Track Out Services

This addendum incorporates the following changes into the subject solicitation:

- I. This addendum answers the following questions, which the City of Phoenix (“City”) received before and after the subject solicitation’s pre-bid conference.

1. Question: I was wondering if I could have a copy of the current awarded contract for Trackout Services?

Answer: The City does not have a current contract for Trackout Services.

2. Question: The IFB notates security clearance for employees that are to be servicing the contract. It seems logical that if work is performed within the confines of a water facility, that the security clearance would be necessary, however if work is performed along the streets within the City of Phoenix, going through a badging process to sweep up some dirt on the public right-of way would be unnecessary.

Please clarify if all employees that will be involved with a cleanup would require badging or if the badging requirement will be limited to only when services are performed within the water department facilities.

Answer: Since the work will be performed on public streets, badging is not required.

3. Question: There is mention of a vacuum truck, while most likely it refers to a Hydro-Vac truck, is there potential to use a regenerative air vacuum sweeper with a hose in some instances for performing services when the application fits that type of equipment rather than using a hydro-vac?

Answer: Yes. Refer to the IFB, Section V – Scope of Work, paragraph 6.

THE REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK.
