16.6 Offeror history of complaints, and termination for convenience or cause, litigation or lawsuits.

16.7 Notwithstanding any other provision of this solicitation, the City reserves the right to: (1) waive any immaterial defect or informality; or (2) reject any or all offers or portions thereof; or (3) reissue a solicitation.

16.8 A response to a solicitation is an offer to contract with the City based upon the terms, conditions, and specifications contained in the City's solicitation. Offers do not become contracts until they are executed by the Deputy Finance Director or Department Director. A contract has its inception in the award, eliminating a formal signing of a separate contract. For that reason, all of the terms, conditions and specifications of the procurement contract are contained in the solicitation, and in any addendum or contract amendment.

17. CITY'S RIGHT TO DISQUALIFY FOR CONFLICT OF INTEREST: The City reserves the right to disqualify any Offeror based on any real or apparent conflict of interest that is disclosed by the offer submitted or any other data available to the City. This disqualification is at the sole discretion of the City. Any Offeror submitting an offer herein waives any right to object now or at any future time, before any agency or body, including but not limited to, the City Council of the City of Phoenix or any court.

18. SOLICITATION TRANSPARENCY POLICY:

18.1. Commencing on the date and time a solicitation is published, potential or actual offerors or respondents (including their representatives) shall only discuss matters associated with the solicitation with the Mayor, any members of City Council, the City Manager, any Deputy City Manager, or any department director directly associated with the solicitation (including in each case their assigned staff, except for the designated procurement officer) at a public meeting, posted under Arizona Statutes, until the resulting contract(s) are awarded to all offers or responses are rejected and the solicitation is cancelled without any announcement by the Procurement Officer of the City's intent to reissue the same or similar solicitation

18.2. As long as the solicitation is not discussed, Offerors may continue to conduct business with the City and discuss business that is unrelated to the solicitation with the City staff.

18.3. Offerors may discuss their proposal or the solicitation with the Mayor or one or more members of the Phoenix City Council, provided such meetings are scheduled through the Procurement Officer, and are posted

SECTION I - INSTRUCTIONS

CITY OF PHOENIX
Water Services Department

as open meetings with the City Clerk at least 24 hours prior to the scheduled meetings. The City Clerk will be responsible for posting the meetings. The posted notice shall identify the participants and the subject matter, as well as invite the public to participate.

18.4. With respect to the selection of the successful Offerors, the City Manager and/or City Manager's Office will continue the past practice of exerting no undue influence on the process. In all solicitations of bids and proposals, any direction on the selection from the City Manager and/or City Manager's Office and Department Head (or representative) to the proposal review panel or selecting authority must be provided in writing to all prospective Offerors.

18.5. This policy is intended to create a level playing field for all Offerors, assure that contracts are awarded in public, and protect the integrity of the selection process. **OFFERORS THAT VIOLATE THIS POLICY SHALL BE DISQUALIFIED.** After official Notice is received by the City for disqualification, the Offeror may follow the Protest process, unless the Solicitation is cancelled without notice of intent to re-issue.

18.6. "To discuss" means any contact by the Offeror, regardless of whether the City responds to the contact. Offerors that violate this policy will be disqualified until the resulting contract(s) are awarded, or all offers or responses are rejected and the solicitation is cancelled without any announcement by the Procurement Officer of the City's intent to reissue the same or a similar solicitation. The City interprets the policy as continuing through a cancellation of a solicitation until Council award of the contract, as long as the City cancels with a statement that the City will rebid the solicitation.

19. PROTEST PROCESS:

19.1. Offeror may protest the contents of a solicitation no later than seven days before the solicitation deadline when the protest is based on an apparent alleged mistake, impropriety or defect in the solicitation. Protests filed regarding the solicitation may be addressed by an amendment to the solicitation or denied by the City. If denied, the opening and award will proceed unless the City determines that it is in the City's best interests to set new deadlines, amend the solicitation, cancel or re-bid.

SECTION I - INSTRUCTIONS

CITY OF PHOENIX
Water Services Department
200 W. Washington St., 9th floor
Phoenix, AZ 85003

- 19.2.** Therefore, unless otherwise notified by a formal amendment, the Protester must adhere to all solicitation dates and deadlines, including timely filing of an offer, regardless of filing a protest.

- 19.4.** Offeror may protest an award recommendation if the Offeror can establish that it had a substantial chance of being awarded the contract and will be harmed by the recommended award. Offeror must submit award protests within seven days after the posting of the award recommendation, with exceptions only for good cause shown, within the City's full and final discretion.

 - 19.5.5. The signature of the protester or its authorized representative.
- 19.6.** The Procurement Officer will render a written decision within a reasonable period after the protest is filed. The City will not request City Council authorization to award the contract until the protest process is complete. All protests and appeals must be submitted in accordance with the City's Procurement Code, (Phoenix City Code, Ch. 43) and any protests or appeals not submitted within the time requirements will not be considered. Protests must be filed with the Procurement Officer.
- 20. PUBLIC RECORD:** All Offers submitted in response to this solicitation will become the property of the City and become a matter of public record available for review pursuant to Arizona State law. If an Offeror believes that a specific section of its Offer response is confidential, the Offeror will isolate the pages marked confidential in a specific and clearly labeled section of its Offer response. An Offeror may request specific information contained within its Offer is treated by the

Once the procurement file becomes available for public inspection, the Procurement Officer will not make any information identified by the Offerors as “confidential” available to the public unless necessary to support the evaluation process or if specifically requested in accordance with applicable public records law. When a public records request for such information is received, the Procurement Officer will notify the Offeror in writing of any request to view any portion of its Offer marked “confidential.” The Offeror will have the time set forth in the notice to obtain a court order enjoining such disclosure. If the Offeror does not provide the Procurement Officer with a court order enjoining release of the information during the designated time, the Procurement Officer will make the information requested available for inspection.

21. **LATE OFFERS:** Late Offers Late Offers must be rejected, except for good cause. If a late Offer is submitted, the Department will document the date and time of the submittal of the late Offer, keep the Offer and notify the Offeror that its Offer was disqualified for being late.
22. **RIGHT TO DISQUALIFY:** The City reserves the right to disqualify any Offeror who fails to provide information or data requested or who provides materially inaccurate or misleading information or data. The City further reserves the right to disqualify any Offeror on the basis of any real or apparent conflict of interest that is disclosed by the Offeror submitted or any other data or information available to the City. This disqualification is at the sole discretion of the City. By submission of a solicitation response, the Offeror waives any right to object now or at any future time, before any agency or body including, but not limited to, the City Council of the City or any court as to the exercise by the City of such right to disqualify or as to any disqualification by reason of real or apparent conflict of interest determined by the City. The City reserves the right to replace the disqualified Offeror.
23. **SITE INSPECTION:** Offeror agrees that submission of an offer indicates that the Offeror either 1. made a site inspection and is aware of all conditions that may affect performance and offer prices; or 2. Did not make a site inspection, but regardless is either aware of all conditions that may affect performance and offer prices, or accepts the risk and understands the scope of its binding Offer.

SECTION V – SCOPE OF WORK

CITY OF PHOENIX
Water Services Department
200 W. Washington St., 9th floor
Phoenix, AZ 85003

SECTION V – SCOPE OF WORK

1. PURPOSE

The Safe Drinking Water Act (SDWA) and Arizona and National Pollutant Discharge Elimination System (AZPDES & NPDES) permits require the City of Phoenix to perform a multitude of analytical tests to ensure compliance with Federal, State, and Local regulations. The complexity of testing, analytical and equipment requirements, and sampling requirements are continually increasing.

The Environmental Services Division, Laboratory Services Section, Water Production Process Control Group has four laboratories that provide on-site, daily laboratory support for process control for four large drinking water treatment plants that provide water to 1.7 million people in the City of Phoenix. One of the instruments used to provide process control analytical results is a Total Organic Carbon (TOC) analyzer, which measures the natural organic material (NOM) that exists in surface water and reacts with chlorine to form disinfection byproducts (DBPs), which are tightly regulated. Each conventional water treatment plant must remove a certain percentage of TOC to remain in compliance with the Stage 1 Disinfection Byproducts Rule (DBPR). TOC analyzers at each plant analyze daily process control samples from throughout the drinking water treatment process to ensure that TOC removal is occurring within regulations, which then minimizes the formation of DBPs. Analyzing TOC samples from throughout the treatment process gives critical information about the effectiveness of chemical dosages and physical processes occurring during water treatment. Daily TOC analysis can also be used to monitor changes to the treatment process, keeping treatment under control, particularly during high turbidity events or other challenging raw water conditions.

2. SCOPE OF WORK

- 2.1 Contractor will provide a current model Total Organic Carbon Analyzer (TOC) and Autosampler with computer software for data acquisition and analysis, which will be used for analysis of raw source water, water at any intermediate treatment stage and finished drinking water.
- 2.2 Contractor will provide a complete offering of their available products, parts, software, upgrades, service, and repairs required for routine general acquisitions and for installation of stated equipment. List of available products to include consumables, services and maintenance as stated in this solicitation.
- 2.3 Contractor will provide all equipment and parts in new and unused condition except for manufacturing quality control purposes.
- 2.4 Contractor will provide repair or replacement parts from using Original Equipment Manufacturer (OEM) parts. If for any reason, repair or replacement parts other than OEM parts must be used, all parts or equipment furnished must be equal to or

exceed that of the original equipment in material and warranty, installed by Contractor or Contractor's certified technicians.

- 2.6.4 Contractor will provide a TOC Analyzer that must be designed and configured for analysis of drinking water, wastewater, ground water and surface water. The vendor shall demonstrate, as part of the bid process, that the system meets or exceeds all specifications of Standard Methods 5310A/C, including detection limits.
- 2.6.5 Contractor will provide a TOC Analyzer with a sample injection system and equipped with an isolation loop to protect the syringe from particulate damage and to prevent carryover. The sample injection system must have a purge port valve to provide high precision sample injection. The instrument must have sample injection volumes that range from 10 uL to 10 mL.
- 2.6.6 Contractor will provide a TOC Analyzer that will utilize heated 100°C sodium persulfate wet oxidation technology. Heating must be user-selectable from ambient to 100°C in 1°C increments.
- 2.6.7 Contractor will provide a TOC analyzer that is capable of parallel sample processing with two separate reaction vessels allowing concurrent sample processing of two samples, increasing sample throughput and providing built-in redundancy to safeguard laboratory operation and data integrity.
