(This information must be provided in The Submittal section, Years in Business and Customer Reference Listing of this solicitation.)
- 15.2 Offeror(s) must propose a storage infrastructure solution that complies with all the minimum requirements listed in Section V – Scope of Work, Table 7 Minimum Requirements. Offeror(s) must supply data sheets or URLs to data sheets that demonstrate their proposed solution meets the requirement. Failure to provide data sheets, URLs, technical literature, brochures demonstrating compliance may result in the offer being deemed non-responsive.

- 15.5 Offerors must provide the level of manufacturer authorized partnership (i.e., Gold, Platinum, etc.) and evidence of certification(s) must be submitted with the response.

16. AWARD OF CONTRACT:

- 16.1 This is a two-step process, requiring the Offeror to first meet the technical requirements for acceptability (Responsiveness) before any consideration can be given to price. Award will be made to the responsive Offeror providing the lowest cost to the City.
- 16.2 Unless otherwise indicated, award(s) will be made to the most responsive, responsible Offeror(s) who are regularly established in the service, or providing the goods, contained in this solicitation and who have demonstrated the ability to perform in an acceptable manner.
- 16.3 Factors that may be considered by the City include:
 - 16.3.1 Technical capability of the Offeror to accomplish the scope of work required in the Solicitation. This may include performance history on past and current government or industrial contracts; and,

16.3.6 A response to a solicitation is an offer to contract with the City based upon the terms, conditions, and specifications contained in the City's solicitation. Offers do not become contracts until they are executed by the Deputy Finance Director or Department Director. A contract has its inception in the award, eliminating a formal signing of a separate contract. For that reason, all of the terms, conditions and specifications of the procurement contract are contained in the solicitation, and in any addendum or contract amendment.

17. CITY'S RIGHT TO DISQUALIFY FOR CONFLICT OF INTEREST:

The City reserves the right to disqualify any Offeror based on any real or apparent conflict of interest that is disclosed by the offer submitted or any other data available to the City. This disqualification is at the sole discretion of the City. Any Offeror submitting an offer herein waives any right to object now or at any future time, before any agency or body, including but not limited to, the City Council of the City of Phoenix or any court.

18. SOLICITATION TRANSPARENCY POLICY:

18.1. 18.2. As long as the solicitation is not discussed, Offerors may continue to conduct business with the City and discuss business that is unrelated to the solicitation with the City staff.

18.3. Offerors may discuss their proposal or the solicitation with the Mayor or one or more members of the Phoenix City Council, provided such meetings are scheduled through the Procurement Officer, and are posted as open meetings with the City Clerk at least 24 hours prior to the scheduled meetings. The City Clerk will be responsible for posting the meetings. The posted notice shall identify the participants and the subject matter, as well as invite the public to participate.

18.4. With respect to the selection of the successful Offerors, the City Manager and/or City Manager's Office will continue the past practice of exerting no undue influence on the process. In all solicitations of bids and proposals,

any direction on the selection from the City Manager and/or City Manager's Office and Department Head (or representative) to the proposal review panel or selecting authority must be provided in writing to all prospective Offerors.

- 18.5.** This policy is intended to create a level playing field for all Offerors, assure that contracts are awarded in public, and protect the integrity of the selection process. **OFFERORS THAT VIOLATE THIS POLICY SHALL BE DISQUALIFIED.** After official Notice is received by the City for disqualification, the Offeror may follow the Protest process, unless the Solicitation is cancelled without notice of intent to re-issue.
- 18.6.** "To discuss" means any contact by the Offeror, regardless of whether the City responds to the contact. Offerors that violate this policy will be disqualified until the resulting contract(s) are awarded, or all offers or responses are rejected and the solicitation is cancelled without any announcement by the Procurement Officer of the City's intent to reissue the same or a similar solicitation. The City interprets the policy as continuing through a cancellation of a solicitation until Council award of the contract, as long as the City cancels with a statement that the City will rebid the solicitation.

19. PROTEST PROCESS:

- 19.1.** Offeror may protest the contents of a solicitation no later than seven days before the solicitation deadline when the protest is based on an apparent alleged mistake, impropriety or defect in the solicitation. Protests filed regarding the solicitation may be addressed by an amendment to the solicitation or denied by the City. If denied, the opening and award will proceed unless the City determines that it is in the City's best interests to set new deadlines, amend the solicitation, cancel or re-bid.
- 19.2.** Therefore, unless otherwise notified by a formal amendment, the Protester must adhere to all solicitation dates and deadlines, including timely filing of an offer, regardless of filing a protest.
- 19.3.** Offeror may protest an adverse determination issued by the City regarding responsibility and responsiveness, within seven days of the date the Offeror was notified of the adverse determination.
- 19.4.** Offeror may protest an award recommendation if the Offeror can establish that it had a substantial chance of being awarded the contract and will be harmed by the recommended award. The City will post recommendations on the City's website to award the contract(s) to an Offeror(s). Offeror must submit award protests within seven days after the posting of the award recommendation, with exceptions only for good cause shown, within the City's full and final discretion.
- 19.5.** All protests will be in writing, filed with the Procurement Officer identified in the solicitation and include the following:

- 19.5.1. Identification of the solicitation number;

The City will not request City Council authorization to award the contract until the protest process is complete. All protests and appeals must be submitted in accordance with the City's Procurement Code, (Phoenix City Code, Ch. 43) and any protests or appeals not submitted within the time requirements will not be considered. Protests must be filed with the Procurement Officer.

20. PUBLIC RECORD:

All Offers submitted in response to this solicitation will become the property of the City and become a matter of public record available for review pursuant to Arizona State law. If an Offeror believes that a specific section of its Offer response is confidential, the Offeror will isolate the pages marked confidential in a specific and clearly labeled section of its Offer response. An Offeror may request specific information contained within its Offer is treated by the Procurement Officer as confidential provided the Offeror clearly labels the information "confidential." To the extent necessary for the evaluation process, information marked as "confidential" will not be treated as confidential. Once the procurement file becomes available for public inspection, the Procurement Officer will not make any information identified by the Offerors as "confidential" available to the public unless necessary to support the evaluation process or if specifically requested in accordance with applicable public records law. When a public records request for such information is received, the Procurement Officer will notify the Offeror in writing of any request to view any portion of its Offer marked "confidential." The Offeror will have the time set forth in the notice to obtain a court order enjoining such disclosure. If the Offeror does not provide the Procurement Officer with a court order enjoining release of the information during the designated time, the Procurement Officer will make the information requested available for inspection.

21. LATE OFFERS:

Late Offers must be rejected, except for good cause. If a late Offer is submitted, the Department will document the date and time of the submittal of the late Offer, keep the Offer and notify the Offeror that its Offer was disqualified for being late.

22. RIGHT TO DISQUALIFY:

The City reserves the right to disqualify any Offeror who fails to provide information or data requested or who provides materially inaccurate or misleading information or data. or information available to the City. This disqualification is at the sole discretion of the City. By submission of a solicitation response, the Offeror waives any right to object now or at any future time, before any agency or body including, but not limited to, the City Council of the City or any court as to the exercise by the City of such right to disqualify or as to any disqualification by reason of real or apparent conflict of interest determined by the City. The City reserves the right to replace the disqualified Offeror.

23. SITE INSPECTION:

Did not make a site inspection, but regardless is either aware of all conditions that may affect performance and offer prices, or accepts the risk and understands the scope of its binding Offer.

24. PERFORMANCE BOND:

A performance surety in the amount of four hundred thousand (\$400,000) shall be provided by the Contractor immediately after notice of award. The City of Phoenix will not issue a written purchase order or give notice to proceed in any form until the surety is received by the Procurement Officer. The performance surety must be in the form of a bond, letter of credit, Certificate of Deposit, cashier's check, certified check or money order. Personal or company checks are not acceptable unless certified. A Certificate of Deposit (CD) issued by a local Phoenix bank may also be used as a form of surety, provided that the CD is issued jointly in the name of the City of Phoenix and the Contractor, and that the Contractor endorses the CD over to the City at the beginning of the contract period. 33. SPECIFICATIONS: The specifications and/or drawings associated with this project are intended to generally describe a complete installation. Any additional materials or labor required for the complete project as intended shall be provided by the Contractor, even if it has not been detailed in this document.

34. TRANSITION OF CONTRACT: Contractor will, without limitation, provide important information to a successor Contractor and the City to ensure continuity of service at the required level of proficiency and agrees to provide to the City all files, supplies, data, records, and any other properties or materials of the City, which the City owns or has rights to pursuant to this contract and which are in the possession of Contractor. The provisions of this section will survive the expiration or termination of this contract.

35. BACKGROUND SCREENING:

Contractor agrees that all Contractor and subcontractors’ workers (collectively “Contract Worker(s)”) pursuant to this Agreement will be subject to background and security checks and screening (collectively “Background Screening”) at Contractor’s sole cost and expense, unless otherwise provided for in the scope of work. Contractor’s background screening will comply with all applicable laws, rules and regulations. Contractor further agrees that the background screening is necessary to preserve and protect the public health, safety and welfare. The City requires a completed Contract Worker Badge/Key/Intrusion Detection Responsibilities Agreement for each Contract Worker who requires a badge or key.

35.1 **Background Screening Risk Level:** The City has established two levels of risk: Standard and Maximum risk. If the scope of work changes, the City may amend the level of risk, which could require the Contractor to incur additional contract costs to obtain background screens or badges.

35.2 **Terms of This Section Applicable to all Contractor’s Contracts and Subcontracts:** Contractor will include Contract Worker background screening in all contracts and subcontracts for services furnished under this agreement.

35.3 **Materiality of Background Screening Requirements; Indemnity:** The background screening requirements are material to City’s entry into this agreement and any breach of these provisions will be deemed a material breach of this contract. In addition to the indemnity provisions set forth in this agreement, Contractor will defend, indemnify and hold harmless the City for all

claims arising out of this background screening section including, but not limited to, the disqualifications of a Contract Worker by Contractor. The background screening requirements are the minimum requirements for the Agreement. The City in no way warrants that these minimum requirements are sufficient to protect Contractor from any liabilities that may arise out of the Contractor's services under this Agreement or Contractor's failure to comply with this section. Therefore, Contractor and its Contract Workers will take any reasonable, prudent and necessary measures to preserve and protect public health, safety and welfare when providing services under this Agreement.

- 35.4 **Continuing Duty; Audit:** Contractor's obligations and requirements will continue throughout the entire term of this Agreement. Contractor will maintain all records and documents related to all background screenings and the City reserves the right to audit Contractor's records.
- 35.5 **Variances and Exemptions:** Contract Workers who fall under the following areas may be considered exempt from this policy:
- Federal Homeland Defense Bureau.
 - Transportation Security Administration.
 - Federal Aviation Administration.
 - Department of Public Safety (DPS) Administration – presenting a current Level One Department of Public Safety fingerprint card.
 - Arizona or other State Bars.
 - Other background checks performed within the last three to five years may be approved if they fit all required criteria herein, at the City's discretion.
- 35.6 **Contractor's Default; Liquidated Damages; Reservation of Remedies for Material Breach:** If Contractor is required to access any City facilities without an escort, City badging is required. Contractor's default under this section will include, but is not limited to, the following:
- Contract Worker gains access to a City facility(s) without the proper badge or key;
 - Contract Worker uses a badge or key of another to gain access to a City facility;
 - Contract Worker commences services under this agreement without the proper badge, key or background screening;
 - Contract Worker or Contractor submits false information or negligently submits wrong information to the City to obtain a badge, key or applicable background screening; or
 - Contractor fails to collect and timely return Contract Worker's badge or key upon termination of Contract Worker's employment, reassignment of Contract Worker to another City facility or upon the expiration, cancellation or termination of this Agreement.
 - Contractor acknowledges and agrees that the access control, badge and key requirements in this section are necessary to preserve and protect the public

health, safety and welfare. Accordingly, Contractor agrees to properly cure any default under this section within three business days (excluding weekends and City holidays) from the date notice of default is sent by the City. The parties agree that Contractor's failure to properly cure any default under this section will constitute a breach of this section. In addition to any other remedy available to the City at law or in equity, the Contractor will be liable for and pay to the City the sum of \$1,000.00 for each breach by Contractor in this section. The parties further agree that the sum fixed above is reasonable and approximates the actual or anticipated loss to the City at the time and making of this agreement if Contractor breaches this section. Further, the parties expressly acknowledge and agree to the fixed sum set forth above because of the difficulty of proving the City's actual damages if Contractor breaches this section. The parties further agree that three breaches by Contractor in this section arising out of any default within a consecutive period of three months or three breaches by Contractor in this section arising out of the same default within a period of 12 consecutive months will constitute a material breach of this agreement by Contractor and the City expressly reserves all of its rights, remedies and interests under this agreement, at law and in equity including, but not limited to, termination of this agreement.

- 35.7 **Employee Identification and Access:** Contract Workers are forbidden access to designated restricted areas. Access to each building will be as directed by the authorized Phoenix authorized representative. Contract Workers are not authorized access other than during scheduled hours. Access to the building will be directed by the City's authorized representative.

Only authorized Contract Workers are allowed on the premises of the City facilities/buildings. Contract Workers are not to be accompanied in the work area by acquaintances, family members, assistants or any other person unless said person is an authorized Contract Worker.

Unless otherwise provided for in the scope of work:

- Contract Workers must **always** have city issued badges and some form of verifiable company identification (badge, uniform, employee id).
- Contractor will supply a list of the names and titles of all employees requiring access to the buildings. It is the Contractor's responsibility to provide updates and changes of personnel as necessary.

- 35.8 **Key Access Procedures:** If the Contractor Worker's services require keyed access to enter a City facility(ies), a separate key issue/return form must be completed and submitted by the Contractor for each key issued. Contractor must submit the completed key issue/return form to the appropriate badging office.

SECTION III – SPECIAL TERMS AND CONDITIONS

CITY OF PHOENIX

35.10 Return of Badge or Key: All badges and keys are the property of the City and must be returned to the City at the badging office within one business day (excluding weekends and City holidays) of when the Contract Worker’s access to a City facility is no longer required to furnish the services under this agreement. Contractor will collect a Contract Worker’s badge and key(s) upon the termination of the Contract Worker’s employment; when the Contractor Worker’s services are no longer required at a City facility(s); or upon termination, cancellation or expiration of this agreement.

- submitting pass/fail results to the City for approval; and,
- reviewing the results of the background check every three to five years, dependent on scope; and,
- to engage in whatever due diligence is necessary to make the decision on whether to disqualify a Contract Worker; and,
- Submitting the list of qualified Contract Workers to the contracting department; and,
- If, upon review of the background information, the City will advise the Contractor if it believes a Contract Worker should be disqualified. The Contractor will evaluate the Contract Worker and if the Contractor believes that there are extenuating circumstances that suggest that the person should not be disqualified, the Contractor will discuss those circumstances with the contracting department. The contracting department decision on disqualification of a Contract Worker is final.

SECTION III – SPECIAL TERMS AND CONDITIONS

CITY OF PHOENIX

- For sole proprietors, the Contractor must comply with the background check for himself and any business partners, or members or employees who will assist on the contract and for whom the requirements of the Agreement apply.
- By executing this agreement, Contractor certifies and warrants that Contractor has read the background screening requirements and criteria in this section, and that all background screening information furnished to the City is accurate and current.
- The City final documented decision will be an “approve” or “deny” for identified Contract Workers.
- The City will not keep records related to background checks once they are confirmed. Information to verify the results will be returned to the Contractor, or any contracted agency that assists with review, after the City’s completed review.
- By executing this agreement, Contractor further certifies and warrants that Contractor has satisfied all such background screening requirements for the maximum risk background screening, and verified legal worker status, as required.
- Contract Workers will not apply for the appropriate City of Phoenix identification and access badge or keys until Contractor has received the City’s written acceptance of Contract Worker’s maximum risk background screening. The City may, in its sole discretion, accept or reject any or all the Contract Workers proposed by Contractor for performing work under this Agreement. A Contract Worker rejected for work at a maximum risk level under this agreement will not be proposed to perform work under other city contracts or engagements without city’s prior written approval.

37. CJIS SECURITY ADDENDUM: This agreement incorporates by reference the requirements of the Criminal Justice Information Services (CJIS) Security Policy (current version 5.3, dated August 4, 2014), and as referenced in Title 28 CFR 20.33(a)(7), issued by the Federal Bureau of Investigation, Criminal Justice Information Services Division, as in force as of the date of this Agreement and as may, from time to time hereafter, be amended. Contractor warrants that it has the technological capability to handle Criminal Justice Information (CJI), as that term is defined by the FBI CJIS Security Policy, in the manner required by the CJIS Security Policy. Contractor expressly acknowledges that the CJIS Security Policy places restrictions and limitations on the access to, use of, and dissemination of CJI and hereby warrants that its system abides by those restrictions and limitations.

Private contractors are permitted access to criminal history record information systems pursuant to a specific agreement for the purpose of providing services for the administration of criminal justice pursuant to that agreement. Private contractors who perform the administration of criminal justice shall meet the same training and certification criteria required by governmental agencies performing a similar function, and shall be subject to the same extent of audit review as are local user agencies. In accordance with the CJIS Security Addendum, a minimum of a background check (fingerprint) will be administered and required through the Arizona state and federal criminal justice system for all contracted employees who may have access to CJIS information. Background checks (fingerprints) will be performed and received with required clearance prior to receipt of any CJIS information.

38. CONFIDENTIALITY AND DATA SECURITY: All data, regardless of form, including originals, images and reproductions, prepared by, obtained by, or transmitted to Contractor in connection with this Agreement is confidential, proprietary information owned by the City. Except as specifically provided in this Agreement, the Contractor shall not

SECTION III – SPECIAL TERMS AND CONDITIONS

CITY OF PHOENIX

disclose data generated in the performance of the service to any third person without the prior written consent of the City Manager or his/her designee.

Personal identifying information, financial account information, protected health information, or restricted City information, whether electronic format or hard copy, must be secured and protected at all times to avoid unauthorized access. At a minimum, Contractor must encrypt and/or password-protect electronic files. This includes data saved to laptop computers, computerized devices, handheld devices, networking devices, removable storage devices, or other electronic media, as well as data in transit, such as during email or file transfer.

When personal identifying information, financial account information, protected health information, or restricted City information, regardless of its format, is no longer necessary, the information must be redacted or destroyed through appropriate and secure methods that ensure the information cannot be viewed, accessed, or reconstructed. Contractor must properly dispose of such information by taking reasonable measures to protect against unauthorized access to or use of the information in connection with its disposal.

This includes implementing and monitoring compliance with policies and procedures that require the redaction, destruction, erasure, or other disposal of paper documents and electronic media containing personal identifying information, financial account information, protected health information, or restricted City information so that these types of information cannot practicably be read or reconstructed. Contractor will provide the City with its information security policies and procedures regarding the redaction, destruction, erasure, or other disposal of documents and information.

In the event that data collected or obtained by the Contractor in connection with this Agreement is suspected to have been compromised, Contractor shall notify the contracting City department immediately. Contractor agrees to reimburse the City for any costs incurred by the City to investigate and respond to potential breaches of this data, including, where applicable, the cost of notifying individuals who may be impacted by the breach, attorneys' fees, and for any monetary damages or penalties the City is assessed. In case of a breach or critical breach of the City's information, it will be the City, not the Contractor that will inform any and all individuals affected by any such breach. Only upon prior written consent of the City, or at the specific direction of the City, will the Contractor notify individuals affected by a breach or critical breach of the City's information.

Contractor agrees that the City may assess or test the security of any applications, web services, or computerized systems created or provided by the Contractor that process, store, or transmit City information. If the City finds vulnerabilities that are rated medium or more critical by the Common Vulnerability Scoring System (CVSS) in these applications, web services, or computerized systems, the Contractor agrees to remediate the vulnerability at no cost to the City and within an agreed-upon timeframe not to exceed 90 days. To clarify, the Contractor must remediate found vulnerabilities in computerized

systems they provide; Contractor is *not* liable for remediating any vulnerability found in the City's network or computing infrastructure used to support the applications, web services, or systems created or provided by the Contractor.

Contractor agrees to abide by all current applicable legal and industry data security and privacy requirements. These include, but are not limited to, Arizona Revised Statutes §44-7501 — Notification of breach of security system; Arizona Revised Statutes §44-7601 — Discarding and disposing of records containing personal identifying information; Health Insurance Portability and Accountability Act of 1996 (HIPAA) Privacy and Security Rules; Health Information Technology for Economic and Clinical Health (HITECH) Act, and Payment Card Industry Data Security Standards.

Contractor agrees to demonstrate that they have adequate controls and safeguards when they host or process personal identifying information, financial account information, protected health information, or restricted City information. This may be accomplished through a third-party audit utilizing a widely recognized auditing standard, such as Statement on Standards for Attestation Engagements (SSAE) No. 16, or through earning industry certification, such as ISO/IEC 27001.

By signing and entering this Agreement the Contractor specifically acknowledges that it is responsible for the security of cardholder data that Contractor possesses or otherwise stores, processes or transmits on behalf of the City. Additionally, as a requirement of this contract you must provide to the City a copy of your written Notice to customers that you are responsible for the security of cardholder data that you obtain and otherwise store, process or transmit.

Contractor agrees to comply with all City information security and technology policies, standards, and procedures when accessing City networks and computerized systems whether onsite or remotely.

Contractor agrees that the requirements of this Section shall be incorporated into all subcontractor agreements entered into by the Contractor. It is further agreed that a violation of this Section shall be deemed to cause irreparable harm that justifies injunctive relief in court. A violation of this Section may result in immediate termination of this Agreement without notice. The obligations of Contractor under this Section shall survive the termination of this Agreement.

39. SECURITY INQUIRIES: Contractor acknowledges that all of the employees that it provides pursuant to this Contract shall, at Contractor's expense, be subject to background and security checks and screening at the request of the City. Contractor shall perform all such security inquiries and shall make the results available to the City for all employees considered for performing work (including supervision and oversight) under this Contract. City may make further security inquiries. Whether or not further security inquiries are made by the City, City may, at its sole, absolute and unfettered discretion, accept or reject any or all of the employees proposed by the Contractor for performing work under this Contract. Employees rejected by the City for performing services under this Contract may

still be engaged by Contractor for other work not involving the City. An employee rejected for work under this Contract shall not be proposed to perform work under other City contracts or engagements without the City’s prior approval.

The City, in its sole discretion, reserves the right, but not the obligation to:

- require an employee/prospective employee of the Contractor to provide fingerprints and execute such other documentation as may be necessary to obtain criminal justice information pursuant to A.R.S. 41-1750 (G) (4);
- act on newly acquired information whether or not such information should have been previously discovered;
- unilaterally change its standards and criteria relative to the acceptability of Contractor’s employees and/or prospective employees; and
- object, at any time and for any reason, to an employee of Contractor performing work (including supervision and oversight) under this Agreement. Contractor will bear the costs of all inquiries requested by the City.

40. WARRANTIES: Contractor warrants the hardware, software, application(s), or other technology assets provided to the City pursuant to this contract (collectively, the “Technology Assets”), for a period of one year starting with the date of final acceptance (the “Warranty Period”), to be substantially free of any condition which would make the Technology Assets fail to perform in material accordance with the requirements set forth in this Agreement, including any statement-of-work or scope-of-work document (each such condition to be considered an “Error”). Contractor specifically warrants that all software Technology Assets shall be free of any condition which could make them fail to perform in material accordance with this agreement (each such condition to also be considered an “Error”) for a period of nine months after actual installation of the software. If the City reports to Contractor any errors in the system during the Warranty Period, then Contractor shall, at its expense, use reasonable commercial efforts to modify, replace, or otherwise remedy the faulty hardware, software, electrical component or other Technology Assets as quickly as reasonably practicable. Where possible, both parties shall attempt to resolve Errors through telephone instruction, issuance of updated documentation, corrective code, or hardware replacement or modification.

41. STANDARDS AND PRACTICES: Technology Assets shall conform to the generally accepted standards and practices of the trade or industry involved. All work shall be executed by personnel skilled in their respective lines of work.

42. QUALIFICATIONS: Contractor represents that it is fully experienced and properly qualified; is in compliance with all applicable license requirements; and, is equipped, organized, and financed to provide and/or perform the goods and/or services purchased by the City pursuant to this agreement

43. INTELLECTUAL PROPERTY RIGHTS: Consultant grants to City a nonexclusive, non-transferable (except to a wholly-owned subsidiary of the City), and royalty-free right and license to install, use, and maintain the software, application(s), or similar technology to be provided to the City pursuant to this agreement (collectively, the “Deliverables”) for the City’s internal or business purposes. The City shall further have the right to reproduce the Deliverables to the extent reasonably necessary for such purposes. The City shall not, without the Consultant’s prior written consent, transfer or sub-license its foregoing license rights (except to a wholly-owned subsidiary of the City) or reverse engineer, decompile, or otherwise attempt to derive source code from the Deliverables.

44. INTELLECTUAL PROPERTY WARRANTIES: Contractor warrants that:

- (a) The Technology Assets will be free of the rightful claim of any third party for or by way of infringement or misappropriation of patent, copyright, trade secret, trademark or other rights arising under the laws of the United States;
- (b) No act or omission of Contractor will result in a third party holding any other claim that interferes with the City’s enjoyment or use of the Technology Assets;
- (c) Contractor owns or possesses all right(s), title(s) and license(s) necessary to perform its obligations hereunder; and
- (d) As of the effective date and throughout the term of this Agreement, Contractor has not conveyed and will not convey any rights or licenses to any third party regarding the Technology Assets, except to the extent the Technology Assets consist of commercial-off-the-shelf or similar software product(s).

45. INDEMNIFICATION – PATENT, COPYRIGHT AND TRADEMARK: In addition to any other indemnification required by this Agreement, Contractor agrees to defend, at its own expense, and to indemnify and hold harmless the City and its officers, agents, and employees from and against all judgments, claims, damages, suits, liabilities, settlements, costs and demands, including reasonable attorneys’ fees, suffered or incurred by the City as a result of any claim that the Technology Assets infringe the patents, copyrights, or other intellectual property rights of third parties, provided that Contractor is notified in writing of such claim. The City will reasonably cooperate with Contractor, at Contractor’s expense, to facilitate the settlement or defense of such claim. Without limiting in any way the Contractor obligations set forth herein, if, as a result of any claim of infringement with respect to the Technology Assets, the City is enjoined from using the Technology Assets, or if Contractor reasonably believes that the Technology Assets are likely to become the subject of a claim of infringement, Contractor may, at Contractor’s option and expense, (1) procure the right for the City to continue to use the Technology Assets, or (2) replace or modify the Technology Assets so as to make them non-infringing and of equal or superior functionality and capability for the purpose(s) for which the Technology Assets were provided.

The Contractor’s obligation to indemnify, defend, and hold harmless the City pursuant to this subsection shall be reduced to the extent the applicable infringement is caused or alleged to be caused by the alteration or modification of the Technology Assets by the City

SECTION III – SPECIAL TERMS AND CONDITIONS

CITY OF PHOENIX

(including its employees and contractors other than the Contractor and its subcontractors) other than in connection with the ordinary or expected use of the Technology Assets.

SECTION IV – INSURANCE AND INDEMNIFICATION

Contractor (Indemnitor) must indemnify, defend, save and hold harmless the City of Phoenix and its officers, officials, agents, and employees (“Indemnitee”) from and against any and all claims, actions, liabilities, damages, losses, or expenses (including court costs, attorneys’ fees, and costs of claim processing, investigation and litigation) (“Claims”) caused, or alleged to be caused, in whole or in part, by the wrongful, negligent or willful acts, or errors or omissions of Contractor or any of its owners, officers, directors, agents, employees or subcontractors in connection with this Contract. The certificates for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf.

SECTION V – SCOPE

1. Introduction

The City of Phoenix Information Technology Services (ITS) desires to replace its existing end-of-life storage infrastructure housed in its two enterprise data centers. This Scope of Work (SOW) details the minimum requirements for a replacement storage solution to include professional services to install, configure, integrate, and migrate data, annual maintenance and support, and training.

2. Enterprise Storage Architecture

The city desires a two-tier storage architecture of all flash storage arrays with each tier having a presence in each of the city’s enterprise data centers. One data center is located in a City-owned facility in downtown Phoenix, while the second is located in leased data center space in the metropolitan Phoenix area. The data centers are connected over a redundant, geographically diverse private fiber network using Dense Wave Division Multiplexing (DWDM), which supports 10 Gbps Ethernet and 8 Gbps Fibre Channel. The northern fiber optic path is 17 miles and the southern path is 8 miles.

Storage Tier 1 will be used for applications that demand high-performance storage and for the storage of structured data, and to support most citywide and departmental applications and databases. Tier 1 storage shall support replication between data centers for business continuity. Storage Tier 2 will be a utility storage tier for unstructured data and will support other applications and services that do not require the higher performance of Tier 1 storage. Both storage tiers will have a presence in each data center.

Structured data consists of data having the following characteristics:

- Block level
- SAN connectivity over fiber
- Cluster Replication of data for failover between data centers

Unstructured data consists of data having the following characteristics:

- Files (i.e., file shares, print servers, video)
- Uses network attachment (i.e., CIF, NFS, SMB)
- Does not require clustering
- Backup/restore data

The city does not desire hard disk drive-based arrays or hybrid systems. Offerors are to quote all flash storage arrays for both tiers.

The new storage infrastructure will connect to a pair of Brocade DCX 8510-4 switches located in each data center, which provide 8 Gbps Fibre Channel

SECTION V – SCOPE OF WORK

CITY OF PHOENIX

connectivity between compute and storage layers and connect to the inter-data center DWDM network.

The compute layer consists of approximately 1,400 servers, both virtual and physical, hosted on Cisco UCS blade and standalone servers, Dell 710 and 720 series, HP Proliant DL380 Gen5, Gen6, and Gen8, DL360 G7 servers, IBM Power7, and legacy Oracle (Sun) servers. Virtualization on x-86 based platforms is accomplished using VMware. Operating systems consist of Microsoft Windows Server 2012, 2016, and 2019 and a small number of 2008 R2 as well as Red Hat Enterprise Linux (RHEL) versions 6, 7, and 8. The city has 400 Virtual Desktop Infrastructure (VDI) instances running VMware View 7.6.

The city’s backup/restore solution is Commvault version 11. The city utilizes an Oracle SL150 Tape Library to backup data onto LTO6 media after it has first been backed up to disk. Five weeks of backup data is retained on disk storage and one year (first full backup of every month) is retained offsite on tape.

The city expects installation of the new storage infrastructure to occur on site at the city's two data centers. The offeror will provide professional services to install, configure, and integrate the new storage infrastructure into the city’s data center network and migrate the city’s data to the new storage infrastructure. Migration of data from the existing storage infrastructure to the new infrastructure will be planned and scheduled by the city to occur during maintenance windows with the least impact to city business. This may include off-hours, weekends, and holidays to lessen the impact to the business. The city desires data migration to be completed within three (3) months of delivery and integration of the new storage arrays into the city’s data center network. No city data is to leave the city’s data centers or network during data migration to the new storage infrastructure. All personnel performing data migration must be US-based.

The following table lists the storage arrays and their capacities that are in-scope for replacement. Except for the Pure FA-M20, each storage array has a presence in each data center. The Pure FA-M20 is located at the city-owned data center.

Storage Array	Acquired	EOSL	Capacity (TB)
1 x Pure Storage FA-M20 Flash Array	2016	-	12
2 x Hitachi Virtual Storage Platform (VSP)	2010	6/20	186
2 x Hitachi Adaptable Modular Storage (AMS2500)	2009	9/18	446
2 x Hitachi Universal Storage (HUS150)	2015	6/21	615

Table 1. Existing storage arrays in-scope for replacement.

SECTION V – SCOPE OF WORK

CITY OF PHOENIX

3. Tier 1 – Structured Data

Table 2 details the aggregate storage utilization (in TB) for structured data in each data center. The column labeled “Block Storage in Use” represents the storage currently utilized to store structured data. Note that the city’s existing storage arrays do not support compression, deduplication, or encryption.

The city desires to maintain a maximum 75% storage utilization rate with 25% of unused capacity to absorb unforeseen projects or other storage needs without the need to make an emergency procurement. This capacity buffer allows headroom for storage to operate at or below a maximum of 75% utilization of total capacity. The column labeled “Total with Capacity Buffer” provides the total amount of block storage in use plus a 25% buffer.

Structured Data	Block Storage in Use (TB)	Total with Capacity Buffer (TB)
City-Owned Data Center	222.9	297.2
Leased Data Center	382.0	509.4

Table 2. Amount of Storage Utilized for Structured Data in each Data Center.

Table 3 provides a three-year forecast of structured data storage growth based on the city’s historic annual growth rate and the storage required to support projects identified at the time of this writing. The forecast uses the initial capacities shown in the “Total with Capacity Buffer” column of Table 2 as Year 0 with subsequent End-of-Year (EOY) increases provided for Years 1, 2, and 3. The final column labeled “3-Year Forecast” is the city’s expected storage requirement for structured data 3 years from the date of this SOW.

Data Center	Year 0 (TB)	EOY1 (TB)	EOY2 (TB)	EOY3 (TB)	3-Year Forecast (TB)
City-Owned	297.2	41.8	48.1	55.3	493.8
Leased	509.4	71.6	82.4	94.7	796.3

Table 3. 3-Year storage growth forecast for structured data at each data center.

Tier 1 storage shall provide replication between the two city data centers. The values listed in Table 3 include only the capacity required at each data center. All Tier 1 data shall be replicated between the data centers. Therefore, the storage capacity required at each data center is the sum of the 3-Year Forecast of each data center, 1,290.1 TB.

All hardware and software licensing necessary to enable and use synchronous replication between the data centers for Tier 1 data must be included.

Offeror(s) should consider realistic data compression and deduplication rates when calculating the amount of storage required to satisfy the city’s storage capacity needs. Offerors shall state the guaranteed usable capacity for each of their proposed storage arrays.

4. Tier 2 – Unstructured Data Capacity

Tables 4 and 5 detail the storage utilization (in TB) for unstructured data in each data center. The column labeled “Storage in Use” represents the storage currently utilized to store unstructured data by data type. Note that the city’s existing storage arrays do not support compression, deduplication, or encryption.

File sharing protocols in use include NFS version 3 or greater and SMB version 2 or greater.

Similar to the Tier 1 requirement, the city desires to maintain a maximum 75% storage utilization rate with 25% of unused capacity to absorb unforeseen projects or other storage needs without the need to make an emergency procurement. This capacity buffer allows headroom for storage to operate at or below a maximum 75% utilization of total capacity. The column labeled “Total with Capacity Buffer” provides the total amount of storage in use with a 25% capacity buffer added.

Unstructured Data City-Owned Data Center	Storage in Use (TB)	Total with Capacity Buffer (TB)
Commvault Backup Data	345.0	
NAS	13.0	
Video	200.0	
Total Unstructured Data	558.0	677.3

Table 4. Unstructured Data at the City-Owned Data Center.

Unstructured Data Leased Data Center	Storage in Use (TB)	Total with Capacity Buffer (TB)
Commvault Backup Data	175.0	
NAS	11.0	
Total Unstructured Data	186.0	248.0

SECTION V – SCOPE OF WORK

CITY OF PHOENIX

Table 6 provides a three-year forecast of unstructured data storage growth based on the city’s historic annual growth rate and the storage required to support projects identified at the time of this writing. The forecast uses the initial capacities shown in “Total with Capacity Buffer” column of Tables 4 and 5 as Year 0 with subsequent End-of-Year (EOY) increases provided for Years 1, 2, and 3. The final column labeled “3-Year Forecast” is the city’s expected storage requirement for unstructured data 3 years from today.

Data Center	Year 0 (TB)	EOY1 (TB)	EOY2 (TB)	EOY3 (TB)	3-Year Forecast (TB)
City-Owned	677.3	71.6	82.3	94.7	926.0
Leased	248.0	37.2	42.8	49.2	377.2

Table 6. 3-Year storage growth forecast for unstructured data at each data center.

Offeror(s) shall propose a Tier 2 storage solution with the capacity to meet the “3-Year Forecast” for each data center as shown in Table 6.

Data replication between data centers is not required for Tier 2 storage.

Offeror(s) should consider realistic data compression and deduplication rates when calculating the amount of storage required to satisfy the city’s storage capacity needs. Offerors shall state the guaranteed usable capacity for each of their proposed storage arrays.

5. Trade-In Credit for Existing Arrays

The city desires offeror(s) to include a trade-in credit for the city’s existing storage arrays, which are listed in Table 1, in the overall price quote.

6. Minimum Requirements

Offeror(s) must propose a storage infrastructure solution that complies with all the minimum requirements listed in Table 7.

Requirements apply to both Tier 1 and Tier 2 storage unless specified otherwise.

Offeror(s) must supply data sheets or URLs to data sheets that demonstrate their proposed solution meets the requirement. The city will utilize the information provided to evaluate proposed storage solutions against the minimum requirements listed in Table 7.
