- 16.3 A response to a solicitation is an offer to contract with the City based upon the terms, conditions, and specifications contained in the City's solicitation. Offers do not become contracts until they are executed by the Deputy Finance Director or Department Director. A contract has its inception in the award, eliminating a formal signing of a separate contract. For that reason, all of the terms, conditions and specifications of the procurement contract are contained in the solicitation, and in any addendum or contract amendment.

17. CITY'S RIGHT TO DISQUALIFY FOR CONFLICT OF INTEREST:

The City reserves the right to disqualify any Offeror based on any real or apparent conflict of interest that is disclosed by the offer submitted or any other data available

- 18.4.** With respect to the selection of the successful Offerors, the City Manager and/or City Manager's Office will continue the past practice of exerting no undue influence on the process. In all solicitations of bids and proposals, any direction on the selection from the City Manager and/or City Manager's Office and Department Head (or representative) to the proposal review panel or selecting authority must be provided in writing to all prospective Offerors.
- 18.5.** This policy is intended to create a level playing field for all Offerors, assure that contracts are awarded in public, and protect the integrity of the selection process. **OFFERORS THAT VIOLATE THIS POLICY SHALL BE DISQUALIFIED.** After official Notice is received by the City for disqualification, the Offeror may follow the Protest process, unless the Solicitation is cancelled without notice of intent to re-issue.

Offerors that violate this policy will be disqualified until the resulting contract(s) are awarded, or all offers or responses are rejected and the solicitation is cancelled without any announcement by the Procurement Officer of the City’s intent to reissue the same or a similar solicitation. The City interprets the policy as continuing through a cancellation of a solicitation until Council award of the contract, as long as the City cancels with a statement that the City will rebid the solicitation.

19. PROTEST PROCESS:

19.1. Offeror may protest the contents of a solicitation no later than seven days before the solicitation deadline when the protest is based on an apparent alleged mistake, impropriety or defect in the solicitation. Protests filed regarding the solicitation may be addressed by an amendment to the solicitation or denied by the City. If denied, the opening and award will proceed unless the City determines that it is in the City’s best interests to set new deadlines, amend the solicitation, cancel or re-bid.

19.2. Therefore, unless otherwise notified by a formal amendment, the Protester must adhere to all solicitation dates and deadlines, including timely filing of an offer, regardless of filing a protest.

19.3. Offeror may protest an adverse determination issued by the City regarding responsibility and responsiveness, within seven days of the date the Offeror was notified of the adverse determination.

All protests and appeals must be submitted in accordance with the City's Procurement Code, (Phoenix City Code, Ch. 43) and any protests or appeals not submitted within the time requirements will not be considered. Protests must be filed with the Procurement Officer.

20. PUBLIC RECORD:

All Offers submitted in response to this solicitation will become the property of the City and become a matter of public record available for review pursuant to Arizona State law. It is important that the Offeror be a responsible Offeror. Responsibility includes the Offeror's integrity, skill, capacity, experience, and facilities for conducting the work to be performed.

SECTION V – SCOPE OF WORK

CITY OF PHOENIX
200 W. Washington St.
9th floor
Phoenix, AZ 85003

1. PURPOSE:

The City of Phoenix (“City”) Water Services Department (“WSD”) requires services from a Contractor experienced in providing Spoils Hauling Services. This service is needed to keep the City’s distribution yards free of construction spoils.

2. BACKGROUND:

The City’s Water Distribution Division (“Water Distribution”) is responsible for 6,847 miles of water distribution main within a 540 square mile service area that includes the repair, maintenance and installation of the water distribution infrastructure. Water Distribution is very reactive and responds to many emergencies to restore water to the customer, whether it be a main break, broken valve or even a service line leak. Each task involves excavating to the main and removing large quantities of mud and dirt in order to locate the main and identify the appropriate repair.

The construction spoils (“spoils”) are excavated by staff when repairing water mains and are then transported back to the distribution yards to dry as they are often saturated upon excavation. Spoils have to be dry before they are accepted for disposal at the City’s approved disposal site.

3. ESTIMATED QUANTITIES:

The City does not guarantee a daily minimum or maximum production of spoils, nor does it guarantee that removal will be required each day. The anticipated quantities of spoils are estimates only. Actual quantities will depend on operational procedures such as service levels and peak periods of leaks and repairs. The Contractor will be responsible for removing the actual quantity produced, as required, at individual locations. Spoils cannot be retained by Contractor and shall be disposed of in accordance with the scope of work. The City will verify and balance landfill tickets for each haul.

4. SPOILS CHARACTERISTICS AND WEIGHT:

The spoils consist of a mixture of soil, aggregate base course (ABC), concrete and asphalt. One (1) cubic yard of spoils is assumed to weigh approximately 1.5 tons but the weight may vary.

5. CONTRACTOR WORK REQUIREMENTS:

5.1 Provide all labor, materials, equipment, supplies, supervision, transportation, mileage and all other overhead burdens associated with the cost to remove and dispose of spoils on a weekly basis. Only the Pecos Yard location will require removal and disposal of spoils on
