This JOC is for the restoration of pavements in the right-of-way (ROW). Up to four contractors may be selected for this JOC based on the City's workload.

In addition to the City and with approval of the Contractors selected under this procurement, the results of this procurement may be extended for use by other eligible municipalities and government agencies under Arizona Revised Statutes title 34.

SECTION I – PROJECT DESCRIPTION

At a minimum, the Contractor will be expected to successfully perform the following construction services, including, but not limited to:

- Arterial, Major Collector, Minor Collector and Residential Pavement Overlay
- Other services may include:
 - Crack Seal Program
 - Slurry Seal Program
 - Microseal Program
 - Sealcoating
 - Fractured Aggregate Surface Treatment (FAST)
 - Scrub Sealing
 - Fog Sealing
- Other services as may be required, incidental to this JOC

This JOC will be for a 36-month duration or \$90M per JOC, whichever occurs first. The JOC will include an option to renew, based on the Contractor's satisfactory performance, the City's need for additional services, and funding availability. The option to renew will be for an additional 24-month term or the balance of the maximum contract amount of \$150M, including all JOC amendments. The City intends that each Job Order performed under this JOC will not exceed \$4,000,000 in construction costs, but in no event will any Job Order exceed \$4,000,000 subsequent to Council approval of the change in limits.

The Contractor is required to provide performance and payment bonds for the amount of each Job Order proposal prior to executing the Agreement.

During the term of the JOC, work is performed as a series of individual Job Orders. Each Job Order, initiated by the City, is defined cooperatively by the City and the Contractor. A scope, schedule, and price are agreed upon, and the Contractor is directed to proceed with the work. Job Orders may include pre-construction services, construction work, project management and contract administration as comprised within the Contractor's construction management plan.

SECTION II – SCOPE OF WORK

The scope of work will vary with each Job Order. Minor design services may be required for some Job Orders, however, most will be designed through consultants under a separate contract with the City. City staff may design some projects.

For Job Orders that may require design services, the Contractor shall seek the services of an Arizona registered professional architect and/or engineer to prepare plans for permitting. It is the responsibility of the Contractor to provide cost estimating, project scheduling for design, construction and/or maintenance, and obtain permits if needed from the appropriate City departments. The Contractor is also responsible for:

- Knowledge of and compliance with current City of Phoenix adopted codes
- All other work as it relates to this JOC, and

- All work incidental to this JOC

Prior to each Job Order Agreement, a scope of work conference may be scheduled to define design and construction services required of the Contractor.

The City of Phoenix will provide construction administration, inspection, and acceptance material testing for the Job Orders.

Assumptions about Job Orders:

- All sites will be in the State of Arizona.
- The Contractor will furnish all necessary tools and test equipment required for the performance of its work in accordance with the scope of work.
- All customer-provided documentation is obtained within a reasonable time at project start.
- All customer-required approvals are provided within a reasonable and mutually agreed upon time frame.
- Any work required at each site outside of this scope of work will be performed in accordance with the adjustment process.
- **Each Job Order Agreement must be submitted in MAG or CSI format or it will not be accepted.**

If the Project Manager has determined that use of PROMIS may be required during this JOC, the following information provides a guideline for utilization. Any questions related to the requirements of PROMIS should be directed to the Project Manager.

- The Contractor will be required to maintain all project records in electronic format.
- The City provides an Application Service Provider (ASP) web based project management database which the Contractor will be required to utilize in the fulfillment of the JOC requirements.
- The Contractor shall provide a computerized networked office platform with broadband internet connectivity.
- PROMIS training will be provided through the City of Phoenix to firms under this JOC.

The JOC Contractor agrees that if the Equal Opportunity Department determines that the contractor will fail, or has failed, to meet the SBE subcontracting goals, and / or has failed to act in good faith to ensure compliance with the SBE Program Requirements, it will deem the contractor "noncompliant" and not in good standing with this City contract.

SECTION VII – SELECTION PROCESS AND SCHEDULE

The successful JOCs will be selected through a two-step process which is a qualifications-based selection that includes a cost value element.

During the first step, interested firms will submit their SOQ. The selection panel will evaluate the SOQs according to the criteria in Section IV above and may select **up to six** firms as finalists to proceed to the second step of the procurement, which is the Request for Proposal (RFP) process.

During the second step, the RFP will be issued to the six finalists. The five finalists will submit technical and price proposals in response to the RFP. The finalists’ proposals will be evaluated and scored in accordance with the RFP scoring methodology. The firms with the highest composite scores for their technical and price proposals will be selected for the procurement. The final step is the recommendation for award of the JOC.

The City expects to create a final list of at least three, but not more than six firms for this project. The City will enter into negotiations with the selected firm and execute a contract upon completion of negotiation of contract terms for City Council approval.

The following tentative schedule has been prepared for this JOC. The Pre-submittal meeting is not mandatory.

Pre-submittal meeting	July 26, 2019
SOQs due	August 9, 2019
Request for Proposal	September 2019
Job Order Workshop	October 2019

If the City is unsuccessful in negotiating a JOC with the most-qualified firm(s), the City may then negotiate with the next most qualified firm until a JOC is executed, or the City may decide to terminate the selection process. Once a JOC is executed with the successful firm, the procurement is complete.
