Project Description

The Scenario 9 Transmission Main Rehabilitation project involves steel slip-line rehabilitation of 2,700 linear feet of the 48-inch diameter Pre-stressed Concrete Cylinder Pipe (PCCP) Transmission Main Scenario 9 along Roeser Road from 4th Street to 9th Street.

Of all the City's PCCP Transmission Main Scenarios, Scenario 9 has the third highest percentage of pipes with wire breaks. Mitigation of the most severely distressed pipes was accomplished with replacement of Pipe #470 and carbon fiber reinforced polymer (CFRP) repair of sixteen other Scenario PCCP pipes during fiscal year 2017. However, as CFRP repair is considered a medium-term, temporary rehabilitation technique, rehabilitation in-place with welded steel slip-lining is recommended.

Scope of Work – Design/CA&I

- Provide steel slip lining rehabilitation recommendations and complete steel slip lining rehabilitation design for Scenario 9.
- Provide construction documents and specifications for the rehabilitation design
- Provide a construction schedule and engineer's estimate of cost to construct and complete the main rehabilitation
- Develop preliminary Maintenance of Plant Operations (MOPO) plans for pipeline shutdown and recharge
- Coordinate with the Street Transportation and other City Departments as required on right-of-way and/or City owned property
- Identify all utility locations both vertically and horizontally in conflict with proposed access pits.
- Coordinate with the City's potholing contractor as necessary to establish utility locations.
- Coordinate with other design consultants on adjacent projects, as needed
- Conduct geotechnical evaluations to develop construction requirements
- Investigate and identify traffic control impacts and costs using the City's Right-of-Way Management Program
- Obtain all applicable permits
- All City standards shall be used to develop construction documents including but not limited to drafting standards and MAG standard specifications.

Scope of Work – Design/CA&I

- General project administration, construction inspections
- Resident engineering services during construction
- Daily interaction with contractors to clarify job requirements
- Administration of contractor's contract
- Decision-making regarding technical project issues
- Monitoring of job progress
- Review and certification of progress payments and job orders
- Preparation of record drawings
- Public information and public relations services, and coordination with other City Departments, governmental agencies and operations staff

Scope of Work – CMAR

Preconstruction phase services by the CMAR may include the following:

- provide detailed cost estimating and knowledge of marketplace conditions
- provide project planning and scheduling
- provide for construction phasing and scheduling that will minimize interruption to City operations
- provide alternate systems evaluation and constructability studies
- advise City on ways to gain efficiencies in project delivery
- provide long-lead procurement studies and initiate procurement of long-lead items
- assist in the permitting processes
- participate with the City in a process to set a goal for local and SBE participation and implement the local and SBE process
- protect the City's sensitivity to quality, safety, and environmental factors
- advise City on choosing green building materials.

Scope of Work – CMAR

Construction phase services by the CMAR may include:

- construction per final plans and specifications
- select subcontractors/suppliers for this project
- prepare a Guaranteed Maximum Price (GMP) proposal that meets the approval of the City
- coordinate with various City of Phoenix departments, other agencies, utility companies, etc.
- arrange for procurement of materials and equipment
- schedule and manage site operations
- bid, award, and manage all construction related contracts while meeting City bid requirements including the local and SBE participation goal
- provide quality controls
- bond and insure the construction
- address all federal, state and local permitting requirements
- deal with City issues
- maintain a safe work site for all project participants
