins Road Improvement Project is located in Laveen, Arizona, a community in the southwestern part of the Phoenix metropolitan area. This land is deeply connected to the Akimel O’odham (Pima) people, who have historically cultivated the land using advanced irrigation and farming techniques, fostering a thriving agricultural community.

As Laveen has grown and developed, the contributions of the O’odham people remain a significant part of its history and cultural landscape. Their knowledge and stewardship of the land laid the foundation for the area’s agricultural prosperity, which continues to influence Laveen’s identity today.

Laveen is bordered by the Salt River on the north, [South Mountain Park & Preserve](#) on the south, the [Gila River Indian Community](#) on the west, and 27th Avenue on the east.

Laveen has been long valued by farmers, equestrians, and residents searching for solitude and easy mountain access for the views and outdoor activities. Once a quiet agricultural community, it has transformed over recent decades into a growing residential area while maintaining some of its rural charm. It is known for its family-friendly atmosphere and a strong sense of community that blends suburban living with the open spaces and agricultural roots that define its past. Recent infrastructure developments, like the Loop 202 freeway, have improved access to major highways, making commutes easier throughout the Phoenix metropolitan area. Despite this rapid development, Laveen has managed to retain its unique character, with working farms still dotting the landscape alongside newer housing developments.

 = New developments since 2003

The all-inclusive budget for the Dobbins Road Improvement Public Art Project is not to exceed \$475,000. This includes all costs related to the completion of the project, including but not limited to, artist fees, community outreach, design development, structural engineering, research, fabrication, insurance, permits and installation of the artwork.

Note: Some elements of the artwork may be installed by a City contractor, for convenience, depending on the final design of the artwork. However, all installation costs will be paid by the art budget.
