

Addendum #2

**Revenue Contract Solicitation (RCS)
 AVN RCS 22-001**

**DEER VALLEY AIRPORT (DVT)
 FOOD AND BEVERAGE CONCESSION**

QUESTIONS AND ANSWERS	
The following questions were submitted by interested Respondents and are represented as they were received.	
Q1	Before we can proceed, please tell me the enplanement (coming and going) figures for the past several years.
Answer	Deer Valley Airport (DVT) is a general aviation airport and tracks aircraft take offs and landings, also called aircraft operations, rather than enplanements. DVT supported more than 450,000 aircraft operations in 2019 and more than 400,000 aircraft operations in 2020. Aircraft operation totals for previous years are available at https://deervalleyairport.com/About/FactsAndStatistics .
Q2	Does the city have interest in Concessionarie’s implementing the ability for the concession stand to receive online/mobile orders? As an example; providing the restaurant/concession with a mobile app. That enables diners/travellers to order food directly from the concession stand while waiting to deplane?
Answer	The City encourages Respondents to propose using the latest technology to increase their ability to serve customers quickly and efficiently. See Section II (C) (10).

In the event of any conflicts with the earlier answers or addenda, the final written answers and final addendum shall control.
