

Question No.	Respondent / Offeror Question	COPERS Response
Q1	Does COPERS have office space available for the Imaging Backfile related work?	<p>Yes. COPERS will provide sufficient office space for this effort. Currently COPERS is planning to provide a room within their office that is approximately 300sqft.</p> <p>Vendors should provide any additional details and/or needs in their proposal for any additional room / space requirements.</p>
Q2	Will COPERS be providing basic office furniture (i.e., desks, chairs, etc.) for the Imaging Backfile related work?	<p>Yes. COPERS will provide office furniture for this effort. Currently COPERS is renovating one of their conference rooms and will at least 2 desks and at least 4-chairs, etc. available for vendor use.</p> <p>Vendors should provide any additional details and/or needs in their proposal for any additional office furniture required.</p>
Q3	We assume that the vendor will need to bring their own workstations, monitors, scanners, etc. for the Imaging Backfile related work?	Yes that is correct.
Q4	Does COPERS want the Cost / Pricing information to include or exclude taxes in the quote?	Cost/Pricing should include taxes in the quote.
Q5	Are there any requirements or expectations concerning vendor work that may be performed offsite, offshore, internationally, China, etc.?	<p>COPERS has no requirements regarding offshore or international based work / services. The main contact must be in the Northern America.</p> <p>However, Exhibit C has a requirement related to Hosting and Data; and requires that data must stay within the United States and Canada.</p>
Q6	Does COPERS have any expectations as to the overall length / term of the implementation project / contract?	<p>COPERS from a contract perspective has included details requiring a five (5) year term agreement.</p> <p>COPERS has included details as to proposed phase names and the sequence of those phases.</p> <p>However COPERS has no set requirements regarding the overall length / timeframe of the implementation project.</p>
Q7	What is the current legacy system in use by COPERS today?	<p>COPERS two primary systems are LRS PensionGold and Oracle / PeopleSoft eCHRIS.</p> <p>The COPERS RFP has additional details about these system on Page 50; section "Current State".</p>
